## ROADS AND GROUNDS

Bob Barr

We have had a few water line breaks over the last couple of months. Two happened due to the age of our water line system and the aging connections to our homes. One happened when a contractor screwed a tiedown anchor into a 6" water line. A couple of repairs were for fixing home shutoffs. I would like to thank the following for their help. Mike Moore, Al Hartin, and Jason Moskow for their help.

We are just finishing up with the new fence around the pool area – thanks to Al Hartin for getting this done.

# VACANT PROPERTIES

*Gene Arend*

---

**W**hen you leave for an extended period of time on vacations or leaving for the summer months, consider contacting the sheriff’s department, 727-582-6200, and have them periodically inspect your property. They will visit and perform an inspection of your home to ensure there are no signs of forced entry. If you have authorized someone to park in your driveway, inform them of the model of the vehicle and license plate number. Prior to returning, be sure to call them and let them know at least 10 days in advance so they can take you off the watch list otherwise you may have some deputy sheriffs at your door. While you are away, if you have authorized someone to stay in your home for any length of time, please contact a board director and let them know. We do get calls or observe activity in your home and do not know if the activity in your home is authorized by you. One of the reasons our community is secure is neighbors are watching out for one another. That can sometimes be a bit too much but it does help keep a community watch active in our community and outsiders know we are watching.

When you leave for your second home away from Briar Creek, be sure the board of directors have you address. We have most of them in our database, however to ensure they are accurate just send your address to [briarcreekoff@gmail.com](mailto:briarcreekoff@gmail.com). We can then double check to ensure our records agree. In today’s world of cell phones your local phone may also be your phone number when you are away. If you use a landline when away send us that number too. We can tell you of many horror stories of owners who were away when issues occurred at or near their Briar Creek home. Turn your water off. If you’re not sure how or where the shut off is located contact us - we can help you.

## FOBS

**L**ast year the Board replaced the keys to the Clubhouse and Pool Area with FOBS that increase the safety of all residents of Briar Creek. Remember to bring your FOB with you when you are going to the Clubhouse or Pool. Do not assume that someone will be there and open the door or gate – this defeats the purpose of issuing FOBS for security.

## CLUBHOUSE/POOL AREA

After use of the Clubhouse or Pool Area remember to do the following:

- Relock any doors you dogged in the open position

- 
- Turn off lights
  - Turn off any fans you used – also fans on back deck by the pool
  - Return any items you used from the kitchen and, if needed, empty the trash

## **BRIDGE BEHIND POOL**

Walk your bike or scooter or any other item across the Bridge. There are signs on both ends reminding you of this!

## **THE POOL**

*Pat Rivera*

---

**T**he pool is the perfect place to cool off, catch up with what’s going on and to exercise.

Weather permitting, the aqua aerobic group, aka ‘the mermaids’ meet at 10:00 a.m. most mornings of the week. If you have a pool noodle and/or water weights, bring them along. If you do not own a noodle, there are a few available near the shower wall for you to use. It is true, some mornings our jaws get as much or more exercise as our core and cardio, but we all have a few laughs. Often, we end up talking about lunch or food in general...maybe even some great recipes. Come on down and check out the pool in paradise. Phase 2 always welcome to splash around, too.

## **NAME BADGES**

*Al Hartin*

---

**W**ant to get to know your neighbors and other residents of Briar Creek. Come to Coffee Hour on Wednesdays from 8:30AM to 10:00AM and wear your Name Badge. Don’t have one: See me each Wednesday at Coffee Hour and I will order you one. Cost is \$9.00 prepaid. You could win the \$5.00 drawing but more importantly you will meet and get to know a lot of your fellow “Briar Creekers”. Hope to see you at Coffee Hour!

## **LAWN AND TREES**

*Mike Moore, 813-629-8216*

**T**he lawns will be mowed EVERY Tuesday, weather permitting.

# BACK to SCHOOL SUPPLIES

Mattie Williams website

Ok, it's safe to say that probably none of the Creekers are returning to classroom instruction soon. However, the children of Safety Harbor will be. Many of them may not have easy access to the myriad of supplies needed to do their schoolwork. The list below includes items that are most needed for kids heading off to school.

Mattie Williams Neighborhood Center, the same community center that receives the food box collection in Phase 1 Clubhouse, is accepting much needed school supplies listed below. If you are interested in contributing supplies, the Dollar (\$1.25) Store has everything on the list. If you would rather not shop but want to contribute financially so backpacks can be purchased, the web address (and physical location) may be found on the bottom line of this post.

Your thoughtful generosity is greatly appreciated.

