## JUST SAY'IN

By Jeanne Hunter

*This is not original, but it is all over the internet and hilarious. Enjoy.*

**D**ear Diary 2020 Edition,  
In January, Australia caught on fire. I don't even know if that fire was put out, because we straight up almost went to war with Iran. We might actually still be almost at war with them. I don't know, because Jen Aniston and Brad Pitt spoke to one another at an awards show and everyone flipped out, but then there was this thing happening in China, then Prince Harry and Megan peaced out of the Royal family, and there was the whole impeachment trial, and then corona virus showed up in the US "officially," but then Kobe died and UK peaced out of the European Union.

In February, Iowa gave us the caucus results and the president was acquitted and the

*...continued on page 6*

Speaker of the House took ten whole years to rip up a speech, but then The WHO decided to give this virus a name COVID-19, which confused some really important people in charge of, like, our lives, into thinking there were 18 other versions before it, but then Harvey Weinstein was found guilty, and Americans started asking if Corona beer was safe to drink, and everyone on Facebook became a doctor who just knew the flu like killed way more people than COVID 1 through 18.

In March, stuff hit the fan. Warren dropped out of the presidential race and Sanders was like Bernie or bust, but then Italy shut its whole country down, and then COVID Not 1 through 18 officially became what everyone already realized, a pandemic, and then a nationwide state of emergency was declared in the US, but it didn't really change anything, so everyone was confused or thought it was still just a flu, but then COVID Not 18 was like ya'll not taking me seriously? I'm gonna infect the one celebrity everyone loves and totally infected Tom Hanks, get y'all to close all of the schools so y'all can appreciate teachers for once (because you can't teach your kids anything other than how to use a touch screen), close down all of salons so you can't get your hair or your nails done, everyone had to work from home and attend Zoom meetings in their underwear. The DOW took a crap on itself, and most of us still don't understand why the stock market is so important or even a thing. (I still don't.) We were then all introduced to Tiger King and the ONE thing we can all agree on this year, Carol totally killed her husband ..... whacked him! And then Netflix was like you're welcome, and we all realized there was no way we were washing our hands enough in the first place because all of our hands are now dry and gross and we're all searching for lotion now.

In April, Bernie finally busted himself out of the presidential race, but then NYC became the set of The Walking Dead and we learned that no one has face masks, ventilators, or toilet paper, or THE FREAKING SWIFFER WET JET LIQUID, and by now our outgrowth is showing, so there's a shortage on box hair dye and all of our hair dressers are like, NO DONT DO IT!!! But, then Kim Jong-Un died, but then he came back to life ... or did he? Who knows, because then the Pentagon released videos of UFOs and nobody cared, and we were like man, it's only April....

In May, the biblical end times kicked off, historical locust swarms, we learned of murderer hornets and realized that 2020 was the start of the Hunger Games, however people forgot to let us know. People legit started to protest lockdown measures with AR-15s, sports events were cancelled everywhere. But then people all over America finally reached a breaking point with race issues and violence. There were protests in every city, which was confusing to some of us because people were definitely gathering in crowds of more than 10 and for sure closer than 6 foot away from each other. Those people must have forgotten about the pandemic called COVID Not One Through 18. Media struggled with how to focus on two important things at once, people in general struggle to focus on more than one important thing. A dead whale was found in the middle of the Amazon rain forest after monkeys stole COVID 1 Through 19 from a lab and ran off with them, and either in May or April (no one is keeping track of time now)

# IF YOU NEED A HEART PROCEDURE, MAKING AN APPOINTMENT WITH BAYCARE IS STANDARD PROCEDURE.

**When it comes to your heart, time is of the essence. Even during these times.**

BayCare's Morton Plant Hospital has one of the most technologically advanced heart programs in Florida. We're leaders in treating heart disease, complex heart rhythm disorders, advanced structural heart and valve conditions and heart failure. To protect you from COVID-19, we've put enhanced safety measures in place at all our facilities. And we always provide the high level of personal care that BayCare is known for. Ensuring the safety and well-being of our patients has always been standard procedure.

