HAPPY SUMMER EVERYONE! We hope everyone is enjoying the season so far. This month brings Fourth of July celebrations. As we commemorate our Independence Day, we must also think about safety. Fireworks cannot be discharged in the Oakcrest/Acorn community. In fact, except for sparklers and caps, fireworks are not permitted anywhere in Pinellas County without the proper license. We live in a great area for events, and there are nearby public fireworks displays on the Fourth for your viewing pleasure. Largo Central Park will begin festivities at 6 p.m. In Clearwater, activities will kick off at 5 p.m. in Coachman Park. Maderia Beach will celebrate with fireworks a day earlier on the 3rd at 9 p.m. We hope you enjoy this Independence Day holiday.

With safety in mind, please remember that digging anywhere on your lot, either by you or a contracted professional, requires advance permission from the office. Please do not assume that the professional you hired has notified the office or has had any of the utilities marked out. We have water and sewer lines, cable and high voltage electrical transmission lines buried in the ground through the community. Be wise and be safe contact the office before digging. Revised By-Laws for the HOA were approved at the June 10th meeting. They are posted on the Oakcrest/Acorn HOA page.

There is no HOA meeting in July.

Resident's Club

Mark Zanol, President

Debbie Phillips was elected by the Board to serve as 2nd Vice-President. There are currently two district directors vacant, which will be appointed in the future.

Veri Med will be sponsoring a July Fourth picnic for up to 100 lucky residents. They are the ones that set the number of guests and we have no control over it. This will be on Tuesday, July 2 in the clubhouse. To ensure fairness and let you know ahead of time we're going to have a lottery drawing. In the clubhouse back by the bulletin board will be our lottery tickets. Fill one out and drop it in the box. The box and tickets will be available for you June 14 to June 24 back shelf at the clubhouse. PLEASE ONLY one ticket per lot but all residents that live there are included. On June 25 we will draw lottery tickets and keep drawing till we have 100 peoples. Then we will post a sheet with lot numbers so you can check if you won. Also, will post it on Facebook page Oakcrest Acorn 2018/2019. You may also text 440-318-4738 and ask if your lot number won. Also text this number if you won and can't attend so we can make sure someone else is included. I'm sorry there will be no home deliveries. General Information

If a resident has a persistent problem for which the park is responsible and you are not getting the action you need, the HOA has a form to document your issue and ensure the park addresses it. This does not mean the park will remove healthy trees, replace sidewalks with certain cracks, or replace all the piping in the park. You must have tried to have the park address the issue before we escalate it.

Please remember children are not allowed to drive golf carts. They must be at least 15 years old with a learner's permit, or 16 with a license.

Perspective is everything

Once, a man who had had a very long day made his way to the train. Along the way, he dropped his brief-case, stepped in gum and had to wait in a long line just to get through the turnstile. When he got on the train, it was crowded and hot because the air conditioning system was not working.

This man was usually a very kind and reasonable man, but on this day his nerves and tolerance were wearing thin. At the first stop the train made, a young woman who was talking very loudly on her cell phone boarded.

People talking loudly on cell phones happened to be one of the man's pet peeves and considering that he'd already had a rough day, the blaring voice was really bothering him. He thought back to how the day had started. His boss had questioned his competence — and it had all been downhill from there. He was fed up with his boss not trusting him. Maybe he would start looking for a new job.

His getting-a-new-job fantasy was interrupted when the young woman practically screamed in his ear, "I need to know. I need to know right now."

Because the man was not in the greatest mood, he internally rolled his eyes at what the woman was saying. "What could be so important?" he thought to himself. She's probably in a fight with her boyfriend and she wants to know if he's been cheating on her. The man closed his eyes and took refuge in dreaming about the day he would turn in his resignation — and the shock and regret with which it would be met. He even allowed himself a delicious moment of allowing his boss to beg him not to go.

However, the man was once again drug from his reverie by the woman loudly declaring into the device "I need to know. I need to know right now."