# CAN YOU SPOT A SCAM?

Wells Fargo

## Five red flags to watch out for:

1. Unexpected contact – A person or company contacts you out of the blue by phone, text, or email about an invoice, order, delivery, or charge you didn't know about.
2. Everything is urgent – Scammers will create a false sense of urgency and use pressure tactics like rude or pushy language to get you to act immediately.
3. Very specific or unusual way to pay – Someone is asking you to pay or send money using gift cards, cryptocurrency, a payment app, or even an online wire – to pay for something, resolve an “issue”, get sweepstakes “winnings”, or secure a high return on your “investment”.
4. Threatening language – Scammers may tell you that you owe money and then threaten to call the police if you don't pay immediately. They may also coach you on what to tell the bank to withdraw or transfer money, or ask you to keep a secret.
5. The romantic “emergency” – A new online love interest bombards you with “sweet talk” but doesn't seem to want to meet in person. Suddenly a hardship or emergency strikes and they want you to send them money.

## What to do if you suspect a scam:

- Slow down. Pause, take a breath, and think it through.
- Someone you don't know is asking you for your money.
  - Remember it's right to confirm things no matter how urgent anyone says it is.  
*You're in charge when it comes to your money.*
- Contact the company they claim to be, call your bank, or call the police if it doesn't seem right.
- Consult with a friend or family member you trust.

## Board of Directors:

### Bob Raynor – President

It's July 2 as I write this and while watching the TV news last night, I was surprised when the announcer said the water temperatures in the Gulf of Mexico and Tampa Bay have broken record highs this year. A few days ago, the water temperature in the Gulf was 91 and yesterday's Tampa Bay water temperature was 93. All I need is a little soap and beach time and I could save money on my water bill.

With the arrival of August, the Atlantic hurricane season is now entering its third month which is normally when the frequency of storms begins to increase. NOAA has projected a normal hurricane season of 12-17 named storms with 5-9 named hurricanes. I'm not really sure who Mother Nature communicates with at NOAA but we've already had three named storms as we remain hopeful that November 30th gets here sooner versus later. When the water temperatures reach 80 degrees, the chances of hurricanes developing increases significantly.

The bottom line is that if we haven't yet prepared for hurricane season, it's time to take action. Those of us who have lived here for a while know the drill but for those new to Florida, there are plenty of Guides available to help us develop a hurricane plan.

I can't emphasize enough how important it is to develop an evacuation plan since we live in a mandatory evacuation zone. It can get scary sitting in our home with 100+ mile per hour winds outside and we simply shouldn't have to worry about risking our personal safety when we ultimately know better. Unfortunately, sheltering in the Clubhouse is not an option as structure doesn't meet code and insurance would not cover personal injury if a tragedy occurred. None of us want to experience the "big one" that Sanford from the TV series talked about.

Finally, when winds reach the hurricane level of 74 miles per hour and higher, debris and unsecured personal items around can blow away damaging not just our own, but our neighbor's cars and homes. None of us really want to hear that our lose flower pot or ornamental decoration dented our friend's car or smashed their window. This is why we encourage snowbirds and travelers to move these items inside to a secured area. If you haven't done so, now is the time to make arrangements to help ensure the safety and security of your neighbors.

So please, if you haven't prepared a hurricane plan, do so now. It only takes one storm to make a difference in us feeling sorry if we didn't plan ahead or glad if we did.

**W**ith the summer temps climbing, I'm sure you'll all agree that a dip in the pool is a welcome relief to the heat. The control board that regulates the cooling feature of the pool has been replaced, and once again the pool water temperature is holding steady at 84 degrees. We try to keep the pool water at 84 degrees year round, and I know that some may feel it's a bit chilly, but it is definitely refreshing and a welcome respite from the heat. Keeping the pool water at 84 is recommended to prevent the growth of bacteria and algae. We are doing our best to maintain the cleanliness, and proper balance of chemicals to keep our pool and spa in the condition that we can be proud of. Once again thanks to all who help keep the area clean and neat.

## **Philip Chabot – Director Phase II -Garage, Lawns, Ponds and RV Lot**

**T**his month I would like to share some thoughts about our lawn mowing company. I've been working with their management team to resolve some minor issues that we have faced over the last 6 months and so that they continue working with the professionalism we have come to expect. I realize that for some it will never be enough but for most they find that TLC is doing a good job.

Now for those of you who have chosen to remove your block skirting and install vinyl skirting which I have done myself, you need to make sure you have some type of barrier between the squirting and the grass. TLC is not responsible for any damage to vinyl skirting. Again, make sure you have some type of barrier between your skirting and your lawn.

You also want to remember that any alteration to your landscaping requires an alteration request which details your plans. This is mandatory so we can ensure that the lawn mowing company doesn't get bogged down doing their job because of how someone landscaped their property. We want to keep the cost as low as possible for this service and by maintaining a property that is mower friendly it will help not only the lawn mowing company, but our bottom line and our pockets.

