## From the Office of Crosswinds.....

---

The office has been busy with items pertaining to the sale of Crosswinds. We ask that you be patient and information will be forward to you as it is received. Shareholders are asked to watch for posted announcements at Co-Op meeting message boards and through the mail.

The Crosswinds Office will be closed on Friday, April 14, 2017 in observance of Good Friday. Office will reopen on Monday, April 17, 2017 at 9:00 am.

Don't miss an issue: You can view the monthly Chronicle on line at [www.monthly-media.com](http://www.monthly-media.com)

Happy Easter!

John McNaughton

Manager &

Bethany Bever

Faye Trompeter – Office Assistant

## Family Writing

---

Our Workshop is still going strong, although some members won't be back in the Park until nearly the end of March, we will continue every Thursday morning from 10:00 am to 11:30 am until the middle of April in the Small Hall. Please join us!

## Save the Date!

---

**F**REE COFFEE HOUR Tuesday, April 4th 9:30 am. Bring your own mug. Everyone welcome to celebrate 90+ Birthdays of Crosswinds residents.

Looking forward to next season with your Bird Groups. The Flamingo's will be hosting the events in November 2017. Watch for details in the November Bulletin and Chronicle.

A HUGE Thank you to all our amazing volunteers of Crosswinds this past winter:

### THE GIFT OF TIME IS PRICELESS

Valuable is the work you do  
Outstanding in how you always come through  
Loyal, sincere, and full of good cheer  
Untiring in your efforts throughout the year  
Notable are the contributions you make  
Trustworthy in every project you take  
Eager to reach your every goal  
Effective in the way you fulfill your role  
Ready with a smile like a shining star  
Special and wonderful--that's what you are!!

## Smoke Alarms Saves Lives...

---

**Get yours FREE – Deadline to Sign up is April 6th!**

Did you know that if a fire starts in your home, you may have just two minutes or less to escape? And, did you know that three out of five home fire deaths in the U.S. result from fires in properties without working smoke alarms? The Lealman Fire District has partnered with the American Red Cross to provide a FREE 10 year sealed Lithium Battery smoke alarm to residents at the Crosswinds Mobile Home Park on Saturday, April 8th from 10am until 2pm. Please sign up by April 6th.

“It is my experience that most homes have at least one smoke alarm, but not a functioning one,” commented Captain Larry Thompson with the Lealman Fire District. The beauty of the lithium battery alarm is that it does not require maintenance and you can’t remove the battery. However, it is important to test your smoke alarm monthly.

Volunteers from the American Red Cross and the Lealman Community Emergency Response Team (CERT) will be installing these alarms throughout the park on Saturday, April 8th. In order to receive your smoke alarm and to help us better plan the day, please fill out the bottom portion of the Smoke Alarm Flyer you received and return it to the office by Thursday, April 6th. If you are unable to be there on that Saturday but wish a free smoke alarm installed during this event, please contact Linda Hallett at (727) 546-3506.

**VINYL IS FINAL**

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

# Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **[MortonPlantValveTrial.org](http://MortonPlantValveTrial.org)**.

## Exploring the mysteries of an ancient codex

British and Dutch scientists have used high-tech imaging to uncover the secrets of an ancient Mexican manuscript, the eScience News website reports. The manuscript, known as the Codex Seiden, is a strip of deer hide five meters long that's been covered with gesso (a white plaster composed of gypsum and chalk) and folded according to style to make a document 20 pages long.

It dates back to approximately 1560, and was found in what's now known as the Oaxaca region of Mexico. Like other codices from that area and others, the Codex Seiden uses brightly-colored symbols to record history: wars, genealogy, and cultural information.

One intriguing discovery: The high-tech imaging found the image of an individual represented by a glyph of a twisted cord and a flint knife. The man or woman resembles a character found in other codices, and may be an important ancestor of two families connected to other archeological sites in Mexico.

## Collision course

A huge space cloud is on a collision course with our galaxy, but don't panic—it's not expected to reach us for another 30 million years. According to NASA's Science Mission Directorate website, Smith's cloud, as it's known, is composed of enough gas to create two million stars the size of our size, and is orbiting the Milky Way at 700,000 mph.

