PARADISE ISLAND UPDATE

Pat Walker, Secretary

Welcome Spring!!! Well, it's not quite here yet, but the way time flies, the 21st will arrive before we have time to blink. Easter will be observed by our Christian friends this month, and along with St. Pat's Day and the normal monthly events, it should prove to be a great month. To top things off, the annual three-park Spring Dance is scheduled March 26, 7:00-10:00 PM – get your tickets from Janel #41. This dance has always proven to be a crowd pleaser with danceable music, nibbles to snack on, and friends to visit with.....so, y'all come and have some fun.

March is usually the last full month for our winter residents and we try to fill it with fun things for them to remember us by. So, if the weather is cooperative we will schedule an Hors d'Oeuvres night at Tiki Island, and hopefully a few additional impromptu social gatherings, so be sure to keep an eye on the clubhouse bulletin board for events scheduled after the Happenings publication deadline. April events include the annual Snowbird Farewell featuring make-it yourself ice cream sundaes, and always a crowd favorite – an old fashioned Country Breakfast.....so don't leave town too soon.

The Hobby Club ladies have also filled their social calendar. After the Community Sale they needed a respite, so what is better than dining out – you've got it – nothing. They celebrated another successful season with a Farewell Luncheon. Upcoming in March is the Tea Party on 3/01 and the Baby Shower for the Bay Area Pregnancy Center on 3/15. Hobby ladies, don't miss out on these special events.

Thanks to those of you who took the time to complete the Activities Questionnaire. While it's too late to schedule some of your suggestions before the season ends, we will definitely include many of your ideas either in the fall or next year. For now, we are considering a Kentucky Derby Party – nothing can top what Marie Reiser did for so many years – but, if we can work out some of the kinks, we'll do it. Also, a Western Night will be scheduled in September, and hopefully a brunch before year-end. For next year, Mardi Gras Party, Derby Lane, Hard Rock, and a Fun Night with games and dancing to CDs, received a number of positive votes.

Everyone thoroughly enjoyed Irene Haskell's pot roast recipe at the February Pot Luck Dinner. I'm told you could inhale the aroma for blocks around the clubhouse.....perhaps that accounts for the large number of unregistered attendees. Now we're eagerly anticipating the March Pot Luck prepared by many of our seasonal ladies.....they never disappoint. Sign up for this treat on the clubhouse bulletin board so we can ensure everyone gets an equal portion of the entrée.

EASTER BLESSINGS

LAKE HAVEN TREASURE COVE HAPPENINGS!

Written by Bob Baker

Treasurer, Park 2 Association

Thanks to those who worked last month getting things organized and priced for our White Elephant Sale on February 27th and to those who did the selling that Saturday. Special thanks go to those who came from Parks 1 and 3 to help us. Thanks also to Bob and Eileen Scott for arranging the pizza party for all the workers on Friday night. Each year it's not much in the way of pay but it is a way to show our appreciation for all the hours of hard work it takes to make the sale happen. A report of the sales can be seen in the club house and I'll also include them here in next month's issue.

March 20th is the first day of spring. It's time to remind everyone to do their spring cleaning. If you haven't already done so, give your coach or home its annual bath (power wash); weed your flower beds and trim the shrubs and other plants around your home.

It's also about that time when some of you will be going back north. You'll be missed but have a safe trip and we'll look forward to seeing you again next winter. Those of us who are here year round will "hold down the fort" while you're gone.

Are you a pinochle player? Join the other players on Wednesday nights in Club House 2 at 6:45 pm. Pinochle players from Parks 1 and 3 are also welcome. Thanks Becky Love, Lot 295, for your efforts to keep the games going.

There's also a new activity! Besides the pinochle sessions on Wednesday nights, Park 2 resident Becky Love has also organized "Hand and Foot" card games in the club house from 12 noon to 4 p.m. on Wednesday afternoons.

Both card games are open to all Lake Haven residents in Parks 1, 2 and 3 who want to play or learn to play them.

