Enough is enough

Investor John Bogle, founder of Vanguard, once told a profound story about the value of money:

“At a party given by a billionaire on Shelter Island, Kurt Vonnegut informs his pal, Joseph Heller, that their host, a hedge fund manager, had made more money in a single day than Heller had earned from his wildly popular novel *Catch-22* over its whole history. Heller responds, ‘Yes, but I have something he will never have—enough.’”

Legend of the touchstone

When the library of Alexandria burned centuries ago, only one insignificant book was saved. A poor man who could read a little bought it for a few coppers. The book wasn't very interesting, but between its pages he found something very interesting indeed—a thin strip of parchment on which was written the secret of the touchstone.

The touchstone, according to the document, was a small pebble that could turn any common metal into pure gold. The writing explained that it was lying among thousands and thousands of other pebbles on a beach. The real stone would feel warm to the touch, while ordinary pebbles are cold.

The man sold his few belongings, went to the seashore described on the parchment, and began testing pebbles. Figuring that if he picked up ordinary pebbles and threw them down again because they were cold, he might pick up the same pebble hundreds of times. So, when he felt one that was cold, he threw it into the sea.

He spent days at his search, picking up a pebble—cold—then throwing it into the sea. Picking up another and throwing it into the sea.

One day, after weeks and months, the man picked up a pebble and threw it into the sea. Then he realized that the pebble had been warm—the touchstone! But he had formed such a strong habit of throwing each pebble into the sea that when the one he wanted came along he still threw it away.

Don't let your habits trick you into throwing away your opportunities.

Storytelling is among the oldest forms of communication. Storytelling is the commonality of all human beings, in all places, in all times.

—Rives Collins

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Last will

Robert went to a lawyer and said, "I'd like to make a will, but I don't know exactly how to go about it."

The lawyer smiled at Robert and replied, "Not a problem, just leave everything to me."

Robert looked upset. "I knew you were going to take a big portion, but I would like to leave a little to my family, too!"

Happy landing

An airline had a policy that required the pilot to stand at the door while the passengers exited, smile, and say, "Thanks for flying with our airline!" The landing on one particular flight was particularly rough, and the pilot had difficulty looking the passengers in the eye, expecting that one or two would have a smart comment for him. However, it seemed that all the passengers were too shaken to say anything.

Finally, everyone had gotten off except for one little old lady walking with a cane. At the door she said, "Sonny, mind if I ask you a question?"

"Why, no, ma'am," said the pilot. "What is it?"

The woman said, "Did we land or were we shot down?"

HEALTH WATCH

How to talk to a sick friend

Whether your friend is suffering from the coronavirus, cancer, or just a bad cold, you want to be there for him or her. But what should you say to offer real comfort? The Healthline website offers this advice for sharing just the right words:

- **Talk to the person, not the disease.** Your friend or loved one is already dealing with sickness day in and day out. They may need a break. It's OK to ask how they're feeling and what they're doing to take care of themselves, but don't dwell on the illness exclusively. Talk about other subjects.
- **Be sensitive.** Don't pry or press for details. If you're a caretaker, pay attention to the person's moods and preferences. You may have to press for information that the person is reluctant to share for fear of taking up your time, or other reasons, but be respectful of their boundaries.
- **Be patient.** Your friend may not have time to talk right away, or may need a few minutes—or hours—to sort through his or her feelings before answering a question or responding to a text. Don't expect an instant response. Give them space to process their emotions on their own terms.

This space object is really far out

The most distant object in our solar system is far out—literally. The Science Daily website reports that an object about 450 miles across has been dubbed Farfarout by the International Astronomical Union.

Astronomers first noticed Farfarout in 2018, but couldn't determine its distance from the sun. Observations over several years showed that it currently is 132 astronomical units (AU) from the sun. (The Earth is one AU from the sun.) For comparison, Pluto's orbit is only 29 AU from the sun on average. Farfarout's thousand-year orbit around the sun takes it as far as 175 AU away at its most distant, and 27 AU when it's closest, drifting inside the orbit of Neptune.

Farfarout replaces the previous long-distance record holder, aptly named Farout, which is 124 AU from the sun.

It's up to you today to start making healthy choices. Not choices that are just healthy for your body, but healthy for your mind.

—Steve Maraboli

WARNING

FATIGUE AND RESTRICTED BLOOD FLOW

PROCEED WITH CAUTION

Chest pressure, a squeezing sensation or chest pain. These feelings may be angina, a symptom of heart disease.

Angina is your heart's warning system. It happens when part of the heart doesn't get enough blood and oxygen. It's also a symptom of coronary artery disease, a type of heart disease. It may feel like a pinching sensation in the chest, and could be accompanied by sluggishness and chest tightness. If you experience any of these symptoms, the experts at BayCare's Morton Plant Hospital can get to the cause and treat it with a procedure that's right for you. We use state-of-the-art technology to treat rhythm disorders and offer minimally invasive procedures for structural heart and valve conditions. Morton Plant Hospital provides care for heart failure through our Heart Function Clinic and BayCare's ventricular assist device program, has an accomplished open-heart surgery program and you can recover from heart issues with our cardiac rehab services. Our team is here when you need us. And we have enhanced safety measures to help keep you protected. Don't ignore your heart's warning system. MONTHLY

Financial Literacy Month. It's a chance to reflect on the state of your personal finances and an opportunity to improve them one step at a time. Step one: Commit to change. Are you ready to accept responsibility for changing your financial situation? Do you believe that you can and will change the way you make financial decisions? Can you identify at least one benefit you hope to gain by changing your money management behavior?

Jazz Appreciation Month. A music festival held every April in recognition of the significant contribution that jazz music has made to society. The aim of this annual event is to pay tribute to jazz for its historic and cultural significance by encouraging schools, governments, and organizations to participate in free jazz concerts and educational programs.

National Garden Month. Nothing says springtime more than the sprouts and shoots of a garden. Remember that gardens are not just for the enjoyment of people. They are important habitats for pollinators like bees, bats, birds, beetles, butterflies, and other animals.

WEEKLY

National Robotics Week, April 3–11. “RoboWeek” is a series of grassroots events and activities aimed at increasing public awareness of the strength and importance of the U.S. robotics industry and the tremendous social and cultural impact that robotics will have on the future.

National Dental Hygienists Week, April 4–10. Focusing on the importance of maintaining good oral health practices and helping people understand the role and importance of the dental hygiene profession, this year’s theme, "Oral Health for Total Health" reminds all of us that taking care of our mouth, teeth, and gums has a positive impact on other aspects of our lives.

National Park Week, April 17–25. National Park Week is a special time to celebrate national parks and programs across the country, and to encourage everyone to discover the nation's diverse natural and cultural heritage.

Medical Laboratory Professionals Week, April 19–24. Now in its 44th year, Medical Laboratory Professionals Week provides the profession with a unique opportunity to increase public understanding of and appreciation for clinical laboratory personnel.

THOUSANDS manufactured home residents have won over **\$156,200** since our contest began.
