# NOVEMBER HAPPENINGS

---

**N**OVEMBER 2 National Men Make Dinner Day on the first Thursday in November. This day places the man of the house in charge of the kitchen and the evening's meal. Men need to be aware that there is a list of rules that must be followed, some of which include: The main meal must include a minimum of 4 ingredients and require at least one cooking utensil other than a fork. The man does the shopping for all the necessary ingredients. Clean up as you go. Aprons are optional.

**NOVEMBER 5** Daylight Saving Time ends on the first Sunday in November at 2:00 AM. The saying goes: Spring forward, Fall backward - so turn your clocks back one hour to gain the extra sleep.

**NOVEMBER 11th** VETERANS DAY on Saturday, in 2023 - honors military veterans who served in the United States Armed Forces. The federal holiday coincides with Armistice Day and Remembrance Day, which marks World War I. These observances reflect the end of significant hostilities at the 11th hour on the 11th day of the 11th month of 1918 when the Armistice with Germany took effect. Initially, the United States observed Armistice Day as well. However, it evolved into the current Veterans Day in 1954. On September 27, 1920, the American Legion family decided to use the poppy as a symbol to memorialize the soldiers who fought and died during the war has been a federal holiday since 1926.

*continued on page 8*

## What does the red poppy symbolize?

Our red poppy is a symbol of both Remembrance and hope for a peaceful future. Poppies are worn as a show of support for the Armed Forces community. The poppy is a well-known and well-established symbol, one that carries a wealth of history and meaning with it.

NOVEMBER 23rd Thanksgiving Day is observed each year in the United States on the fourth Thursday in November. In 1621, the Plymouth colonists and Wampanoag Indians shared an autumn harvest feast that many acknowledge today as one of the first Thanksgiving celebrations in the colonies. For more than two centuries, days of thanksgiving were celebrated by individual colonies and states. However, it wasn't until 1863, amid the Civil War, that President Abraham Lincoln proclaimed a national Thanksgiving Day to be held each November.

**\*\*Note:** Participating Sport Clips Haircuts locations will donate \$2 from every hair care service provided on Veterans Day, November 11, to support the VFW's "Sport Clips Help A Hero Scholarship" program. The goal is to raise \$1.7 million for the scholarships, which are awarded to qualified veterans across all branches by sending the funds directly to the college or technical school of their choice.

### Stay Up-to-Date With Military Discounts

Want the scoop on military discounts? From travel to phones and everything in between, troops, military families and veterans can stay on top of military discounts. For veterans who receive Department of Veterans Affairs (VA) health benefits, the VA benefits photo ID card should serve as easy proof of veteran status at most businesses.

If you don't have a VA benefits card, the VA can provide you with a Veterans ID Card. Rolled-out in 2017, the Veterans ID Card program allows all honorably discharged veterans to apply for online and receive by mail a card meant to function as proof of service. While not an official form of government ID, most businesses accept it as proof of service.

Veterans who live in Florida can add a veteran designation to their driver license or ID card. To add Veteran to a license or ID card, veterans can visit any local service center. Replacement driver licenses are free to veterans only adding the "Veteran" designation.

## DAWN ON YOUR LAWN

Research compiled by Terri Campbell

**D**o you have chinch bugs in your lawn? If so, you may want to try a cost effective DIY solution of Dawn dish soap and water to get rid of them. Be advised, experts recommend that you seed the lawn after treatment kills the chinch bugs.

How does Dawn dish soap get rid of chinch bugs? Dish soap kills bugs by melting the waxy coating on their exoskeletons. This means all bugs with exoskeletons will die if you use dish soap, not just chinch bugs. Start on the edge and work your way in. You **DO NOT** want to dehydrate and kill your grass, so be sure to treat your lawn as described below. Reports show this solution works and it is safer for animals as well.

Do you even have chinch bugs in your lawn?

