Golden Crest Christmas Craft and Bake Sale:

From: Shirley Boudreau

We certainly hope you all have had a healthy summer full of good times and relaxation. Thought it might be a good thing to jog your memory that we are only a little more than a few days away from our popular **GOLDEN CREST CHRISTMAS CRAFT AND BAKE SALE** taking place on **Saturday, November 22, 2014.**

To all you talented crafters, it would be very much appreciated if you could make a donation to the Craft table, no matter how small it might be. Of course many who could use some extra color for the holidays can put the Christmas decorations you no longer wish to keep to good use, in the sale.

And you wonderful bakers start thinking about your fantastic contributions to the Bake Table.

Remember the more we have to sell, the more that comes back to us for our yearly enjoyment.

We are looking forward to seeing you all again in early November.

In the meantime **BE HAPPY AND WELL!**

November is....

National Epilepsy Awareness Month. Epilepsy, characterized by recurrent, unprovoked seizures, affects about 2 million people in the United States. Delayed recognition of these seizures and inadequate treatment increase the risk for additional seizures, disability, decreased quality of life, and, in rare instances, death.

National Novel Writing Month. You can write a novel in only a month, along with the 600,000+ people who've already done so. Go to www.nanowrimo.org for advice, support, and a network of fellow authors working diligently on the next Great American (or any other nationality) Novel.

National Runaway Prevention Month. A campaign by the National Network for Youth to increase public awareness of the issues facing runaways and to educate the public about the solutions, and about the role they can play in preventing youth from running away.

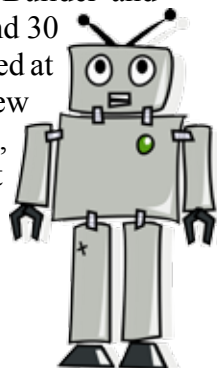

Manatee Awareness Month. The manatee is the official marine mammal of Florida, a gentle, slow-moving animal protected by the Federal Endangered Species Act as well as Florida state law. But manatees face the risk of extinction due to human activity, including the loss of their warm water winter habitat. For more information, go to the Save the Manatee Club website at www.savethemanatee.org.

Robots taking our jobs? Maybe not

The robots are coming. Surprisingly, even though they're replacing workers in many areas, they may not be driving down the number of jobs humans do.

A survey of more than 2,000 HR and hiring pros conducted by CareerBuilder and Economic Modeling Specialists found 21 percent of employers overall (and 30 percent of those with more than 500 people in their workforce) had automated at least some jobs. However, 68 percent of the employers said that adopting new technologies had resulted in new positions being added to their organizations, and 35 percent said they had ended up hiring more people. And 35 percent of organizations that replaced workers with machines said they ultimately hired people back because the technology didn't produce the results needed.
