## Notes from the HOA Board of Directors

The HOA Board members would like to thank Ann Ohr for taking and guiding the helm of the HOA Board for the last few months, as well as her previous work on the board. We appointed a new President, Norman Goldberg (formally VP) and Treasurer Patty Peterman. Audrey Lawrence moved to Vice-President (formally Secretary) and Vickie Elliott as Secretary (formerly Director).

We are pleased to announce that our HOA meetings have started back up after our summer break. We appreciated the time our Community Officers from Pinellas County were able to provide at our HOA meeting. The officers were able to answer several questions our residents posed and provided great suggestions.

Their information was informative and helpful. We continue to meet with Karen Barker, our Park Manager, on the 1st Wednesday of every month. During those meetings, updates are provided on complaints/concerns received and follow-up from prior issues. As a reminder, Karen wants residents to know that she is available for concerns or suggestions.

We are happy to announce that our Social Committee is back! Keep an eye on all the exciting event they are planning for our community.

If you are not an HOA member, you still have time to sign-up before the year end and receive a discount on events that may have a charge. We have prorated the dues for the rest of the year at a cost of \$4.00. Your membership would run through December 31, 2021. Annual dues for 2022 will remain the same \$15 and are due in January 2022.

We will continue to work on areas that require improvement in our community. The HOA Board is here to support our community and make it a great place to live. That requires involvement, input, ideas and community accord from everyone that lives here. We welcome and encourage your ideas and feedback!

## Can you get COVID-19 even if you’re fully vaccinated?

---

The COVID-19 vaccines are effective at preventing infection and serious illness, the CDC says. In fact, studies show fully vaccinated people are 8 times less likely to be infected and 25 times less likely to experience hospitalization or death.

However, the vaccines are not 100 percent effective, so it is still possible for some fully vaccinated individuals to get COVID-19. This is called a “breakthrough infection.”

Fully vaccinated people with breakthrough infections are less likely to develop serious illness from COVID-19 than unvaccinated people, the CDC says, but they can still be contagious and spread the virus to others. This is why health officials recommend that everyone, regardless of vaccination status, wear a face mask in public indoor settings — especially in areas where virus transmission levels are high or substantial. This can help prevent people with asymptomatic or mild illness from unknowingly spreading the virus to others.

It’s difficult to estimate how many people have asymptomatic or mild breakthrough infections. Severe breakthrough infections, however, are tracked and are rare. As of Sept. 7, about 0.008 percent of the fully vaccinated Americans have been hospitalized with COVID-19 or have died from the disease.

## Greetings from the Plant Lady

**G**reetings gardeners. Get gorgeous displays, no potting necessary. Cut back on the amount of repotting you do and instantly amp up the wow factor. Leave plants in their plastic pots when you combine them in baskets or planters. Arrange them in the way you would like, Pushing the pots close together. Then put moss over in, over and around to hide the pots from view. When the season changes or a plant loses its blooms, simply take out that pot and replace it with something else. No dirt under your nails and no hassle. Pick the right sized plants.

Container gardens design has a few rules of thumb. Height is one of the most important. Measuring the height of the container itself, the plants you put in should be either twice that high or only half. Take hanging plants from dollar to dramatic. Get magazine quality fullness from the most humble hanging plants. Line a hanging wire basket with moss or Cocoa liner, cut holes in the sides of the liner every few inches, fill halfway with soil and then start working small plants into the holes you cut finishing the pot with soil, and place plants in the top of it to Polish it off. Pick up the theme when regrouping pots. Potted plants look great in groups if the pots somehow match pick a theme to hold them all together. Use different size pots painted in similar colors, made of the same materials, or a similar shapes or style. Go wild by grouping dramatically different pots all holding the same type of plant. Top off potted plants with a touch of whimsy. Soil toppers add more than beauty. They stop mold from growing in soil, from drying out, and nutrients from washing away. The prettiest ones are often free. Cover the top of soil with old marbles, broken ceramics, small seashells, left over tiles from a bathroom remodel etc. Use small river pebbles - even nutshells are fair game Special tip.\* Banish bugs with buried garlic. Bugs and germs hate garlic more than some people do. Give this gardening folk remedy a try. Poke holes in the soil around the rim of potted plants, about 3 holes in a 14" pot. Buried an unpeeled garlic clove in each hole about when one inch deep. To ward off pests and disease

Next month - how to pick the healthiest house plants and goof proof them. See you next month.

Happy gardening.

That's all for this month - Happy gardening.