Helpful Tips in Finding the Insects:

Take a large metal coffee can with both ends cut out. Push and twist the can so it cuts into the grass to the soil line. Pour a mixture of water mixed with a small amount of dawn dish soap into the can. The bugs will float to the surface, if the water doesn't absorb too quickly. Look for an 1/8 inch long bug with silver/white wings that appear to give the wings an hour glass appearance.

Repeat in several areas of your lawn, especially at the border of yellow patches. Return after ten minutes and count chinch bugs floating on the surface:

- 5+ chinch bugs per can: a serious infestation. Continue to the next step for treatment.
- 2–4 chinch bugs per can: low-level infestation. Improve lawn health and test again later.

Treat immediately if your lawn is in poor health. Dawn products (not extra-strength, grease-cutting, or anti-bacterial) are usually safe in a solution of 2½ tbsp dishwashing liquid per 1 gallon water (40 mL per 4 L). Mix in a clean sprayer, then shake or stir vigorously to combine. If using an insecticidal soap, dilute it following label instructions instead. Spray the soapy water onto your lawn. Drench the damaged area of your lawn using a spray bottle or hose attachment. For best results, do this on a cool, still morning or evening. In windy or hot weather (especially above 90°F / 32°C), there is a much higher chance of damaging your plants. Try to avoid getting the soap in contact with nearby plants. Some trees and flowers are particularly vulnerable to soap damage, especially during times of drought.[9]

If you're concerned about potential damage, test a corner of your lawn first and check on it after 24 hours.

Spread a flannel sheet over the soapy area. The chinch bugs will run for cover and get caught in the nap of the flannel. Return after ten or fifteen minutes to vacuum the pests off the sheet, or drown them by putting the sheet in a bucket of water

What causes chinch bug infestations?

Any lawn might have a few chinch bugs, but large swarms usually thrive only in stressed lawns. Mowing too short (less than 4 inches), adding too much fertilizer, or watering too much or too little can all make your lawn vulnerable. A thick layer of thatch provides an ideal home for chinch bugs, so dethatch your lawn annually.

A coyote can hear a mouse moving almost a foot under the snow?

Monkeys can go bald in old age, just like humans?

Manatees can actually swim up to 20 MPH?

There are three main ways that chinch bugs enter yards. One way is by infestation from neighboring yards. The second way is by transport on your shoes. Chinch bugs can be picked up on your shoes, transferred to your lawn and then they'll start feeding once you walk across the lawn.

Finally, chinch bugs can come into your yard in a bag of grass seed or sod where they were hidden inside the package. They're usually well-hidden so inspecting packages for chinch bugs before installation is important. Chinch bugs feed on the roots of grass plants which leaves brown patches on the lawn as they move along it. They also leave those telltale brown patches when they're crushed as pest control companies recommend mowing at a height of 4 inches or higher to minimize the chance of spreading them across your lawn with your lawnmower blades.

### HOW LAWN SERVICE COMPANIES CAN HELP SPREAD CERTAIN INSECTS AND TURF DISEASES

Yes, lawn service companies, especially if mowing when the grass is wet, can transport grass to another lawn. The grass sticks to the bottom of the mower when wet and can fall off in clumps on the next lawn. While this is a drawback to using a service, in Florida it is usually only a matter of time before insect damage will occur. It will be difficult to prove the lawn service is responsible since these insects are such a common problem in Florida. According to Florida experts on chinch bug research, most heavy damage occurs in May through October, but can occur year around

Do bugs hate Dawn dish soap?

It turns out that soap and alcohol—the two main ingredients in Dawn Powerwash Spray—are both great at killing insects. The soap clogs up insects' breathing tubes, essentially drowning them. Alcohol dries them out as well. If you see ants on the counters and walls, try spray foaming them with Dawn powerwash to get rid of them. There is a you-tube video that shows it working in a live demonstration.

But that's not ALL!

<https://www.countryliving.com/shopping/a44269879/dawn-powerwash-insect-killer/>

It's not much of a secret that *Country Living* editors love Dawn dish soap. Besides being great at cleaning dishes, the classic blue squeeze-bottle stuff can get paint out of clothes, make porch screens look new again, and even unclog a toilet. It's great!