Now here's something to think about. For health reasons, Bob and Eileen Scott have advised that this is their last year to serve as President and First Vice President of our Park 2 association. We'll need replacements for them starting in 2017 and if our monthly potluck dinners and association dinners and other activities such as our annual White Elephant Sale are to continue we'll need other residents willing to organize the potluck dinners; shop for groceries, cook and prepare the meals for the association dinners; and plan and organize the White Elephant Sales and other activities. If there are no volunteers it will probably be the end of our association and before the end of 2016 we'll have to meet and decide what we want to do. I know this is an early notice but please start to consider the matter now.

LAKE HAVEN PARK III ASSOCIATION NEWS MARCH 20

Suddenly it's March. Where has the time gone? It seems that our "Northern Friends" just arrived and now many will be heading back home in just a few short weeks. We are always anxious for their arrival and are sad to see them leave. Again, we have had several activities, most of them built around fun, food, and refreshment. And of course, there has been plenty of time to rest and relax at the pool, or stroll and bike around the park, and simply enjoying quiet evenings and beautiful sunsets.

The phrase "Park III is the Place to be" unofficially became the theme of the year. For every single social event the clubhouse has been jam packed. Everyone has enjoyed great food and drink, lively entertainment, and most of all good conversation and fun with their friends.

March is a very big month, with a lot on the calendar. The month begins with the monthly meeting which will be held on Tuesday March 1, at 10:00 AM. Coffee and pastries will be served. This is a very important meeting that will include final plans for the upcoming White Elephant Sale, which is our primary fund raiser and supports many of the activities we all enjoy.

The White Elephant Sale will be held on Saturday, March 12, from 8:00 AM until 1:00 PM. Please sign up at the clubhouse if you wish to volunteer. We always need help. If you have any "gently used items", including clothing, you no longer want, be sure to drop them off at the clubhouse. A main attraction of the sale has become the "Best Bake Sale Anywhere." The Cookie Walk has become a big hit. If you would like to bake something, you may pick up a baking pan at the clubhouse. We need all the bakers we can get. Several members are already soliciting gift cards from local businesses which we will raffle off.

The Pot Luck will be held on Monday March 14, at 5:00 PM. This will include a dinner of corned beef and cabbage. Please bring a dish to share. Complete details for this event will be put into your information tubes soon.

The March BBQ will be held at 4:00 PM on Saturday, March 26. Burgers, Brats and Hot Dogs will be served, along with beer, wine, soda and water. The attendance has been huge, and seating is very limited, so it is advised that you bring a chair. A dish to share is certainly welcome, but not necessary. The BBQ is free to members. Guests of members are welcome at \$5.00 per person.

The Big End of the Year Brunch is scheduled for Sunday, April 3, at 11:00 AM-3:00 PM. Weather permitting, it will again be held around the pool. Beer, wine, soda and water included. Music and dancing by Ray Curtis.

The help and support I receive throughout the year is humbling and I want to thank each and every one of you who pitched in to make sure all of our activities were a big success. We have a lot of fun in Park III, and it's all because of you. Thank you so much.

Linda Parker, President
Lake Haven Park III

Going the store? Why leave the house?

Shopping online has exploded in recent years. One example: A survey conducted by 72 Point Inc. and commissioned by Door to Door Organics, an online organic grocer, found that shoppers increased their online grocery purchases by an average of 29 percent in the past year, and those shoppers do about 19 percent of their weekly grocery shopping via the Internet.

Extra sleep may not lead to longer life

Most of us look forward to sleeping late on the weekend. After a hard week of work, we deserve a few extra hours, right? But a study from the *Journal of Clinical Endocrinology & Metabolism* suggests that sleeping in may contribute to a higher risk of diabetes and heart disease.

Researchers tracked more than men and women age 30-54, using devices that recorded their movement to determine when they fell asleep and woke up for a one-week period. Close to 85 percent went to bed later and got up later on their days off from work, and those people tended to experience lower levels of HDL cholesterol (the good kind) along with higher triglycerides, greater resistance to insulin, and a higher body mass index, even after controlling for factors like physical activity, calorie consumption, and alcohol use.

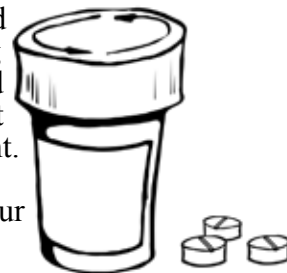

The implications are clear: Maintaining a consistent sleep schedule, even on weekends, is better for everyone's long-term health.

