FROM THE EDITOR'S DESK

Debbie Girard

Girard1725@icloud.com

Hi All:

Hope all is well at Riviera. Recently Canada opened the border for double vaccinated Americans to travel here. Canadians are watching and waiting for the US border to open to Snowbirds.

Although we can't drive across the border we can fly. John and I recently flew to New York and Pittsburgh to visit our kids. First we had to be double vaccinated and then, in all we took 4 Covid tests to complete our journey. Our noses are the cleanest they have ever been!! It was all worth it to get those special hugs.

Have a great summer.

Hope everyone is doing well.

Take care of each other and stay safe.

Best regards,

Debbie

Climate Change Warning

Debbie Girard

This summer's news has been all about either Covid or the forest fires. We had a couple of days where the smoke from the fires in northern Ontario blanketed our lake like fog. It was very eerie.

Then the findings from the Intergovernmental Panel on Climate Change Report came out with dire warnings.

Headlines related to recent extreme weather appear to come out of a science fiction book: Even the richest countries in the world can't control widespread fires — they're even burning in the Arctic. Deadly flooding in Germany and Belgium in July 2021 completely washed away buildings and cars, and more than 1,000 people remain missing. Hundreds died in flooding in China. The U.S. Pacific Northwest, known for its cool climate, hit over 100 degrees F for several days. And the Arctic lost an area of sea ice equivalent to the size of [Florida between June and mid-July 2021](#).

It is now unequivocal that human-caused emissions, such as burning fossil fuels and cutting down trees, are responsible for recent warming

The report finds that to get on track for the emission cuts required by 2030, the world needs to:

- Phase out coal in electricity generation five times faster;
- Accelerate the uptake of electric vehicles 22 times faster than the significant rates of adoption in recent years
- Accelerate the increase in annual tree cover gain five times faster.
- Reduce the carbon intensity of electricity generation three times faster;

...continued on page 10

- Accelerate the increased share of renewables in electricity generation five times faster;
- Accelerate the increase in the share of low-carbon fuels by eight times faster

How Florida is affected:

- If the oceans and atmosphere continue to warm, sea level along Florida coast is likely to rise one to four feet in the next century.
- Cities, roads, railways, ports and water supplies in Florida are vulnerable to the impacts of storms and sea level rise
- Florida’s coral reefs are susceptible to warming waters and ocean acidification. Rising water temperatures can harm the algae that weakens corals and kills them. This process is commonly known as coral bleaching, because the loss of algae also causes corals to turn white and die.

I am afraid for the future generations in the world we leave them. We need to heed the warnings of this report and speak up to our government officials whenever we can!

SALES - The last 3 homes we listed were under contract within a week. It might be a good time to sell a home. I do have a list of people who have contacted our office looking for a home. See our listings at; <https://www.mystatemls.com/profiles/us/134453/>

Skirting - Many have repaired this already. Thank You! All skirting must be white split brick. Wrapping outside of brick skirting with chicken-wire or similar material is not allowed. This will be written up like any other community violations. I am noticing pest control workers working hard to sell this to you. They must put it behind the white brick, if you choose to have this done.

Painting your home? - Colors for home and driveways must be approved at the park office. We do want current colors that are fitting for a nice manufactured home community.

I am here Monday – Friday, 9am – 4pm. Let me know how I can help.

A Road Trip

By John Girard

Debbie and I have driven the 2,325km (1,445 miles) from our home in Ontario Canada to Riviera Estates for several years now. Last winter COVID prevented us from making the trip, but we're hopeful that we can return soon. It has always been a pleasant, incident free 3 day drive for us to get to Riviera (some people do the trip in two days...that's just plain nuts!) and although the destination is great, I still enjoy the journey as well. I've always loved a good road trip, but when I think of road trips, there's one that stands out in my memory...

In 2001 I took a six month sabbatical from work, and drove to the west coast of Canada to retrace the route of the 1896 Klondike Gold Rush. When I was planning this trip, I thought that the 53km hike over the Chilkoot Pass of the coastal mountains, and the 900km solo canoe journey from the end of the Chilkoot Trail to Dawson City Yukon, would provide all of the challenges that I would get on this trip. I had allotted 9 days to drive from my home in Pickering Ontario to Prince Rupert British Columbia, where I would catch a ferry that would take me to Skagway Alaska, and that's where my adventure would begin. I was only 565km into the first day of the 4,795km drive from home to my driving destination of Prince Rupert, when some bonus challenges began to spice up my vacation.

Day 1: I was happily driving along at 70 miles an hour around a long curve in the highway at Blind River Ontario, when I saw something that you don't see every day. My left front wheel came off my car and rolled into the forest alongside the highway. Tow and repair cost \$366.00, a change of underwear, and a day later I was on my way again.

Wheel off at Blind River

Day 3: The drive along the north shore of Lake Superior is very scenic, and I would have enjoyed it a lot more, but my vehicle has now developed a pronounced sway in the back end that makes driving nerve wracking. The Thunder Bay Ontario auto repair shop that I zig zagged to from Blind River determined that the bushings in my rear stabilizers were severely worn. The following day, the \$345.00 repair was made, and I was on the road again, leaving the Province of Ontario and making it all the way to Portage La Prairie in the province of Manitoba.

Day 5: Upon exiting my motel room this morning, the sight of a pool of engine coolant forming under my vehicle had me experiencing stress levels not usually associated with being on vacation. The only car repair garage in this small town had to order a new pump from the City of Winnipeg, which was then delivered to the garage via a Greyhound Bus.

