## An Expression of Thankfulness

from Joe and Alys D'Amico

---

The last months have brought extreme sadness for Joe and Alys, plus challenging health issues for Alys. On May 7 Alys' 56 year old son passed away suddenly. On May 13 Joe's brother passed away at age 63. And on May 18 Alys' Femur was fractured, and along with this she developed pneumonia. This resulted in a 3 week hospital stay followed by a little over 3 weeks in in-patient Rehab. She is at home now, but will continue Rehab as an out-patient.

Through these difficult times so many of our friends and neighbors have been so supportive and comforting. We are deeply grateful for all the thoughtfulness and caring shown through cards, visits, meals, and most of all your many prayers.

We thank you all from the bottom of our hearts.

## Thank You

---

Bert and Evelyn Schroeder would like to thank everyone for their cards, thoughts and prayers during the tragic death of their 21 year old grandson, Kenneth Beaver, of Shasta Lake City, CA. They are thankful that they were able to be with Kenny and family at a reunion in PA for three days just before his death!

## With Sympathy

---

Former resident, Marge Staples, has gone "home" to be with her husband, Herb. For many years she was very active, always helping with the entertainments in Amber Glades. She was in charge of the library and took blood pressures at Koffee Klatches to name a few of her jobs. In 2013, Marge moved back to Stoughton, MA to be closer to her family. Marge was a 1st Lt. Flight Nurse in WWII and was buried with Military Honors.

Contributed by Catherine Barrowman, now living in Montana

## Former Resident Update

---

Many of you will remember Sis Lawrence, a former resident of Amber Glades. If there was a show or fun night, Sis was always taking part. She has lost her sight, is confined to a wheel chair and requires much help, but has years of happy memories of Amber Glades. A card from an old friend would cheer her day. Her current address is 100 Woodfield Dr., Milton, WV 25541.

# Multiply Your Monthly Mania!

As you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. We pay out \$400 every month to residents who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

## Now You Have More Chances to Win!

We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.  
*(To qualify each resident can only suggest a business once)*

# DAY TRIPS, CASINO TRIPS, MULTI-DAY TRIPS, CRUISES AND MORE

People keep asking for the Social Committee to offer more in the way of trips. We would love to do just that, but, we can't get anyone to volunteer to set these up for our residents. If you would be willing to help us out and be our Travel Chairman, please call and talk to Barbara Lee. Let's get this started and all enjoy trips around the area. All you have to do is make that call to Barb!

## WHAT ARE YOU THANKFUL FOR????

In the upcoming November edition of the newsletter I would like to include an article of what Amber Glades residents are thankful for. To do that, I have to know what YOU are thankful for (I don't think you want me to have to make it up!). Please take a few minutes and write a short note to me and be part of this article. Drop it off at Lot #397 or email it to [agsocialcalendar@gmail.com](mailto:agsocialcalendar@gmail.com)

*DON'T LET ME DOWN*...make me thankful for all your input!      Randi

## September Is...

---

**B**aby Safety Month. Drowning, falls, chemicals, and other hazards can endanger the life and health of any small child. During September, take a good look around your house and eliminate any threats to babies' safety that might be hiding in plain sight.

**Library Card Sign-Up Month.** A time to remind parents and children that a library card is the most important school supply of all. If you don't already have a library card, get one in September; if you do, visit your local library and use it.

**National Bourbon Heritage Month.** A celebration of bourbon as America's "Native Spirit." The U.S. Senate declared September National Bourbon Heritage Month in 2007, calling on those who enjoy bourbon to do so responsibly and in moderation.

**National Campus Safety Awareness Month.** College campuses are not immune to destructive behaviors and violence due to high-risk drinking, drug abuse, sexual assault, fire safety, and more. As your kids head to college this month, talk to them about safety and investigate the resources their school offers.

## Week to Week

---

**N**ational Suicide Prevention Week, Sept. 8-14. An annual campaign to inform and engage health professionals and the general public about suicide prevention and warning signs of suicide. Awareness events are held throughout the week around World Suicide Prevention Day, Sept. 10.

National Truck Driver Appreciation Week, Sept. 13-19. Sponsored by the American Trucking Associations, a federation of state associations, affiliated conferences, and individual members committed to developing and advocating policies that promote highway safety, security, environmental sustainability, and profitability.

Pollution Prevention Week, Sept. 21-27. The best way to protect the earth and its people is to stop creating pollution in the first place. Less waste and pollution means fewer hazards to public health and the environment. Pollution Prevention Week highlights the efforts of the EPA, its state partners, industry, and the public in preventing pollution right from the start.

