### April Birthstones

Diamond

The diamond is the traditional birthstone of April and holds significant meaning for those born in that month, thought to provide the wearer with better relationships and an increase in inner strength. Wearing diamonds is purported to bring other benefits such as balance, clarity, and abundance.

## April Awareness

---

**T**here are several awareness months celebrated in April — though the five that often get the most attention include

### **Earth Month**

Earth Day is a celebration of the earth and our environment. It is a historical event that takes place every year. On Earth Day, we will remember how closely we are connected to the earth, as well as our responsibility to protect it

### **Stress Awareness Month**

Stress can be debilitating, and it can cause and/or aggravate health problems. Every April, healthcare professionals from across the country join forces to increase public awareness about not only the causes, but also the treatments for the growing stress epidemic in our country.

### **Alcohol Awareness Month**

Alcohol Awareness Month is a public health program organized by the National Council on Alcoholism and Drug Dependence as a way of increasing outreach and education regarding the dangers of alcoholism and issues related to alcohol. The program was started in April 1987 with the intention of targeting college-aged students who might be drinking too much as part of their newfound freedom. It has since become a national movement to draw more attention to the causes and effects of alcoholism as well as how to help families and communities deal with drinking problems.

### **National Donate Life Month**

a time when Donate Life organizations across the country strive to make LIFE possible by educating and motivating individuals to register their decision to be an organ, eye, and tissue donors.

### **Autism Acceptance Month**

Autism Awareness Month is a month-long observance focused on raising awareness about autism spectrum disorders, what it means to be autistic, how to support autistic people, and the difficulties and discrimination that autistic people face.

# Recipes For April

## Glazed Easter Ham

### INGREDIENTS

- 1 (6 pound) fully-cooked, bone-in ham
- 1 fresh pineapple
- 2 (6 ounce) cans pineapple juice
- 1 cup brown sugar

### INSTRUCTIONS

Preheat the oven to 325 degrees

Place ham, cut-side down, into a roasting pan.

Cut skin off pineapple with a sharp knife and slice off any brown spots or skin left behind.

Cut pineapple into 1/2-inch-thick rings and use a round cutter to remove cores. Pin rings onto ham with toothpicks.

Bake ham in the preheated oven for 30 minutes.

While ham bakes, mix pineapple juice and brown sugar in a microwave-safe bowl.

Microwave on medium power until glaze is boiling and slightly thickened. Work carefully because glaze will be sticky and very hot.

Pour 1/2 of the glaze evenly over ham and pineapple rings. Bake ham for 30 minutes more, then pour remaining glaze over ham.

Continue baking ham until a meat thermometer inserted into the thickest part of ham reads 140 degrees F 30 to 60 minutes more.

## Braided Easter Egg Bread

1 c. lukewarm milk  
1/2 c. plus 1 tsp. granulated sugar, divided  
2 1/2 tsp. or 1 (0.25-oz.) package active dry yeast  
4 1/2 c. all-purpose flour, plus more for surface  
2 tsp. kosher salt  
2 large eggs  
1/2 c. (1 stick) butter, softened and cut into cubes  
Egg wash, for brushing  
Sprinkles, for topping

### **FOR THE EGGS**

4 large eggs  
1 c. boiling water, divided  
2 tsp. distilled white vinegar, divided  
Food coloring

1. Grease a large bowl with cooking spray. In a small bowl or liquid measuring cup, add milk and 1 teaspoon sugar and sprinkle yeast on top. Let sit until frothy, about 8 minutes.
2. In the bowl of a stand mixer fitted with the dough hook, combine flour, remaining 1/2 cup sugar, and salt. Add milk-and-yeast mixture and eggs. Mix until a very soft dough forms, about 5 minutes. Increase to medium-high speed and add in butter a tablespoon at a time, mixing well after each addition, until dough pulls away from sides of bowl, about 15 minutes.
3. Transfer dough to greased bowl, cover, and let rise in a warm spot until doubled in size 1 to 1 1/2 hours.
4. Meanwhile make hard-boiled eggs: Place eggs in a medium pot and cover with water. Over medium heat, bring to a boil. Cover and turn off heat. Let sit for 11 minutes, then remove from pan and dunk in ice water.
5. Divide 1 cup boiling water between 2 bowls. Add 1 teaspoon vinegar and desired food coloring to each bowl. Add one egg at a time and let sit 5 to 10 minutes, depending on preferred color. Use a slotted spoon to remove from bowl and let dry on a wire rack fitted over a baking sheet.
6. Preheat oven to 375° and line a large baking sheet with parchment paper. On a lightly floured surface, divide dough into 3 equal parts. Roll each piece into a 16" long rope. Place ropes side by side lengthwise on prepared baking sheet. Pinch top ends together, then tightly braid ropes together. Bring ends together to form a circle and pinch together.
7. Press dyed eggs into braid, then cover dough and let rise until doubled, about 30 minutes.
8. Brush with egg wash and top with sprinkles. Bake until golden, 30 minutes.

