## Veteran's Day November 11, 2016:

---

The Golden Crest Recreation Board would like to send out a thank you to the volunteers from Golden Crest who helped out at the Veteran's Day Ceremony, held this year at Golden Acres. Thanks go to Golden Acres for hosting the event. The presenters made some very moving remarks.

## Fiber Art/Craft Group:

---

Starting December 6, 2016 join us for a couple of hours each Tuesday morning in the Clubhouse, to work on any project, craft or any form of Art, Knitting or just to socialize.

## Dunedin & Park Recycle Program:

---

As we start another winter season at Golden Crest, a reminder for all **Full Time and Snowbirds** returning to the Park:

- Items placed in the Blue Re-cycle Bin **should be cleaned prior to placing in the bin.** A sticker on top of the re-cycle bin details what items can be re-cycled.

- Also remember on Monday's, the Blue Bins are placed at the curb for pick-up, place the Blue Bin at least 5 feet from the Green Waste (Garbage) Bin. This makes it easier for the trucks to pick up the Bins.

## Park Bingo Night:

---

We would like to welcome back, for the 2016 - 2017 winter season, all returning Bingo players. New players are always welcome. Everyone is welcome to come out for a fun evening of Bingo, every Tuesday night starting at 7:00pm, December 6, 2016, in the Park Clubhouse.

Helene Haanpaa – Co-ordinator

## The Buy One Get One Free Program for the Food Bank:

---

As we all return to our winter homes it has been suggested, perhaps we could start gathering food for the local Food Bank. One idea is, when we go shopping and the supermarket has a Buy One Get One Free, if you only need One item, how about getting the Second free one and we can accumulate for a Food Bank drop.

We'll set up a box in the Clubhouse to collect the items and do a bi-monthly drop off at the food bank. Non-Perishables items only please.

## January 2017 Park Rummage Sale:

---

To donate to our once a year sale please go through your unit and sort out gently used items you no longer need. The **Rummage Sale, on Saturday January 14, 2017**, supports all our activities within Golden Crest. Such as the weekly Coffee and Donuts - (some Parks charge for this). The entertainment at our various events is paid from this revenue stream. Also, part of the food for each event is also covered. So please donate generously and shop on January 13th and 14th. Park Residents get first choice on all items at our pre-sale for residents only on **Friday January 13, 2017**.

If you have any business contacts, please ask them for a donation of a gift certificate for sales or services, to be auctioned off to Park Residents. All donated gifts will be auctioned after coffee on **Thursday January 19, 2017**.

More details will follow in the January 2017 Park News Bulletin.

**VINYL IS FINAL**

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

## From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

*The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2017. Another example of how the community gave back.*

## Did you know that December is also...

**Buckwheat Month.** Designated the “December Grain of the Month” by the Whole Grains Council, buckwheat contains higher levels of zinc, copper, and manganese than other cereal grains, along with a very high level of protein. It’s used in soba noodles, crepes, blintzes, pancakes, and other delicious foods.

**National Impaired Driving Prevention Month.** This holiday season, make sure to plan for a safe way home, especially if your plans involve alcohol. If someone you know is drinking, don’t let that person get behind the wheel. Remember, too, that just because you’re driving sober, others on the road may not be. Always buckle up, drive with caution, and call 911 to report a suspected drunken driver.

**Safe Toys and Gifts Month.** Prevent Blindness America has declared December Safe Toys and Gifts Awareness Month, encouraging gift-givers to consider whether the toys they plan on giving suit the age and individual skills and abilities of the child who will receive them—especially for children under age 3.

**Universal Human Rights Month.** This month commemorates the Universal Declaration of Human Rights, adopted by the General Assembly of the United Nations on Dec. 10, 1948. Driven by the human tragedy of World War II, this document represents the first global expression of human rights.

**National Handwashing Awareness Week, Dec. 4-10.** Remember these four principles of hand awareness to stay healthy: Wash your hands when they’re dirty and before eating; don’t cough into your hands; don’t sneeze into your hands; and avoid putting your fingers into your eyes, nose, or mouth.

**Older Driver Safety Awareness Week, Dec. 5-9.** Promoting greater understanding of the importance of mobility and transportation so older adults can remain active in the community by shopping, working, or volunteering—with the confidence that lack of transportation options will not strand them at home.

**Computer Science Education Week, Dec. 5-11.** Computer Science Education Week (CSEdWeek) is an annual program dedicated to inspiring K-12 students to take an interest in computer science. CSEdWeek is held in recognition of the birthday of computing pioneer Adm. Grace Murray Hopper (December 9, 1906).

**Kwanzaa, Dec. 26-Jan. 1.** A weeklong celebration held in the United States and in other nations honoring African heritage in African-American culture, culminating in feasts and gift giving. Kwanzaa was created by Maulana Karenga and was first celebrated in 1966–67.

## The smell of hate

A teacher decided to play a game with her class. She told each child to bring in a plastic bag containing a few potatoes and to give each potato the name of a person that the child didn't like. The number of potatoes that the children put in their plastic bag would depend on the number of people they don't like.

