## FROM THE PRESIDENT'S DESK

I can't believe that it's already what we describe as Fall. Where I came from September was always the time when we rototilled the garden under and harvested the last of the vegetables, closed down the pool, pulled the boat out of the water where it had only been in since Memorial Day and hoped that maybe, there might be another month or so to play golf. Well guess what, here in the Isles, life is much different. When September comes calling, we start to see residents coming back out of their homes, walking in the community, bicycling, and sitting on their open lanai's enjoying a beautiful cool evening, and by cool I mean below 80 degrees. Welcome to paradise.

As most of you know, the Winn Dixie plaza to the side of our community, burned about 2 months ago. I have been diligently checking every day or so on activity in the area to see if there is a possibility that we may have another grocery store located there that would greatly serve our residents. So far there is no activity and the management company that handles the plaza has no commitment at this time. I will keep on top of this and keep you informed.

Activities will resume in September, with Bingo starting up again with a new faster-flowing program. We will be having a Labor Day celebration in the Clubhouse with the HOA providing delicious fresh off the grill hot dogs and hamburgers. And there is a good possibility that some of our northern residents will start to migrate back in search of the "Good Life".

In closing I want to tell you that I heard you and I listened. We had originally set the HOA holiday dinner for December 1st, not realizing that this is Thanksgiving weekend. Many of us, myself included, have relatives and family activities over this weekend. For this reason, we have been able to move the date for the Holiday Dinner to Sunday December 8th. As I told you last month, the dinner we are planning is exquisite, something we have never done before with more details to follow.

Come out of your houses, those of you that are here and those up north come back soon, we miss you!

As Always,

Ray Sears, HOA President

- The address of your destination.
- A phone number and address for a local contact (family member, neighbor, etc.)

Please call (727) 582-6177 to schedule your house checks.

**Report A Crime Tip** If you have information about a crime, you may submit a Crime tip anonymously 24 hours a day seven days a week by calling the Pinellas County Sheriff's office at (727) 582-6200. Please provide as much information as possible so the it can be processed as quickly as possible. **Feeding Wildlife** Many people enjoy feeding wildlife because it allows them to have close contact with the animals, or because they believe they are helping the animals survive. While seeing wild animals up close can be enjoyable, providing these creatures with a steady, human-supplied food source nearly always leads to problems for both the animals and humans. There are many good reasons **NOT** to feed wildlife including:

- When young wild animals are taught to depend on a human-provided food source, they may not fully develop essential foraging skills.
- Wild animals who are used to being fed by humans commonly lose their fear of people. Animals who are unafraid of people will approach them for food, and are sometimes mistaken as rabid, aggressive or mean, then killed for that behavior. An instinctive wariness of people is important to a wild animal's survival.
- A constant, human-provided food source may attract many more wild animals, to the area than would normally be found there. Who doesn't like a free meal? When food is readily available, animals will gather in abnormally large numbers (food meant for ducks quickly becomes food for squirrels, rats, opossum and racoons). This means that if one animal in

the group has an illness or disease, it can spread throughout the group.

- Reproduction rates may also be affected when an artificial food source is readily available. In the wild, the number of animals being born is often directly related to the amount of natural food available. The number of animals surviving will also depend on how much food is available.
- We commonly receive phone calls from people whose neighbors have been feeding wild animals. Often, the wild animals have become an incredible nuisance. Many people do not think about the neighborhood impact when they start feeding wildlife. Wild animals do not usually discriminate between one person and another, and will often start pestering neighbors. The animals may also cause damage to homes and property because they expect to be fed and have lost their fear of people.
- Enjoy the wildlife, but at a safe distance for both you and the animals.

## DID'JA KNOW??

---

No blue eye pigment exists. Rather, blue-eyed people have little melanin in the front layer of their irises, so their eyes appear some shade of blue via a light scattering effect. The degree depends on their surroundings, and the impact of lighting, as it goes through the eye and reflects out, can be great. And as both lighting and mood changes can cause the pupil to change size, more variation may be seen. Brown-eyed people have melanin in the front and back layers of their irises, so little change is noticeable. I guess Sinatra's nickname was a misnomer.

## GOOD TIMES SOCIAL PLANNERS NEWS

**G**ood Times Ladies monthly meetings are beginning this month on Wednesday September 4th at 10 AM in the Clubhouse. Please join us in planning Clubhouse events for this season starting in October through April or May.

Some of you may be thinking what is the Good Times Ladies? Well, to clear things up, this is a group of women who plan events that you attend at the Clubhouse such as the Golf Cart/Bicycle Poker Run, Christmas Parade and House Lighting Contest, Rummage/Craft Sale, Horse Races, Annual Spaghetti Dinner, Easter Brunch, Special food events, Ladies Luncheons and many, many more. Every woman who lives in this park is encouraged to attend these meetings to assist in the planning and to volunteer to help at some of the events.

We continue to have our monthly luncheons on the second Tuesday of every month at a place where the hostess designates. All you have to do is sign up in the book or call the hostess listed below to let her know you are coming. So those here for the summer are encouraged to join us. Get to know us and you might get interested in attending our meetings this upcoming season and helping us out with our events.

