## PARADISE ISLAND UPDATE

*Pat Walker, Association Secretary*

**H**APPY NEW YEAR! Another year has come and gone; it is our hope that it was a fruitful one for you and that 2017 holds many blessings. Nationally, the U.S. welcomes a new President and his appointed staff. We now await fulfillment of the campaign promises that got him elected. Regardless of how you voted, it behooves us all to be supportive and give his team an opportunity to improve living standards for the middle class and to improve our image abroad. We are a great nation and have much of which to be proud.

Another outstanding Christmas Party – great food, entertainment, and fellowship – thanks to the coordinating committee of Carolyn Bailey, Janel Balogh and Kendra Perenyi. Well done! Every year presents the challenge to come up with something new and different, and every year the organizing committee makes it happen. Who is willing to be on the 2017 committee? Let us know at the January meeting if you want to give it a go.

A big bear hug and thank you to all who filled the donation boxes with food and toys for Dunedin Cares to distribute during the Christmas season. Lot's of smiles on the faces of the exuberant children as they selected a toy to put under their tree. We appreciate the support of Parks #2 & #3 in this community effort. Dunedin Cares, located on Pinehurst across from Dunedin High School, accepts food donations throughout the year for the needy folks in our local area.

You know what this month is? Yes, it's Community Sale month. A golden opportunity to downsize and get rid of your excess household items. We accept almost anything that is salable (no oversized chairs, sofas, bed pillows or TV sets). As you know, all monies from the sale are used by the Paradise Island Association for clubhouse supplies and social events – a win-win for everyone. You will receive a separate notice outlining how you can help make the sale successful. It's a community effort so we need the community's help. Sale date: January 28.

If you missed the December meeting.....and who didn't???? , we're holding the 2nd Annual Chili Cookoff as the January Pot Luck Dinner entrée option. Judy Wolff won first prize last year – who will it be this year? Be sure to sign up if you will compete.....there's \$\$\$ in it for the winner, need I say more?

All nominations for the Corporate HOA Board of Directors should be submitted to Richard Crance, Lot #79 by January 15. Nominate yourself no one has asked you and you are willing to participate. Corporate HOA is the interface with ELS on Prospectus, Rules and Rent issues; if you want to have a voice on how things are run in Lake Haven, join the Board.

Certified Residential Contractor: CRC1331061

Nominations for Paradise Island Association officers will be received at the February meeting and voted on in March; new officers will be installed at the April meeting. All positions are open for nomination. In accordance with the Bylaws (May 2, 2015 revision) the President and Vice Presidents may not hold the same office more than two consecutive terms (4 years).

The 2017 Volunteer List is posted on the Association bulletin board. Needed are residents willing to lock the clubhouse for a month, pick up donuts for a monthly meeting, and each month we will ask for a volunteer to host the monthly pot luck dinner. The same folks are called upon time and time again to perform these tasks as others fail to volunteer. It takes very little time or effort, particularly to lock the clubhouse or pick up donuts, surely some others are willing to get involved. It would be greatly appreciated, especially by those who do it month, after month, after month. Thanks!

You know another piece of business that happens every January?...yes, it is annual dues time. Association dues remain \$5 per person; Homeowners an additional \$5 per household for the Corporate HOA. You will receive a separate notice and payment envelopes. We would appreciate payment by January 30.

**Put a couple of dates on your calendar:**

- Jan 26 & 27: Community Sale Set Up
- Jan 28: Community Sale Day
- Feb 11: Three Park Breakfast (Denny Wolff hosting)
- Mar 18: Spring Dance (all parks invited)

Again, best wishes for a healthy and joyous New Year.

## LAKE HAVEN PARK 2 (TREASURE COVE) HAPPENINGS

By Bob Baker, Treasurer, Park 2 Association

---

**A**nother Christmas is now behind us and it's time again to wish all of you a very Happy New Year! Here's to a new beginning and hopes of continued or increased prosperity, friendships, laughter, joy, and good health.

Those of you who did not attend the Lake Haven Treasure Cove annual Christmas dinner in the club house on December 14th missed a great meal catered by Banquet Masters. I hope those of you that were there enjoyed the dinner. I thought that Banquet Masters once again did a great job for us. Thanks also to Equity Lifestyles Properties (ELS) for their financial contributions to our Christmas activities.