Hope all of you are enjoying your summer and this heat!

I want to personally thank those who step up and serve as host and hostesses at our coffee hour. Since our attendance is slim in the summer that means those who serve may have to volunteer two or three times. Do not fear, you snowbirds, you will get your turn. I also want to thank those who volunteer manning the shed during the hot, hot weather. The month of August the shed will be opened on the 5th and 19th. It is important that we receive donations for our annual bazaar.

## The bc2Connection- PHASE II Formerly known as The PhoneTree

Marsha Bowlby, Carol Rodrigues

Email address: [thebc2connection@gmail.com](mailto:thebc2connection@gmail.com)

The BC2Connection is the Phase II email system.

If you have not signed up yet and want to be on thebc2connection, send an email to our email address with your name, address, and email address. If a member of your household is the one getting the emails and you never know what's going on? Sign up, we have several families that have more than one person in the home getting the emails.

If you signed up but aren't getting the emails, check your trash/spam box first to see if they have gone there. The emails are going out and almost everyone is getting these emails so there may be a problem in your account. If you are unable to find the emails, please email us at [thebc2connection@gmail.com](mailto:thebc2connection@gmail.com) and we will see if we can help.

We had a few residents that were not getting the emails, so they set up a Gmail account for the sole purpose of having all thebc2connection emails forwarded to their main email address. This has worked for many; it may work for you. Be sure to give us your new email address if you decide to do it. (This probably works with other email servers, but Gmail is what we tried.)

It is important that everyone can receive these emails because this is our way of reaching out to our community for fun events, but also important "need to know" information. Let's work together on this project to be sure everyone is receiving important information.

# Common Causes Of Back Pain

Dr. Marty Finkelstein

The low back is one of the most common symptoms that people see doctors and therapists for. Because the lumbar spine supports the upper body most issues arise at the L4-5 and S1 areas. This is around the belt line.

## 1. Sprain/Strain

A sprain is when there is an inflammation or tear of the ligaments that support a bone or in the case of the spine a vertebrae. A strain is the inflammation or tear of a tendon attaching to muscles. Tendonitis falls in this category. Tennis elbow can occur even if you do not play tennis.

## 2. Degenerative Disc Syndrome

This can occur with normal aging or accelerated with trauma and injury. The cushion between the vertebrae are called a disc. When the disc begins thinning and losing its elasticity and ability to cushion forces a process of degeneration occurs. This is also called degenerative osteoarthritis. There are stages of development typically from stage 1 which is mild to stage 4.

## 3. Ruptured or Herniated Disc

When the forces to the disc are greater than its resilience the disc can tear or rupture. Since nerves exit out from the spine these problems can inflame and pinch nerves that travel to specific muscles of the low back, hips, and down the legs.

## 4. Spinal Compression Fractures.

This occurs typically when there is moderate to advanced osteoporosis. Osteoporosis is a degenerative process of the vertebrae losing their mineral strength. There are stages 1 through 4 typically. The weaker the bones become a spontaneous fracture can occur as it gives way to the ongoing stress.

## 5. Sciatica.

From the low back exits the largest nerve in the body, the sciatic nerve. All of the issues above can lead to that nerve becoming inflamed or pinched. The Sciatica nerve passes through the buttocks and travels down the back of the leg all the way to the ankle.

All of these issues can cause pain, restricted range of motion, numbness, and often a person can have a few of these issues occurring simultaneously. It is important to not just mask symptoms, but to be evaluated by an orthopedic doctor, as well as a chiropractor. Sometimes an M.R.I. is essential in seeing the extent of the problem. Treatments with chiropractic, physical therapists are extremely beneficial, as well as understanding what everyday exercises to do at home. Also knowing what foods and supplements to make part of your lifestyle. When we are proactive, and willing to make healthy choices in our lives most problems can improve and be prevented. Think Forever young especially as we become older. Information is power.

Dr. Marty Finkelstein lives in Briar Creek with his wife Julie Austin. He has written several books regarding wellness and had a chiropractic office in Atlanta for 40 years.

## Humane Society & the Haven

*Barbara Bergling*

Thanks for all your generous donations for the Humane Society and the Haven. I used to be able to donate clothes, but they no longer accept them. The exception is new socks for children and things in all sizes for use in the show.

The humane society and the Haven also don't accept sheets. Remember that if your linens are in good condition, we sell them at our bazaar.

The humane society request is for everything you are donating but especially towels. Also, they receive a lot of dog food and treats but very little cat food or treats. Thanks to all of you for your donations. As I have said before, Briar Creekers are extremely generous.

Thanks again everyone

Barbara Bergling