The next day some children had two potatoes, some had three, and some had five potatoes or more. The teacher then told the children to carry the potatoes with them wherever they went for a week.

Days passed, and the children started to complain about the unpleasant smell let out by the rotten potatoes. Also the children with five or more potatoes complained because they had to carry heavier bags. The children were relieved when the game finally ended.

Then the teacher told them the meaning of the game: "This is what happens when you carry hatred for somebody inside your heart. The stench of it spreads everywhere, and you carry it with you wherever you go. If you can't tolerate the smell of rotten potatoes for just one week, can you imagine what is it like to have the stench of hatred in your heart for a lifetime?"

## The elephant's teeth

One day a hungry mouse in the jungle found a small nut. He tried to bite into it, but its shell was too hard and thick. Irritated, the mouse said, "Why did the gods give me such tiny teeth?"

Suddenly he heard the voice of a god from far above. "Mouse, go out and look at all the animals in the jungle. If you find one whose teeth you like, I'll give them to you."

Overjoyed, the mouse ran through the jungle, looking for the biggest teeth he could find. He looked at many animals but didn't find any teeth he liked until he spotted an elephant. Envious of the beast's thick tusks, he wandered over and asked, "Sir, are you happy with those big, long teeth?"

The elephant answered: "Friend, these are just for show. I can't use them to chew food as you do. At least you don't have to bear the weight of these huge teeth."

Hearing this, the mouse realized he was better off having tiny teeth and went off to find his nut again.

---

**A** new flexible material for windows and sunroofs may be able to control the heat and light they receive from the sun, according to the Phys.org website. Scientists at the Cockrell School of Engineering at The University of Texas at Austin used a low-temperature process to create a material with a unique structure that doubles the efficiency of the coloration process, allowing it to switch between clear and tinted more quickly than other coatings.

The scientists, part of an international team, believe their research could lead to the creation of materials for other applications such as supercapacitors to store and release electrical energy rapidly and efficiently.

## **Rare shark may have lived almost 400 years**

---

**T**rees can live thousands of years. Animals don’t live nearly so long, but scientists have discovered what they believe may be the longest-living vertebrate animal—a Greenland shark. Analyzing carbon in the eye lenses of one Greenland shark after its death, marine biologists at the University of Copenhagen determined that the shark was 392 years old, give or take about 120 years. That beats the previous record holder for vertebrate longevity, a bowhead whale that lived about 211 years.

Little is known about the Greenland shark. It’s one of the largest carnivores in the world, and dominates the food chain in northern waters. The scientists studied Greenland sharks accidentally caught by fishing boats, analyzing their eye lenses because sharks don’t have the kind of bones that build up calcified rings as they age. Although some scientists disagree that the shark’s age is typical, they concede that we know little about the average lifespan of this mysterious predator.

## **Particles may halt bleeding, save lives**

---

**S**aving a life after an accident or injury is often a matter of stopping blood loss as quickly as possible. The Science Daily website reports that scientists have devised nanoparticles that can locate the site of a bleed and help form blood clots to stanch the flow.

The nanoparticles are coated with molecules that adhere to a glycoprotein in activated blood platelets and bind to those platelets to form clots. The particles have been tested in rats and pigs, and they soon will be tested for their effectiveness in human blood—potentially saving thousands of lives.

## Youngsters have some good and creative ideas

Children are naturally creative and inventive because they don't know what's impossible. Try checking out these inventions created by kids across the years:

- **Trampoline.** Sixteen-year-old George Nissen was captivated by the sight of trapeze artists dropping into nets at the finish of their shows in the 1930s. In his parents' garage he developed the "bouncing rig," a metal frame with canvas stretched over it. Years later he switched out the canvas for nylon and came up with a new name—"trampoline," adding the letter e to the Spanish word for "diving board."
- **Popsicle.** One cold night in San Francisco in 1905, 11-year-old Frank Epperson mixed up a concoction of soda water powder and water and left it outside all night. In the morning he looked at the frozen mixture with the stirring stick still inside and realized it might be fun to eat. He began giving them out as treats, and as an adult patented the product with the name "Eppsicle"—later changing it to "Popsicle" after his own children started calling it by that name.
- **Earmuffs.** At age 15, Chester Greenwood's ears grew painfully cold while ice skating. A scarf around his head didn't help, so he went home, built a wire frame, and asked his grandmother to sew some beaverskin pads to it. Greenwood patented his earmuffs in 1877 and eventually sold them to soldiers fighting in World War I.

## Use these three boxes for creative thinking

Experts often encourage people to think outside the box when trying to be creative. According to K.H. Kim, writing at The Creativity Post website, you should consider three distinct boxes to unleash your imagination:

- **Inside box.** This box holds your expertise and knowledge, and it's useful for narrowing things down, focusing on specifics, and identifying options.
- **Outside box.** This box is flexible and holds all the possibilities. Let it relax your focus and explore everything, whether it's related to what you're working on or not.
- **New box.** This box lets you synthesize and refine ideas so you can implement them effectively. Use it to connect ideas and find new ways of approaching problems.