**Banned Books Week, Sept. 27-Oct. 3.** Sponsored by the American Library Association to promote the importance of ensuring the availability of books to all who wish to read them.

## Monkey see, monkey do, monkey—cook?

---

**H**umans and chimpanzees share many genetic traits, and scientists have recently discovered one that may surprise fans of the Cooking Channel and the Food Network: a basic understanding of how to cook food.

Chimps have long exhibited a preference for cooked food over raw. A team from Harvard and Yale decided to see if they could be taught to “cook” food on their own. Observations have shown that chimps are willing to give up something like a slice of raw sweet potato if they expect to receive a cooked one in a short time. To test their hypothesis, the scientists devised a process to mimic cooking (since they didn’t want the apes to use actual heat): two plastic bowls that fit closely together, with a bit of pre-cooked food hidden in the lower bowl.

The scientists would put a piece of raw potato into the bowl, then switch it after a few minutes for the cooked one. After a while, the chimpanzees began doing the same thing—placing a piece of food into the bowl, waiting, then looking for the tastier result.

The researchers believe this shows a basic cognitive ability to understand the cooking process, as well as the patience to carry out—traits that may have driven crucial changes in human evolution.

## Follow the right FORM for effective innovation

---

**I**nnovation may seem spontaneous, but it generally succeeds because the groundwork has been methodically laid ahead of time. To spark creative thinking in your organization, follow consultant Charles Day’s acronym FORM:

**F:** Focus. Start by deciding what’s important to your team and organization. What were you created to achieve? Identify the key goals of your vision so you have something to work toward.

**O:** Organization. Decide on a structure for developing and implementing ideas. Who is responsible for specific tasks? What jobs should be shared? How will you make decisions?

**R:** Resources. Gather what you’ll need to implement your plans. This includes not just tools and materials, but people. Identify the types of talents you’ll need to bring an idea to reality.

**M:** Measurement. Look to the end as you begin. Determine how you’ll know whether you’ve succeeded or failed. Goals should be specific and clear to everyone, and they must be relevant to your organization’s vision.

## Keep relationships healthy over long distances

Ten years ago, some 2.9 percent of all marriages were long-distance relationships. Today that number has grown. Maintaining any kind of relationship takes work; when partners are separated, the effort grows. Keep your relationship steady and solid with these tips:

- Set ground rules. The secret to success in a long-distance relationship is managing expectations. Talk over how you'll handle the separation—who will be responsible for bills, child care, and other household issues. Do this ahead of time so nothing falls through the cracks. Set up a schedule for regular phone calls so you can plan conversations effectively.
- Communicate—but not too much. Regular contact is essential to the health of any marriage, so make a point of getting in touch as often as you need to. Just don't overdo it. If one partner feels crowded or badgered by insistent demands, he or she may back off, making the relationship even more complicated.
- Vary your channels. Don't rely on the telephone alone. Use e-mails and texts to send quick messages without interrupting the other person at work or at an awkward moment. Variety helps strengthen any relationship, so look for different ways to connect.
- Plan positive visits. You'll want to get together with your partner as often as you can. Don't put too much pressure on yourselves to make each visit spectacular, though. Give yourselves time to relax so no one feels personally responsible for the visit's success. You both need some downtime to get used to being with each other again.
- Be flexible. Travel plans can change at a moment's notice. An emergency may delay or interrupt a phone call. Although you're disappointed, do your best to respond positively and patiently when other demands disrupt your planned activities. Getting into a fight over every minor crisis won't keep your relationship strong.

Physical fitness is not only one of the most important keys to a healthy body, it is the basis of dynamic and creative intellectual activity.

—John F. Kennedy

## Two-minute walks may improve your health

Exercise keeps you healthy. Fortunately for busy people, exercise doesn't have to mean working out at the gym or running a marathon. A study reported on the Science Daily website found that adding just two minutes of walking per hour to your routine can extend your life expectancy.

Scientists at the University of Utah School of Medicine discovered that taking a two-minute walk once an hour was associated with a 33 percent lower risk of dying. Even brief walks add up to a substantial benefit when taken often during the day. The scientists emphasize that these walks should be an addition to a moderate exercise habit, not a replacement for one. It's a step in the right direction.

## Protect your hearing

Excessive noise in the workplace (or anywhere else, for that matter) can damage your hearing. The Medicine Net website warns that you risk hearing loss under these noisy conditions:

- You need to shout so that people an arm's distance away can hear you.
- Your ears begin to hurt from the volume.
- Your ears are ringing.
- You suffer temporary hearing loss after being subjected to constant loud noise.

All you need is love. But a little chocolate now  
and then doesn't hurt.

—Charles Schulz