Let's also give a holly, jolly thank you to those residents who decorated around the pool and in the club house for Christmas. It is community minded people like these who do for the rest of us to enjoy.

Bills have been distributed for your annual association dues. All residents in Treasure Cove (those who own their homes and those who rent them) are eligible to join our Lake Haven Park 2 Association. Dues are just \$ 5.00 per person and entitle each member to enjoy all the association activities. Only coach and home owners may belong to the Lake Haven Mobile Home Owners Association and its dues are \$ 5.00 per lot. The deadline for payment of dues for 2017 is January 15, 2017.

I remind our bingo players that we no longer have bingo in our club house but you are welcome to play in Club House 1 at 7 pm every Thursday evening. Hand and Foot card games are played every Wednesday in our club house starting at 1:00 PM. Pinochle is played in our club house every Wednesday night at 6:45 p.m.

Although, through the years, we have had an occasional hurricane in the month of December, our hurricane season officially ended on November 30th. This year's hurricane season was again a non-event for us. We should be thankful for that but the next hurricane season will come all too soon beginning next June 1st and then we'll need to be alert and watchful once again.

By the time this is published most of our winter residents will be back with us again. It's good to see all of you again. You will notice some changes in the park: a new park manager and staff; our streets have been repaved; and ELS replaced the water lines last November.

## Brain drain: Control your appetite after a long day at the office

Ever notice that you can feel starving after a long day at work even though you've spent it mainly at your desk? Scientists, as reported by The New York Times, say it happens because your brain, feeling tired, starts to want more fuel to keep going—even though you haven't exactly been digging ditches for eight or nine hours. The problem is that you're consuming calories your body doesn't actually need because your brain is telling you to.

One way around this dilemma is exercise. In an experiment at the University of Alabama at Birmingham, 38 college students met to discuss what their favorite pizza was. After the discussion, they were allowed to eat as much pizza as they wanted. On another day, they were brought back and given a series of tests from college entrance and graduate-level exams. Afterward, half the students worked out on treadmills while the rest sat quietly. The entire group was again served all the pizza they wanted, but the treadmill group ate less—about 25 fewer calories than at their previous session. On the other hand, the rest of the group actually ate 100 calories more.

The study suggests that a light workout after a mentally strenuous day may curb one's appetite—good to know before you sit down to eat.

## Eat lots of these foods to prevent prostate cancer

Prostate cancer is one of the most common forms of cancer in men—more than 180,000 cases are diagnosed each year. Diet can be a factor, doctors say, especially one of foods high in saturated fats found in meat and dairy products. Men may be able to reduce their risk of developing prostate cancer by eating more of these healthy foods:

- Broccoli. Benefits: Low in carbohydrates and rich in antioxidants and phytochemicals that may prevent cell changes contributing to cancer.
- Salmon. Benefits: Lots of omega-3 fatty acids that can inhibit prostate cancer.
- Brazil nuts. Benefits: Selenium; six to eight nuts contain 700 percent of a daily serving.
- Tomatoes. Benefits: Lycopene. Men who eat 10 portions of tomatoes a week may reduce their risk of prostate cancer by 18 percent.
- Walnuts. Benefits: Walnuts and walnut oil have been shown to reduce levels of the hormone IGF-1, which has been linked to prostate cancer.
- Coffee. Benefits: Antioxidants, as well as stimulating the body to metabolize sugars more efficiently. Green tea shares similar qualities.

## The five-second rule may not be so safe after all

---

**W**e've all heard of the five-second rule: If a piece of food drops on the floor, it's safe to eat if you grab it in five seconds or less. That may not be true, though, according to an article on the Medical News Today website.

Researchers at Rutgers University decided to test the rule. They used four types of surfaces: stainless steel, ceramic tile, wood, and carpet. They also choose four kinds of food: watermelon, bread, bread with butter, and gummy candy. Finally, they tested four different contact times: less than a second, five seconds, 30 seconds, and 300 seconds.

They cultivated bacteria similar to salmonella and spread it on the different surfaces, allowed it to dry, then dropped each food on each surface for each designated time period. The results: The bacteria was able to contaminate the food almost instantly in every case, although with different degrees of contamination. Watermelon soaked up the most bacteria because of its moisture; the gummy treats were affected the least due to their hard surface. Nonetheless, the scientists are confident that their findings disprove the five-second rule. So you're probably safer throwing out any food on the floor.

