AGING:

As we age we have a tendency to lose our balance. There are key muscles in our calves, thighs and hips that are important in balance.. The following are recommendations to improve your gait and to maintain balance:

- **WALK:** Walk continuously for at least 20 minutes daily, even if you just walk in loops round or inside the house or driveway.
- **CALF RAISES:** Stand with your feet shoulder width apart. Hold to the back of a chair, table or counter, then rise up onto the balls of your feet, or sit in a chair and lift your heels, pointing your toes down.
- **KNEE EXTENSIONS:** Sit in a chair and take turns extending a leg straight out, parallel to the floor. You can add an ankle weight, such as a towel with a can tied inside or use regular weights.
- **MINI-SQUATS:** Stand with your feet shoulder-width apart, hold on to the back of a chair, table, or counter for balance. Bend your knees until they are over your toes. Straighten and repeat
- **HIP ABDUCTIONS:** Sit in a chair and loop a resistance band around your thighs. Spread your legs apart and then back together. Or, stand and hold on to the back of a chair, table or counter for balance. Lift your leg out to the side, away from your body, keeping your toes pointed forward (no turn in the hip). Alternate legs.

2022 ANNUAL HARBOR LIGHTS BOCCE TOURNAMENT

Here at Harbor Lights, we're always ready for some fun. And so on February 25th and on the 28th, we got some good times done.

Mary organized 14 teams, and all came ready to play, In the Annual Bocce Tournament that played out on those days. After tossing and enjoying games, a lunch of subs and more, 4 extremely happy winners, who were challenged to the end, accepted their crowns and special gifts.

Many door prizes were awarded and soon, we all went home, to relive the games on Facebook.

While watching video from Bryan's drone!

*The 2nd place team was made up of Frank Sprada, Rita Girouard, Charles Todaro, and Cherie Antoszewski.

Our winners were Nancy Zander, John Cmiel, Carol Denall and Gary Howland.

A big thank you goes out to all those who helped to insure the success of the tournament.

LIBRARY:

The Library staff is requesting that when you drop off or return books, to please use the drop off area just inside the door (street side) to the left. This is important, because the staff is continuing to wipe all the books off before shelving them.

APRIL FUN FACTS:

In the initial Roman calendar April was the second month of the year until January and February were added in 700BC. It is thought that the name April comes from the Latin word “to open” and describes the trees opening at springtime. It could also be that the name comes from the Greek goddess Aphrodite. In the Southern Hemisphere, April is the same as October in the Northern Hemisphere. The birthstone for April is the diamond and symbolizes innocence. The Boston Marathon is held during April. April is the month when the professional baseball seasons begin in the United States. The flowers for April are the Daisy and the Sweet Pea, and the Zodiac signs are Aries (March 21st – April 19th) and Taurus (April 20th – May 20th).

MURPHY’S LAW:

“**E**very solution breeds new problems”.

QUOTE OF THE DAY:

“**W**herever you go, no matter what the weather, always bring your own sunshine”.

LAWN CARE REMINDER:

The schedule for 2022 is as follows April twice per month, May thru October weekly. Specific date are not available, however, lawn care takes place on Thursday or Friday.

New space findings near and far

Astronomers have discovered a third planet orbiting Proxima Centauri, the star closest to our solar system (about four light-years away). According to the Science Daily website, the planet, dubbed Proxima d, orbits its star at about 2.5 million miles, less than one-tenth the distance of the planet Mercury from our sun. It takes five days to circle the star. It's only about one-quarter the mass of the Earth, making it one of the lightest exoplanets yet discovered. It joins two other previously discovered planets in the system: Proxima b, an Earth-sized planet in the habitable zone, and Proxima c, which take five years to circle the star it orbits.

Closer to home, the Science Alert website reports that an asteroid first identified in the 19th century was recently found to have three small moons of its own circling it. The asteroid, 31 Elektra, was discovered in 1873, and is about 160 miles across. One moon was discovered in 2003; the second was found in 2014. Only about 150 asteroids are known to have a moon, but Elektra is so far the only one to have three. The new moon is a little less than a mile across, and orbits at an average of about 211 miles.

Chimpanzee ‘doctors’ treat wounds with bugs

“Take this insect and call me in the morning,” said no doctor ever, but the Sci-News website reports that chimpanzees in West Africa have been observed self-medicating by applying insects to open wounds on themselves and others.

Chimpanzees and bonobos are known to swallow leaves that cure worms and intestinal parasites, but until now scientists haven't seen them use anything externally for self-treatment. The discovery occurred in 2019, when a biologist and a volunteer at the Ozouga Chimpanzee Project watched a chimpanzee named Suzee inspect a wound on the foot of her adolescent son, Sia, then catch an insect out of the air, put it into her mouth, and apply it to Sia's wound.

The team following the chimpanzee group documented 76 cases of the apes applying insects to wounds on themselves and others. The chimpanzees would catch an insect, squeeze it between their lips, apply it to the exposed surface of the wound using their lips or fingers, and then extract the insect from the wound (which sometimes took several tries). The insects they use haven't been identified.

The one universal ever-operating law throughout has been the law of change. Nature never stands still and never duplicates herself. Life is always in the process of becoming something else.

The biggest April Fool's Day jokes

April Fool's Day pranks have been around since long before the Internet. Take a look at some of these epic pranks over the years from the History website:

- **The bottle show.** In 1749, the Duke of Portland bet the Earl of Chesterfield that he could advertise something outrageous in the London newspapers and still draw a crowd to see it. He put out a notice that a man would squeeze himself into a wine bottle and then sing while inside it. On the appointed night the theater's seats were filled, but of course no one showed up to perform the act—leading to a riot from the audience.
- **The gold heist.** On April 1, 1905, a German newspaper reported that thieves had tunneled beneath the U.S. Treasury in Washington, D.C. and made off with the nation's supply of silver and gold, worth some \$268 million. The story spread rapidly through the European press before anybody realized that it was a joke, written by a New York correspondent to the paper under a pseudonym.
- **The spaghetti harvest.** On April 1, 1957, the BBC reported that the Swiss region of Ticino, near the Italian border, had harvested an “exceptionally heavy spaghetti crop” that year, and broadcast footage of farmers picking fresh spaghetti off trees and bushes, followed by a dinner of “real, home-grown spaghetti.” Many viewers immediately got the joke, but others called the BBC to find out how they could grow their own spaghetti at home.

A better person

A young student once approached the famous philosopher Blaise Pascal and said, “If I had your brain, I would be a better person.” Pascal thought for a moment and replied, “Be a better person, and you will have my brains.”

Our spring has come at last with the soft laughter of April suns and shadow of April showers.

— Byron Caldwell Smith

April is the kindest month. April gets you out of your head and out working in the garden.
