EDITOR'S NOTES

I hope everyone has been enjoying the cooler weather. It's nice to open the windows and doors again.

There have been a few changes since last month. Beginning with the HOA. Cliff Shaffer, Joan Mrowiec and myself, Stephanie Anderson, have decided to resign from our positions on the Board. There were some really wonderful things we were able to do and some things that can't be done.

Cliff recently visited family up North and is looking to head back to them. Joan is here for only part of the year and is looking to spend more time with family. I have decided to step down because I am going to be perusing the problems that Florida Mobile home park residence have and look into fighting City Hall, so to speak. It's about time that people enjoy their homes even if they don't own the land. We need new laws for peo-ple in our shoes.

We all thank you for your support throughout this journey and we hope that new ideas and faces will join to make our community a place to call home for many years to come.

There will still be be a meeting on Monday, November 6th @ 7:00PM to elect anyone interested in the available positions.

Kim Gaines, Treasurer and Jane Hatch, Secretary will be leading the meeting and will appoint the 3 following positions until election time.

Available positions are: President, Vice President, and Advisor.
If you are interested please come on out.

THANKSGIVING DINNER!!!! Come on down to the Clubhouse on Saturday, November 18th @ 4:00PM for a neighborhood family Thanksgiving. Side dishes will be ap-preciated as Tom is suppling the meat.

You will get info on water shut offs, event reminders. All kinds of info that will bring us closer as a community.

NEIGHBORHOOD WATCH IS – YOU

Almost everyone has access to a camera and video. Start using them! The more evidence we have to bring to management the better. Also, the police.

Be Alert! Be Responsible! Be a good neighbor! Be safe!

Remember that your neighbors are the people who you can hope will be watching out for you, too. Don't be afraid to make that call to the PPPD if you see something that looks suspicious to you.

Please make note of the **NON-EMERGENCY NUMBER – 727-369-7864.**

Emergencies are always 911.

WELCOME ALL OUR NEWEST RESIDENTS

The Crystal Lake Home Owner's Association wishes to welcome you to your new home. We trust you will enjoy your living experiences here as much as we do. We encourage you to join the HOA if you haven't already done so. If you have any questions about joining please feel free to contact any of the HOA Board Members. We would be glad to

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

BINGO & SNACK BAR – SPONSORED BY YOUR HOA

People tell me all the time that this is one of the highlights of their week. We want you to bring your appetite to the clubhouse on Friday nights and plan to have dinner at the snack bar starting at 6:30 p.m. There's always a good assortment of chips and sodas that are included with your burger or dog or buy them separately. It's a great way to have dinner for \$3.00 or less on a Friday night.

Then Bingo starts at 7p.m. with lots of fun and a great way to bring home some extra cash. If you haven't played in a while, you're in for a surprise. It just gets better and bet-ter all the time. If you haven't played it before, don't worry... we love helping you along. For many of us, there's no better way to spend our Friday nights. We hope you'll be there to join in the fun!

Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **MortonPlantValveTrial.org**.

Ancient ‘lunch box’ found in Alps

Archeologists have discovered a 3,500-year-old wooden “lunch box” high in the Swiss Alps, according to Fox News. Although objects made of wood or leather rarely survive intact over long periods of time, similar finds have been made in the Alps, including 5,300-year-old mummified remains of Otzi the Iceman, which were found in two containers made of birch bark.

The box was discovered in melting ice near the top of a mountain. A chemical analysis showed that its contents contained traces of grains—possibly wheat and rye—that could have been the ingredients in a porridge. The findings could help scientists explore where and how cereals spread across ancient Europe to become an important food crop.

New moon around a distant star

Astronomers have discovered thousands of exoplanets—worlds outside our solar system—but now many believe they’ve discovered the first moon circling another planet around another star, according to the BBC News website.

NASA’s Kepler Space Telescope searches for exoplanets by looking for slight dips in a star’s brightness when a planet crosses in front of it. Hunting for exomoons means looking for a dimming of starlight before and after a planet produces its drop in the light. One promising signal was observed during three such transits around a star some 4,000 lightyears from Earth. Dubbed Kepler 1625b, the moon looks to be approximately the size of the planet Neptune, orbiting a planet the size of Jupiter but with 10 times Jupiter’s mass.