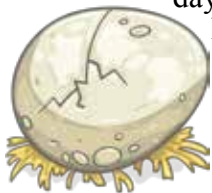

The collision won't have much impact for anyone still around, as the cloud is much smaller than our galaxy, but scientists are watching it closely anyway, seeking explanations for its origin as well as other secrets of the universe.

## Big dinosaurs, big eggs, and hatching times

How long did dinosaur eggs take to hatch? Paleontologists know very little about dinosaur embryology, but with CT scanners and high-resolution microscopy, they're finding out more.

The SciNews website reports on a recent find: Non-avian dinosaurs likely took longer to hatch than their feathered counterparts, much as modern reptiles hatch at a later age than today's birds. Scientists looked at the fossilized remains of two dinosaur embryos, looking at the formation of their teeth. Analyzing growth lines, they were able to determine that one dinosaur had died at three months, and the other at six months.

The difference in hatching times may have had an impact on the large dinosaurs' eventual demise. Because they require more food and other resources to live to adult size, larger reptiles were likely more vulnerable than smaller animals (amphibians, birds, and other mammals) to an extinction event.

## Did you know that April is also...

**ASPCA Month.** The American Society for the Prevention of Cruelty to Animals was the first humane society established in North America, and today it's one of the largest in the world. The ASPCA's mission, as stated by founder Henry Bergh in 1866, is "to provide effective means for the prevention of cruelty to animals throughout the United States."

**Global Child Nutrition Month.** Sponsored by the Global Child Nutrition Foundation, whose mission is to expand opportunities for the world's children to receive adequate nutrition for learning and help them achieve their potential. "We envision a future where school meals sustainably nourish all children and help them, their families, communities, and nations to thrive," reads its vision statement.

**National Autism Awareness Month.** Launched by the Autism Society nearly a quarter-century ago, this event is a nationwide effort to promote autism awareness, inclusion and self-determination for all, and assure that each person with autism spectrum disorder is provided the opportunity to achieve the highest possible quality of life.

**National Kite Month.** Every year in April, kite enthusiasts across North America celebrate the history and the future of the world's favorite pastime by letting their kites fly. April was chosen as National Kite Month because as the first month in spring, it's when most kite fliers are starting to bring their kites out of the closet and prepare for warm weather and summer fun.

**National Youth Violence Prevention Week, April 3-7.** A campaign to raise awareness and educate students, teachers, school administrators, counselors, school resource officers, school staff, parents, and the public on effective ways to prevent or reduce youth violence.

**National Robotics Week, April 8-16.** The purpose of National Robotics Week is to celebrate the United States as a leader in robotics technology development, educate the public about how robotics technology affects society, advocate for increased funding for robotics technology research and development, and inspire students of all ages to pursue careers in robotics and other science, technology, engineering, and math-related fields.

**Animal Care and Control Appreciation Week, April 9-15.** A week of appreciation and recognition for the hard-working men and women who risk their lives and devote huge amounts of personal time and resources while serving the public as well as animals in need.

**Money Smart Week, April 22-29.** Money Smart Week began as a coordinated effort of the Money Smart Advisory Council, a diverse group of more than 40 Chicago-area organizations working together to promote personal financial literacy.

## How doctors stay healthy

---

**D**octors are exposed to germs and diseases every day, so how do they avoid getting sick themselves? Follow their rules for staying healthy when surrounded by illness:

- **Wash your hands often.** Use soap and water, and take your time. Try singing “Happy Birthday to You” twice in your head as you wash. Wash your hands before eating, after using the bathroom, and before touching your face and mouth. If washing is inconvenient, use a hand sanitizer.
- **Eat a healthy diet.** A good mix of fruits and vegetables will provide the vitamins your immune system needs to fight off infections early—before they balloon into major health issues.
- **Get sufficient sleep.** Lost sleep can damage your ability to fight off disease. Get seven to nine hours a night to stay healthy and alert.
- **Clean off surfaces.** Wipe down your phone and keyboard often to get rid of germs and bacteria. Wash or sanitize your hands after touching doorknobs or shaking hands. Remember that some viruses and bacteria can live for days on surfaces that haven’t been cleaned.

