FINANCING AVAILABLE

January 2017 Park Rummage Sale:

To donate to our once a year sale please go through your unit and sort out gently used items you no longer need. The **Rummage Sale, on Saturday January 14, 2017**, supports all our activities within Golden Crest. Such as the weekly Coffee and Donuts - (some Parks charge for this). The entertainment at our various events is paid from this revenue stream. Also, part of the food for each event is also covered. So please donate generously and shop on January 13th and 14th. Park Residents get first choice on all items at our pre-sale for residents only on **Friday January 13, 2017**.

If you have any business contacts, please ask them for a donation of a gift certificate for sales or services, to be auctioned off to Park Residents. All donated gifts will be auctioned after coffee on **Thursday January 19, 2017**.

Rules for Canadian Snowbirds (Info purposes only)

There has been lots of articles and discussion over the past few years regarding the Substantial Presence formula and the requirement to file a US tax return. The calculation is pretty straight forward. If you have spent in excess of 120 days each year for the past three years you are required to file a US tax return or the Form 8840 - Closer Connection Form.

The calculation each year is based on a three year formula which is: Current year 100% of all days spent in the US, previous year 1/3 of all days spent in the US plus 1/6 of all days spent in the US two years previously. If the days add up to an excess of 183 days you may be required to file a US tax return. If you refuse to file then you could be denied entry into the US. However, if your days are more than 120 you may file the Closer Connection Form (Form 8840), instead of the US tax return. The 8840 is currently due June 30th the following year. For example the 8840 for the 2016 tax year will be due June 15th 2017.

It is the responsibility for all Snowbirds to personally ensure they are up-to-date on requirements for Closer Connections and US tax regulations.

NOTE: For an excellent description on how to complete the Form 8840 Closer Connection, please see the Clubhouse Bulletin Board for information.

**A Complete Listing of Resident Services
can be found on the page before your calendar**

Golden Crest Golf Tournament:

The first of two Golden Crest Golf Tournaments this year will be held on Tuesday January 24, 2017 at the Dunedin Stirling Links golf club starting with a shotgun start at 8:30am. A sign-up sheet for the tournament will be placed up on the clubhouse Bulletin Board in January. As in previous years, it will be a team scramble event with a lunch and prizes after the Tournament.

Vegas Nite at Golden Crest

By: Art Taylor

Don't forget to save Saturday night February 4, 2017 for the fun night of the year, YEAH, "VEGAS NITE."

Gaming starts at 7:00 P.M. Last year we had 79 attending.

Just as a refresher and to bring the new people in the Park up to date. We have Black Jack (4 tables), Poker (2 tables), Under/Over (2 tables), Roulette Wheel and Horse Racing. Three hours of gaming, horse racing and auctions.

The format is: \$5.00 per person admittance. This includes \$3,000.00 gaming money (more can be purchased if wanted \$6,000.00 for \$5.00), beer (all night), coffee, iced tea, cookies, Jean's famous Creamsicle Punch (vodka) and during the races bowls of nibbles.

This event is for Golden Crest Residents Only. If you have guests from home-see me. NO CHILDREN PLEASE.

The HORSE WHISPERS (Carol and Eloise) are searching far and near for great Jockeys. Jean and I have been gathering some great prizes to be auctioned off.

Don't miss this night!!!!

Monthly

National Bath Safety Awareness Month. In the United States, an average of 370 people across all age groups suffer bathtub or shower-related injuries every day. Slips, falls, and hot-water burns are the prime causes of accidents in the bath and the second leading cause of accidental death and disability. Remember: Bath safety is an integral part of general home safety.

National Blood Donor Month. Some give blood because they've been asked to. Some know a family member or a friend who might need blood someday. Some simply believe it's the right thing to do. Whatever your reason, the need is constant and your donation is important to maintaining a healthy and reliable blood supply.

National Stalking Awareness Month. The National Center for Victims of Crime launched National Stalking Awareness Month (NSAM) in January 2004 to increase the public's understanding of the crime of stalking. The National Stalking Awareness Month website (www.stalkingawarenessmonth.org), launched in January 2009, provides a wealth of information about this crime and about the nationwide observance.

National Train Your Dog Month. The Association of Professional Dog Trainers began the National Train Your Dog Month campaign in 2010 to raise awareness of the importance of socialization and training, to inform the public that training your dog can be easy and fun, and to help new pet parents start off the year right with their newest family member.

Weekly

Diet Resolution Week, Jan. 1-7. This week is about focusing and altering the types of food you consume rather than just reducing the amount. Try eating at least one piece of produce every day (fruit or vegetable), eating fish at least once a month (once a week would be better), and drinking at least two glasses of water a day.

National Sugar Awareness Week, Jan. 16-20. Can you go five days without sugar? Take the challenge to find out how difficult finding foods that do not contain some form of sugar can be, as well as how this substance can affect your body, mind, emotions, and life.

No Name-Calling Week, Jan 16-20. No Name-Calling Week was inspired by the popular young adult novel *The Misfits*, by James Howe. The No Name-Calling Week Coalition was created by GLSEN and Simon & Schuster Children's publishing and has been adopted by schools around the U.S., growing into one of the largest bullying-prevention initiatives in the country.

