FROM THE DESK OF THE PRESIDENT

Shirley Roslan

The social committee gifted Glenwood with two beautiful new stoves, and we thank them for their generosity. If you haven't seen them stop by the Community Center and have a look. There was also a problem with the refrigerator freezing food and beverages so we had it worked on last month and that has been resolved.

By the time you get this the pool resurfacing project should be well under way. Hopefully it won't take longer than a month but, of course, this will probably be the time Mother Nature decides to step up our rainy season. Let's all keep our fingers crossed for a best case weather scenario!

FROM THE BOARD OF DIRECTORS

We would like to remind everyone to make sure your Lot number is clearly visible on your unit. This is actually required by the fire department and EMS. It's usually evident when a structure is on fire but that isn't so if you are inside and in some kind of medical distress. At that point time is of the essence and emergency services needs to be able to find you.

Some of the mailboxes in this Park are looking really shabby. Please, inspect your mailbox and paint or repair it, whichever applies.

FROM THE EDITOR

Jeanne Humphrey

If you would like to submit copy for September's Gazette we must receive it **NO LATER** than Wednesday, August 16th.

FROM THE SOCIAL COMMITTEE

Jan Kearney, Secretary

Social Committee had a very nice turnout for the 4th of July celebration. We were happy to have new residents Tom and Connie Ramsey join us along with Bea Burris also a new resident. As always the food was very good and such a variety. We had a little "ambiance" as Tom called it with a friend coming to play a few patriotic numbers that we were ask to sing along with. I want to thank everyone who helped sit up as well as clean up. It is so nice when people come to offer help without having to be asked. I appreciate all of you.

In August we are having an Ice Cream Social on August 13th at 2 pm. The price for residence is "FREE" but we will charge guests \$3.00. The catch is that everyone needs a ticket so we know how many to prepare for. You may get your tickets from Janet Green or Glenna Fasold. Please make sure you get your tickets so we know how much to purchase for everyone. Come and join us for a nice dish of ice cream with the trimmings.

A little note of importance: We have purchased and have installed two new ovens for our kitchen. We have also purchased a new Bunn Coffee Maker to use for our functions. You are welcome to come down to the Club House and take a look at what we are doing.

A big "Thank You" to Carol Fariel for showing up to help with the Father's Day Brunch. She thought she had gone back home for the summer but took ill called her local doctor who insisted she come down to be seen. What a blessing for us, she was not feeling well but stepped up to help out. Thanks again Carol for your SUPPORT.

Opps, the 4th of September is Labor Day, so we will have our annual Labor Day Picnic at 2 PM. Remember to bring that special summer time dish that you make and share it. The tickets will be on sale after the August Ice Cream Social. The cost of the tickets will be \$1.00 and \$3.00 for the guests. We supply the meat, drinks, as well as plates to eat on. Please let us all use the plates we supply. If there is food left over it will be announced after everyone has eaten that leftovers can be taken home.

I want to personally thank everyone for their help this summer and all of the nice words that has been said about our functions. It has been fun and I think we all enjoyed everything that we have done. Looking forward to seeing you around the park.

A RECIPE TO SHARE

Jim Wildes

Fire Cracker Chicken

- 3 tablespoons paprika
- 1 tablespoon freshly ground pepper
- 1 tablespoon kosher salt
- 3/4 teaspoon brown sugar
- 3/4 teaspoon chili powder
- 3/4 teaspoon garlic powder
- 1/2 teaspoon ground cayenne pepper
- 3 1/2 pounds chicken thighs or legs

Combine spices into a rub. Coat the chicken pieces with the rub and place in a freezer bag. Place bag in the refrigerator for at least one hour and up to eight hours. Remove chicken from refrigerator and coat with cooking spray. Grill for thirty minutes, turning occasionally, until cooked and juices run clear.

Columbus' anchor salvaged from the depths

A team of explorers believe they've discovered an anchor from one of Christopher Columbus' ships in the Caribbean. According to a story on the Fox News website, an analysis of the anchor shows that it dates from somewhere between 1492 and 1550. It weighed 1,200-1,500 pounds and probably belonged to a 300-ton vessel, typical of Columbus' time.

The anchor is believed to come from a fleet of smaller ships called caravels, which included the Pinta. Captained by Vicente Pinzon on one of the "minor voyages" of Columbus' third expedition to the New World, the ship sank in a hurricane near the Turks and Caicos islands in 1500.

In addition to the anchor, the team brought up other artifacts at the shipwreck site, including grappling hooks used for salvaging cargo from shipwrecks, as well as pieces of pottery and an olive jar painted with indigo.

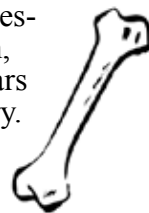

Scientists create negative mass in the laboratory

Negative mass might sound like something out of science fiction, but physicists have created it in a laboratory. The BBC News website reports that scientists at Washington State University have created a particle composed of negative mass by using lasers to trap atoms of rubidium and then cooling them down to just above absolute zero. This caused the atoms to behave as a superfluid liquid, flowing without losing any energy.

Paradoxically, if you push something with negative mass, it accelerates in your direction, following behavior predicted by quantum mechanics. Scientists expect the technique to help them solve questions about black holes, neutron stars, and dark energy in the cosmos.