.....  
: A fit, healthy body—that is the best fashion statement.

## Plutonian moon's red spot explained

---

**J**upiter is famous for its great red spot, but it's not the only red patch in the solar system. Charon, a moon of Pluto, also sports a reddish blotch near its north polar region, and scientists now know what causes it, according to the Sci-News website.

The spot, nicknamed Mordor Macula, covers an area the size of New Mexico, and is made of methane that comes from Pluto. Once the methane escapes Pluto's atmosphere, it falls to the surface of Charon's north pole and then freezes (winter temperatures in Charon's polar region can drop as low as negative 430 Fahrenheit). UV light from the sun turns the methane into heavier hydrocarbons that eventually become reddish organic materials known as tholins.

Data came from the New Horizons space probe. One of the project's scientists characterized the discovery as the realization that Pluto is a cosmic graffiti artist, spray-painting its nearest neighbor red.

## Marriage in trouble? Watch for these signs

---

Just because you're not having fights with your spouse doesn't mean everything is fine in your marriage. It could be in trouble without you and your partner realizing it. Watch for these signs that you need to get back on track:

- **Your partner isn't first on your list.** When you've got big news, whom do you tell first? If it's not your spouse, you may be disconnecting from him or her. Communicating about what's important to both of you is vital in an honest, healthy relationship.
- **You're focused on yourself.** Strong marriages rest on mutual goals. If you forget your partner's needs while making your own plans, he or she may begin to do the same. Although you each may want some personal time, carve out time to spend with each other—talking, taking a walk, watching a movie, or something else you both enjoy.
- **You compare your spouse to others.** Try to avoid thoughts like, "I wish Lynda was more like Diane," or "Why doesn't he bring me flowers like Paula's husband?" Comparisons lead to dissatisfaction and resentment. Be open about what you want so your partner has a chance to fulfill your needs.
- **You lead separate lives.** You may not be fighting, but you're also not doing much together. Do you watch separate TV shows, go to bed at different times, eat meals without the other person? Make more of an effort to get in sync so you don't find yourself living alone without actually moving out.

## Quick hits

---

Want to liven up the conversation at your next party? Try some of these one-liners:

- "I've been diagnosed with a certain type of brain disorder where I deny the existence of certain 1980s rock bands. There is no Cure."
- "My wife probably tells me I never listen to her."
- "And the award for best neckwear goes to ... well, look at that. It was a tie."
- "No matter how nice your son or daughter is, German children are kinder."
- "Thank you for my student loans. I don't think I can ever repay you."

## Monthly

---

**National Bath Safety Awareness Month.** In the United States, an average of 370 people across all age groups suffer bathtub or shower-related injuries every day. Slips, falls, and hot-water burns are the prime causes of accidents in the bath and the second leading cause of accidental death and disability. Remember: Bath safety is an integral part of general home safety.

**National Blood Donor Month.** Some give blood because they've been asked to. Some know a family member or a friend who might need blood someday. Some simply believe it's the right thing to do. Whatever your reason, the need is constant and your donation is important to maintaining a healthy and reliable blood supply.

**National Stalking Awareness Month.** The National Center for Victims of Crime launched National Stalking Awareness Month (NSAM) in January 2004 to increase the public's understanding of the crime of stalking. The National Stalking Awareness Month website ([www.stalkingawarenessmonth.org](http://www.stalkingawarenessmonth.org)), launched in January 2009, provides a wealth of information about this crime and about the nationwide observance.

**National Train Your Dog Month.** The Association of Professional Dog Trainers began the National Train Your Dog Month campaign in 2010 to raise awareness of the importance of socialization and training, to inform the public that training your dog can be easy and fun, and to help new pet parents start off the year right with their newest family member.

## Weekly

---

**Diet Resolution Week, Jan. 1-7.** This week is about focusing and altering the types of food you consume rather than just reducing the amount. Try eating at least one piece of produce every day (fruit or vegetable), eating fish at least once a month (once a week would be better), and drinking at least two glasses of water a day.

**National Sugar Awareness Week, Jan. 16-20.** Can you go five days without sugar? Take the challenge to find out how difficult finding foods that do not contain some form of sugar can be, as well as how this substance can affect your body, mind, emotions, and life.