**September 10th – Olive Garden, Largo Mall, Hosted by Debby Barbley  
419-610-3197 and Nancy DeCamp, 515-779-3858**

**October 8th – The Sports Shack, 999 Missouri Ave N, Largo, FL Hostesses

### Golf Cart/Bicycle Poker Run Results

The Poker Run is always held on the second Saturday of the month starting at the Clubhouse at 11:00 AM. The cost per bike or cart is \$5. On August 9th 13 golf carts participated with the pot of \$65.00. The high hand with a full house went to CJ Johnson winning 39.00. Low hand with a pair of two's went to Wally and Melinda Noble winning \$26. The next Poker Run will be September 14th. Arrive at 10:45 AM.

If you have a golf cart or bicycle and want to join in the fun and possibly win some money, join us this month on September 14th. Meet at the clubhouse at 10:45 and pay your \$5.00, and we take off at 11:00am. It's a lot of fun!

## GREETINGS CARIBBEAN ISLES RESIDENTS!! SCOOP HERE!! SPEAKING OF SPORTS.....

---

### September 2019.....

**C**an you feel it in the air?? The crisp nights, the trees changing colors, the geese flying south...wait a minute!! I forgot we are here in Florida going through the monsoon season. But fall is just around the corner and with it comes the imminent return of our northern residents. This will hopefully create an uptick in our sports coverage and maybe some sibling news. In the meantime we who are here will have to be content with the Rays making a run at a playoff spot (catching the Yankees seems to be out of the equation), our beloved Bucs trying to put together an interest-gathering season, our Florida college teams trying to regain respectability, and don't look now but hockey season is just around the corner. We're going to need our local sports to keep our heart rates in check. Where does the time go??? It was encouraging to put a golf article in this month's issue. Some of our residents have continued to play during the summer. You golfers who continually worry about your handicaps should take a gander at Sue Sears, who suffered a debilitating ankle injury earlier in the year but worked diligently on her rehab and now appears ready to tackle the links once again (See below).

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! Golfers are a hearty bunch. I personally use golf as an excuse to go to the bar after the round. Stay tuned for more resident sports news in the coming months.

### **Sign of the times:**

After signing a ceremonial 1-day contract to retire with the Los Angeles Rams, former running back Steven Jackson was summoned by the NFL for a drug test. (Really???)

### **Points to Ponder:**

Money can't buy happiness, but it keeps the kids in touch.

### **Answer to last month's "Where in the World is Scoop":**

Scoop traveled to the Indian city of Agra on the south bank of the Yamuna River to gaze upon the gorgeous Taj Mahal. It was commissioned in 1632 by the Mughai emperor, Shah Jahan, to house the tomb of his favorite wife, Mumtaz Mahal. (How romantic!!) Scoop "ShoutOuts" to Doris Knight (Lot 57) and Sammi Bond (Lot 8) for gazing through their misty eyes for the answer.

### **This month's Trivia Question:**

What was the first self-service grocery store in the U.S. and where was it located?

## Responding to adversity

---

Once upon a time, a daughter complained to her father that her life was miserable. She was tired of fighting and struggling all the time. It seemed that just as one problem was solved, another soon followed.

Her father, a chef, took her to the kitchen. He filled three pots with water and placed each on a high fire. Once the three pots began to boil, he placed a potato in one pot, an egg in the second pot, and some ground coffee beans in the third pot.

After 20 minutes he turned off the burners. He took the potato out of the pot and placed it in a bowl. He pulled the boiled egg out and placed it in a second bowl. Then he ladled the coffee out and placed it in a cup.

“What do you see?” he asked.

“A potato, an egg, and some coffee,” she replied.

“Look closer,” he said, “and touch the potato.” She did and noted that it was very soft. He then asked her to take the egg and break it. After pulling off the shell, she observed the hard-boiled egg. Finally, he asked her to sip the coffee. Its rich aroma brought a smile to her face.

“But what does this mean?” she asked.

“The potato, the egg, and the coffee beans all faced the same adversity—boiling water,” her father explained. “But each one reacted differently. The potato went in strong and hard, but in the boiling water, it became soft and weak. The egg was fragile, with its thin outer shell protecting its interior. In the boiling water, the inside of the egg became hard.

“However, the ground coffee beans were unique. After they were exposed to the boiling water, they changed the water and created something new.

“Which are you?” he asked his daughter. “When adversity knocks on your door, how do you respond? Are you a potato, an egg, or a coffee bean?”

In life, things happen to us, but the only thing that truly matters is what happens within us.

## Search for Earthlike worlds takes a step forward

---

Scientists searching for Earthlike worlds beyond the solar system have a new tool: NEAR (Near Earths in the Alpha Cen Region), which began operating in May, will scan the Alpha Centauri system for habitable planets.

NEAR is a thermal coronagraph installed in a telescope in Chile that can block the light of stars and look for heat radiating from worlds in orbit. Alpha Centauri is a three-star system located 4.3 light-years away, the closest system to our world. Astronomers have already discovered planets in the system—an Earth-size planet dubbed Proxima b, orbiting the red dwarf star Proxima Centauri, and a planet candidate circling the same star.

NEAR will look at Alpha Centauri AB, a binary star system, using an upgrade to an existing instrument to block out the glare of the two stars and also compensate for the blur of Earth’s own atmosphere. It’s capable of spotting planets twice the size of Earth or larger.
