## Charity case

---

The president of a local charity realized that he had never received a donation from the town's most successful lawyer. The president gave him a call. "Our research shows that out of a yearly income of more than \$10 million, you give not a penny to charity. Wouldn't you like to give back to the community in some way?"

The lawyer thought this over for a moment and replied, "First, did your research also show that my mother is dying after a long illness, and has medical bills that are several times her annual income?"

Embarrassed, the president mumbled, "Uh, no."

"Second, that my brother, a disabled veteran, is blind and confined to a wheelchair?"

The stricken president began to stammer an apology, but the lawyer interrupted him.

"Third, that my sister's husband died in a traffic accident, leaving her penniless with three children?"

The humiliated president, completely beaten, said simply, "I'm sorry, I had no idea—"

The lawyer cut him off once again. "And I don't give any money to them, so why should I give any to you?"

## Warning light

---

During a trial that involved a car accident at a train track, an engineer insisted that he had given the driver ample warning by waving his lantern back and forth for nearly a minute. He even stood and convincingly demonstrated for a full minute how he'd done it. The court believed his story, and the suit was dismissed.

"Congratulations," the lawyer said to the engineer when it was over. "You did superbly under cross-examination."

"Thanks," he said. "But the plaintiff's lawyer sure had me worried."

"Why is that?"

"I was afraid he was going to ask if the lantern was lit!"

## Ants in your house? How to get rid of them safely

Most of us don't want to share a home with ants, but we don't want to douse the place with insecticide either. Keeping your sinks and counters dry and clean is a good start. Here are a few natural treatments to keep ants at bay:

- **Cinnamon.** Place a few cinnamon sticks anywhere you spot ants crawling into your house. The pleasant odor will send ants away. (Garlic cloves work as well, though you may not enjoy the scent as much.)
- **Vinegar.** Spray some apple or white vinegar on areas where ants have set up shop.
- **Black pepper.** Sprinkle a little pepper where you see ants. Watch where they run to, and treat that area as well to prevent them from returning.
- **Mint.** The scent of mint can disrupt ants' sense of smell. Plant mint outside, especially near doors and windows, and place a few mint leaves in and around your windows.

## Area 51

---

Late one afternoon, Air Force officers at Area 51 were very surprised to see a small Cessna landing at their “secret” base. They immediately impounded the aircraft and hauled the pilot into an interrogation room.

The pilot told them that he’d taken off from Las Vegas, got lost, and spotted the base just as he was about to run out of fuel. The Air Force started a full background check on the pilot and held him overnight during the investigation.

By the next day, they were finally convinced that the pilot really was lost and wasn’t a spy. They gassed up his airplane, gave him a terrifying “you-did-not-see-a-base” briefing, complete with threats of spending the rest of his life in prison, gave him directions to Las Vegas, and sent him on his way.

The day after that, to the total disbelief of everyone at the base, the same Cessna showed up again. Once again, MPs surrounded the plane on the ground, only to find this time that there were two people in the plane.

The same man jumped out and said, “Do anything you want to me, but you have to tell my wife where I was last night!”

## Language is funny

---

A linguistics professor was lecturing his class one day. “In English,” he said, “a double negative forms a positive. In some languages, though, a double negative is still a negative. However, there is no language wherein a double positive can form a negative.” A loud voice from the back of the room piped up, “Yeah, right.”

## Hall of mirrors

---

Once a dog sneaked into a museum filled with mirrors. Seeing his reflection everywhere, he froze at the sight of a whole pack of dogs surrounding him from all sides.

The dog bared his teeth and barked. All the reflections responded to it in the same way. Frightened, the dog barked frantically; the dog’s reflections imitated the dog and increased it many times. The dog barked even harder, but the echo was magnified. The dog ran from one side of the museum to another while his reflections followed him, snapping at his heels.

The following day, the museum guard found the miserable dog, surrounded by thousands of reflections of helpless dogs. There was nobody to harm the dog. He had exhausted himself by fighting with his own reflections.

# FLORIDA ANCHOR AND BARRIER COMPANY

To our valued customers:

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety but yours as well. We check workers' temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

Wishing you good health and safety,  
The Florida Anchor & Barrier Team
