Homeowner's Association

Linda Thoma

June is supposed to be the start of summer with high temperatures and humidity. But April and May are proving to be the hottest for those months in the history of Florida.

First I want to extend a super special “THANK YOU” to Debbie. She was the best manager that we have had in the 13+ years that I have lived here (in that time I believe we had 6 or 7 managers). Not one of the others got so much accomplished for our community as Debbie did. We will all miss her. We can only hope that ELS will get someone who is as capable and as vigilant as Debbie was.

Two extremely important items that I would like to bring to the attention of our residents and especially the most senior residents.

If anyone has to leave Down Yonder and you want to have your unit sold, PLEASE look for a reputable agent. We had an instance where someone convinced a person to sign their title over to them with the promise of selling their unit or purchasing it themselves. This has not happened. The police were involved to get their title back, which finally did happen, and the police are holding on to it until the owner can get back to get it. In the meantime the person who convinced them to sign the title had a broker send the owner paperwork (via the internet) to sign. The one was a contract with the sales price and a \$5,000 commission. So the commission was coming out whether they sold for \$20,000 or \$7,000 and the owner would never know the real price that it was sold for.

The second part of the paperwork was for a Power of Attorney so they could go and get a new or duplicate title for the unit, which would then make the title that the police are holding for the owner null and void. Thankfully they didn't sign either of these. Please do not sign your title over to anyone you don't really know. If you are leaving town and have listed your home with someone, give your title to a neighbor or someone you can trust to hold on to it until you have a contract. There are a lot of people in this world today that only know how to get rich off of the backs of the most vulnerable and seniors.

The second important thing that I have learned this past month was that if you know someone that is interested in purchasing a place, but is not really sure.....please tell them to not give a deposit. It is only refundable if you don't qualify to reside here or if you can't get

financing. It will not be refunded if you change your mind. So tell anyone you know who is thinking of buying to be positive. No matter if you change your mind in less than 24 hours.... you are not entitled to get it back. Whoever is selling the property will more than likely not tell you this.

Please remember that I work for the residents of the park. And whether we get the answers or results that we want I can assure you I have tried.

Please remember that our amenities are for all residents. This includes the pool, the Manor House, the Shuffleboard Court and all other common areas. On the weekends you will see more people using these because they more than likely work during the week and therefore we probably don't know them. We ask all residents to be respectful of others in the pool area and Manor House. If you use the Manor House or tables in or outside the Manor House please be sure everything is cleaned and put the way it was, and I thank those who do this already. Also be sure NOT to block the doors going into the Manor House.

We also ask the residents to respect the rule which (in the Prospectus) states that each family/unit is only allowed 4 (four) guest passes. Although the sign at the pool may state differently, our Prospectus overrides any misprint or interpretation. Also be sure to register your guest at the office and get pool passes for each.

Our next HOA meeting will be October 10, 2017 at 7 p.m. in the Manor House.

Wishing everyone a safe and fun summer.

DOWN YONDER NEIGHBORHOOD WATCH PROGRAM

Dave Lipp

Whether it be watching out for suspicious activity, making sure each other's homes are secure when we are away, or making sure all of our neighbors have a place to go in case of an emergency evacuation, our purpose is to help our neighbors. We need to make sure that all of our neighbors can count on others when they need help. Our residents have a part in what happens to the entire park.

You can help by keep your eyes open to anything that does not seem right. Keep an eye on any suspicious activity but if it is a crime **DO NOT** try to stop it. Contact the Largo Police Department.

If you call the police you should report it to management as soon as possible. When calling the Largo Police you will be asked:

Name, lot# and street, Phone #, location of incident, incident in progress, description of vehicle and tag number.

Down Yonder Village is identified as Location #376B on the Largo Police and Fire Department grid map.

Did you know June is also...

Adopt a Cat Month. Your local shelter has tons of cute, cuddly newborn kittens mellow older cats, and everything in between. Shelter staffers are ready to help you adopt your very first cat or bring home a friend for another beloved cat.

National Dairy Month. Start the summer with nutrient-rich dairy foods. From calcium to potassium, dairy products such as milk contain essential nutrients that can help you manage your weight and reduce your risk for high blood pressure, osteoporosis, and other health problems.

National Zoo and Aquarium Month. June is an excellent time to explore your local zoo and aquarium as well as the websites of America's great zoos and aquariums. Many of them have excellent educational resources—photographs, videos, facts, lesson plans, activities, and sounds so real you'll think you're there.

PTSD Awareness Month. The purpose of PTSD Awareness Month is to raise public awareness of PTSD and effective treatments and help all those affected by PTSD. Mental health experts aren't sure why some people develop PTSD and others don't, but if stress reactions don't improve over time and disrupt everyday life, seeking help to determine whether PTSD is present is important.

National Automotive Service Professionals Week, June 11-17. A weeklong celebration to honor the commitment and dedication of the automotive, truck, collision specialists and parts specialists who keep our vehicles running safely.

