## From The President

*Diane McSweeney*

Welcome to June. Hurricane season is now upon us. Thank you to everyone that has secured any items around their homes and in the driveways. Items that can easily be picked up in high winds may damage your home or another resident's home. I would like to thank the hurricane security team in advance for volunteering. Danny and Norma Murphy and Steve Sikorski and their crew. In all honesty, I really hope their help is not needed.

While thanking folks, a special shout out to storm water committee, Bob Dunn, John Boyle and Kirby Blakey. Their help has been invaluable. We have recently had the storm water drain pipes inspected via a camera. The pipes are over fifty years old with a life expectancy of fifty years according to the reserve study. John will be reviewing the video footage to determine any problems we may incur. Bob stayed with the Blueworks team for two days as they did their inspection. This footage will also serve as great resource if any damage is done as the sewers are replaced. We are so fortunate to have such dedicated volunteers that give up their time and energy.

The park received two great donations this last month. The Virdens donated a stair stepper to the gym. Ken and Nita Abkemeier donated a Christmas tree for our holiday decor. Many thanks to both families.

The palm trees were trimmed. The arborist did a great job. Most all residents were pleased with the outcome.

It is very quiet in our community at this writing. The park looks great! Your efforts should be commended. We are all in this together to maintain a five-star park. I applaud those that lend a helping hand to the neighbors that need assistance in keeping up their residences. We all coexist in our community making great neighbors and friends.

Have a great summer.

# From The Office

Gay Rosetti

The time your newsletter is published most of you will be gone for the summer and returning in the fall or after the Holidays. You can always catch up on the news via our website. David publishes it every month on the Holiday Shores Web. If you haven't received access to the website, send us a request via email and we can forward your information to the webmaster. He will set you up on the website and send you an email invitation with instructions on how to log in.

Welcome New Neighbors Announcement. We are starting our first neighborly announcement. The future Welcome New Neighbor page will be set up in next month's Newsletter.

The Board of Directors would like to give a big shout out to all our new neighbors.

The next major project in the community will be the new sewers. Pinellas County has received grant money and is using it to install new sewers in several mobile home parks. As you know Holiday Shores is also included in this project. We do not have an exact date or time frame for our park, but we assume from the conversations we have had with the county that it will likely be later in the year 2025.

## Special Needs

---

**P**inellas County assists residents with medical, functional or special transportation needs in an emergency. Register for the program in advance to make sure you have the resources you need during a disaster evacuation.

### Eligibility

Residents of all ages who have special needs are eligible for the program. Some examples include but are not limited to:

- Needing oxygen.
- Requiring assistance with routine care and medications.
- Requiring mobility assistance.
- Dependence on electricity.
- Requiring transportation assistance.

### How to Register

There are several ways to register for the program:

- Register online.
- Request a form be mailed to you. Call Pinellas County Emergency Management at (727) 464-3800.
- Print out a form and mail it to Pinellas County Emergency Management, 10750 Ulmerton Road, Building 1, Suite 267, Largo FL 33778 or fax to (727) 464-4024.
  - Printable form in English
  - Printable form in Spanish
  - Printable form in Vietnamese
- Ask your health care provider to assist you with registration.

### Program Activation

- Pinellas County Emergency Management activates the Special Needs Evacuation Program during times of mandatory evacuation.
- Pinellas County can provide transportation to a shelter, but you must register for the program. Transportation is not automatically approved for anyone traveling to a special needs shelter. Approval for transportation to a general population shelter will depend on your proximity to a Pinellas Suncoast Transit Authority (PSTA) bus stop and your ability to get to the bus stop. During an evacuation, the County will call registrants to confirm that they still need transportation. To avoid any delay in receiving that call, registrants should annually confirm the accuracy of their contact information on file with Pinellas County Emergency Management.
- ***Please register in advance; do not wait until an evacuation is called!***
- Once an evacuation is ordered, a list of public shelters will be posted on this website and announced to local media. Not all shelters open for every storm, and the locations

of the shelters may vary, so please confirm the location of the open shelters before you go. During emergencies, the County Information Center is open, and can answer your questions. The number is (727) 464-4333 (open during emergencies only.)

