## FROM THE PRESIDENT

*Kathy Bornick*

**I**dentify Theft is an on-going problem in today's world. Please keep in mind that your trash is a good source of information. Do NOT allow anyone to rummage thru your trash.

People knocking on your door looking to clean your carpet, service your air conditioner, fix your TV, sell you something, etc. etc. etc. are often trying to con you out of your hard earned cash. Legitimate businesses do not have to go door to door for business. DO NOT hesitate to say NO. DO NOT let anyone in unless you know who they are.

After they leave your door. CALL THE SHERIFF. You may save a neighbor from being taken advantage of. CALL THE SHERIFF \$ 582-6200.

## FROM THE OFFICE

*Kay Tyrrell*

**R**ecently the office has been informed that guests are staying in the Park and they are not registered with the office. REMINDER!! If you have a guest that is going to be staying with you, please come to the office to fill in a guest form.

emony and Pat Knight taking care of decorations, sweet rolls, orange juice and coffee. A very nice service with several park residents lending a hand to Monty and Pat. Thanks to all who helped.

On June 2nd, Cathy Neubling hosted an informative coffee get together at 9:30 am. Thanks Cathy for volunteering to start this event.

Ruth Kredoski will be hosting a wine, cheese and fruit festival in November. We would like our northern friends to bring wine or cheese from your state.

Have a blast on the fourth and be safe!

## SHARING AND CARING

*Dolly Lake*

**PLEASE call me if you know of someone who is ill, in the Hospital, having surgery, or has passed away, etc. Very often, people think someone else has called me, therefore I am not informed. So please give me a call!! Thanks for your help.**

Maynard Taylor had back surgery and is now recovering at home. Evie Adams is recovering from abdominal surgery at home. Tony Faccenda had surgery at Largo Med and is doing well at home. Marge Spencer has been treated for a bone infection at Largo Med and then was in rehab. Fred Fogg had knee replacement surgery at Largo Med and is having rehab.

Our sympathies are being extended to the family of Larry Merlo, who passed away recently. We also extend our condolences to Vicki and Dave Nichols on the passing of her father.

## WELCOME COMMITTEE

*Anna Martorana/Pat Knight*

**D**anny Sculerati is our newest full time resident. He resides at 10122 North Lake Drive, Lot 31. Danny, as he likes to be called, is from Rockville MD. He was born in New Jersey. He has been quite busy remodeling his home. While in Maryland he owned a company that did the demolition for office interiors. Danny was pleasantly surprised to find how nice mobile home living can be. He likes to: play golf, bike ride, attend horse races, read books, and is thinking of getting back to playing bridge and he really enjoys our swimming pool. His son will be here in June for a visit from Brazil, where Danny also lived for a time. George Washington University is his Alma Mater. Danny is very comfortable in his new "digs", and is looking forward to meeting more residents in our park. Please stop by and introduce yourselves to him. Welcome to our world, Danny.

# APOLOGIES FROM THE OFFICE:

**W**e would like to apologize to Marge Musser for omitting her from the June Birthday list. Please wish her a belated "Happy Birthday" It was June 10th.

If your name has been omitted from either the "Birthday List" or the "Anniversary List", please let the office know and it will be corrected immediately.

## Twin suns may support rocky worlds—in theory

Many solar systems around the universe are binary, with two stars orbiting each other in space. Scientists have long believed that rocky planets can't form in these systems because of gravitational forces that would cause planetesimals (worlds in the process of forming) to destroy themselves in collisions instead of slowly merging with each other. Thus, the common image of a world with two (or more) sunsets on the horizon seemed relegated to movies.

But new studies suggest that planetesimals behave differently than had been thought, according to the Sci-News website. Astronomers previously theorized that small worlds seek a circular orbit, leading to collisions around binary stars; now they believe that planets in these systems may take on an oval orbit as they form, avoiding crashes and eventually accumulating a rocky mass. Such worlds could see more than one sun in the sky, and may be able to support life.

## Trust in others rises as people grow older

In a cynical world, trust can seem hard to come by. But new research suggests it may grow as we get older. The World Values Survey, collecting data from more than 200,000 people in 83 nations, found that more than a third of people 80 years old or older agreed with that most people can be trusted, although just a quarter of 20-year-olds said the same.

The results were consistent regardless of nationality, gender, education, and income.

A similar study, analyzing data from the General Social Survey of 1,230 U.S. citizens over time, also found that our willingness to trust increases as we grow older.

One possible explanation: As time goes on, most people tend to simplify their lives and spend more time with their families, resulting in a more positive and generous attitude about the world.

## That morning cup of coffee may be really good for you

A lot of us depend on a cup of coffee or two to get going in the morning. But coffee may have even more significant health benefits. Here's a quick look at what it may do to improve your life:

- **Melanoma.** A study by the National Institutes of Health and the AARP found that the more coffee people drink during the day, the lower their chances of developing melanoma over a 10-year period. Four cups of coffee a day was associated to a 20 percent drop in melanoma risk.
- **Multiple sclerosis.** An analysis of two studies of people diagnosed with MS (one in the U.S. and one in Sweden) found that consuming at least four cups of coffee a day appears to delay the onset of symptoms. The caffeine, researchers say, seems to have neuroprotective properties that inhibit MS development.
- **Liver cancer.** Drinkers of three or more alcoholic beverages a day may be able to cut their risk of liver cancer by drinking coffee, according to a recent World Cancer Research Fund report. Coffee and coffee extracts appear to have a preventative effect on the expression of genes involved with inflammation—an effect that's most prevalent in the liver.