**Morton Plant Hospital**

that a giant asteroid narrowly missed the Earth.

In June, common sense just got thrown straight out the window and somehow wearing masks became a political thing, but then everyone sort of remembered there was a pandemic, then scientists announced they found a mysterious undiscovered mass at the center of the earth, and everyone was like DON'T YOU DARE TOUCH IT, but then everyone took a pause to realize that people actually believed Gone With The Wind was like non-fiction, but then it was also announced that there is a strange radio signal coming from somewhere in the universe that repeats itself every so many days, and everyone was like DON'T YOU DARE ATTEMPT TO COMMUNICATE WITH IT but then America reopened from the shut down that actually wasn't even a shut down, and so far, things have gone spectacularly .... not that great . All of the Karen's came out at once, and people started tearing down statues. Everyone is on Facebook arguing about masks, but then Florida was like hold my beer and let me show you how we're number one in all things, including new Not Corona Beer Coronavirus. Then we learned there was a massive dust cloud coming straight at us from the Sahara Desert, which is totally normal, but this is 2020, so the ghost mummy thing is most likely in that dust cloud. We then learned of meth-gators, and I'm like that is so not on my flipping 2020 Bingo card can we use it as the free space?? Then we learned that the Congo's worst ever Ebola outbreak is over, and we were all like, there was an Ebola outbreak that was the worst ever? ..... and don't forget we just discovered FLYING SNAKES!, seriously! FLYING SNAKES!!!!

So here comes July.... at this point we are over it, just tell us what's next .... Aliens? Zeus? Asteroids? Artificial Intelligence becomes self aware? Can it just be something cool or fun for once? Maybe even a good laugh , like hahaha April Fools! We all actually wouldn't mind that joke at this point. Also, why didn't I know about the whale in the Amazon? Or a few other things because I just can't keep up anymore! But I'm sharing this on Facebook because as long as we make it through 2020, I really want this to pop back up in the memories a few years from now.

Just sayin'

## NOTES FROM THE BAY RANCH OFFICE

---

**NO** political signs or flags allowed

Now is the time, with all the rain, to trim bushes and plants, pull weeds and clean up the carports to keep our park looking nice!

We **DO** have had reports of coronavirus and quarantining in the Park. Please continue to wear masks and practice social distancing. **BE CAREFUL OUT THERE.**

The Clubhouse will remain closed until further notice. Business are opening, but

*Continued on page 10*

the Clubhouse serves no business function, and remaining closed reduces the chances of the virus spreading in the park.

**THE POOL**

1. No floats are allowed in the pool. Noodles are allowed.
2. If you use an umbrella, fold it up when you leave the pool. Do not use when it is windy.

**PROTECT YOUR BELONGINGS.** Residents have reported stolen landscape decorations, tricycles, etc. Lock up tempting items or install a motion detector light to deter thieving thugs. Also, consider reporting late night walkers.

**COMPLAINTS AGAINST YOUR NEIGHBOR MUST BE IN WRITING AND SIGNED.** Give the written complaint to the office or drop it in the mail slot in the office door. Verbal and unsigned complaints cannot be addressed.

**MANAGEMENT WILL ALSO ADDRESS COMPLAINTS ONLY IN WRITING.**

**Rules:** The Park has rules that everyone received and reviewed when they bought or rented their coach. They are also printed annually in the Directory (September issue of Bay Ranch Review). **Please read and follow them.** Failure to follow rules is grounds for eviction, and management has shown that it is willing to evict.

**Rules commonly broken:**

1. Parking on grass or sidewalk, overnight on street, and/or every day.
2. Parking overnight at the Clubhouse without Office authorization.
3. Failing to register at the office all persons living with you.
4. Piling garbage in front of garbage bins. When you throw garbage, throw it to the back so when you open the door, it doesn't fall out and there is space.
5. Failure to maintain, paint and/or clean mobile home, trim, awnings, planter and driveway.