Ancient bone raises modern questions

An artifact unearthed in Crimea may shed new light on our Neanderthal ancestors, according to the Sci-News website. It's a bone fragment from a raven, and it's approximately 38,000 years old. A mere 18 mm long, the bone bears a series of notches that are too evenly spaced to be the result of everyday butchery. Archaeologists believe that two notches on the raven bone could have been made intentionally by Neanderthals to create a pattern meant to be consistent or symbolic. The bone may have worn as a personal ornament, some speculate.

Traditional books are alive and well

Publishers and traditional readers alike have long been worried about the rise of electronic books as sales of Amazon's Kindle and other devices have grown, but their concerns may have been at least somewhat overblown. New studies suggest that the growth of e-book sales is leveling out—and possibly declining.

According to the Chicago Tribune website, during the first nine months of 2016 e-book sales dropped by 18.7 percent compared with the same period a year earlier. On the other hand, hardcovers, paperbacks, and audiobooks did not suffer a similar decline. In the same time frame, e-books' share of the total market fell to 17.6 percent from 21.7 percent. In addition, sales of hardcover books in 2016 outpaced e-books for the first time in five years.

Don't panic—books don't look like they're being replaced any time soon.

More Americans taking advantage of technology

The digital revolution continues gaining ground, according to the Pew Research Center. Seventy-seven percent of Americans own a smartphone, a figure that's almost doubled since Pew began tracking smartphone ownership in 2011.

Similarly, broadband access is on an upswing, with home broadband service rising 6 percent in 2016 (after a slight decline from 2013 to 2015). In November 2016, nearly three-quarters (73 percent) of Americans reported having broadband service.

Finally, 69 percent of U.S. adults are using social media, especially young people—86 percent of 18- to 29-year-olds are on at least one social media platform.

New hope for headache sufferers

Cluster headaches, such as migraines, are rare, but they can cause intense pain to the people (mostly men) who suffer from them.

But there's hope. According to the NBC News website, the Food and Drug Administration has recently approved a device known as the vagus nerve stimulator for treatment of cluster headaches. Sufferers place the small device, named gammaCore, against the neck and send a mild electrical stimulation to the vagus nerve—a large nerve that runs from the brain to the colon. The jolt disrupts signals along the nerve, reducing the pain.

Vagus nerve stimulation is already used to treat ailments such as epilepsy and depression. Gammacore, manufactured by the organization electroCore, is available in Europe, but electroCore plans to begin offering it in the United States later this year.

Coffee more popular than ever

For more and more people, a morning cup of coffee is part of starting the day off right. According to a National Coffee Drinking Trends consumer survey, the number of Americans drinking coffee daily has increased to 62 percent, up from 57 percent in 2016.

The biggest increase is in the 13-18 age bracket. Their daily coffee habit climbed to 37 percent in 2017, up from 31 percent in 2016. Adults ages 18-24 increased their coffee habit from 48 percent to 50 percent, and 63 percent of adults 25-39 drank more, up from 60 percent.

Sixty-four percent of Americans 40-59 drink a daily cup of joe, up from 53 percent last year. The 60-plus crowd moved to 68 percent in 2017 from 64 percent the previous year.

Consumers prefer the human touch

Electronic self-service may be the wave of the future for many organizations, but lots of consumers are bucking the trend. The CRM Buyer website reports that researchers surveyed more than 24,000 consumers in 12 countries about customer interactions, and here's what they found:

- Eighty percent prefer customer service from a human instead of an automated system.
- Eighty-three percent say that interacting with a customer service rep is important on the phone or in a store.
 - Sixty-eight percent believe they're more likely to get a better deal when negotiating in person instead of online.
 - Eighteen percent said they would renew products or services because of good personal customer service, even if they were more expensive.

Mathematics—the unshaken foundation of sciences, and the plentiful fountain of advantage to human affairs.

Unclear on the concept

A group of managers who had never taken the time to understand the technical aspects of their organization’s product line took a tour of their plant. They made several disparaging comments about their manufacturing employees’ intelligence until their guide decided to challenge them.

Pointing to a flagpole rising from the floor, the guide gave them a tape measure and challenged them to measure the height of the pole—without using a ladder. The managers all exclaimed how easy that would be and started in. But they couldn’t figure out a way to reach to the top of the pole to get an accurate measurement.

Then the guide asked a worker who was walking by on her way to lunch to measure the pole. The woman walked over to the pole and looked at its base. Seeing it was screwed into a stand, she unscrewed the pole, laid it on the floor, and measured it, all in about 30 seconds.

“Ha!” said one of the managers. “That doesn’t count. We were supposed to measure the height of the pole, not its length!”

The wrong assumption?

Two experts in business economics were out for a walk and noticed two men in buildings on opposite sides of the street yelling and screaming at each other out of their windows.

After observing the situation, one of the economists said, “I predict they will never find a way to agree and resolve their argument.”

“Why not?”

“Because,” said the first, “they are arguing from different premises.”

One way to solve a problem

A farmer invested his savings in building a pond to raise fish for sale. But after he stocked the pond, he discovered he would soon have a problem. A friend warned him that kids from the nearby town liked to sneak into farmers’ ponds to go swimming. The farmer knew they would stir up the muddy bottom and kill off his fish.

One evening the farmer, carrying a pail, went down to the pond. Sure enough, a bunch of young people were getting ready to dive in. They outnumbered the lone farmer and showed no signs of fearing him. In fact, they taunted him and dared him to drive them off. But he simply reached in the pail and started tossing chunks of raw meat into the water.

“What the heck are you doing?” asked the trespassers.
The farmer shrugged. “Just feeding the alligator.”