Aspirin prevents skin cancer?

Aspirin is known to cure our aches and pains and improve heart health. It may also be useful in preventing certain kinds of skin cancer, according to an article on the *Discover* magazine website.

Non-steroidal anti-inflammatory drugs (NSAIDs) like aspirin and ibuprofen are already known to help prevent cancers in the colon, lungs, prostate, and breasts. A meta-analysis of studies, some previously unavailable to researchers, turned up evidence that non-aspirin NSAIDs can reduce the risk of developing squamous cell carcinoma by 15 percent, and that when aspirin is added to the mix, the risk drops to 18 percent. NSAIDs are known to inhibit COX-2, an enzyme produced by skin cells in response to ultraviolet light.

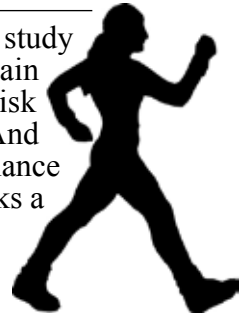

Talk to your dermatologist about aspirin, and otherwise limit your exposure to UV light to stay safe from skin cancer all year round.

Keep the speed up when you walk

A brisk walk is good for your health, especially as you grow older. A study reported on the LiveScience website found that older adults who maintain a speed of 3 miles per hour when they walk have a 50 percent lower risk of heart disease than people with a pace of two miles per hour or slower. And folks who walk an average of seven blocks a day have a 47 percent lower chance of developing heart disease than those whose walks add up to just five blocks a day or less. So put your shoes on and get walking.

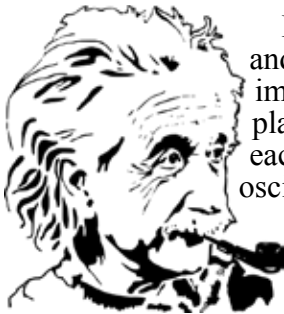

Help your brain stay healthy

Feeding and stimulating your brain well can keep it healthy throughout your life. The American Academy of Family Physicians offers these tips for keeping your mind in tip-top shape:

- Eat a healthy diet. Choose nutritious foods like antioxidant-rich vegetables, fruits, and whole grains, and omega-3 fatty acids, and cut out saturated fats. Avoid fad diets that offer only short-term results.
- Watch your weight. Maintain a healthy weight and pay attention to your blood pressure, cholesterol, and blood sugar, which are all associated with an increased risk of dementia.
- Exercise your brain. Keep learning new things all the time. Puzzles and games that stretch your mind can help you maintain good brain health. So can staying active socially, so keep up your friendships and strive to meet new people.

Mission to gravity: Space probe searches for waves

A European space probe will try to confirm a theory about gravity developed by Albert Einstein, according to the Reuters website. Launched late last year, the LISA (Laser Interferometer Space Antenna) Pathfinder will assume an orbit between the Earth and our sun, collecting data about gravity waves.

Einstein predicted the existence of ripples of gravity that bend space and time some 100 years ago, but finding those ripples on Earth has been impossible. The space-based experiment will monitor two cubes of a gold-platinum alloy to determine whether they maintain their distance from each other in free fall. The results will allow scientists to observe minute oscillations caused by gravity waves.

March Is...

American Red Cross Month. The American Red Cross was founded by Clara Barton in 1881. Today its supporters, volunteers, and employees provide compassionate care in five vital areas: People affected by disasters in America; support for members of the military and their families; blood collection, processing, and distribution; health and safety education and training; and international relief and development.

Music In Our Schools Month. An annual celebration sponsored by the National Association for Music Education, Music In Our Schools Month engages music educators, students, and communities from around the country in promoting the benefits of high-quality music education programs in schools.

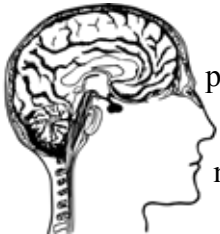

Social Work Month. The goal of Social Work Month is to educate the public about how social workers bring about positive social change and improve the lives of individuals and families. It's sponsored by the National Association of Social Workers, which works to enhance the professional growth and development of its 132,000 members, to create and maintain professional standards, and to advance sound social policies.