### **What to Expect at a Shelter**

The Florida Department of Health in Pinellas County and Pinellas County Schools staff special needs shelters with nurses and other medical personnel. Oxygen and emergency power are available, but air conditioning may not be available if power is interrupted.

Shelters will serve three meals per day. However, special dietary restrictions cannot be accommodated. If you have special dietary requirements, you must pack your own nonperishable food items. For your comfort, bring items such as bedding, sheets, pillows and blankets. Cots are available on a limited basis and are not guaranteed.

### **Caregivers and Family**

If you require a caregiver’s assistance at home, it is strongly recommended that they accompany you to the shelter. Immediate family members may accompany you to any of the shelters.

### **Pets and Service Animals**

Service animals that have been individually trained to do work or perform a task for a person with a disability are allowed in any shelter. There is no registration requirement for a service animal.

Pets are not allowed in special needs shelters. Pinellas County offers several pet-friendly general population shelters. If you are registered for a special needs shelter and you have no other options for your pet, call Pinellas County Animal Services at (727) 582-2600 to register your pet. Animal Services will make arrangements to care for your pet throughout the duration of your shelter stay.

## Manufactured Home Tie Down and Anchoring

**Tie-downs anchor the home to the ground providing stability and protection against severe weather events.**

Lic# IH/1149363

Tie-downs are important for the safety of manufactured homes, also known as mobile homes, because they stabilize the home during high winds. Strong winds can lift them up or cause them to roll over in a tornado or hurricane.

At United vapor barrier & floors we follow all of the 15C Florida regulations to provide safety and security to your home!

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

### ***On how to diaper a baby***

*Spread the diaper in the position of the diamond with you at bat. Then, fold second base down to home and set the baby on the pitcher's mound. Put first base and third together, bring up home plate and pin the three together. Of course, in case of rain, you gotta call the game and start all over again.*

## To tell the truth

---

Once a young man from Ohio was running for the Senate. One day his political adviser called him into his office and seemed quite upset.

“What’s wrong?” the young politician asked.

“You’re going to have to go to Cleveland right away or you’re going to lose a lot of votes,” the adviser said. “They’re telling a bunch of lies about you there.”

The young politician thoughtfully rubbed his chin and said, “Well, I’ve got to go to Cincinnati first.”

“Why do you have to go to Cincinnati?” the adviser asked.

“They’re telling the truth about me there,” the candidate replied. As retold from *Good Clean Jokes*, by Anne Kostick, Charles Foxgrover and Michael J. Pellowski

## Keeping a stopwatch on your desk might be a good idea

---

Georges Doriot invented the practice that has become known in recent times as venture capitalism. In other words, he had the ability to assess thousands of business proposals and then fund the best ones. According to the PBS Web site, Doriot pioneered the development of venture capitalism in the 1950s. He was born in France in 1899, and then traveled to the United States to study. He ended up staying on and working for an investment bank and taught at Harvard Business School.

The savvy businessman was known for keeping a stopwatch on his desk and telling those who asked him about it, “Sometimes I use it to see how long it takes someone in a meeting to tell me the same thing three times.”

## Is your ice cream feeling a little warm?

---

The two substances in ice cream that are usually varied are the amount of fat and air that are incorporated. According to *On Food and Cooking: The Science and Lore of the Kitchen* by Harold McGee, “ice cream is a foam that is stabilized by freezing much of the liquid.” So if you’ve ever bought an ice cream that seems a bit warmer and fluffier than other versions you’ve had, the reason is probably because the brand you’ve bought is cheaper and incorporates more air. What this means is that the sensation of coldness is lessened because there is less ice and less icy solution because more air has been added to the frozen foam mixture.

Another thing that can happen is that fat content can be reduced in a brand. This can in reverse fashion result in a product that feels colder. This is because the fat globules are not present to break up the ice crystals. Often this also produces a grainy, ice-flecked texture to the brand—think ice milk and sherbet products.
