## **SOCIAL COMMITTEE MEETING MAY 3 , 2017**

Chairperson, Sharon Reed, called the meeting to order. Sharon announced that Betty Sorrenti will be assuming the Sunshine/Memorial duties. Sharon also announced that the Scavenger Hunt had to be cancelled since nobody offered to chair the event.

Wayne Davis reported for the Safety Committee that there has been a substantial uptick in the parking violations. Nobody is to be parked on the streets past 11:00pm to allow emergency vehicles to pass safely.

As Board Chair, Wayne Davis reported that Duke Electric will repair lines at the meter. For further clarification:

## **SPECIAL NOTICE**

Dear Residents:

The Management of Amber Glades Estates Manufactured Home Community would like to remind residents that pursuant to the Community Rules and Regulations:

"Resident is responsible for maintenance of the water and sewer connections from the manufactured home to the point of connection located on the home site. Resident is also responsible for all internal plumbing lines and fixtures."

Therefore, should you experience issues with the water and/or sanitary sewer service at your home or home site and it requires work to be completed on the main service lines, Management requests that you first inform the Community Office so we can contact our own contractor for such repairs.

Thank you in advance for your cooperation in this matter. Should you have any questions, please contact the Community Office at 727-725-1811 Monday through Friday from 9:00am-5:00pm or 727-462-0633 after-hours.

Sincerely,

The Management of

## POT LUCK TRIVIA

We all enjoyed great food and we were all thoroughly stumped at the variety of questions posed by the Trivia Master. We will have another one and we encourage you to come out for the great food and enjoy how we were all trivia challenged and were able to laugh. By the way, important fact, the man that invented air conditioning was William Carrier. Remember this wonderful man!

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

## OPEN LETTER TO ALL AMBER GLADES RESIDENTS

---

Your social committee strives to bring you a diverse selection of activities through the year. During the summer months we try to offer fun events until our other residents return from up North. We as a committee appreciate any comments and suggestions that are offered to us directly so that we know what you’d really like as an activity. Unfortunately, we have already cancelled one event due to the lack of anyone volunteering to chair the event. If you have enjoyed any of the events over the past years would you consider stepping up and volunteering just a little of your time as others have done for you? If you are a new resident this is a great way to get acquainted!

Here are the events that we are in need of volunteers:

- |                |                           |
|----------------|---------------------------|
| July 4th       | *Cookout at the Clubhouse |
| July 22        | *Music on the Patio       |
| August 19      | *Trivia and Pot Luck      |
| September 16th | * Heritage Pot luck       |

Thank you for your help and understanding,  
Sharon Reed  
Chairperson Social Committee

Shuffleboard, Let's do Crafts, Sweating to the Oldies and Line Dancing are on summer hiatus. We will start again in the fall!

## **HORSES Thursday Night - 6:30 – 8:30pm**

Everyone is welcome to join us. We are a group of about 10 – 20, depending on who is available. No experience necessary – you don't even need to know how to ride a horse! We would love to welcome you to our (s)table.

## **BINGO.....Mondays.....6:30pm**

Looking for a fun night out? Join us on Mondays for BINGO at the clubhouse. The more the merrier! Prize payouts depend on attendance. Plan to come a few minutes early because the first game is a progressive cover-all and you will need time to mark the pre-drawn numbers.

## **BUNCO**

Every evert Tuesday at 1pm we play Bunco at the Clubhouse. It's a \$2 game and all the money goes back out as prizes. You don't have to know how to play, we'll teach you. See you there, just throw the dice!

## What do the instructions say? Creativity expert

**Y**oram Solomon often conducts workshops that teach people to approach problems with an open mind. In one exercise (recounted on the Inc. magazine website), he asks participants to build a structure out of a sheet of paper. Some cut the paper into smaller pieces, although his instructions don't specifically say they can.