**No Name-Calling Week, Jan 16-20.** No Name-Calling Week was inspired by the popular young adult novel *The Misfits*, by James Howe. The No Name-Calling Week Coalition was created by GLSEN and Simon & Schuster Children's publishing and has been adopted by schools around the U.S., growing into one of the largest bullying-prevention initiatives in the country.

## Oldest fossils may have evolved during hellish times

The world's oldest fossils have been discovered in Greenland, according to The New York Times. The fossils, known as stromalites (mounds that have built up over time around single-celled microbes called cyanobacteria) were found in an outcrop of rock called the Isua supracrustal belt on the southwest coast of Greenland.

The stromalites are 220 million years older than stromalites found in western Australia, previously thought to be the world's oldest fossils at 3.48 billion years old. If they're confirmed as evidence of ancient microbial life, the fossils will push back the estimated date of the formation of life on Earth to about four billion years ago, during a period when the planet was bombarded by meteors that turned oceans into steam and the surface into lava—a time dubbed the Hadean stage of Earth's history.

## Genes may control your coffee intake

The amount of coffee you drink may be based on your genetic makeup. A study by an international team of researchers, written up in the journal *Scientific Reports*, identified a gene that regulates the expression of other genes connected to caffeine metabolism.

The gene, PDSS2, hampers cells' ability to break caffeine down, which causes it to remain in the body longer. Thus, people with the gene will feel the effects of caffeine longer, reducing their desire for more.

The scientists examined genetic data from two groups of people in Italy, and they asked participants to record how many cups of coffee they drank each day. People with a variation in their PDSS2 gene tended to drink less coffee than those without the variant. The study was replicated in a similar study carried out in the Netherlands.

So if someone ever tells you that you're drinking too much coffee, you can blame it on your genes.

There is no adequate defense, except stupidity, against the impact of a new idea.  
—Percy Williams Bridgman

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

## Pew-pew-pew! Gaming racks up high scores—and sales

Americans love their games, especially the electronic variety. The Entertainment Software Association surveyed more than 4,000 U.S. households on their gaming habits. If you’ve ever spent 12 hours slaughtering virtual zombies, these findings might be of interest:

Sixty-three percent of U.S. households in the survey have at least one frequent gamer. Forty-seven percent of gamers are between 18 and 49 years old. The average male gamer? He’s 35 years old; the average female gamer is 44. The typical frequent game purchaser is 38; 60 percent of them are men.

They’re spending a lot, too. Gamers spent \$23.5 billion on gaming in 2015, \$16.5 billion on gaming content alone.

## We’re living longer (at least some of us are)

Life expectancy has increased by five years since the year 2000, according to the World Health Organization, but like many things, it’s not evenly distributed. Here’s a look at the average life expectancy at birth in the top and bottom five nations:

Highest		Lowest	
• Japan	83.7	• Cote d’Ivoire	53.3
• Switzerland	83.4	• Chad	53.1
• Singapore	83.1	• Cent. African Republic	52.5
• Australia	82.8	• Angola	52.4
• Spain	82.8	• Sierra Leone	50.1

Women in Japan can expect to live the longest—86.8 years. For men, the highest life expectancy is in Switzerland, where the average male lives to 81.3 years.

With me, everything turns into mathematics.  
—René Descartes

Ninety-nine percent of all statistics only tell 49 percent of the story.  
—Ron DeLegge II

## Use limitations to your advantage

---

Sometimes our limitations and constraints force us to find creative solutions. Here are two examples:

- Django Reinhardt. This jazz musician had two fingers fused together due to an accident as a child. Undaunted, he learned to play the guitar with his remaining fingers and became internationally famous—so much so that Black Sabbath guitarist Tony Iommi copied Django’s technique when he lost the tips of his right hand’s middle and ring fingers in an accident at a sheet metal factory.
- Sir Richard Branson. The British businessman has turned his dyslexia into an advantage. He says it’s forced him get better at hiring and delegating, and prevents him from micro-managing employees’ tasks because sometimes he literally can’t take over.

## Making the bed

---

South African leader Nelson Mandela was known for many things, not the least of which was his humility even after he became famous around the world. Mandela always made his own bed, no matter where he traveled. One time he was visiting Shanghai, where he stayed in a very fancy hotel. Chinese hospitality requires that you allow the maid to clean your room. Doing it yourself can be regarded as an insult.