Women's History Month. Women's History Month has its origins as a national celebration in 1981 when Congress authorized the president to proclaim the week beginning March 7, 1982, as "Women's History Week." Since 1995, Presidents Clinton, Bush, and Obama have issued a series of annual proclamations designating March as "Women's History Month."

Weekly

National Cheerleading Week, March 1-7. National Cheerleading Week recognizes cheerleading athletes around the world. Its goal is to build a more positive image of cheerleading by engaging in group activities, community service, and fundraising projects.

NO MORE Week, March 6-12. NO MORE is a movement to raise public awareness around ending domestic violence and sexual assault. NO MORE Week is a national effort to engage individuals and organizations to say "No more" to abuse, and to make domestic violence and sexual assault awareness and prevention a priority year-round.

Brain Awareness Week, March 14-20. A global campaign to increase public awareness of the progress and benefits of brain research, Brain Awareness Week unites the efforts of partner organizations worldwide in a celebration of the brain for people of all ages. Activities include open days at neuroscience labs, exhibitions about the brain, and more.

Take different approaches to imaginative thinking

Creativity comes in many different ways, and no one approach is always right. An article on the Huffington Post website looks at it through two prisms that might be useful the next time you're trying to solve a problem or come up with a fresh idea:

- **Repetition.** You can do the same thing over and over again and still find something new by altering your concept just a little bit each time. You may find something completely new by tweaking one element, or you may simply improve the results with one small difference. Either way, you've generated something unique.
- **Variety.** Take the opposite approach: Throw out everything you've done before and try something completely different. This means setting aside your preconceptions about what works, and being willing to fail a couple of times before you hit pay dirt. Take on a new project, play a game you've never heard of before, or experiment with Legos or other toys to unlock your mind to fresh possibilities.

Break free of boredom to unleash creativity

You can't be creative if you're bored out of your skull. We all feel jaded and restless from time to time, but if you're suffering from a complete lack of stimulation, try these tricks for snapping out of it:

- Read something new. Pick a book by an author you've never read, or one that covers a subject you know nothing about.
- Get some exercise. Physical activity will get your blood pumping and stimulate endorphin production, making you feel energetic and happier.
- Talk to people. Pick someone you don't know very well, and find out all you can about him or her.
- Explore your surroundings. Stop ignoring the sights on your way to work, or at work. Pay attention to all you see—look for something different and original.
- Rearrange your space. Sometimes shifting things around at home or at work can force you to look at your surroundings, and your life, in a new light.

- Try a new recipe. Get out of the rut in your kitchen. Pick a challenging recipe for dinner, or stop making the same old sandwiches for your lunch.

Founded in 1916.

Caring Ever Since.

From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2016. Another example of how the community gave back.

Teed off

Golf courses typically have two sets of tees, one for women and one farther back for men. One day at the first tee a man was stepping up to his ball when a voice came over the clubhouse loudspeaker: “Will the gentleman on hole No. 1 please not hit from the ladies’ tee?”

The golfer looked up, surprised, then addressed his ball again. The voice on the loudspeaker repeated, “Will the gentleman on hole No. 1 please not hit from the ladies’ tee?”

Irritated now, the golfer backed away, took a deep breath, and once again approached his ball. For a third time, the loudspeaker blared: “Will the gentleman on hole No. 1 please not hit from the ladies’ tee?”

The man flung his golf club down. “Will the announcer please shut up and let me hit my second shot?”

An exciting finish

Two bass players performing Beethoven’s Ninth Symphony realized that for some time at the end of the piece, the bassists play nothing. They decided to sneak out of the auditorium for a quick drink at the bar in the lobby.

After a few quick shots, one of them checked his watch. “Uh-oh, we have to get back in two minutes.”

“Don’t worry.” His friend ordered another round. “I tied down the last page of the conductor’s score, so they’ll keep playing the same part over and over. No one will notice.”

After a few more drinks, they staggered backstage and made their way back to their chairs as the conductor struggled to untie his music score with one hand while conducting the orchestra.

One usher at the rear of the auditorium whispered, “What’s going on?”

The other usher answered, “Well, it’s pretty exciting. It’s the bottom of the Ninth, the score is tied, and the bassists are loaded!”