Scientists will look for evidence from the Hubble Space Telescope to confirm the findings.

The most beautiful thing we can experience is the mysterious. It is the source of all true art and science.

—Albert Einstein

Overcome the power of negative thinking

Being creative calls for positive thinking, but optimism isn't always easy. Negative thoughts can creep into your mind when you least expect them. The trick isn't to fight them, but to manage them so they don't paralyze you. Here's what to do:

- **Identify the triggers.** When you have a negative thought, stop and ask yourself what's bringing it on. You may be tired or stressed out, or you may be affected by someone else's perspective. If you can locate the cause, the thought itself won't have as much power over you.

- **Focus on the now.** Worrying about the past or the future isn't productive. When you start chastising yourself for prior mistakes or seeing disaster around every corner, stop and take a breath. Ask yourself what you can do at that moment to succeed. Giving yourself something to do will distract you from destructive thoughts.

- **Replace the negative.** If you find yourself plagued by a recurrent worry, train yourself to think of something else. Memorize a short poem, phrase, or meditation that you can repeat to yourself when you have negative thoughts. Your conscious mind can concentrate on only one thought at a time, and driving the negativity away will free you up to move forward again.

Get past the obstacles when you paint

Just because you're not Picasso doesn't mean you can't find satisfaction and enjoyment in art. A course in drawing or painting can get you started, but when you're searching for ideas or subjects to work on, consider some of these approaches:

- **Seek inspiration.** Spend time looking at art—paintings, sculpture, drawings—for ideas. Listen to music to stimulate your creative juices.

- **Start small.** If you're hesitant, or blocked, don't tackle a big art project. Start with something small and easy. Work on one section of your painting, and don't think about the rest of the project. You'll make progress and your success may give you the momentum you need to continue.

- **Switch things around.** If you usually paint or draw horizontally, switch to vertical. Instead of painting what you see, paint what you feel. If you draw with your right hand, try switching to your left. A small change can make a big difference.

- **Try an exercise.** Find inspiration in a common phrase such as, "Once in a blue moon." Draw or paint your interpretation of that saying. What kind of rare occurrence springs to your mind? How would the world look under blue moonlight? Choose other clichés and catchphrases to illustrate, and you'll keep your perceptions sharper.

Driverless cars coming to a street near you?

Driverless cars can't wait for self-driving cars, according to a survey by Bosch Mobility Solutions. Out of 1,000 U.S.-based new car buyers 18 years or older, 52 percent said they expect to own a self-driving vehicle within the next 10 years. Only 14 percent said they'd never buy a self-driving car, and 14 percent were undecided.

Although 72 percent of survey participants signaled worries about lack of control in a vehicle they don't drive themselves, 61 percent said they believe self-driving cars could lead to a decrease in traffic accidents, and 55 percent highlighted more free time and less stress as a benefit to driverless cars.

Why kids stay home longer

It's not just a stereotype: More and more young Americans are living with their parents, the U.S. Census Bureau reports. According to a recent study, one in three Americans age 18-34 were living in their parents' home in 2015—some 24 million people. In 1975, the figure was closer to one in five.

One reason: Young people are delaying marriage longer than their older counterparts did. Eighty percent of Americans were married by age 30 in 1975, but nowadays that 80 percent figure isn't reached until age 45.

Younger Americans are also dealing with high student loan debt, which makes staying at home a convenient way for them to pay bills and save to rent an apartment or buy a house.

Coffee + nap = more energy

Want to take a nap that will leave you refreshed and ready to go again? Try drinking a cup of coffee first.

It sounds counterintuitive, but that's the advice from the Health.com website. The reason why it works: The caffeine in a cup of coffee takes about 30 minutes to kick in. After a 30-minute nap, you'll wake up just as the caffeine takes effect.

Research backs the idea up. In 1997 the journal *Psychophysiology* reported that sleepy adults who drank 200 mg of caffeine (twice the amount in 8 ounces of brewed coffee) and then took a short nap performed better on a simulated driving test than people who got only the caffeine.

Keep your naps short—15-30 minutes—and take them at least six hours before your regular bedtime so the caffeine doesn't keep you up at night. If you're sensitive to caffeine, try green tea instead.
