## July Days

---

**N**ational Postal Workers Day, July 1. Many famous people have worked as postal employees, including presidents Abraham Lincoln, William McKinley, and Harry S. Truman, along with entertainers like Bing Crosby, Walt Disney, and Rock Hudson.

**Independence Day, July 4.** Celebrate the date that the 13 colonies announced their independence from Great Britain.

**Bastille Day, July 14.** The anniversary of storming of the Bastille, a fortress-prison in Paris, on July 14, 1789—a turning point of the French Revolution.

**National Hot Dog Day, July 17.** Whatever you put on your dog, enjoy one today.

**International Self-Care Day, July 24.** Self-care refers to activities and practices that we can engage in on a regular basis to reduce stress and maintain and enhance our short- and long-term health and well-being.

## Independence Day Facts

---

**H**ere are some fun facts to share with your family and friends on the Fourth of July while waiting for the hot dogs to cook on the grill:

- Three presidents died on July 4: Thomas Jefferson and John Adams in 1826, and James Monroe, in 1831. Calvin Coolidge was the only president born on July 4, in 1872.
- The Massachusetts General Court was the first state legislature to recognize July Fourth as a state celebration, in 1781.
- The first recorded use of the name “Independence Day” occurred in 1791.
- The U.S. Congress established Independence Day as an unpaid holiday for federal employees in 1870. It became a federal paid holiday in 1931.

## July Monthly

---

**Eye Injury Prevention Month.** Of the approximately 1 million eye injuries in the United States each year, health experts say that 90% are preventable. The leading causes of eye injury are sports accidents, fireworks, yard and workshop debris, and household chemicals. Protect your eyes this month and all year round.

**Independent Retailer Month.** Now more than ever, independent retailers need your support to survive. Independent Retailer Month encourages consumers to shop local and celebrate indie retailers, creating more sustainable cities, towns, and communities.

**National Baked Beans Month.** July is National Baked Beans Month, the perfect time to enjoy one of America's favorite side dishes. Beans, such as kidney beans, pinto beans, navy beans, and black beans are naturally low in total fat, contain no saturated fat or cholesterol, and provide important nutrients such as fiber, protein, calcium, iron, folic acid, and potassium.

**World Watercolor Month.** World Watercolor Month is an annual global charitable event featuring the ultimate challenge of 31 watercolors in 31 days. Artists around the globe come together to paint the world with beautiful watercolors and help raise awareness for arts education to get art supplies for kids who need them via The Dreaming Zebra Foundation.

## Weekly

---

**National Therapeutic Recreation Week, July 5–11.** Established by the National Therapeutic Recreation Society, the week is intended to raise awareness of therapeutic recreation programs and services that could improve the health and well-being of individuals with physical, mental, and emotional disabilities.

**Operation Safe Driver Week, July 14–20.** Operation Safe Driver Week aims to help improve the behavior of all drivers operating in an unsafe manner—either in or around commercial motor vehicles—through educational and traffic enforcement strategies to address individuals exhibiting high-risk driving behaviors.

**National Moth Week, July 18–26.** National Moth Week celebrates the beauty, life cycles, and habitats of moths. “Moth-ers” of all ages and abilities are encouraged to learn about, observe, and document moths in their backyards, parks, and neighborhoods.

**National Zoo Keeper Week, July 19–25.** The National Zoo Keeper Week Program exists to provide members of the American Association of Zoo Keepers with the tools and capabilities to recognize their peers and promote the animal care profession during National Zoo Keeper Week and throughout the year.

## Boost your creativity when social distancing

The stress of dealing with the COVID-19 pandemic can make it hard to stay creative, especially when you're social distancing. Working from home means you don't have your co-workers to bounce ideas off. The Entrepreneur website shares some exercises for keeping your mind and imagination fresh and active:

- **Freewriting.** Sit down at your keyboard and just write whatever comes into your head. Don't stop, don't edit, don't worry about punctuation or grammar, just let the words flow. If you're lucky, you'll generate ideas. Even if you don't, you'll loosen up your brain so you can go back to work with an open mind.
- **Time tracking.** Turn your everyday tasks into a game. How quickly can you finish that report? Challenge yourself to do something in less time than you usually use. Use a timer to stay focused.
- **Mindstorming.** When you've got a problem to solve, write it down and then quickly generate 20 possible solutions. The first four or five will probably come easily, but don't stop until you've hit 20. This will stretch your mind and force you to be more creative. You'll also gain confidence when you succeed.
- **Sketchnoting.** Don't limit yourself to words. When searching for ideas or trying to solve a problem, try drawing pictures. This can put you in touch with the other side of your brain and lead to different solutions.

*Without creativity, there would be no progress, and we would be forever repeating the same patterns.*

**Edward de Bono**

*There is only one of you in all time, this expression is unique. And if you block it, it will never exist through any other medium and it will be lost.*

**Martha Graham**

## Points to ponder

---

- A conclusion is usually the place where most people get tired of thinking.
- Experience is something you don't get until just after you need it.
- For every action, there is an equal and opposite criticism.
- He who hesitates is probably right.
- Never do card tricks for the group you play poker with.
- No one is listening until you make a mistake.
- Success always occurs in private, and failure in full view.
- The hardness of the butter is directly proportional to the softness of the bread.
- The severity of the itch is indirectly proportional to your reach.
- For some people, two wrongs are only the beginning.