I guess I laugh to keep from crying. And I guess if you ever get me crying, I might not stop. This is the way I look at tragedy or else I’ll cry.
—Bob Newhart

The mystery of snakes' missing legs

Snakes millions of years ago had legs, but over time their legs disappeared. What happened has been a puzzle to scientists for years, but analysis of a fossil 90 million years old may suggest an explanation.

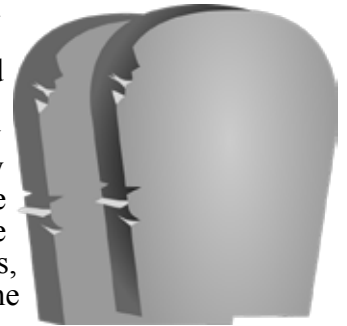

As reported on the (e)Science News website, CT scans of the ancient reptile allowed paleontologists to compare the inner ears of modern snakes to their distant ancestors. They discovered structures similar to those in creatures that burrow in the ground, but are absent in modern-day snakes. This has led them to theorize that snakes gradually lost their legs as they evolved to live and hunt in burrows. The reptile, *Dinilysia patagonica*, is the largest burrowing snake ever known, and its fossilized remains offer clues to a possible ancestor from which all modern snakes are descended.

Behind the walls of ancient tombs

The mysteries of King Tutankhamun's tomb have yet to be fully revealed, according to Egyptologists. Egypt's minister of antiquities is seeking permission to conduct a radar inspection of the Valley of the Kings tomb in hopes of finding the remains of Queen Nefertiti, or possibly King Tut's mother Kia, buried behind the walls of the chamber.

A British scientist believes that Nefertiti lies somewhere in the tomb, although others say that Tut's mother is the more likely possibility. Either way, chances seem good that Tutankhamun's final resting place has more secrets than were previously unearthed.

In other news of ancient times, archeologists have discovered two sealed chambers and a ceremonial platform underneath the Templo Mayor, an Aztec temple in the middle of present-day Mexico City. Explorers found a hidden tunnel in 2013, and recently uncovered a passage to what they believe is a Cuauhxicalco—a space used in rituals to burn the remains of rulers. They speculate that the sealed chambers may be the bodies of several ancient Aztec kings, possibly including the final remains of Montezuma I, who ruled the Aztecs from 1440 to 1469.

Science is a mechanism. It's a way of trying to improve your knowledge of nature. It's a system for testing your thoughts against the universe and seeing whether they match. And this works, not just for the ordinary aspects of science, but for all of life.

—Isaac Asimov

Time behind the wheel

Driving is embedded in our national psyche. If you feel as though you live in your car driving between home and work, consider these statistics from the AAA Foundation for Traffic Safety and the Urban Institute:

- Americans drive an average of 29.2 miles a day, for a total of 10,658 miles a year.
- Women tend to take more drives, but men spend more time on the road, driving 25 percent more miles than women.
- Drivers 30-49 years old drive an average of 13,140 miles a year. Teens and senior citizens over 65 drive less than other age groups.
- We drive more in the summer—30.6 miles a day, as opposed to the winter months, when we're on the road for just 25.7 miles daily.
- Education seems to be correlated to how much people drive: Those with no more than a high school education drive an average of 19.9 miles a day (32 minutes), while drivers with a college degree are in their cars for 37.2 miles (58 minutes).

Library use on the decline?

Are libraries in danger of disappearing? A Pew Research Institute report found that most Americans strongly support their local public libraries, with 65 percent saying that the closing of a local library would have a major impact on their community. They like library services that contribute to education, along with those that help veterans, immigrants, and other special constituencies, and value access to computers and other technologies.

Still, library use appears to be trending downward: Forty-six percent of Americans age 16 and older have visited a library or bookmobile at least once during the past year, down from 53 percent in 2012. Twenty-two percent have used their library's website in the past year, down from 25 percent in 2012, and 27 percent have gone to the library to use computers and Internet resources, down again from 31 percent in 2012.

Huge exoplanets not as plentiful as thought

Astronomers have discovered more than 100 giant exoplanets orbiting distant stars, but some are now saying that many of those huge worlds aren't planets at all.