The best part is that the soap itself is gentle and multi-purpose, meaning that you can comfortably spray it onto glass, wood, tile, or even some fabrics (kitchen table cloths have not been a problem) and whether you get the bug or not, you just wipe it off, and all you've done is clean a little! It's a win-win.

## Health Benefits of Hemp Seed Oil

- Terri Campbell

---

**H**emp seed oil is extracted from seeds of the hemp plant. The extraction occurs through cold-pressing, similar to the way that olives are cold-pressed to make olive oil. Although the hemp and the cannabis (marijuana) plant belong to the same plant family, *Cannabis sativa L.*, they are two different plants and have different compositions. The most notable difference is the amount of tetrahydrocannabinol (THC) present in each plant.

THC is the psychoactive portion of the cannabis plant. It's the chemical that makes you feel "high" and the cannabis plant has high THC levels (up to 28%), but the hemp plant's THC concentration does not exceed 0.3%. Hemp plant products are unlikely to create a "high" and are mainly used for medicinal purposes.

### Health Benefits

The many health benefits of hemp seed oil come from its high content of three polyunsaturated fatty acids with a ration that is ideal for health benefits in humans.

#### Benefits include:

##### Improved Skin

- ✓ improves symptoms of atopic dermatitis, also known as eczema, as well as psoriasis, and acne. In addition, hemp seed oil strengthens the skin and makes it better able to resist infection.

##### Lower Blood Pressure

- ✓ Omega-3 fatty acids abundant in hemp seed oil can help lower blood pressure in people with hypertension (high blood pressure), Works along with blood pressure medicine to lower blood pressure.

##### Promotes Heart Health

- ✓ Hemp seed oil is rich in linoleic acid, which significantly reduces total cholesterol and low-density lipoprotein (LDL), or "bad" cholesterol, and reduces your risk of high blood pressure, stroke, and heart disease.

##### Pain Relief

- ✓ Hemp seed oil's anti-inflammatory properties help to reduce pain. You can apply hemp seed oil directly to the painful area for natural pain relief.

##### Inflammation Reduction

- ✓ Gamma-linoleic acid (GLA) present in hemp seed oil has been shown to reduce inflammation. Studies suggest that natural herbs rich in GLA are effective in relieving symptoms of inflammatory conditions, such as irritable bowel syndrome (IBS), rheumatoid arthritis (RA), and multiple sclerosis (MS).

### Health Risks

Although hemp seed oil offers many health benefits, it's important to be aware that Hemp seed oil's ability to lower blood pressure may cause issues for people who have chronically low blood pressure. Low blood pressure also increases the risk of complications and death during surgery. Your doctor may recommend you stop using hemp seed oil for a period of time before and after surgery.

According to: [www.blueskyhempventures.com](http://www.blueskyhempventures.com): Studies suggest that the rich nutrient

profile of Hemp Seed Oil provides the following benefits when taken orally:

- Promotes Heart Health
- Immune System Booster
- Hormone Balancing
- Assists in Weight Loss
- A Powerful Anti-Inflammatory
- For Pain Relief
- For Improved Cognitive Functioning: known to improve memory and prevent age-related brain function decline. Studies also suggest that Hemp Seed Oil can reduce the symptoms of depression and lessen anxiety.
- Enhanced Digestive Health: known to reduce any inflammation in the digestive tract and may relieve some digestive tract problems such as inflammatory bowel disorder. In addition, the fatty acids in Hemp Seed Oil promote the good microbes in the gut flora which improves digestion and overall digestive health.

#### Amounts and Dosage

While the Food and Drug Administration doesn't provide a recommended daily allowance (RDA) for hemp seed oil, you may wish to consume hemp seed oil to receive its beneficial health effects.

The amount of hemp seed oil you take depends on how you use it and what health benefits you would like to obtain. For a 2,000-calorie diet, about 2 tablespoons of oil daily is recommended.