**Sewage remains an intractable problem.** Drains continue to back up because grease, vinyl/rubber gloves, paper towels and other inappropriate items are flushed. **Bay Ranch will not pay to unclog sewers when the clog is caused by inappropriate items put down the sewer. The tenant will have to pay for this problem.**

Eds. Note: It is inappropriate to flush anything other than toilet paper, and doing so causes costly sewer clogs. If the park pays, we all will ultimately, through rent increases.

Also, those so-called flushable personal cleansing cloths are really **NOT FLUSHABLE**. They do not disintegrate in the sewer system, and they **WILL** clog the sewer someplace in the system. Lots of people like to use these cloths in the bathroom, but **PLEASE** do not put them in the toilet. Limit what goes into the toilet to toilet paper. *Eds. Note:* My housemates and I had to hire a plumber when our own drain system clogged due to dishwasher detergent that was not well dissolved. We had virtual rocks of detergent blocking the drain. Our solution (after paying the plumber): liquid detergent.

Those metal electric service boxes behind each mobile home belong to Duke Energy. **Please do not service or pay to service them yourself.** Call Duke Energy or Carol Alvey (see her cell phone number at the front of the Review) if your electric needs service. Why? Well, in a couple of instances, residents have submitted bills for about \$4,500 for service. If the repair is the park's responsibility, we have an electrician who will do the work for \$1,500. It just makes economic sense.

From the box to the mobile home is the resident's responsibility. Please make your own arrangements with an electrician if that area needs repair. The office can tell you if the repair is your responsibility.

SEE SOMETHING  
SAY SOMETHING  
DO SOMETHING

Homeless people are moving into the park. In one instance, an empty coach was left unlocked and homeless people had moved in. In several instances, people have been sleeping in the driveways/patios of empty homes. And others have been sleeping on the shuffleboard courts, sometimes using cushions from outside the clubhouse for mattresses.

**Please watch out for your neighbor and neighborhood.** If you see someone entering a home you know to be empty, or someone sitting or sleeping in that home's driveway/patio, or any other inappropriate behavior of this type, please call the Largo police. It is ok in this case to use 911 because you don't know what the danger is.

Cars left parked on the street after midnight **will be towed.** This is expensive and inconvenient. This is another opportunity to be a good neighbor: by reminding someone whose car is in the street after 10 pm.

Cars parked on the street during the day should be staggered so emergency vehicles can pass by. Do not park on the grass or sidewalk.

You must register at the office if you have something parked in the field north of the clubhouse, or see Brent (maintenance).

- \* Please, put ALL garbage in the dumpsters, even big and heavy items like furniture.
- \* **DO NOT** dump behind, beside or anywhere near the trash bins. Put the garbage in the bins.

\*Put household trash in the smaller trash bins.

\* Do not bring garbage to the bins on Monday morning. By that time, the bins are overflowing. Wait until Monday afternoon or later, when the bins are empty.

\* Pick up for furniture, tree brush/limbs and other debris will be on Monday, Wednesday, and Friday only. Put out trash after 5:00 p.m, the day before.

**\*DO NOT DISPOSE OF TVS OR ELECTRONICS IN THE PARK. DO NOT PUT THEM IN OR BESIDE THE DUMPSTER.** We get fined. Call [pinellascounty.org/recycle](http://pinellascounty.org/recycle) to dispose of them.

*continued on page 14*

\*If you need help disposing of something, someone in the park may help you for a fee

**Larger families and visitors:** Reminder: that rent is based on one or two per household. Each person above the two must pay an additional \$30 a month, including visitors who stay over 30 days. Please be proactive about this and pay the money without first being reminded.

**The following information remains in force:**

**Fires:** Test your smoke detectors to make sure they work. Recommended action: purchase a fire extinguisher if you don't have one and know how to work it. If a fire starts, spray it with the fire extinguisher immediately and **GET OUT OF THE HOUSE**. Fire destroys mobile homes very quickly..

Management requests that you turn off your water heater when the water is off, to prevent the element from burning out. Eds. Note: According to [diy.stackexchange.com/questions/3766](http://diy.stackexchange.com/questions/3766), this needs to be done because the element will burn out if the water heater becomes empty. Tankless heaters don't need this.

