"Thank you for doing a very professional job on my roof. I am not easily pleased with most contractors, ASC is the exception! Your crew was on time, sometimes even early. There are no leaks and it looks great. ASC was not the cheapest, which proves you get what you pay for."

The 15th Annual Vegas Night 2017:

By: Art & Jean Taylor

Another great Vegas Night, with 81 people attending. We want to thank all who worked or participated, from setting up the tables to putting the Club House back in shape. There were 5 new dealers/workers who did an excellent job (their contracts were renewed for 3 years).

A special thanks to the ladies on the door - Jean, Bonnie and Vicki and taking the horse bets, Donna, Bonnie and Susan. Other special thanks go to the kitchen committee, Dorothy, Donna, Eloise and Jane Anne.

The jockeys outdid themselves this year. The horse whisperers Eloise and Carole S. (did a good job selecting). Many thanks to: Mike & Linda Ballantine, Bob & Sally Nicholls and Mike McCallum & Sue Jarema for participating as horse & jockey. Thanks also to Larry P. for being the Paymaster to all the winners

The old saying " what happens in Vegas stays in Vegas " doesn't apply, spread the word and let those who didn't attend know what they missed. Again many thanks to all. Art and Jean.

Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **MortonPlantValveTrial.org**.

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Proof

A woman went to a lawyer. “My neighbor owes me \$500, and he won’t pay up. What should I do?”

“Do you have an IOU for the money?” the lawyer asked.

“No, it was just a promise.”

“Here’s what you do,” the lawyer said. “Write him a letter asking for the \$5,000 he owes you.”

“But he only owes me \$500,” the woman said.

“And when he writes you back to say that, you’ll have your proof!”

Technology changing our TV habits

The days of the whole family sitting around the TV watching the same show are over. We're still watching programming, but the options have boomed. According to The New York Times, the average American adult watches five hours and four minutes of TV per day, most of it live programming—about four and a half hours, with another 30 minutes coming from DVRs. That sounds like a lot, but it's actually down by 19 minutes from two years ago.

Most live programming is watched by people over 50. People 24 and under view about two fewer hours of live TV and DVR programming per week than they did in 2015. Millennials (25- to 34-year-olds) watch an hour less per week than that, down from 27.5 hours to 26.5. Viewers between 35 and 49 now mostly watch about 22 minutes less live programming per week.

Approximately 50 percent of U.S. households have subscriptions to online streaming services like Netflix or Hulu. With tablets increasingly common—58 percent of U.S. homes have at least one—time spent consuming media on them has risen 63 percent from 2015.

Books: Not going away

Since the rise of e-books and e-readers like the Kindle, pessimistic pundits have predicted that the physical book would soon become obsolete. That isn't happening yet, though. A study from the Pew Research Center found that 73 percent of Americans have read at least one book in the last 12 months (a number unchanged since 2012), and most of them are reading print books: The survey found that 65 percent of Americans picked up a physical book when they read in the past year, far more than those who read at least one e-book (28 percent) or listened to an audiobook (14 percent).

We're living in a yoga nation now

Everyone seems to be into yoga these days, and the numbers show that it's growing in popularity. A 2016 survey by the Yoga Journal and Yoga Alliance found that some 36 million Americans practice yoga, up from 20.4 million in 2012. Yoga practitioners spent \$16 billion on classes, clothing, and equipment in 2016, an increase of \$10 billion from 2012.

Women make up 72 percent of yoga enthusiasts, although men are catching up. The survey found that 34 percent of Americans—approximately 80 million people—say they're likely to try yoga for the first time in 2017. The main reasons for doing yoga? Flexibility (61 percent), stress relief (56 percent), general fitness (49 percent), improved overall health (49 percent), and physical fitness (44 percent).

Monthly

American Red Cross Month. For more than a century, the American Red Cross has harnessed the generosity of the American people, mobilizing the nation in the wake of disaster. The American Red Cross and its international partners have served during crises across the United States and around the world. During American Red Cross Month, Americans celebrate the nation's humanitarian spirit and recommit to providing relief and hope in times of crisis.

Brain Injury Awareness Month. Sponsored by the Brain Injury Association of America, which conducts an awareness campaign each March. The theme for the 2017 campaign is "Not Alone," providing a platform for educating the public about the incidence of brain injury and the needs of people with brain injuries and those in their families.

Music In Our Schools Month. An annual celebration of music educators, students, and communities nationwide, all promoting the benefits of high-quality music education programs in schools. Music In Our Schools Month began as a single statewide event in New York in 1973 and grew to become a monthlong celebration of school music in 1985.

Women's History Month. Women's History Month had its origins as a national celebration in 1981 when Congress requested that the president proclaim the week beginning March 7, 1982, as "Women's History Week." Throughout the next five years, Congress continued to pass joint resolutions designating a week in March as "Women's History Week." Since 1995, Presidents Clinton, Bush and Obama have issued a series of annual proclamations designating March as "Women's History Month."

Weekly

Professional Pet Sitters Week, March 1-7. An annual observance that honors professional pet-care providers, seeking to educate the pet-owning public about the advantages of professional in-home pet care and encourage pet-loving entrepreneurs to explore professional pet sitting as a viable career.

Dental Assistant Recognition Week, March 5-11. Dental assistants are a key part of the dental practice year-round. During Dental Assistants Recognition Week, dentists in the United States and Canada celebrate by honoring their dental assistants for the variety of duties they perform and helping them provide patients with top-quality dental care.

Women in Construction Week, March 6-12. The focus of Women in Construction Week is to highlight women as visible members of the construction industry. The National Association of Women in Construction's thousands of members across the country raise awareness of the opportunities available for women in construction and emphasize the growing role of women in the industry.

Don't let these habits ruin your workout

Regular exercise is important to good health and a long life. Just don't sabotage your workout with these common mistakes:

- **Overestimating the impact.** A 20-minute workout won't erase all the calories in a 12-inch pizza. Walking or running a mile, for example, only burns about 100 calories.
- **Overeating before exercise.** You need energy to exercise, but don't overdo it. A small snack rich in carbs is best—along with being hydrated.
- **Overeating after exercise.** Don't pig out after you work out. Fix a meal rich in protein and healthy carbs, like an egg on whole wheat toast or oatmeal with blueberries.

If we are creating ourselves all the time, then it is never too late to begin creating the bodies we want instead of the ones we mistakenly assume we are stuck with.

—Deepak Chopra

Take prompt action on eye injuries

Your eyes can be the most vulnerable parts of your body at work. Accidents like chemical splashes or bumps can happen all too easily, and the first aid that you apply to your eyes can mean the difference between minor eye damage and blindness. Here are recommended first-aid techniques for some common situations:

- **Foreign objects.** Don't rub your eyes. Instead, lift your upper eyelid outward and gently pull it over your lower lashes. This will cause your eyes to tear, which can wash out the foreign object. However, if an object is embedded in your eye, don't try to remove it—immediately seek medical attention.
- **Chemicals.** Immediately flush your eyes with cool water for at least 15 minutes. If possible, keep your head under a stream of water from the faucet, or slowly pour water from a cup to your eyes. If you wear contacts, remove them immediately and then flush your eyes. See a doctor right away.
- **Cut or penetration.** Gently cover your eye with a bandage or gauze and go to a nearby hospital. Don't try to flush it with water, remove the object, or apply medication.