The man was ready to explode now. He was going to tell the silly woman to keep it down. Who did she think she was anyway, acting so ignorant on the train? Who didn't know how rude it was to talk loudly on cell phones in public these days? Even the Transportation Authority had launched a campaign of clever signs reminding people how annoying this could be. Yes, he would say something. She deserved it for trampling all over his fantasy of his boss begging him not to leave. She deserved it for being loud and obnoxious. He was going to let her have it. It was going to be great.

Just then the train pulled into a stop and a young man boarded and saw the woman. He threw his arms around her, and with tears streaming down his face he buried his face in her shoulder.

"The hospital just called," he said. "She's stable."

On speaking and silence

Sometimes it seems that people hear best what we do not say.

— *Eric Hoffer*

Headlines: Sometimes weird and embarrassingly obvious

According to PoynterOnline Multimedia Editor Larry

D. Larsen, the following headlines have actually appeared on news stories. Here are a few of his favorites:

- Woman found dead with arrow in head
- Three cheers for Spears' rear
- Flying moose lands on car's roof
- Police chief fries thief
- Chong gonged for selling bong
- First ever pooper scooper powwow
- Kraft: Who cut the cheese?
- Snowstorms may be precursor of winter
- Bombs are frightening, SA human shield says
- Police find body in cemetery
- Flaming car with body inside "suspicious"
- First-time exotic dancers should avoid the pole
- Minnesota's population aging faster than predicted
- Girl gives frozen metal pole a lickin', her tongue keeps on stickin'
- Authorities seek flasher—police: Man typically wears no pants
- Activist upset by Girl Scouts in Alaska who trap, skin beavers
- Police: Man slashes friend in argument over who has hairiest buttocks
- Grits argument turns violent
- Experts sniff out why Uranus gas is silent but violent

In the 'it's not as easy as it looks on TV' category...

The Victorville, Calif., Daily News recently reported a burglary gone wrong ("Burglary attempt backfires," by Katherine Rosenberg). A would-be burglar and his accomplice decided they would rob a store. And in a brilliant move, one of the criminals decided he would use a gun to burglarize a cell-phone store that closed at about 1 a.m. The owner of the store said one of the burglars decided he was going to "Jesse James" the lock, or shoot the metal lock out. As bad luck would have it (for the criminal, that is), the bullet ricocheted off the lock and slammed into the man's chest. While the bullet did not puncture the skin of the gunman, the security camera did catch a not so pretty picture of the incident: The bullet angled off the lock, thumping the man in the chest and knocking the air out of him causing him to vomit on the spot.

On regret

My one regret in life is that I am not someone else.

— *Woody Allen*

Manufactured Home Tie Down and Anchoring

Tie-downs anchor the home to the ground providing stability and protection against severe weather events.

Lic# IH/1149363

Tie-downs are important for the safety of manufactured homes, also known as mobile homes, because they stabilize the home during high winds. Strong winds can lift them up or cause them to roll over in a tornado or hurricane.

A roadside mystery

A man was walking alongside a road when he saw a car come swishing by and run over a rabbit who was hopping across the road.

The man was surprised when the car pulled over and a man got out carrying an aerosol spray can. The driver proceeded to walk back to the rabbit, leaned over and sprayed the entire contents of the can onto the rabbit.

To the observer's great surprise, suddenly the rabbit twitched, and slowly pulled itself from the road, shaking itself as if to wake up. Then the rabbit began to make its way down the road, but after a few hops, it turned around and waved. Then the rabbit turned back to its path but it stopped again after a few steps and turned around once more and began waving wildly. The rabbit continued in this way until he disappeared over the horizon.

Befuddled and scratching his head the observer watched as the man who had sprayed the rabbit, tossed the can alongside the road and got into his car and drove away. Curious, the observer walked to the can and picked it up. The label read: For hair restoration and permanent wave. As retold from *Good Clean Jokes*, by Anna Kostick, Charles Foxgrover and Michael J. Pellowski.

A look into the brilliant mind of a CEO

A CEO was standing in front of a shredder looking vexed as a young executive happened by.

“Darnit, the CEO said. “This is really important and my assistant is gone. Do you know how this stupid machine works?”

“Sure,” said the young executive. He turned the machine on and held the paper against the opening so that the machine grabbed on to the sheet and started to pull it through.