**Other announcements:**

The stoves in the kitchen both work.

The purified water dispenser at the clubhouse operates on its own schedule. After someone has filled containers, it may take the dispenser some time to regenerate enough water for more containers. There is a light on the dispenser that tells whether it is ready.

Some have questioned why the application fee is "so high." One reason is to help cover garbage fees, since new owners usually throw away most of the furniture and electronics.

Mr. Larson (the owner) calls the lawn service for lawn care on an as-needed basis. The park pays for lawn mowing, etc., once a month but the need sometimes goes unnoticed. If you notice the lawn needs trimming, please let the office know so they can call Mr. Larson.

Sometimes an automobile will leak oil onto our new, nice looking pavement, creating an eyesore. If you notice a leak by your house, call the office to have it cleaned up. Let's keep these streets looking nice!

**Lost and Found Dog/Cat:** If you have found a dog or cat, you can post on a site called [pawboost.com](http://pawboost.com) or call Animal Service on Walsingham. If you call, Animal Services will come out, free of charge, to pick up an animal.

## FROM THE EDITOR

By Carol Raabe

**T**hanks to the Residents' Club for handing out treats on the Labor Day. I'm still looking forward to the day they can treat us and we can all sit around tables together to eat!

Last month's Review contained the Directory. Thanks to Carol Alvey for giving me her best list of current residents. In the process of converting her paper list to digital, a couple of phone numbers actually moved from correct (last year) to incorrect this year. Also, few new residents have phone numbers listed. **Please contact Carol to maintain correct information in your office records, and let me know if you want your phone number listed.**

The August editorial still stands. Not much has changed. The pandemic is still with us, though the enforced mask and social distancing going on in Pinellas County is standing us in good stead. I'm SO SORRY masks have become such a political issue. In my opinion, had we started wearing them and social distancing from the very beginning, the shut-down wouldn't have been necessary. And Florida is certainly safer than South Dakota (my home state where few wear masks), at this point.

Besides the pandemic, bad news overwhelms me: the record heat here during my first full summer in Florida; the fires on the West Coast; the contentiousness of the election.

So I was hoping lots of you would tell us what you are doing to stay sane. From Neighbors, we can see that Lynda MacNeill has a beautiful view of the ocean from her deck, and that Adam Pirhofer really enjoys his church and Willard's. Andrea Willis is keeping me and hopefully many of you entertained with her funny, often LOL posts in Neighbors. Many of us enjoy or pet cats and dogs. But the lack of response to my question kind of worries me. I cabin fever a thing here?

One thing I'm thankful for is communication technology. My phone has email, Facebook, Facebook messaging, Facebook messaging video (my personal favorite), and texting. Through those, I stay in touch with several friends, video chat with my sister Ione in South Dakota several times a week, and watch my 3-year-old grandson bounce around his living room. I'm smiling as I write this.

Staying safe is still highest on my priority list, and I hope it is yours, too.

## AMERICAN FLAGS

**M**any Bay Ranch residents like to fly American flags in front of their homes. With daily flying, flags can get pretty ratty. Flag etiquette would have us dispose of ragged flags respectfully. Contact John Pope at #256, phone 281-9760 for proper disposal of your flag.

## Church Bulletin BLOOPERS

*by Sharon Allen Hammond*

**P**lease place your donation in the envelope along with the deceased person(s) you want to be remembered.

Attend and you will hear an excellent speaker and heave a healthy lunch.

The church will host an evening of fine dining, superb entertainment, and gracious hostility.

This afternoon there will be a meeting in the north and south ends of the church. Children will be baptized at both ends.

Potluck supper Sunday at 5:00 pm-prayer and medication to follow.

Weight Watchers will meet at 7 p.m. Please use the large double door at the side entrance.

The Rev. Adams spoke briefly, much to the delight of his audience.

The eighth graders will be presenting Shakespeare's "Hamlet" in the church basement on Friday at 7 pm. The congregation is invited to attend this tragedy.

