## Welcome Wednesday

*Rick Renner & Shelley Scunziano*

---

There will be no Welcome Wednesday in June, July, or August. We plan to resume in September. If anything changes, we will send out an email blast and post on the bsw Facebook page. Thank you.

## Bowling

*Carolee Kingsbury*

---

Another winter of bowling has ended. We had our lunch at Fat Cats and the prize money was passed out. Yes, we have prizes at the end of the year. The cost to play was \$12 every week. I hope it will be the same this coming winter. Three dollars of this money is used for the prizes. I need 3-5 bowlers that can bowl full-time next year. Most of our bowlers have a handicap between 60-90. There is a group that practices every Monday morning at Maple Lanes, which is where we bowl in the winter. Maple Lanes is just north of Countryside Mall. We bowl every Wednesday morning in the winter. Maple Lanes opens at 9:00am and bowling warmup starts at 9:15. At 9:30 we start the first of three games. We usually finish before noon. It is a great time to socialize and have some fun. Please call me and let me know if you'd like to join in! Carolee Kingsbury 860-990-0253

## Yard Sale

---

Our neighborhood yard sale to benefit our social club was held on April 15 and was a huge success!! We appreciate everyone who donated items, who set up and took down tables, who staffed tables, and John and the crew who provided the tables. A special thanks goes out to Judy Bossie, Margo Hill and Clela Bainbridge, you took some of the burden off me. We made \$821 that will be added to our social club treasury. Way to go residents of Bayside Waters!!

## Things You Probably Never Knew About The Great Lakes.....

---

1. Lake Superior is actually not a lake at all, but an inland sea .
2. All of the four other Great Lakes, plus three more the size of Lake Erie, would fit inside of Lake Superior.
3. Isle Royale is a massive island surrounded by Lake Superior. Within this island are several smaller lakes. Yes, that's a lake on a lake.
4. Despite its massive size, Lake Superior is an extremely young formation by Earth's standards (only 10,000 years old).
5. There is enough water in Lake Superior to submerge all of North and South America in 1 foot of water.
6. Lake Superior contains 3 quadrillion gallons of water (3,000,000,000,000,000). All five of the Great Lakes combined contain 6 quadrillion gallons.
7. Contained within Lake Superior is a whopping 10% of the world's fresh surface water.
8. It's estimated there are about 100 million lake trout in Lake Superior. That's nearly one-fifth of the human population of North America!
9. There are small outlets through which water leaves Lake Superior. It takes two centuries for all the water in the lake to replace itself.
10. Lake Erie is the fourth-largest Great Lake in surface area, and the smallest in depth. It's the 11th largest lake on the planet.
11. There is alleged to be a 30- to 40-foot-long "monster" in Lake Erie named Bessie. The earliest recorded sighting goes back as early as 1793.
12. Water in Lake Erie replaces itself in only 2.6 years, which is notable considering the water in Lake Superior takes two centuries.
13. The original publication of Dr. Seuss's *The Lorax* contained the line, "I hear things are just as bad up in Lake Erie. Fourteen years later, the Ohio Sea Grant Program wrote to Seuss to make the case that conditions had improved. He removed the line.
14. Not only is lake Erie the smallest Great Lake when it comes to volume, but it's surrounded by the most industry. Seventeen metropolitan areas, each with populations of more than 50,000, border the Lake Erie basin.
15. During the War of 1812, the U.S. beat the British in a naval battle called the Battle of Lake Erie, forcing them to abandon Detroit.
16. The shoreline of all the Great Lakes combined equals nearly 44% of the circumference of the planet.
17. If not for the Straits of Mackinac, Lake Michigan and Lake Huron might be considered one lake. Hydrologically speaking, they have the same mean water level and are considered one lake.
18. The Keystone State was one of the largest and most luxurious wooden steamships running during the Civil War. In 1861, it disappeared. In 2013, it was found 30 miles northeast of Harrisville under 175 feet of water.
19. Goderich Mine is the largest salt mine in the world. Part of it runs underneath Lake Huron, more than 500 meters underground.
20. Below Lake Huron, there are 9,000-year-old animal-herding structures used by prehistoric people from when the water levels were significantly lower.

## **Why Not Look After Your Ears Too?**

Hearing changes often do not result in an overall loss of volume. Some sounds remain as audible as they always were, yet others become harder to hear, and some conversations require more attentiveness. You might notice that words just don't sound clear.

If you suspect that your hearing may be changing, it's up to you to be alert to the signs and have your hearing tested by a qualified professional.

21. There are massive sinkholes in Lake Huron that have high amounts of sulfur and low amounts of oxygen, almost replicating the conditions of Earth's ancient oceans 3 million years ago. Unique ecosystems are contained within them.
22. Lake Huron is the second largest among the Great Lakes, and the fifth largest in the world.
23. In size, Lake Michigan ranks third among the Great Lakes, and sixth among all freshwater lakes in the world.
24. Lake Michigan is the only Great Lake that is entirely within the borders of the United States.
25. The largest fresh water sand dunes in the world line the shores of Lake Michigan.
26. Because water enters and exits Lake Michigan through the same path, it takes 77 years longer for the water to replace itself than in Huron, despite their similarity in size and depth. (Lake Michigan: 99 years, Lake Huron: 22 years)
27. When the temperature of Lake Michigan is below freezing, this happens.
28. Within Lake Michigan there is a "triangle" with a similar reputation to the Bermuda Triangle, where a large amount of "strange disappearances" have occurred. There have also been alleged UFO sightings.

32. Lake Michigan was the location of the first recorded "Big Great Lakes disaster," in which a steamer carrying 600 people collided with a schooner delivering timber to Chicago. Four hundred and fifty people died.

34. The province Ontario was named after the lake, and not vice versa.
35. In 1804, a Canadian warship, His Majesty's Ship Speedy, sank in Lake Ontario. In 1990, wreck hunter Ed Burt managed to find it. Only, he isn't allowed to recover any artifacts until a government-approved site to exhibit them is found. He's still waiting.
36. Babe Ruth hit his first major league home run at Hanlan's Point Stadium in Toronto. It landed in Lake Ontario and is believed to still be there.
37. A lake on Saturn's moon Titan is named after Lake Ontario.