Men's Health Week, June 12-18. The purpose of Men's Health Week is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys. This week gives health care providers, public policy makers, members of the news media, and individuals an opportunity to encourage men and boys to seek regular medical advice and early treatment for disease and injury.

National Nursing Assistant Week, June 15-22. Nursing assistants work in hospitals and nursing homes performing everyday living tasks for the elderly, chronically ill, or rehabilitation patients who cannot care for themselves. This week is set aside to recognize the nursing assistants who dedicate their lives to the well-being of others.

Global Day of Parents, June 1. The Global Day of Parents was proclaimed by the UN General Assembly in 2012 to honor parents throughout the world in appreciation of their selfless commitment to children.

Flag Day, June 14. Fly Old Glory with pride!

Father's Day, June 18. A day to honor fathers everywhere.

Flying in the face of disaster

In the 1980s and early '90s, Continental Airlines was a disaster. The organization had gone bankrupt twice and was on its way to a third (and final) catastrophe. It had gone through 10 presidents in 10 years, and employees mistrusted management.

Then in 1994 Gordon Bethune stepped in. Instead of running around willy-nilly trying to stamp out the various raging fires, Bethune took a step back to return to the basics. He identified Continental's key goals so that employees' efforts would be concentrated on them rather than diffused by the disaster of the moment. One of his areas of focus was creating a corporate culture. Without the commitment of the employees, the other goals would be impossible.

Drawing on the organization's history of excellence in service, he rallied the workforce. Bethune discovered that the employees weren't bad—they just worked in a dysfunctional organization. So they were quick to get behind his new leadership.

Senior management was a different story. Bethune knew he had to make wholesale changes, and that meant getting rid of the bureaucracy. In a couple of months, Bethune and his top executives replaced 50 of the company's 61 officers with 20 top-notch people.

The changes were dramatic. In one year's time, Continental went from being ranked the worst in customer satisfaction among major airlines to first.

The birth of 'excellence'

Tom Peters didn't exactly give birth to excellence, but he did establish the idea that companies can achieve excellence under the inspiration of a management guru—like himself.

It all began in the spring of 1978. John Larson of McKinsey's San Francisco office was set to give a presentation to a client. But his computer crashed and took with it his notes. He turned to another consultant, Tom Peters, to throw together a presentation that would satisfy the client.

Peters had just returned from traveling the world to compile research on best practices in business. Up until then, his research had been collecting dust after he had presented it to the McKinsey powers that be. With an opportunity to present his findings again, Peters gathered his data. In search of a sexy title to give his presentation, Peters came up with "Excellence." It was a hit.

Eventually, Peters edited the material into a manuscript. Continuing with the idea of excellence, he titled the book *The Secrets of Excellence*. But the title didn't fly with the McKinsey folks, who feared that clients would think the company was selling the secrets of client operations. In 1982, Peters and co-author Robert Waterman renamed it the more politically astute *In Search of Excellence*. And thus was excellence born.

Try ginger for its health benefits

Looking to get over a cold a little more quickly, or ease muscle soreness? A little ginger may help. Check out this list of ginger's healthy benefits from the Huffington Post website:

- **The common cold.** Some research suggests that ginger helps your body sweat out a cold, as well as producing a germ-fighting agent called dermicidin, which can protect you from bacteria and fungi.

- **Muscle aches.** One study by the American Pain Society found that taking two grams of ginger for 11 days can significantly reduce aches and muscle soreness caused by exercise. That's because ginger contains anti-inflammatory compounds known as gingerols, which prevent the transmission of pain from inflammation. Try adding a few slices of ginger every time you drink a glass of water.

Watch out for 'masked' hypertension

Being diagnosed with high blood pressure may be scary, but thinking your blood pressure is normal when it's not? Scarier still.

The Live Science website reports that almost one in eight Americans who believe their blood pressure is just fine may really have a masked form of hypertension that doesn't show up when they visit their doctors. Instead their blood pressure is elevated during their daily activities, so they may be at increased risk of heart disease without realizing it.

To diagnose masked hypertension, researchers suggest wearing 12-hour blood pressure monitors that take readings through the day.

The flip side of this phenomenon is so-called "white-coat hypertension," in which patients' blood pressure increases at the doctor's office (possibly from nervousness?) but is normal the rest of the time. Unlike masked hypertension, these people don't appear to be at a higher risk of heart disease.

Cleaner air = longer life

Take a deep breath. Lots of them. You'll be breathing longer these days, thanks to improved air quality. Researchers at Brigham Young University and the Harvard School of Public Health, writing in the *New England Journal of Medicine*, say that since the introduction of the Clean Air Act in 1978, Americans' life expectancy has increased by 2.72 years. Although changes in smoking habits and better socioeconomic living conditions are a major factor in our increased longevity, the scientists note that as much as five weeks of our lengthened lifespans are due to better air because of cuts in auto emissions, steel mills, diesel engines, and coal-fired power plants.