A new loudspeaker system has been installed in the church. It was given by one of our members in honor of his wife.

Next Sunday Mrs. Vinson will be the soloist for the morning service. The pastor will then speak on "It's a Terrible Experience."

## To Mask or Not to Mask

*By Carol Raabe*

**I**s wearing a mask a political statement? Some people think so. Of course, here in Largo, there really isn't a choice, given the mask mandates. But the question remains, do they actually reduce or stop the spread of the virus?

We've long expected medical people to wear masks to prevent them from infecting us. Of course, they wear N-95 or surgical masks fitted closely to the face, leading to two important questions: do we have to wear an N-95 or surgical mask to protect other people if we are sick? And since we don't believe we are sick, why should we wear a mask if it doesn't protect us?

While wearing masks has been common in other countries, especially in Asia, it is a new experience for Americans. Even the experts have been ambivalent about them, and

*Continued on page 30*

recommendations about wearing them have changed over time. When “they” finally said we had to wear them, the mandate was that vague: “masks.” Absent was guidance on what kind of mask is effective. It wasn’t even clear what qualifies a mask as effective. [Note: CDC Director Robert Redfield called face masks our best defense on September 16, 2020. I tend to agree since they effectively block the transmission of most virus particles—see below--and a vaccine is likely to be about 50% effective. But that’s just my opinion.]

But finally, FINALLY, practical information has surfaced on the internet. In summary, data say that masks protect the wearer. Studies show that most masks will retain most of what we exhale, including the incredibly small Corona virus. And comparison of masks can guide buyers and sewists to choose materials that meet their standards. Read on to see if you agree:

First, let’s examine how well masks contain particles we breathe out. A group from Duke University counted the droplets that escaped from 15 masks of different styles and materials. As expected, N-95 and surgical masks performed best, retaining 99.9% of droplets. The surprise was apron-style masks made with cotton on the top and bottom and polypropylene lining, which tested as well or even slightly better than the surgical mask.

The cotton used in the tested mask was high quality quilting cotton with a standard thread count of 60x60 to 70x70. Kona cotton probably has a slightly higher thread count. The polypropylene was—wait for it—medium weight sew-in Pellon. Sewists, now you know what to use. Customers, now you know what to buy.

Some of the results from the study that counted droplets are shown on this table:

RANK	Type of Mask	Measured Effectiveness	Picture
1	N-95, fitted	Mask retains just over 99.9% of droplets	
2	Surgical mask	Mask retains just under 99.9% of droplets	
3	3 layer cotton-polypropylene-cotton apron style	Mask retains just under 99.9% of droplets. Researchers described it as “marginally better than surgical mask.”	
9	2 layer cotton Olson mask	Mask retains more than 98% of droplets	
12	2 layer cotton pleated mask	Mask retains about 97% of droplets. This is the first style I made, now modified to fit more closely at the sides. [I suspect inserting a piece of medium weight

Notice that even a very flimsy, 2-layer cotton mask contains most particles. On the other hand, a bandana was of almost no use, and a fleece mask was worse than wearing no mask. Researchers speculated the fleece broke larger particles into smaller ones, which it then released (corona virus are very small). Also smaller particles float in the air longer than larger ones.

It stands to reason that a mask that will hold particles coming from someone's mouth and nose at pressure will stop someone else's particles floating from farther away. Breathing less corona virus means getting less sick, suggesting that wearing a mask can protect the wearer. Anecdotes that support this hypothesis include:

In places where most people wear masks, those who get infected seem dramatically less likely to get severely ill compared to places with less mask-wearing. This was even true when comparing two cruise ships with Corona virus outbreaks, where one provided masks and the other didn't.

If we believe the science, then, even relatively poor quality homemade masks greatly reduce the number of droplets a wearer releases and probably the number of droplets the wearer is exposed to. Are they a silver bullet? Nothing seems to be. But wearing one can help protect us and others from infection.

To our valued customers:

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety but yours as well. We check workers' temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.
