I would like to mention once again that there can be no unapproved, underage residents or occupants living in the park. Everyone has to be approved. We do a complete background check and credit check on everyone even if they are just an occupant in your home. If you have any questions, please call or come to the office.

The City of Largo Code Enforcement Division is now coming to all the parks in Largo to inspect all the lots. Please keep your homes free of debris, unnecessary items on your carports or behind your homes, and be sure all vehicles are in running condition and have up to date tags.

Please be sure when you sell your home, that the person is park approved. If you sell your home and the new owner is not approved, we cannot take their lot rent payment. The home will stay in your name until they are approved or, if underage they would need to leave. But again, the home remains in your name and if it goes to eviction it will go on your record. We have had a few former residents do this and the evictions went under their name, and they were also sent to collections.

If you have any questions or concerns, please call the office

Home Owner's Association

Colleen McNeill

Here we are in the middle of February already. This year is flying by already and we just started. Our meeting on February 11th was informative for our members. Some questions have been asked of our board regarding having a recycling day as we have had in the past (Haz to Go). This would be in our park and would allow us to get rid of household chemicals, old paint and electronics the correct way. I will be reaching out to see if I can get something set up for us and keep you posted. We are also trying to establish a health fair day. This was suggested last year and I'm not sure what happened, so we are re-visiting this again. We have someone that works with Medicare that will be helping us to arrange this event.

We are trying to establish another 360 committee to follow last year's committee that did such a good job putting things together and presenting them to management and ELS. We need the same thing to happen this year as well. If you're interested in volunteering, please let one of your board members know and hopefully we can get a committee up and running again.

The bylaws committee has had their first meeting and everyone on the committee has been given the bylaws to review. They will be having another meeting in the next couple of weeks and we should have an update for you at next month's meeting.

We have a lot of upcoming activities being put on by the DYCA and Ladies Auxiliary and I hope that we have better participation than what we have seen at the last few events. We had a great turnout at the pancake breakfast this past week. As a member of the community, I volunteer my time for as many functions as I possibly can. I hope things continue to improve for all of our functions but that can't happen without you. There still needs to be community involvement. We don't want to lose another activity from lack of interest and support.

So please join in and support all of our organizations, Ladies Auxiliary, DYCA and the HOA.

OUR NEXT HOA MEETING ORIGINALLY SCHEDULED FOR MARCH 10 WILL HAVE TO BE RESCHEDULED SINCE THE MANOR HOUSE WILL BE CLOSED FOR FLOOR REPLACEMENT.

March sunshine article.

I can't believe it is March already. Time does go by so fast. Lots of colds and flu and crud going around. Hope this is over soon. Get well everyone that has this problem. Cecil Smith 191 Meeting had emergency surgery but is home now and doing well. Per Shirley. She said he is a good patient. Keep it up Cecil.

But on a very sad note, long time resident Ed McGuire, passed away on Jan 25. very suddenly. He had just returned from a cruise and passed. He will be greatly missed by all. Ed took many great pictures of events here in the park over the years. Plus being president of DYCA and many other things. I think he lived here about 20 years. But the happy part is he will be with his lovely wife Paula. Rest in peace Ed. We will all miss you.

Please stay well all our friends here in DY.

Again, let me know if you hear of any illnesses or deaths. Thank you

Phone number is 727-523-9771 to call and let me know or send a message on DY facebook page.

Down Yonder Dance

Barbara Kassel

We will be continuing to line dance every Monday and Friday at 10:00 AM. Some of our dancers have come back and a lot have not, but we are very glad to see those who are back.

If you haven't danced with us before, come give it a try. I have not scheduled a beginner's class as there has not been any interest shown in having one. However, if you don't know how to line dance it is very easy and we will help you. We have a couple of new people who have picked it up quite quickly.

Hope to see you there--come dance. It is great exercise and lots of fun.

The business of forgiveness

A marketer and a retail merchant, who attended the same church, struck a business deal together. The marketer heard that the merchant wanted to expand his operation, so the marketer offered the merchant a line of credit on goods to be sold in the store.

Soon after the merchant had used the line of credit, he fell on hard times. Business was bad, and he was unable to pay off his debts. The marketer was troubled. Not only had his first deal with the merchant gone sour, but now it seemed that he might never recover the thousands of dollars owed to him.

In his heart, the marketer knew that the merchant was an honest man who just did not have the resources to settle the debt. The marketer didn't want to contribute to the ruin of the merchant, so he followed his heart and forgave the debt. Soon afterward, the merchant went bankrupt and closed his store.

Years passed. One day, the daughter of the bankrupt merchant visited the marketer. She offered him a small diamond-studded bracelet—a family heirloom—as partial payment for her father's debt.

The marketer explained to the woman that the debt had been long forgiven. But the woman insisted that he accept the offering—if not as payment, then as a token of appreciation. The marketer humbly accepted.

Several days later, he took the bracelet to a jeweler to be appraised and was astonished to learn that its value equaled the amount of the merchant's debt. The marketer returned to his office and entered "Paid in Full" into his ledger—next to the merchant's name.

Own your words. Your words are the maps of your intentions.
—Chris Brogan

New Earth-like world detected light-years away

The hunt for Earth-like worlds outside our solar system has reached another milestone. The Science Daily website reports that NASA's Transiting Exoplanet Survey Satellite (TESS) has discovered an Earth-size planet in a star's habitable zone, the orbital area where conditions could be right for life.

Although many extrasolar worlds have been found, few the size of Earth have been seen in the “Goldilocks zone”—an orbit that’s neither too close to a sun nor too far away, but “just right.” The planet, TOI 700 d, is 100 light-years away in the southern constellation of Dorado. It orbits its sun every 37 days and receives 86% of the energy that our sun provides to Earth. It and other planets in the system appear to be tidally locked, meaning as they circle in their orbits, one side is constantly bathed in daylight.

It’s the first time TESS has discovered an Earthlike planet. Other such planets have been detected by NASA’s Kepler Space Telescope.

Fun fact: The star was initially classified incorrectly in the TESS database as being similar to our sun, which made its planets appear bigger and hotter than they actually are. One of the researchers who identified the error was a high-school student.

Genetic tweak makes earthworms live longer

We can’t make people immortal—yet—but scientists have discovered some genetic tweaks that can extend the lives of earthworms by 500%, according to the Science Alert website.

The earthworms in the study live only two or three weeks, making them good candidates for experiments involving genetic and metabolic processes that they share with humans. Scientists have already discovered that changing the worms’ insulin signaling pathway can increase their lifespan 100%. Similarly, alterations to a pathway called TOR (target of rapamycin) results in a 30% extension.

A new study has found that genetically shifting both pathways appears to cause an effect four to five times higher than the single genetic procedure—a synergistic approach that pulls a combination of networks together for the long term.

It’s unclear whether the research will ever result in expanded human lifespans, as humans live longer than a few weeks, making experimentation more difficult (and ethically problematic). For now, scientists will have to rely on shorter-lived species like worms, fruit flies, and mice—although in the last year scientists were able to extend the life of mice and reduce their chances of cancer by working with their telomeres.
