## KINDNESS BEGINS AT HOME

The Women's Club has unanimously voted to follow through with our "Kindness Begins at Home" effort. When a family in the park experiences a serious medical emergency and/or hospitalization, the club will offer a small stipend or free service. So far, instead of sending a fruit basket, we've decided to ask the family what they want or need. The club is also developing a list of volunteers and services that they are willing to provide free of charge to the family i.e., drivers, food shopping or preparation, company, etc. So far we've provided housekeeping, beauty parlor, and gift cards. Our budgeted amount is currently \$35.00 for paid services or gift cards. You can inform or suggest families in need to any club officer. We are working out the details so suggestions are welcomed.

## From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

*The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2016. Another example of how the community gave back.*

# Multiply Your Monthly Mania!

**A**s you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

## Now You Have More Chances to Win!

**We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.**

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.  
*(To qualify each resident can only suggest a business once)*

## Keep the speed up when you walk

A brisk walk is good for your health, especially as you grow older. A study reported on the LiveScience website found that older adults who maintain a speed of 3 miles per hour when they walk have a 50 percent lower risk of heart disease than people with a pace of two miles per hour or slower. And folks who walk an average of seven blocks a day have a 47 percent lower chance of developing heart disease than those whose walks add up to just five blocks a day or less. So put your shoes on and get walking.

## Help your brain stay healthy

Feeding and stimulating your brain well can keep it healthy throughout your life. The American Academy of Family Physicians offers these tips for keeping your mind in tip-top shape:

- Eat a healthy diet. Choose nutritious foods like antioxidant-rich vegetables, fruits, and whole grains, and omega-3 fatty acids, and cut out saturated fats. Avoid fad diets that offer only short-term results.
- Watch your weight. Maintain a healthy weight and pay attention to your blood pressure, cholesterol, and blood sugar, which are all associated with an increased risk of dementia.
- Exercise your brain. Keep learning new things all the time. Puzzles and games that stretch your mind can help you maintain good brain health. So can staying active socially, so keep up your friendships and strive to meet new people.

## Mission to gravity: Space probe searches for waves

A European space probe will try to confirm a theory about gravity developed by Albert Einstein, according to the Reuters website. Launched late last year, the LISA (Laser Interferometer Space Antenna) Pathfinder will assume an orbit between the Earth and our sun, collecting data about gravity waves.

Einstein predicted the existence of ripples of gravity that bend space and time some 100 years ago, but finding those ripples on Earth has been impossible. The space-based experiment will monitor two cubes of a gold-platinum alloy to determine whether they maintain their distance from each other in free fall. The results will allow scientists to observe minute oscillations caused by gravity waves.
