FROM YOUR HOA

by Bob Waldorf Director

The HOA meeting was held on June 5th and was called to order at 7:00 pm. The meeting only lasted about 30 minutes. It was noted that the swans are the responsibility of the residents. The food costs approximately \$45 per month. Management currently pays for the food every other month. A suggestion was made to hold a quarterly fundraiser for the cost of feeding the swans. If interested contact Alan (president HOA).

Alan asked for volunteers to serve on the Nominations Committee for the November elections. He explained that 3 board members and 2 members at large would form the committee. Dorinda Barnes and Gina Donato volunteered to serve on the committee but have not yet been confirmed. The committee will begin meeting in the near future.

Gym update: A question was raised if the board was aware if an increase in rent would result to cover the cost of the new gym. At this time no mention has been made by management of a timeline for the installation of the gym not an increase in rent. The board will bring this concern to William at their next meeting.

Freedom Vapor Barrier gave a presentation about hurricane awareness. They are offering FREE inspections by calling 310-779-3131.

The next HOA meeting will be held Monday, August 7, 2023 at 6:45 pm

MESSAGE FROM MANAGEMENT

****PLEASE DO NOT FLUSH WIPES DOWN THE TOILET****
Please place in the trash then throw away.

I would also like to say a ***HUGE THANK YOU*** to those residents that have adhered to the recent request of the management office and cleaned up driveways, homes and removed all plastic and or lattice from carports and or mesh around skirting. You realize you are a part of a community and that everyone must follow the same set of rules and regulations as stated in the prospectus.

We do ask, please do not be angry with your neighbors that have not followed those rules yet, they may not got around to it yet or something of that sort. I'm sure it's not that they think they are better than you, or smarter than you or the Gateway Management office. I'm sure they understand they are just as special as you and just like you they should follow the rules as well.

Thank you
William H.-Gateway Mgr

HISTORY OF THE SUNSHINE SKYWAY BRIDGE

Before the first bridge was built there was a ferry service for cars between Bradenton and St. Petersburg that shortened the trip from more than 50 miles to 22 miles, and took between 40 and 60 minutes. The Bee Line Ferry began service in 1926 and ran from Piney Point in Northern Manatee County to 4th St. S. in St. Petersburg (Pinellas Point). While it shortened the trip, at times the ferry was so busy that waiting times were three hours or more.

The four ferries of the Bee Line continued to make the crossing until the original Sunshine Skyway bridge, which cost \$21 million to build, opened on September 6, 1954. This original two lane steel cantilever bridge, built by the Virginia Bridge Company, served the area on its own until the late 1960s when, due to changing standards for the interstate highway system, four lanes were required. In 1969 a second, parallel bridge was built to the just to the west, making a total of four lanes, two in each direction. Opening of the newer span was delayed until 1971 due to necessary repairs. The second bridge was used for all southbound traffic, while the original span was converted to carry northbound traffic.

The first tragedy associated with the Sunshine Skyway bridge occurred on January 28, 1980, when the US Coast Guard Cutter Blackthorn, which had recently completed a major overhaul in Tampa, collided with a tanker named the Capricorn as it made way under the Sunshine Skyway bridge, headed for the Gulf of Mexico. Due to the extensive damage caused

by the tanker's anchor when it ripped into the Blackthorn's hull, the ship capsized and 23 of the Blackthorn's 50-member crew perished. A commemorative plaque can still be found on the bridge's approach.

Of course, the bridge's most famous disaster took place on May 9, 1980, when a freighter, the MV Summit Venture, collided with a support column pier during a severe storm. As a result, 1,200 feet of the southbound Sunshine Skyway bridge collapsed into the water, along with six vehicles and a Greyhound bus, killing 35 people. Of those who plunged into the Bay, only one man, Wesley McIntyre, survived. His falling truck hit the Summit Venture's deck before sliding into the water. He was able to get out of the truck and swim to the Summit Venture, where he was rescued.

Construction of the current Sunshine Skyway began in 1982, and the completed bridge was dedicated on February 7, 1987. The new, six-lane bridge cost \$244 million to build, and was opened to traffic on April 20, 1987. At a length of 29,040 feet and a height of 190 feet above the water, it is the world's largest cable-stayed concrete bridge, and it has won dozens of engineering and design awards.

Because protecting the new bridge from collisions was paramount, large concrete islands, called dolphins, were built around each of the bridge's six piers, and were designed to withstand the impact of an 87,000-ton ship.

The bright yellow paint job on the cables is said to reflect the Skyway's home in the Sunshine State. The placement of the cables between the two roadways, rather than on the outside, offers drivers and passengers an unobstructed view of the water as they cross the bridge.

The remains of the old bridge were demolished in 1993, and it was decided to leave the north and south over-water approaches intact. Today these are known as the Skyway Fishing Pier Park, and scores of fishermen can be seen daily with their lines in the water.

In 2005, an act of the Florida Legislature officially named the current bridge the Bob Graham Sunshine Skyway Bridge, after the former Governor of Florida and then U.S. Senator who presided over its design and most of its construction.

The Sunshine Skyway, surely one of the most beautiful bridges in existence, has garnered more than its share of praise. The graceful span and shining yellow cables are well lit at night, and can be seen for miles day or night. It can best be viewed from the East Beach area of Fort Desoto Park. Due to its beauty the span has been the scene of several auto commercials. It is also worth noting that a special on the Travel Channel rated our Sunshine Skyway third best of their Top Ten Bridges.

In October 2019 the Sunshine Skyway Bridge was lit with bright new colors that will shift to create many different colors and patterns at night. The new addition cost \$15 million.

For decades, the Sunshine Skyway Bridge has been one of Tampa Bay's most iconic landmarks. But the 190-foot-high peak has also drawn hundreds of people wanting to take their own life. On June 23, 2021 fencing was completed on the top of the Skyway Bridge. Cost - \$3.1 million.

CONTINENTAL BREAKFAST

Kathy & Mary Lynn Soehnlén

There were 35 residents and guests at our final Continental Breakfast or the season on April 6th. It was especially satisfying to see this many. Everyone appeared to have a pleasant morning of breakfast pastries, raisin toast, tea and coffee, as they chatted with their Gateway friends and neighbors. The Gateway Continental Breakfast is provided October through April by ARC Investments and their Gateway Management team. It is free to all residents and their visiting guests. We look forward to seeing you on Thursday, October 5th, when Continental Breakfast signals the beginning of the 2023 – 2024 Gateway Activities Season. Thanks to all who attend and here is hoping you have a great summer.
