Plans for this new fund-raiser are being made and will be announced soon. Chairmen for this event are Dorothy Archibald and Judi Farmer. The date for this new event will be January 14, 2017. More information will be made available in the fall. Tickets for this new, exciting event will go on sale in December.

RUMMAGE SALE

Cathie MacPhee has accepted the chairmanship for the rummage sale next year. We missed Cathie and Joel this year and are happy to hear they will be with us again next season. LIBRARY

6 new shelves have been installed. Lots of room for donated books! Wayne and Mary MacDonald are happy to announce that Gayle Thompson will take position of librarian during the summer months. Our thanks to you for keeping our library so neat and organized.

ALUMINUM CANS

Please save for Dave Gentner – 4818 92nd Lane North -397-7125

The following is a favorite recipe of Dave's wife Susan Gentner . As many of you know, Sue passed away earlier this year. Dave would like to share it with you.

BAKED SAUSAGE AND VEGGIES

1 lb Italian Sausage (mild or hot)	1 yellow squash, cut into large chunks
3 potatoes, cut into large chunks	1 bell pepper, chopped
1 sweet potato cut into large chunks	1 tsp salt
1 apple, cut in chunks	1 tsp. dried basil
2 carrots, peeled and cutup	1 ½ tsp Italian seasoning
1 stalk celery, chopped	½ tsp garlic powder
1 med. onion, chopped	Olive oil

Lightly spray a casserole dish with cooking spray. Add in the cut-up veggies, pour in a little olive oil and sprinkle the seasonings in. Using your hands, toss to coat all the veggies. Place the sausage across the top and cover with foil. Bake at 400 degrees for 1 hour and 15 minutes. Remove and uncover, return to the oven to brown the sausage for 15 minutes. Turn sausage to brown the other side for 15 minutes. Serve with garlic bread and a green salad.

The planets: A quick tour of our solar system

Think you know a lot about the solar system we live in? The UPI website shares these intriguing facts about Earth's local neighborhood:

- **Mercury.** The planet closest to the sun can reach temperatures of 800 degrees Fahrenheit, but also a chilly low of -279 degrees at night.
- **Venus.** Farther from the sun but hotter than Mercury, Venus's surface has an average temperature of 875 degrees, hot enough to melt lead.
- **Earth.** Our rotation is slowing, but don't panic. The decrease is only about 17 milliseconds per 100 years, so we won't have 25-hour days for 140 million years.
- **Mars.** Looking for a rock from Mars? You can find them here on Earth. Meteorites from the red planet have been discovered in the Sahara, Antarctica, and other places.
- **Jupiter.** This gas giant has a magnetic field so powerful it draws space debris into its orbit, thus protecting the inner planets.

- **Saturn.** Saturn is famous for its ring, but they aren't unique. Jupiter, Neptune, and Uranus also possess rings, but they're harder to see from Earth.
- **Neptune.** Winds on Neptune can reach a speed of 1,500 miles per hour or more.
- **Uranus.** All planets rotate, but only Uranus does so on its side. Scientists speculate that a collision with another large object may have caused its tilt.
- **Pluto.** The dwarf planet really is small, relatively speaking. With a diameter of just 1,475 miles, Pluto is much smaller than the continental United States.

TO RAISE NEW QUESTIONS, NEW POSSIBILITIES, TO REGARD OLD PROBLEMS FROM A NEW ANGLE, REQUIRES CREATIVE IMAGINATION AND MARKS REAL ADVANCE IN SCIENCE.

Google answers your health questions

People turn to Google for all kinds of information. Health is always a concern, so naturally the search engine fields a lot of questions about diseases and symptoms of illness. Take a look at some of the top health-related inquiries people typed into the Google search bar in 2015 (as reported on the CNN website):

- **“Is bronchitis contagious?”** Answer: Maybe, if it’s the result of a bacterial infection.
- **“Is pneumonia contagious?”** Answer: It can be, because most cases of pneumonia are caused by bacteria.
- **“How much water should I drink per day?”** Answer: About half as many fluid ounces as your weight in pounds. For example, if you weigh 140 pounds, you should be drinking about 70 fluid ounces per day (nine cups), although factors like heat, exercise, pregnancy, and other considerations should be taken into account.
- **“How many calories should I consume?”** Answer: Check with a dietician to get advice tailored to your physical needs.
- **“What is Lupus?”** Answer: Lupus is a chronic autoimmune disease. Symptoms include headaches, fatigue, joint pain, fever, and rashes.

Slow down to eat less

Eating too fast can lead to eating too much. But when you’re busy, the temptation to cram a meal down your throat may be overwhelming. Here’s how to slow down and savor every bite:

- **Stop multitasking.** Don’t try to eat while you’re working, texting, or doing anything else. Turn off your devices and focus on your meal. You’ll have a better sense of how much you’re eating and how full you feel.
- **Sit down.** Eating over the sink or grazing while you search the refrigerator may result in consuming more unneeded calories. Set the table and put your portions on a plate to keep control of how much food you’re really eating.
- **Chew slowly.** Count each bite as you chew your food, and aim for about 20 seconds of chewing for each mouthful. You’ll force yourself to slow down, and your food will be digested more easily.

Fast and funny

Looking to get a few quick laughs? Try some of these short zingers:

- Explaining puns to kleptomaniacs is hard because they always take things literally.
- What's the best thing about Switzerland? I don't know, but its flag is a huge plus.
- I told my doctor that I broke my arm in two places. She told me to stop going to those places.
- I asked my friend in North Korea what living there is like. He said he couldn't complain.
- I was wondering why the Frisbee seemed larger the closer it got. Then it hit me.
- Have I told you this déjà vu joke before?
- I didn't know my husband stole things from construction sites, but when I got home all the signs were there.
- They all laughed when I said I wanted to be a comedian. Well, they're not laughing now.

A bull by the tail

An old rancher filed a lawsuit against a railroad company when his prize bull went missing because a train damaged a section of his fence. The rancher only asked to be paid the fair value of the bull.

A date for the hearing was set, and the railroad sent a slick lawyer to represent it. Just before the hearing began, the railroad attorney approached the rancher and started to pressure him to settle the case immediately. After a few minutes, the rancher gave in, agreeing to half the money he was asking for.

After signing the settlement papers and handing over the check, the lawyer said, "You know, I have to admit, you would have won this case. The engineer was asleep and the train was going too fast when it passed your farm."

The old rancher shrugged. "I was a little worried myself. The darned bull came back this morning."