An aide tried to explain this to Mandela. In response, the leader asked for his maids to be sent up to his room. The aide talked to the hotel manager, and soon Mandela was speaking to the staff. He explained that he always made his own bed wherever he was, and the maids agreed.

“He never really cared about what great big people think of him,” the aide wrote later, “but he did care about what small people thought of him.”

## No magic

---

An elderly gentleman was being treated by his doctor. “You’re in pretty good shape for a man your age,” she said. “But I’m only a doctor, not a magician. I can’t make you any younger.”

“I know that,” the man said. “All I want is to go on getting older.”

## Never too late to succeed

A poor boy named Harlan with only a sixth-grade education wouldn't have made anyone's list of the most likely to succeed. His first major success came when at the age of 39, when he was able to come up with the financing to open a small-town gas station and restaurant. He did pretty well, too—but only for a while.

With the onset of World War II, Harlan's once-solid customer base left the small town to enlist in the military or take factory jobs in the city. Still, he managed to hold on until a new interstate highway eliminated his drive-by trade. Then, after nearly 30 years in business, Harlan was forced to sell his dream to pay off his debts.

Broke and nearing 70, Harlan could have closed the curtain on his career ambitions. Instead, he took to the road, offering to share his pressure-cooking techniques with other restaurant owners if they'd agree to become his franchises. He sold only five in the first two years, but he stuck it out.

Four years later the self-proclaimed Colonel Sanders had sold more than 600 Kentucky Fried Chicken franchises. And by the time Harlan Sanders died at age 90, KFC was a worldwide brand.

## Is today's success holding you back?

Timanthes was a celebrated Greek artist of the 4th century B.C. As an aspiring young painter, Timanthes worked with a respected tutor to learn his craft. After several years, he produced what he believed was his masterpiece.

Delighted with his accomplishment, the young artist stopped striving to further his art. Instead, he devoted hours each day to gazing at his painting, mentally patting himself on the back for his achievement. Then one morning, when he arrived at the studio, he was horrified to find that someone had slathered paint across the canvas, destroying his work. The tutor eventually confessed that he'd done the deed.

"I did it for your own good," he explained. "The painting was holding you back." He urged the artist to try again: "See if you can do better."

Timanthes took his teacher's advice. His next effort, "The Sacrifice of Iphigenia," became his signature work and is regarded as one of the finest paintings of its time.

You should celebrate jobs done well. But don't get so caught up in yesterday's achievements that you forget tomorrow's challenges.

## Giant lizards once roamed Australia

**M**ovies like *One Million Years B.C.* show humans battling dinosaurs, but T. Rex and other prehistoric creatures died out long before Raquel Welch's ancestors designed the first fur bikini. Still, recent discoveries suggest that prehistoric could have fought large reptiles, or at least co-existed with them at one time.

Scientists from the University of Queensland have dug up a small bone that they have determined could have come from a gigantic lizard that lived in Australia as recently as 50,000 years ago.

As reported on the eScience News website, the bone is only 1 centimeter long, but scientists are certain that it belonged to a huge creature that may be related to the Komodo Dragon or another species known as *Megalania Prisca*. *Megalania* once roamed eastern Australia, and reached a length of 11 to 16 feet. Its sharp, curved teeth would have been a ferocious challenge for early humans in the territory, but so far no evidence of any terrifying encounters have been unearthed.

## How much do you know about science?

**W**e rely on science and technology for many of the necessities and conveniences of modern life, but how well does the average U.S. citizen really understand science? A survey by the Pew Research Center sought the answer to that question. The survey asked a series of basic science questions and received these results:

- The core of the Earth is our world's hottest layer: 86 percent answered this correctly.
- Uranium is needed to create nuclear energy and weapons: 82 percent.
- Comets comprise a core of ice and a tail of gases: 78 percent.
- Tides are created by the moon's gravity: 76 percent.
- The polio vaccine was developed by Dr. Jonas Salk: 74 percent.
- Astrology is different from astronomy: 73 percent.
- Cell phones use radio waves: 72 percent.
- A light-year is a measure of distance: 72 percent.
- Amplitude (height) determines the loudness of sound: 35 percent.
- Water boils at a lower temperature in Denver than in Los Angeles: 34 percent.