According to the website of the American Association for the Advancement of Science (AAAS), scientists analyzed the findings of the Kepler Space Telescope, which identifies exoplanets by scanning stars for long stretches of time in search of changes in their brightness. These changes suggest the presence of planets or other objects temporarily causing their light to dip.

Instead of monitoring brightness, a second group of scientists looked for signs of movement in the stars as planets circled them. The differences in the slight movements between planets and other objects has led the team to conclude that as many as 55 percent of “exoplanets” have been misidentified. More likely, they're stars themselves—possibly brown dwarfs, a type of failed star, sharing an orbit with a larger sun.

Science is a way of talking about the universe in words that bind it to a common reality. Magic is a method of talking to the universe in words that it cannot ignore. The two are rarely compatible.

—Neil Gaiman

You can't get out what you don't put in

Motivational speaker Zig Ziglar likes to tell the story of his friend, Walter Hailey. Although he became a star salesman, Hailey's early career as an insurance salesman was rough. He endured frustration, anxiety, slammed doors, low sales figures, and uncertainty about his future.

One day he grew so discouraged that he went to his boss and told him that he was going to quit. His boss's response? “You can't.”

Hailey repeated that he was quitting. The manager repeated, “You can't.”

Angry now, Hailey shouted, “Yes, I can!”

His manager replied, “Walter, you can't get out of the insurance business because you have never really gotten into the insurance business.”

The words hit Hailey like a ton of bricks. For the first time in his life he realized that you can't get something out of an endeavor if you never put anything into it. Or as Ziglar puts it, “There are many people who ‘join’ a sales organization but never get into the business of selling.”

SAVE TIME AND MONEY BY CALLING US TODAY TO GET YOUR PROJECT STARTED!

Multiply Your Monthly Mania!

As you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

Now You Have More Chances to Win!

We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.
(To qualify each resident can only suggest a business once)

What businesses would you like to see advertising?

We have spots available in the following categories:

Take the perfect family portrait

Portraits of your children as they grow up can become a treasured memory, but getting them taken can sometimes be a struggle. If you're determined to take just the right picture, try these for tips for portrait photography without tears:

- Take the picture early. A photo session first thing in the morning is easier on everyone. You can dress your kids appropriately and let them change into “play clothes” afterward instead of forcing them to get cleaned up and changed later in the day, when they're more apt to be tired and cranky.
- Have some variety. If you have more than one child, restrain the urge to dress them in matching outfits. A more picturesque option: Dress them in different outfits of the same color.
- Don't overdo things. Keep clothes and accessories simple. Remember that your focus should be on the child's face.
- Plan ahead of time. Get your child a haircut a few days before the portrait session, not that morning. If the cut turns out to be too short or severe, time will relax the look.
- Smile! Try to avoid a forced, insincere smile on your subject's face. Relax and let your child's personality shine through.

Need for confession

A young priest went to his older mentor for help. “Father, no one wants to let me hear their confession. What should I do?”

“Let me sit in the confession booth with you and listen to how you conduct yourself,” the elder priest suggested.

After hearing a few confessions, the two priests met in the senior priest's office. “Now, I want you to try a few things,” the elder priest said. “Practice crossing your arms over your chest and rubbing your chin with one hand.”

The young priest did as he asked.

Then he was told, “Try saying some things like, ‘I see ... Yes ... Go on ... I understand ... How do you feel about that?’”

The priest rehearsed the lines until the other one nodded.

“Now,” said the senior priest, “don't you think that works better than slapping your knee and saying, ‘No way! What happened next?’”

Monthly Mania: It Pays (Up to \$100) To Patronize the Advertisers in Your Newsletter

14,492 manufactured home residents have won over \$130,374 since our contest began. It's simple to play ... when you patronize a current advertiser, ask for a Monthly Mania ticket (or a reasonable facsimile) and fill it out completely. Put the ticket in our Monthly Mania drop box in your community or [mail your paid receipt](#) to us at **Monthly Media • PO Box 1023 • Venice, FL 34284**. That's all you do. At the end of the month the Publishers will pick up the tickets and hold a drawing. If your ticket is drawn, we mail you a check.

(Allow 4-6 weeks for mailing of check). **This month's cash winners are:**