Once everyone is finished, Solomon asks, "Did the instructions allow you to cut the paper?" Most believe they've done something wrong. But one person usually pipes up with, "You didn't say we couldn't, either."

"To be creative," Solomon points out, "don't assume restrictions that don't really exist."

## Beware these creativity myths

**C**reativity can seem magical and mysterious, but you shouldn't make assumptions that can hold your imagination back. Watch out for these misconceptions that can impede your efforts to find innovative ideas and solutions:

- **The "eureka" moment.** Many people believe that creativity is a sudden flash of insight. More often it's the result of research and persistence, immersing yourself in a subject, and then building on what you learn.
- **Inborn creativity.** You aren't necessarily born with the ability—or inability—to think creatively. You can learn the knack by asking questions, looking at things in new ways, and challenging the status quo.
- **Uniqueness.** Good ideas don't always spring from something new. Often the best ideas and solutions come from combining separate elements in different ways.
- **Lone wolves.** The stereotype of the genius working alone in an office or laboratory is misleading at best. Although some mavericks do produce good ideas totally on their own, many of the best ideas and solutions are the result of collaboration by smart, motivated people.
- **Brainstorming.** Brainstorming sessions can produce results if they're focused on a specific issue. If it's just a free-form session of throwing ideas around, chances are you won't generate practical solutions. Keep the discussion centered on the problem you're trying to solve.
- **No limits.** Creativity may seem to thrive on the concept of thinking beyond boundaries. In reality, constraints can force your thinking in the right direction. Try setting some limits to what you want to create—size, budget, deadlines—and see how that helps focus your imagination.

## Did you know June is also...

**Adopt a Cat Month.** Your local shelter has tons of cute, cuddly newborn kittens mellow older cats, and everything in between. Shelter staffers are ready to help you adopt your very first cat or bring home a friend for another beloved cat.

**National Dairy Month.** Start the summer with nutrient-rich dairy foods. From calcium to potassium, dairy products such as milk contain essential nutrients that can help you manage your weight and reduce your risk for high blood pressure, osteoporosis, and other health problems.

**National Zoo and Aquarium Month.** June is an excellent time to explore your local zoo and aquarium as well as the websites of America's great zoos and aquariums. Many of them have excellent educational resources—photographs, videos, facts, lesson plans, activities, and sounds so real you'll think you're there.

**PTSD Awareness Month.** The purpose of PTSD Awareness Month is to raise public awareness of PTSD and effective treatments and help all those affected by PTSD. Mental health experts aren't sure why some people develop PTSD and others don't, but if stress reactions don't improve over time and disrupt everyday life, seeking help to determine whether PTSD is present is important.

**National Automotive Service Professionals Week, June 11-17.** A weeklong celebration to honor the commitment and dedication of the automotive, truck, collision specialists and parts specialists who keep our vehicles running safely.

**Men's Health Week, June 12-18.** The purpose of Men's Health Week is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys. This week gives health care providers, public policy makers, members of the news media, and individuals an opportunity to encourage men and boys to seek regular medical advice and early treatment for disease and injury.

**National Nursing Assistant Week, June 15-22.** Nursing assistants work in hospitals and nursing homes performing everyday living tasks for the elderly, chronically ill, or rehabilitation patients who cannot care for themselves. This week is set aside to recognize the nursing assistants who dedicate their lives to the well-being of others.

**Global Day of Parents, June 1.** The Global Day of Parents was proclaimed by the UN General Assembly in 2012 to honor parents throughout the world in appreciation of their selfless commitment to children.

**Flag Day, June 14.** Fly Old Glory with pride!

**Father's Day, June 18.** A day to honor fathers everywhere.

## Flying in the face of disaster

---

In the 1980s and early '90s, Continental Airlines was a disaster. The organization had gone bankrupt twice and was on its way to a third (and final) catastrophe. It had gone through 10 presidents in 10 years, and employees mistrusted management.