## Be on the lookout for ‘sick building syndrome’

---

**I**s your home or workplace making you sick? “Sick building syndrome,” also known as “multiple chemical sensitivity,” is a condition in which people become ill due to prolonged exposure to mold, formaldehyde, or other dangerous substances that can spread through a building’s ventilation system virtually undetected. Everyone should watch for signs that their environment may be hazardous to his or her health. Here are some symptoms:

- Frequent headaches
- Persistent fatigue
- Dizziness and nausea
- Difficulty with concentration
- Problems with memory
- Frequent muscle pain, stiffness, or cramps
- Dry skin or itchiness
- Chest pain or heart palpitations
- Persistent sore throat and/or coughing

## Watch for these heart attack symptoms

---

**H**ear disease is the leading cause of death for both men and women in the United States. Stay on the lookout for these basic signs of a heart attack:

- Chest pain. The classic signal of a heart attack is an uncomfortable feeling of pressure or squeezing in the chest.
- Jaw or arm pain. This tends to be more common in women, but don't ignore it.
- Heartburn/upset stomach. Don't write off stomach problems as just a minor ailment. Nausea and vomiting can occur during a heart attack.
- Shortness of breath. Again, more common among women, but seek assistance if you're having trouble breathing.
- Dizziness. You may feel lightheaded or on the verge of passing out.
- Sweating. Breaking out in a cold sweat is an additional symptom of a heart attack.

## Choosing a doctor? Consider this study

---

**C**hoosing a doctor is an important decision. Here's one factor to keep in mind: A study by the Harvard School of Public Health has found that patients who are treated by female doctors are less likely to die of the illness they're being treated for, and they're less likely to return to the hospital after discharge.

The study examined records of more than 1.5 million elderly Medicare patients admitted to hospitals for reasons other than surgery from 2011 to 2015. Patients treated by female physicians had a lower 30-day mortality rate than those treated by men, and over the course of four years, approximately 11 percent of patients treated by women died within one month of being hospitalized, compared with slightly more—11.5 percent—of patients treated by men.

**Healthy citizens are the greatest asset any country can have.**

**—Winston S. Churchill**

## Take these steps to innovation

---

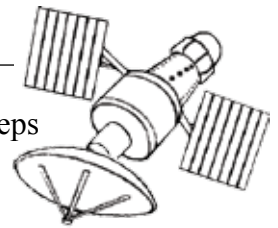

**I**nnovation is a journey that depends on continuous improvement. Expert James O’Loghlin suggests following these steps to get started:

- Focus on value. Look for inefficiencies in whatever kind of work you do. Challenge assumptions about processes, products, services, and customers. Search for ways to save time or money and increase the value of what your organization does.
- Gather ideas. Brainstorm some possible solutions, and share them with your colleagues. Ask for feedback. Be prepared for criticism, and stay ready to adapt your ideas as necessary, but don’t give in too quickly. Be persistent.
- Present your ideas. Learn how to pitch your innovative ideas without jargon or needless detail. Focus on the story you want to tell—how your idea will help the organization. Anticipate likely questions and objections to show you’ve thought everything through.
- Implement your solution. Be prepared to get to work. Don’t try to do everything yourself; assemble a team to help you with test projects and full implementation.
- Repeat. Follow the same steps for your next project. Once people see your commitment to innovation, they’ll be eager to join in.

## Lost in space

---

**S**cammers are some of the most creative people around. Finding new and innovative ways of separating fools and their money is what keeps them in business. The famous “Nigerian scam letter” sent by email or fax is perhaps the best known: The sender claims to be a deposed president or king in need of assistance to liberate several million dollars from a foreign bank account. All the recipient has to do is forward some money, and possibly give the sender access to a bank account. The target eventually realizes he or she’s been had, but usually not after losing lots of money.

A new twist on the con game, as reported on the Mother Nature Network website, takes the target into outer space: Victims receive an email from a scientist who claims that in 1989, a Nigerian astronaut went on a mission to a secret Russian space station—and was stranded there when the Soviet Union collapsed. The poor space traveler is still up there, more than 25 years later. He’s been resupplied from the ground all this time, and he’s in good health, but he’d really like to come home. Fortunately, he has back pay coming to him in the amount of about \$15 million dollars. All the target has to do is . . . well, you can probably guess.

No one seems to know if anyone has fallen for this variation of the scam, but it’s certainly a testament to the crooks’ ingenuity—and possibly faith in the gullibility of their victims.