You can drink hemp seed oil straight or mix it into salad dressings or other foods. You can also use hemp seed oil in place of olive oil for cooking.

One tablespoon (15 milliliters) of hemp seed oil contains:

Calories: 125      Total fat: 14 grams      Saturated fatty acids: 1 gram

Monounsaturated fatty acids: 2 grams      Polyunsaturated fatty acids: 11 grams

As with any oral supplement, be sure to talk to your healthcare provider before consuming hemp seed oil.

#### HOW TO use Hemp Seed Oil Topically:

If you are using hemp seed oil topically, be sure to try a small amount first to test for skin irritation. Hemp Oil is suitable for all skin types. It is particularly beneficial for those with dry or mature skin. Try:

- Massage a few drops over a cleansed and moisturized face, for a DIY facial serum.
- Apply after bathing or showering as a body oil.
- Massage into nails and cuticles after removing nail polish

With the passing of the US's 2018 Farm Bill, legalizing hemp production, we're only just getting to know about hemp and its "magical" properties. As more research is conducted, expect to see more and more hemp-based product in the grocery aisle, pharmacy and in cosmetics. If you are looking for an unusual gift to try for Christmas - this is a great gift idea!

Amazon sells Hempseed oil products for arthritis for \$20 +, Target and Walmart sells products for about \$10 - \$20. The website for the 5 Best Hemp Creams on the market in 2023 - [www.consumerreviewusa.com/](http://www.consumerreviewusa.com/)

## COLD WEATHER JOKES

Welcome back snowbirds! You can be glad you own a little piece of paradise right here at Southwind in Palm Harbor, Florida! These jokes are for you, to remind you of what you left so you could come and be here for the winter. For us "Year-rounders" we can appreciate what we have right here at home, where the only white stuff we see on the ground here is sand... and it's really nice to walk around barefoot on the beach in the sun.

New England Home: My husband and I purchased an old home in Northern New York State from two elderly sisters. Winter was fast approaching and I was concerned about the house's lack of insulation. "If they could live here all those years, so can we!" my husband confidently declared. One November night the temperature plunged to below zero, and we woke up to find interior walls covered with frost. My husband called the sisters to ask how they had kept the house warm. After a rather brief conversation, he hung up. "For the past 30 years," he muttered, "they've gone to Florida for the winter."

### HOW COLD WAS IT? It Was So Cold that...

We had to stop eating with metal cutlery. Some people walked around for days with spoons or forks stuck to their tongues!

Hitchhikers were holding up pictures of thumbs!

The optician was giving away free ice scrapers with every new pair of eyeglasses!

Pickpockets were sticking their hands in strangers' pockets just to keep them warm!

The dogs were wearing cats!

Starbucks was serving coffee on a stick!

We had to carry around hammers and chisels so we could get out of our parkas!

When we milked the cows, we got ice cream! When we milked the brown cows - we got chocolate ice cream!

The Husky Association was making emergency service calls to get the dog teams started! When we parked the sled, we either had to plug in the dogs - or keep them running in place!

Short winter jokes...

What kind of ball doesn't bounce? A snowball

What bites but doesn't have teeth? Frost

What do you call a snowman in August? A puddle.

What do you call a slow skier? A slope-poke!

Which one is faster: hot or cold? Hot. You can catch a cold

What do you sing at a snowman's birthday party? "Freeze a Jolly Good Fellow!"

Why did the girl keep her trumpet out in the snow? She liked playing cool jazz

What do you call a snowman's temper tantrum? A meltdown

How do polar bears make their beds? With sheets of ice and blankets of snow.

Why don't you see penguins in Britain? They're afraid of Wales

What does a snowman take when he gets sick? A chill pill.

What often falls in winter but never gets hurt? Snow.

How do mountains stay warm in winter? They put on their snowcaps.

What do you call a skeleton that goes out in the snow? A numb-skull.

# FLORIDA ANCHOR AND BARRIER COMPANY

To our valued customers:

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety but yours as well. We check workers' temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

Wishing you good health and safety,