“This is great,” said the CEO. “I just need one copy.” As retold from the Office Diversions Web site.

On yoga

I was in yoga the other day. I was in full lotus position. My chakras were all aligned. My mind is cleared of all the clatter and I'm looking out of my third eye and everything that I'm supposed to be doing. It's amazing what comes up when you sit in that silence. "Mama keeps whites bright like the sunlight, Mama's got the magic of Clorox 2."

— *Ellen DeGeneres*

A mind to admire

He had a mind so fine that no idea could violate it.

Gift of olive oil keeps on giving

According to Greek mythology, Zeus once held a contest to see who would be awarded patronage of Attica. The patronage would be awarded to the god or goddess who provided the most useful gift. Poseidon, to show that he would be a great patron, took his trident and struck open the rock of the Acropolis, and from the crevice poured a great spring of water. But when the Athenians tasted the spring water, it was salty, since Poseidon was a sea god. Athena, when her turn came, made an olive tree grow on the Acropolis. From this the Athenians were able to produce oil, from which lamps were lit, anointing the body could take place, and food preparation was possible. Athena won and became the patron god of Athens. (Mythology, Edith Hamilton)

Olives were cultivated in Crete as early as 2500 B.C., according to Peggy Knickerbocker in *Olive Oil: From Tree to Table*. And today, health experts say that even though Americans have a better health-care system and Greeks smoke more than we do, they live longer and have lower rates of cancer and heart disease than Americans (“Olive oil fights heart disease, breast cancer, studies say,” by Stefan Lovgren in *National Geographic News*.)

Why is olive oil so good for you? The answer is simply this: Olive oil is high in monounsaturated fat — which is the “good” fat you hear about when doctors are preaching to you about cholesterol. Even the Food and Drug Administration has gotten on the olive oil bandwagon and has allowed the health claim that monounsaturated fat from olive oil can decrease the risk of coronary heart disease.

New studies have shown that oleic acid, which is the main monounsaturated fatty acid in olive oil, can actually cripple a gene that is responsible for 25 percent to 30 percent of breast cancers today. Javier Menendez of Northwestern University, one of the study’s authors, says that the Mediterranean diet, which is laced with olive oil, has significant protective effects against cancer, heart disease and aging.

All of which makes Athena’s tree a pretty good gift.

In praise of the pomegranate

It is said that the Prophet Muhammad encouraged his followers to eat pomegranate fruit to purge themselves of envy and hatred. Now, the fruit is being touted for its ability to purge the arteries of fatty deposits—and therefore slowing down the process of hardening of the arteries and cardiovascular disease.

The word pomegranate comes from the Latin *pomum granatum*, meaning apple of many seeds. And, the pomegranate does look somewhat like an apple and contains many seeds.

Today, health experts are singing the praises of the pomegranate for its apparent protective powers. Pomegranates are loaded with Vitamins A, C, E and iron, and the fruit is known as a powerful antioxidant that helps fight off free radicals in the blood. Free radicals can cause damage to the body if they are not controlled by antioxidants. Experts now believe that pomegranates contain the highest antioxidant capacity of any other natural juice, red wine or green tea. Antioxidants are substances that occur in plants and help protect the body from free radicals. Free radicals can affect cholesterol and can speed up the process of hardening of the arteries. This process takes place through what is known as oxidation, which causes narrowing and sometimes blockages in arteries.

One great benefit of pomegranate consumption, according to experts, is that it is believed to reduce the risk of cardiovascular disease. According to a BBC News story by Jini Reddy, studies in Israel have shown that drinking pomegranate juice slows down oxidation—by almost half—thereby reducing the retention of LDL, or bad cholesterol. In another study on pomegranate consumption in Naples, Italy, researchers found that the effects of pomegranate juice in limiting hardening of the arteries were even higher than previously presumed, according to a National Geographic News story by Stefan Lovgren.

Mythology and cultural rituals have often attributed superpowers such as resurrection and fantastic longevity to the pomegranate—it seems that science is finally catching up and catching on to the possibilities of the pomegranate.