The eggs are purely decorative and should not be eaten!

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

## How Mickey Mouse was born

---

The legacy of Walt Disney is now a \$20 billion media giant. It includes film studios, TV networks, publishing houses, famous theme parks and hundreds of retail stores.

Disney was the last of five children born in 1901 to parents who lived in Chicago. Disney became enamored with drawing and started a company with his brother Roy to try and build an animation business. Disney was barely making it financially.

On a long train ride back from a disastrous business setback in which he lost the rights to a character he had created, the idea came to Disney to create another character based on a mouse that scampered across his drawing board. This idea blossomed into the character of Mickey Mouse.

Later, when Disney spent an unprecedented \$1.5 million to produce the masterpiece *Snow White*, critics and naysayers dubbed the project “Disney’s Folly.” However, the animated film became the most profitable ever released and set Disney on the path of creating animated classics, and he became known as the father of the animated-film genre. — adapted from the Los Angeles Times article “50 people who most influenced business this century”

## The devil’s secret weapon

---

There is an old-time fable that the devil once held a sale and offered all the tools of his trade to anyone who would pay their price.

They were spread out on the table, with each one labeled — hatred, malice, envy, despair, sickness, sensuality — all the weapons that everyone knows so well.

But off on one side, apart from the rest, lay a harmless looking, wedge-shaped instrument marked “DISCOURAGEMENT.” It was old and worn looking, but it was priced far above all the rest.

When asked the reason why, the devil explained: “Because I can use this one so much more easily than the others. No one knows that it belongs to me, so with it I can open doors that are tightly bolted against the others. Once I get inside, I can use any tool that suits me best.” — from IdeaBank

### *On vision*

*I had an almost intolerable awareness that every morning began with infinite promise. Any book may be read, any idea thought, any action taken. Anything that has ever been possible to human beings is possible to most of us every time the clock says six in the morning. On a day no different from the one now breaking, Shakespeare sat down to begin Hamlet.*

— *Ralph Waldo Emerson*

## Believe in yourself

---

The night before Douglas MacArthur took the entrance exam for West Point, he was very nervous. At the time, his mother offered him some sage advice. She told her son not to lose his nerve and that he needed to believe in himself, because if he didn't no one else would either. She also told her son that even if he failed, he would succeed in knowing that he had done his best. With this bit of wisdom MacArthur tackled the exam — and when the results came back he finished in the No. 1 slot. — adapted from *The Speaker's Library of Business Stories, Anecdotes and Humor* by Joe Griffith

## A problem-solving legend

---

In 333 B.C., the famous Macedonian general Alexander and his army arrived in Phrygia to spend the winter. According to Greek legend, a farmer named Gordius became king of Phrygia by fulfilling a prediction made by an oracle that the next king of the country would ride into the public square on an oxcart. In gratitude, Gordius tied his cart in the temple of the oracle's god, using a knot so intricate that no one was able to untie it, though many tried. A legend arose that whoever untied the "Gordian Knot" would rule Asia.

When Alexander the Great encountered the challenge of the Gordian Knot, he was fascinated. He studied the problem.

Finally, in a burst of inspiration (or was it frustration), Alexander pulled out his sword and sliced the knot in half, solving the complex problem with a simple solution and becoming part of the legend himself. He and his armies went on to capture and rule more territories in the ancient world than anyone who had gone before him. This included Asia, although in Alexander's day that extended only as far as India.

Sometimes, the best way to solve a difficult problem is to slice away some of the complexities with a single stroke, despite opposition and advice to do otherwise. — adapted from IdeaBank