To get at the old pump out of the engine, half the engine had to be taken apart, but \$557.00 later, I was on the road again. I managed to drive to Regina in the Province of Saskatchewan with no problems.

Malibu rental with canoe on top in Banff

Day 6: Driving into the Province of Alberta I felt encouraged that things could only get better from here on. When the car engine stopped running and I coasted to a stop at the side of the highway...well, let's just say that it wasn't pretty. The 277km tow to the City of Calgary must have cost me a fortune, but my brain's instinct for self-preservation won't allow me to remember how much it cost. The following day an auto repair shop in Calgary said that replacing the timing belt could cost between \$1,500.00 and \$6,000.00 depending on the damage done, and it would

...continued on page 18

take several days to do the repair. I had to be at Prince Rupert British Columbia in 2 days or I miss the ferry to Skagway and would have to abandon what for me was the trip of a lifetime. That was more of a concern for me than the question of how I would get home if the damage to my car was beyond repair. I told them that if it turned out the repair was at the low end of that range, then do the repair while I'm away and I'll pick up the car on my way home after I finish my trip. It was now late in the day, Saturday's business hours were winding down and I had to find a car that I could rent for a month or two. Upon signing my life away at a car rental company, I drove my new little Malibu car westward to Banff Alberta.

Days 8 and 9 passed without incident, and I got to the coastal town of Prince Rupert in time to catch the ferry north, and complete the trip that I spent years saving and planning for.

Climbing up the Chilkoot Pass...yes, it was worth it.

When I eventually got back to Calgary to return the car rental and find out the status of my vehicle, I was happy to find that the repair was complete and I could carry on homeward. The total drive, from Dawson City to home, is approx. 5,856km, which if you applied that distance to a road trip from Clearwater Florida southward, you would drive just south of the Costa Rica / Panama border. Now that would be a great road trip...in a new vehicle.

As you all know by now the existing H.O.A. will be resigning their appointed positions this year which will leave the park without a Home Owners Association.

Thanks to the efforts of Bill Walker who took over the position of F.M.O. representative from Alan Hennigar recently, he has arranged a general meeting and invited Bob Anderson our regional F.M.O. representative to come and speak to all of you regarding the importance of being represented by a Home Owners Association and the repercussions should the H.O.A. fold.

As your current H.O.A. president I can't impress upon you more strongly, the importance of attending this meeting. Please respond to this e-mail directly to Bill lot #10 bwalkerdesign@yahoo.com and let him know that you are behind his efforts to keep the H.O.A. going, so that you are formally represented as a group in all matters that effect your lives and homes in Riviera Estates.

Take care down there or wherever you are,
Dave Shiner

Chakras

by Claudette

Orange Chakras

The 2nd chakra is the SACRAL CHAKRA and means "sweetness" and is associated with what makes life sweet--pleasure, sexuality, nurture, movement and change.

Stones associated with the Sacral Chakra are Citrine, Carnelian, Rutilated Quartz, moonstone and Golden Topaz.

Water is the sacral element, it's fluidity corresponding with the bladder, circulatory system, sexuality and reproductive organs. The Sacral Chakra resonates to the color orange and positioned near the female reproductive organs, is associated also with emotions. The moon also relates to creativity, the energy that shifts humankind from survival (Red Root Chakra) to nourishing the soul: from survival we travel upward to the "pleasure principle".

See which of the following characteristics of excessive ("too open"), deficient ("blocked") and balanced chakra energy you can relate to – and then determine, should you choose, to take action using the tools and techniques given here.

Too open (chakra spins too fast) emotionally unbalanced, a fantasist, manipulative, sexually addictive person.

Blocked (Chakra spins sluggishly or not at all) over sensitive, hard on self, feels guilty for no reason, frigid or impotent.

Balanced (Chakra maintains equilibrium and spins at correct vibrational speed) Trusting, expressive, attuned to own self feelings, creative.

Exercise: Lay on your back w/arms at 45 degree angles to your body. Bend your knees and pull your feet up toward your groin as far as feels comfortable. Allow your knees to fall out to the sides stretching the insides of your thighs. Don't worry if your knees don't touch the floor, much will depend on your flexibility. Just maintain this open feeling and be comfortable. Bring your knees together and up toward your chest. Enclose your knees with clasped hands and allow the weight of your arms to press your legs inward. Focus first on your lower back and try gently pressing yourself downward into the floor with your arms still wrapped around your

continued on page 38

knees. Then shift focus to your pelvis and press your tailbone into the floor so that , as you change from one focus to the other, you engage into a gentle rocking movement. Imagine a warm orange liquid swishing inside you so that every part of your sacral are is messaged inward.

Sacral Chakra Meditation:

1. As you lie motionless, become aware of change in your body.....your heartbeat.....blood flow around your body.....cellular activity that invisibly rejuvenates your whole being. Your every breath celebrates life.....nourishing you with everything you need for a healthy, enjoyable life.
2. Focus on the gentle movement of your breathing. Imagine your abdomen filled with a warm orange glow representing joy and vitality, both of which are available to you in abundance.
3. Bring to mind a joyful experience. Recollect all the senses that will bring that moment back to life for you now.....remember how you felt.....the colors around you.....textures..... shapes.....sounds.....smells.....tastes.
4. Shift your focus to the Sacral Chakra in your abdomen so that the warm orange glow magnifying the experience and allowing the joyfulness to fill you.
5. Know that your life can be a succession of wonderful beneficial experiences if you choose it to be so. Determine to look for the opportunities, the love, the joy, and the fun in all you do today. You deserve it!!

ENJOY
