THE FOLLOWING EXCERPTS ARE TAKEN FROM THE JANUARY/FEBRUARY 2025 AARP BULLETIN:

“**A**lcohol Deaths Rise for Older Americans: An alarming new study shows that alcohol-related death rates more than doubled in the past two decades, with particularly high levels among older Americans.

The dramatic increase in alcohol-related deaths (such as from cirrhosis, and alcohol poisoning) was especially high among 55-64 year olds. That group had the highest level of mortality – with 39.3 deaths per 100,000 people. The numbers have worsened since 1999 for every age group, including rising from 15.9 to 27.1 per 100,000 for 65 to 74 year olds.

Older adult can suffer from the cumulative effects of excessive drinking for many years. They don’t process alcohol as well as when they were younger. And other ailments that are on the rise, such as obesity, can add to the impact of excessive drinking.

Alcohol can negate some of the benefits of certain drugs, and exacerbate the side effects of others, such as lowering blood pressure too much.

Alcohol is a factor in many diseases, including high blood pressure, stroke, and breast and prostate cancers. And older adults have weaker immune systems, so stressing the system more with alcohol can leave people vulnerable to

Infection”.

For full articles see the January/February 2025 issue of the AARP Bulletin.

AARP Magazine – December 2024/January 2025

“How Much Is Too Clean? It’s natural to worry about germs and bacteria, especially as we age and our immune systems can become weakened. But “your home isn’t a petri dish growing scary diseases at every turn,” says microbiologist Shaun Veran. And some exposure to microbes, Veran says is like a “workout for your immune system teaching it to recognize and fight diseases more effectively.”

Gastroenterologist Robynne Chutkan, author of The Microbiome Solution and host of the Gutbliss podcast, says a good rule of thumb is to clean your kitchen nightly and the rest of the house weekly. More frequent cleaning is needed only for visible dirt, grime or mold or when someone in your household is ill. What else can you do: Introduce good microbes into your home says microbial ecologist Jack Gilbert of the University of California San Diego. Open Windows, Let pets romp indoors, Grow potted plants. Studies show that these three things lead to a higher level of beneficial microbial diversity inside the home, Gilbert says.”

SCAM ! ALERT

Romance Scams

www.fbi.gov/how-we-can-help-you/scams-and-safety/common-scams-and-crimes

Romance scams occur when a criminal adopts a fake online identity to gain a victim's affection and trust. The scammer then uses the illusion of a romantic or close relationship to manipulate and/or steal from the victim.

The scammer's intention is to establish a relationship as quickly as possible, endear himself to the victim, and gain trust. Scammers may propose marriage and make plans to meet in person, but that will never happen. Eventually, they will ask for money.

If someone you meet online needs your bank account information to deposit money, they are most likely using your account to carry out other theft and fraud schemes.

Tips for Avoiding Romance Scams:

- **Be careful what you post** and make public online. Scammers can use details shared on social media and dating sites to better understand and target you.
- **Research the person's photo and profile** using online searches to see if the **image, name, or details have been used elsewhere.**
- Go slowly and ask lots of questions.
- Beware if the individual **seems too perfect** or quickly asks you to leave a dating service or social media site to communicate directly.
- Beware if the individual attempts to isolate you from friends and family or requests inappropriate photos or financial information that could later be used to extort you.
- Beware if the individual **promises to meet in person** but then **always comes up with an excuse why he or she can't.** If you haven't met the person after a few months, for whatever reason, you have good reason to be suspicious.
- **Never send money to anyone you have only communicated with online or by phone.**

HERE'S WHAT'S COOKIN':

If you have a recipe you would like in an issue, please send to jafroscoe46@yahoo.com.

Soft Buttermilk Pie:

Ingredients: your favorite piecrust. Filling: 1 cup sugar, 3 Tbsp all-purpose flour, 1.4 tsp salt, ¼ tsp nutmeg, 1 cup buttermilk, 3 eggs separated (you need 3 yolks and 2 whites), 1 Tbsp lemon juice, ½ tsp vanilla extract, ¼ cup (1/2 stick) unsalted butter melted, whipped cream for serving.

Directions: Place your favorite pie crust into a 9 ½ inch deep dish pie plate.

For Filling: Preheat the oven to 350 degrees. Mix the sugar, flour, salt, and nutmeg in a large bowl. Add the buttermilk, three egg yolks, lemon juice, vanilla, and melted butter. Using an electric mixer, beat well for 30 seconds. Clean and dry the beaters. Beat the two egg whites in a separate bowl, just until they hold soft peaks. Add ½ cup of the liquid to the egg whites. Fold the mixture together. Add the egg whites to the remaining liquid and stir to blend. Pour the filling into the shell. Bake on the center oven rack for about 40 minutes, until the top of the pie is a light golden color. When done, the pie will be “set,” meaning that it will not move in waves when the pie plate is nudged. Cool the pie thoroughly on a rack, then refrigerate for at least 1 hour before serving.

Top slices with whipped cream, if desired. Makes 8 – 10 servings.