## The silent treatment

---

A man and his wife got into a serious fight and ended up giving each other the silent treatment. It lasted for days.

One night the husband suddenly remembered that he had to get up at 6 a.m. the next morning to catch a flight for a business trip. He didn't want to break the silence with an alarm clock or his phone, so he left a note on his wife's pillow: "Please wake me up at 6 a.m."

He woke up the next morning and 9 a.m., missing his flight. Furious, he stood up to demand why his wife hadn't woken him up. On his pillow he found a note from her: "It's 6 a.m. Wake up."

## Ancient footprints point to ancient lives

Scientists have discovered more than 400 ancient footprints in hardened volcanic sediment in east Africa. As the Science News website reports, the footprints may provide a look into the social lives of hunter-gatherers who lived some 10,000–12,000 years ago in the region.

The footprints were found in northern Tanzania and are the largest collection of ancient human footprints ever found in Africa. One set of tracks was made by a group of 17 people walking southwest—14 women, two men and one young boy. Researchers speculate that the women were foraging for food as the males visited them. Some present-day hunter-gatherers form largely female food-gathering groups, scientists say. It's unknown whether they were gathering plants or hunting prey.

Another set of footprints show six tracks heading northeast. Instead of people traveling in a group, they were probably one man and two women walking slowly together, a woman and a man walking briskly, and another woman running—presumably at different times.

## Moon rocks created by high impact

A giant meteor may have wiped out the dinosaurs on Earth, but another one may have formed the crust of the moon.

According to the Science Daily website, recent analysis of the rock brought back from the lunar surface by Apollo 17 in 1972 found that it was formed at very high temperatures—higher than 4,300 degrees Fahrenheit—that happens only when an object melts the outer layer of a planet in a large impact. This suggests that large impacts more than 4 billion years ago could have created the wide, complex range of rocks on the surface of the moon today.

“Rocks on Earth are constantly being recycled, but the moon doesn’t exhibit plate tectonics or volcanism, allowing older rocks to be preserved,” says one scientist. “By studying the moon, we can better understand the earliest history of our planet. If large, super-heated impacts were creating rocks on the moon, the same process was probably happening here on Earth.”

## The necktie

---

Jack, a recent college graduate living with his parents, woke up late on the day of his first big job interview. Frantically he threw on a suit. “Oh, no!” he thought. “My tie!”

Jack had never learned how to tie a necktie. His parents were already at work, so the house was empty and there was no one to help him. He grabbed a necktie at random and ran out the door.

“Excuse me, sir,” he said to a crossing guard at the corner of his street. “I have an important job interview and I have no idea how to tie a necktie. Can you please help me?”

“Sure,” said the guard. “Just lie down on this bench.”

Jack thought that was odd, but if someone was going to help him he wasn’t going to ask any questions. After the crossing guard finished and the tie looked good, however, Jack just had to ask why he had to lie down.

“Well, in my previous job I learned how to tie neckties on other people when they were lying down. “

“What was your previous job?” Jack asked.

“I was a mortician.”

## Cutting in line

---

A group of senior citizens, socially distanced, stood in a long line at 7:45 a.m. at a grocery store that opened at 8 a.m. for seniors only.

A young man ran from the parking lot and tried to cut in at the front of the line, but an old lady beat him back with her cane.

When he tried to cut in again, an old man punched him in the gut, then kicked him to the ground and rolled him away.

As he approached the line for the third time, he said, “Listen, if you don’t let me unlock the door you’ll never get in there.”

## FLORIDA ANCHOR AND BARRIER COMPANY

**To our valued customers:**

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety but yours as well. We check workers' temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

# WHEN TREATING A HEART ATTACK OR STROKE, TIME IS OF THE ESSENCE. EVEN DURING THESE TIMES.

**Don't hesitate when it comes to getting emergency treatment.**

Even during a pandemic, you still need to be treated immediately if you have an emergency. Debating whether or not to risk going to an emergency room during a heart attack, stroke or other health emergency—waiting even a few extra minutes—could be harmful. That's why in all BayCare hospital emergency rooms, patients who have symptoms of COVID-19 are screened and treated in a separate area. This helps keep emergency room patients and our team members safe. So if it's an emergency, don't wait. **For more information: [BayCareEmergencyCare.org](https://www.baycareemergency.org)**

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word – the house is doing all the talking! Thank you so much for my beautiful new house."

# Precision Vapor Barriers

Have You Looked UNDER Your Home Lately? **PROTECT YOUR HOME**

**Fix Small Problems Today Before They Cause Serious Damage!**

We will inspect and photograph any issues, showing you pictures of the underside of your home. Damaged & worn vapor barriers can create high energy costs and allow mold & mildew to grow and weaken your sub floor creating "Soft Spots". Keep Mold, Moisture & Animals out of your Home.

Repairs will be made quickly and include a **20 Year Transferable Warranty!**
