A Message for your Recreation Committee

Mary Redding - Chairperson - Recreation Committee

Greetings and welcome back! We are looking forward to a fun season. Your recreation committee has been brainstorming to come up with some great activities and events for this upcoming year. We will be trying some new ideas and look forward to everyone's participation and feedback. For the cooking aficionados, be thinking of your best chili recipe for our chili cook-off contest. Brush the dust off your old bell bottoms, peace signs and tie dyed shirts and join us at the Woodstock Revisited dance. Also come celebrate the holidays at the Christmas potluck and New Years Eve celebrations. Hope to see you at the regular coffee hour at 9AM on Thursdays to meet and greet your neighbors and learn about park and local activities. Check out the Recreation Committee's Calendar of Events for all the details.

Boost your thinking with Limits

Sometimes a few constraints can boost your creativity. As recounted on the Fast Company website, publisher Bennett Cerf bet one of his authors, Theo Geisel—better known as Dr. Seuss—that he couldn't write a children's book with just 50 different words. Seuss stepped up to the challenge and won the bet with his book, *Green Eggs and Ham*.

“Putting limits to encourage creativity might sound counterintuitive,” writes JotForm CEO Aytekin Tank on the website. “But the thing is, constraints encourage more divergent thinking—and you can leverage built-in limits or apply them to the project at hand. For example, sometimes we'll tell our designers that they can only have 10 elements on a product screen. These limits stretch their problem-solving abilities and typically produce surprising results.”

Four paths to inspiration

Creativity calls for patience and a willingness to make mistakes along the way to success. The Thrive Global website offers some advice on how to begin this sometimes difficult path:

- Anticipate the future. Look at trends instead of the status quo. What's changing, and how can you take advantage of it? This helps you challenge conventional thinking and start finding new areas to explore.
- Let yourself play. Don't take your projects too seriously. Take time to relax and do something different. When working, give yourself the freedom to try something new and outlandish. Even if it leads nowhere, it should loosen up your mind so you can spot new possibilities.
- Let your mind wander. Focus is important, but so is a wide perspective. Think about the project you're working on, and allow your mind to explore all the angles without worrying about what's “right.” A wandering mind will sometimes come across a useful idea.
- Embrace ambiguity. Look at elements that don't seem related, and try to forge connections in your mind. Looking for similarities instead of differences can help you link ideas usefully and develop more options than what's immediately apparent.

A strange thing, words. Once they're said, it's hard to imagine they're untrue.
—Lauren DeStefano

Creativity

Inventive women from history

Some of the most common things we use every day were invented by creative women. Here are a few, gathered by the Mental Floss website:

- Circular saws. Tabitha Babbit, a weaver in a Shaker community, suggested that instead of a two-man pit saw that worked only when being pulled forward, a circular saw would be more efficient. She attached a prototype to her spinning wheel in 1813 and filed a patent thereafter.
- Paper bags. Margaret Knight created the modern, flat-bottomed paper bag in 1868. Before then, paper bags looked like envelopes. A man tried to steal the idea and file a patent, but Knight filed a lawsuit and won the rights to her creation.
- Windshield wipers. Mary Anderson invented the first manual windshield wipers in 1903. They didn't take off because most drivers thought it was safer to simply drive through rain and snow than keep pulling a lever to clear it. Another woman, Charlotte Bridgwood, invented an automatic version in 1917, but it wasn't accepted either. Still, by 1920 windshield wipers were everywhere, starting with Cadillac, which began installing them on all its cars.
- Liquid paper. A secretary named Bette Nesmith Graham corrected her typing mistakes with white tempera paint. After years perfecting the formula in her kitchen, she patented Liquid Paper in 1958. Gillette bought her company in 1979 for \$47.5 million.
- Kevlar. This lightweight material will stop a bullet. It's five times stronger than steel. A chemist named Stephanie Kwolek discovered it by accident in 1966 as she was trying to develop a lightweight fiber for car tires.

The writer must have a good imagination to begin with, but the imagination has to be muscular, which means it must be exercised in a disciplined way, day in and day out, by writing, failing, succeeding, and revising.

—Stephen King

Happy Puppy

Our pets make us happy, or we wouldn't have so many of them. Thirty-three percent of U.S. households have a dog, 11% have a cat, and 14% have both. The 2018 General Social Survey looked at the connection between pets and overall happiness.

The survey found that 36% of dog owners describe themselves as happy, and 18% of cat owners said the same. (Twenty-eight percent who have both a dog and a cat agreed)

Does that mean you'll be a happier person with a dog as opposed to a cat? Not necessarily. The survey found that dog owners are more likely than cat owners to be married and own their own homes, two factors that influence happiness and life satisfaction. Dog owners are more likely to engage in outdoor physical activity, another factor in overall happiness.

Whatever kind of pets you have, enjoy them and they'll bring you lots of happiness.

Learn about stroke - and how to recognize one

What is a stroke? Also called a “brain attack,” it’s when blood to an area of the brain is blocked, or when there’s sudden bleeding in the brain. Someone suffers a stroke every 40 seconds in the United States, according to the NBC News website. The website describes two different kinds of strokes that can occur:

- **Ischemic stroke. This is caused by a blood clot or plaque blocking a blood vessel in the brain.**
- **Hemorrhagic stroke. This is the result of a blood vessel bursting and bleeding into the brain.**

The main causes of a stroke, according to the CDC, are high blood pressure, high cholesterol, smoking, obesity, and diabetes. How can you tell if someone is having a stroke? Remember the acronym FAST:

F: Face. The face of a person having a stroke usually droops. Ask the person to smile. If the smile is uneven, a stroke could be happening.

A: Arms. Ask the person to lift one or both arms above the head. A weak or numb arm is another symptom of stroke.

S: Speech. Is the person slurring his or her words, unable to speak, or difficult to understand?

T: Time to call 911. If the person exhibits any of these symptoms, call for medical help immediately.

Human Rights

Universal Human Rights Month

Universal Human Rights Month began in 1948, when the United Nations wrote up a document called the Universal Declaration of Human Rights to define what human rights would be protected universally. The first article of this declaration states: “All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.”

Keep your vitality. A life without health is like a river without water.

Santa by another name

Santa Claus has been a fixture of Christmas for centuries. But he goes under many different names: Kris

Kringle, St. Nicholas, Father Christmas. Here's what the "jolly old elf" is called around the world:

- Brazil: Papai Noel
- China: Shengdan Laoren
- Hungary: Mikulas
- Italy: Babbo Natale
- Netherlands: Sinterklaas
- Portugal: Pai Natal
- Russia: Ded Moroz
- Sweden: Jultomten
- Turkey: Noel Baba

One-liners

A few jokes for when you want to lighten the mood:

- I asked God for a bike, but I know God doesn't work that way. So I stole a bike and asked for forgiveness.
- I want to die peacefully in my sleep, like my grandfather. Not screaming and yelling like the passengers in his car.
- Light travels faster than sound. This is why some people appear bright until you hear them speak.
- If I agreed with you, we'd both be wrong.
- The evening news is where they begin with "Good evening," and then proceed to tell you why it isn't.

There is nothing in the world so irresistibly contagious as laughter and good humor.
—Charles Dickens