Then in 1994 Gordon Bethune stepped in. Instead of running around willy-nilly trying to stamp out the various raging fires, Bethune took a step back to return to the basics. He identified Continental's key goals so that employees' efforts would be concentrated on them rather than diffused by the disaster of the moment. One of his areas of focus was creating a corporate culture. Without the commitment of the employees, the other goals would be impossible.

Drawing on the organization's history of excellence in service, he rallied the workforce. Bethune discovered that the employees weren't bad—they just worked in a dysfunctional organization. So they were quick to get behind his new leadership.

Senior management was a different story. Bethune knew he had to make wholesale changes, and that meant getting rid of the bureaucracy. In a couple of months, Bethune and his top executives replaced 50 of the company's 61 officers with 20 top-notch people.

The changes were dramatic. In one year's time, Continental went from being ranked the worst in customer satisfaction among major airlines to first.

## The birth of 'excellence'

---

Tom Peters didn't exactly give birth to excellence, but he did establish the idea that companies can achieve excellence under the inspiration of a management guru—like himself.

It all began in the spring of 1978. John Larson of McKinsey's San Francisco office was set to give a presentation to a client. But his computer crashed and took with it his notes. He turned to another consultant, Tom Peters, to throw together a presentation that would satisfy the client.

Peters had just returned from traveling the world to compile research on best practices in business. Up until then, his research had been collecting dust after he had presented it to the McKinsey powers that be. With an opportunity to present his findings again, Peters gathered his data. In search of a sexy title to give his presentation, Peters came up with "Excellence." It was a hit.

Eventually, Peters edited the material into a manuscript. Continuing with the idea of excellence, he titled the book *The Secrets of Excellence*. But the title didn't fly with the McKinsey folks, who feared that clients would think the company was selling the secrets of client operations. In 1982, Peters and co-author Robert Waterman renamed it the more politically astute *In Search of Excellence*. And thus was excellence born.

## Try ginger for its health benefits

---

Looking to get over a cold a little more quickly, or ease muscle soreness? A little ginger may help. Check out this list of ginger's healthy benefits from the Huffington Post website:

- **The common cold.** Some research suggests that ginger helps your body sweat out a cold, as well as producing a germ-fighting agent called dermicidin, which can protect you from bacteria and fungi.

- **Muscle aches.** One study by the American Pain Society found that taking two grams of ginger for 11 days can significantly reduce aches and muscle soreness caused by exercise. That's because ginger contains anti-inflammatory compounds known as gingerols, which prevent the transmission of pain from inflammation. Try adding a few slices of ginger every time you drink a glass of water.

## Watch out for 'masked' hypertension

---

Being diagnosed with high blood pressure may be scary, but thinking your blood pressure is normal when it's not? Scarier still.

The Live Science website reports that almost one in eight Americans who believe their blood pressure is just fine may really have a masked form of hypertension that doesn't show up when they visit their doctors. Instead their blood pressure is elevated during their daily activities, so they may be at increased risk of heart disease without realizing it.

To diagnose masked hypertension, researchers suggest wearing 12-hour blood pressure monitors that take readings through the day.

The flip side of this phenomenon is so-called "white-coat hypertension," in which patients' blood pressure increases at the doctor's office (possibly from nervousness?) but is normal the rest of the time. Unlike masked hypertension, these people don't appear to be at a higher risk of heart disease.

## Cleaner air = longer life

---

Take a deep breath. Lots of them. You'll be breathing longer these days, thanks to improved air quality. Researchers at Brigham Young University and the Harvard School of Public Health, writing in the *New England Journal of Medicine*, say that since the introduction of the Clean Air Act in 1978, Americans' life expectancy has increased by 2.72 years. Although changes in smoking habits and better socioeconomic living conditions are a major factor in our increased longevity, the scientists note that as much as five weeks of our lengthened lifespans are due to better air because of cuts in auto emissions, steel mills, diesel engines, and coal-fired power plants.