Punctuation is powerful

Maria Feodorovna, the wife of Tsar Alexander III of Russia, was known for her charitable works. According to one story, she once saved a condemned man from exile in Siberia by moving a single comma in the warrant signed by her husband.

The original document read: “Pardon impossible, to be sent to Siberia.” The Empress moved the comma so the warrant read: “Pardon, impossible to be sent to Siberia.” The man was saved and released.

.....
There is no greater agony than bearing an untold story inside you.
—*Maya Angelou*
.....

Entice children and grandchildren to go on walks

Taking a walk is one of the simplest forms of exercise you can imagine. It’s also a fun way to spend time with your family, especially your children. Try these tips for getting them out of the house and on the trail:

- Make it an adventure. Don’t just say, “Let’s go for a walk.” Spark your child’s interest with something like, “Let’s look for leaves to collect,” or “Let’s find some animal footprints.” This makes the walk sound like more of an activity and less like a chore.
- Think ahead. Before setting off, think about where you want to go. Will it be safe for your child? You don’t want to wear children out, let them get too muddy, or force them to dodge cars and other obstacles. Plan a short walk at first. If children are still enthusiastic, you can always lengthen it.
- Walk at your child’s pace. Don’t make it a race (unless your child actually wants to run one). Match your speed to your child’s. Encourage kids to stop and look at things—bugs, rocks, trees, etc. Be willing to go off and explore in a different direction if your child wants.
- Take your pet. Most children love animals. If you don’t have a dog of your own, ask your neighbors if they’d like you to take their dog for a walk. Children will get a chance to run and play, making the walk more energetic and enjoyable.
- Dress appropriately. Make sure you and your children have the right shoes and other clothes. Sunscreen and hats are a must for bright days. Dress in layers so you can add or remove clothing depending on the temperature. If the weather is wet, wear boots.

VINYL IS FINAL

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word – the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

The five-second rule may not be so safe after all

We've all heard of the five-second rule: If a piece of food drops on the floor, it's safe to eat if you grab it in five seconds or less. That may not be true, though, according to an article on the Medical News Today website.

Researchers at Rutgers University decided to test the rule. They used four types of surfaces: stainless steel, ceramic tile, wood, and carpet. They also choose four kinds of food: watermelon, bread, bread with butter, and gummy candy. Finally, they tested four different contact times: less than a second, five seconds, 30 seconds, and 300 seconds.

They cultivated bacteria similar to salmonella and spread it on the different surfaces, allowed it to dry, then dropped each food on each surface for each designated time period. The results: The bacteria was able to contaminate the food almost instantly in every case, although with different degrees of contamination. Watermelon soaked up the most bacteria because of its moisture; the gummy treats were affected the least due to their hard surface. Nonetheless, the scientists are confident that their findings disprove the five-second rule. So you're probably safer throwing out any food on the floor.

.....
: A fit, healthy body—that is the best fashion statement.
:

Plutonian moon's red spot explained

Jupiter is famous for its great red spot, but it's not the only red patch in the solar system. Charon, a moon of Pluto, also sports a reddish blotch near its north polar region, and scientists now know what causes it, according to the Sci-News website.

The spot, nicknamed Mordor Macula, covers an area the size of New Mexico, and is made of methane that comes from Pluto. Once the methane escapes Pluto's atmosphere, it falls to the surface of Charon's north pole and then freezes (winter temperatures in Charon's polar region can drop as low as negative 430 Fahrenheit). UV light from the sun turns the methane into heavier hydrocarbons that eventually become reddish organic materials known as tholins.

Data came from the New Horizons space probe. One of the project's scientists characterized the discovery as the realization that Pluto is a cosmic graffiti artist, spray-painting its nearest neighbor red.

Oldest fossils may have evolved during hellish times

The world's oldest fossils have been discovered in Greenland, according to The New York Times. The fossils, known as stromalites (mounds that have built up over time around single-celled microbes called cyanobacteria) were found in an outcrop of rock called the Isua supracrustal belt on the southwest coast of Greenland.

The stromalites are 220 million years older than stromalites found in western Australia, previously thought to be the world's oldest fossils at 3.48 billion years old. If they're confirmed as evidence of ancient microbial life, the fossils will push back the estimated date of the formation of life on Earth to about four billion years ago, during a period when the planet was bombarded by meteors that turned oceans into steam and the surface into lava—a time dubbed the Hadean stage of Earth's history.

Genes may control your coffee intake

The amount of coffee you drink may be based on your genetic makeup. A study by an international team of researchers, written up in the journal Scientific Reports, identified a gene that regulates the expression of other genes connected to caffeine metabolism.

The gene, PDSS2, hampers cells' ability to break caffeine down, which causes it to remain in the body longer. Thus, people with the gene will feel the effects of caffeine longer, reducing their desire for more.

The scientists examined genetic data from two groups of people in Italy, and they asked participants to record how many cups of coffee they drank each day. People with a variation in their PDSS2 gene tended to drink less coffee than those without the variant. The study was replicated in a similar study carried out in the Netherlands.

So if someone ever tells you that you're drinking too much coffee, you can blame it on your genes.

There is no adequate defense, except stupidity, against the impact of a new idea.
—Percy Williams Bridgman
