Virginia Fuchtmann

On Thursday May 4th, someone driving a black Nissan truck drove across Walsingham Road, and smashed into our fence on the northwest corner of the property and then drove off leaving the scene. Someone driving on Walsingham, called in a report. What a lovely mess.

FOR MANUFACTURED/MOBILE HOME OWNERS ON RENTED LOTS

Our accomplishments are numerous and include the creation of Florida Statute 723, "The Florida Mobile Home Act", which safeguards your rights as homeowners on rented lots in Florida.

Most recently we've successfully lobbied for the extension of The Mobile Home Tie-Down Program for 10 more years.

People get their eyes tested and their teeth checked on a regular basis,

Why Not Look After Your Ears Too?

Hearing changes often do not result in an overall loss of volume. Some sounds remain as audible as they always were, yet others become harder to hear, and some conversations require more attentiveness. You might notice that words just don't sound clear.

If you suspect that your hearing may be changing, it's up to you to be alert to the signs and have your hearing tested by a qualified professional.

What would you do?

You are one of two people on a malfunctioning airplane with only one parachute. How would you react?

- Pessimist: You refuse the parachute because you might die on the jump anyway.
- Optimist: You refuse the parachute because people have survived crashes just like this before.
- Procrastinator: You play a game of Monopoly for the parachute.
- Bureaucrat: You order them to conduct a feasibility study on parachute use in multi-engine aircraft under code red conditions.
- Lawyer: You charge one parachute for helping them sue the airline.
- Internal Revenue Service: you confiscate the parachute along with their luggage, wallet, and gold fillings.
- Advertiser: You strip-tease while singing that what they need is a neon parachute with computer altimeter for only \$39.99.
- Engineer: You make them another parachute out of aisle curtains and dental floss.
- Scientist: You give them the parachute and ask them to send you a report on how well it worked.
- Mathematician: You refuse to accept the parachute without proof that it will work in all cases.
- Philosopher: You ask how they know the parachute actually exists.
- English major: You explicate simile and metaphor in the parachute instructions.
- Comparative Literature student: You read the parachute instructions in all four languages.
- Psychoanalyst: You ask them what the shape of a parachute reminds them of.
- Actor: You tie them down so they can watch you develop the character of a person stuck on a falling plane without a parachute.
- Artist: You hang the parachute on the wall and sign it.
- National Rifle Association member: You shoot them and take the parachute.
- Environmentalist: You refuse to use the parachute unless it is biodegradable.
- Auto Mechanic: As long as you are looking at the plane engine, it works fine.
- Tobacco Grower: You explain very patiently that despite a number of remarkable coincidences, studies have shown no link whatsoever between airplane crashes and death.
