## TIME FOR A CHANGE

Oh no she's back! Hi everyone! This will be my 2nd year in doing the Piper and I could really use your help. When many of you come back you share all your wonderful stories of who visited who, who had surprise parties, who had another addition to their family, etc. Please share your pictures and stories and let us know how your summer is going. I am planning on having a fun filled summer as I hope you all do.

## From the President's Desk

In the past month I have had several people comment on the job the board is doing and how great the park looks. I also know other board members have received similar comments. It is encouraging to hear from residents that we are doing well and equally important that people speak up when they have questions about board decisions. This is the main reason we have instituted the "open forum" for the start of our board meetings. We WANT to hear your comments as this is a way for us to act on your behalf.

We are still gathering estimates in preparation for the sewer pipe repair at the north end of the park. The clubhouse floor will be cleaned thoroughly now that we are slowing down and the area outside the lanai is being prepped for placement of the cement table by the pool.

Hope everyone is having an enjoyable summer.

**June is the start of hurricane season so let be ready**

## After the storm-THE RECOVERY TEAM

*Submitted by Bob Frazier*

We are gearing up for the hurricane season and in order to better prepare you, your homes and the Park, the Disaster Recovery Team has devised a plan.

If Lake Highlander was struck by a Category 1 or worse storm and there was some damage done in the Park and we may not have utilities in operation, then the following scenario might take place.

When mandatory evacuation order has been given by the local authorities, then our ready-made Shutters will be placed on all windows in the Clubhouse and the Multipurpose Building. Remember none of our buildings are to be used as a hurricane shelter.

The Recovery Team will have the following job to do.

1. To re-enter the Park each member will have an Identification card that identifies them as members of the Recovery team. They will have an official letter from the Park that identifies them as a member of the Recovery team. They will also need their driver's license to show to the nice policeman. The members of the Recovery team are:

Beth Carroll	Dusty Rhodes	Dick Duclow
Warren Bowman	Fred Wimmer	Myron Paris
Ed Hughes	Bob Frazier	Ray McDonald
Rita St.Laurent	Jean St.Laurent	Bill Shedd
Eugene Glass	Bob Bernier	Joan Bernier
John Sebest	David Vallery	

2. The Recovery team will inform all recovery team members of their location during evacuation and remain in contact with each other by cell phones. The Recovery Team will make every effort to return to the Park as soon as the “All Clear” is given from local authorities to re-enter the Park. Whoever is here first will take the lead in the recovery operation until the Park Manager, Beth Carroll or Directors Warren Bowman or Fred Wimmer or Dick Duclow or Dusty Rhodes or Myron Paris has returned. The rest of the recovery team will assist them.
3. The Multipurpose building will be used as the Command Post on provision that there has not been extensive damage. The CONTACT NUMBERS will be 727 733 5522 and 727 733 4890 and a voice message will be put on the phone stating the condition of the Park.
4. The following Emergency Supplies/Equipment will be stored in or near the Multipurpose room when a storm is beginning to threaten our area.
  - a. generator and fuel
  - b. propane or charcoal grills
  - c. walkie talkies
  - d. first aid kit
  - e. water and portable coolers
  - f. & phone numbers of all residents and employees
  - g. gloves, hard hats, vest, flashlights, batteries, lamps
5. The Recovery Team will have the following responsibilities:
  - a. Co-operate with the local authorities
  - b. Check each coach to see if any residents are there
  - c. police the park to prevent looting
  - d. Contact local authorities for help (could be FEMA)
  - e. Staff the Command Center for incoming calls.
  - f. Pass on information to returning home owners
  - g. Authorizing expenditures could be done by Park Manager, Beth Carroll or President, Dick Duclow. If they are not available, then there are other Directors on the Recovery team.
  - h. Repairs of the common areas of the Park will be made by contractors that Beth will contact. With the owner’s approval, contractors of your choice could make the necessary repairs to their property. The resident has the right to decline repairs unless the damage poses a threat to surrounding neighbors and/or the park which will be determined by the Recovery team.
  - i. Contact Susan Zerbe to put updates on our web site.

## Party time with the GRANDS!

*by: Loche Kline*

It was a beautiful spring evening and we arrived early. There were helium balloons along the driveway and at the big double entrance. Students wearing party attire greeted and held the heavy doors for us. Also dressed for the occasion, we stepped onto the "red carpet" that led the way to where we were escorted by other students into the large decorated "ballroom". There were banners, crepe paper spirals, lots of glitter and more balloons. Tables and chairs surrounded the dance floor and were attractively set and waiting for us. We filled out brief questionnaires asking such things as our best joke, how many Grandchildren we have and our favorite songs. Then we were taken to the "Photo Booth" for some "glamour shots"! When we were seated I realized that "Theme from a Summer Place" by Percy Faith and his Orchestra was playing in the background. It reminded me of my Jr. / Sr. Prom back in high school!

How did these Canal Winchester, Student Council and NHS members know all of the right things to do to make this party so special?!? Our Granddaughter had invited Dick and me and insisted that we attend their first annual "SENIOR Prom". About 80 senior citizens attended this event and I don't believe there was a solitary sole who didn't have a good time. It was heart warming to witness these wonderfully attentive students in action. They definitely were there

to make sure that the community "elders" had a good time. However, in the process they truly seemed to enjoy all of the action themselves!

Not only did the students bring us our choice of coffee, tea, lemonade or water and a snack, they served us each an entire delicious meal. First was a special salad, then a tasty chicken and pasta entrée with veggies and bread, followed by yummy cake for dessert. There was Big Band music playing as we dined and the students also sang and danced to entertain us. Some of the students sat and talked with "oldsters" who appeared to be alone. Others continually filled our cups and asked what they could get for us. They were very, very kind, thoughtful and pleasant.

Throughout the evening, there were awards given for such things as the best dressed, the most Grandchildren, the biggest smile, the funniest joke, the best dancer etc. The students had also gone to local businesses for over 20 raffle type gifts such as free meals, oil changes, hair cuts and other appropriate things.

The best part came when the dance music started. Yes, it was all of our favorite "oldies" tunes! Like at Lake Highlander parties, the floor quickly filled with seniors doing the "twist", "cha-cha", "stroll", "hand jive", "jitter bug", "polka" and even the "Charleston". There were some other "dances" that the students probably knew, but quite obviously had seldom done, such as the "YMCA", "Chicken Dance" and the "Hokey Pokey". Per guest requests, the "electric slide" and other line dances were also enjoyed. Those amazing students were on the floor trying to keep with their elders to absolutely every type of music! It was really fun to see grandchildren learning dance steps from their grandparents! Throughout the evening the youngsters asked folks who were alone and maybe not participating, to get up and dance with them, as well. Before the party was over, several committee members declared that they planned to play some of "our kind of music" at their own prom, which is scheduled in a couple of weeks! Since our Granddaughter has asked me to give her some dance lessons between now and then, I honestly believe that they are going to give it a try!!!

As the evening ended and our host and hostesses bid us farewell and safe travel home, the entire group of SENIOR Prom guests stood, for a standing ovation, while clapping and cheering in appreciation. It was truly a GRAND event!

This is Lakeside Lassie, hoping that you, too, will have the opportunity to experience this magical type of SENIOR Prom sometime real soon.

## The Winter Boots

(Anyone who has ever dressed a child will love this)

Did you hear about the teacher who was helping one of her  
reception class pupils put on his boots?

He asked for help and she could see why.

Even with her pulling and him pushing, the little boots  
still didn't want to go on.

By the time they got the second boot on, she had worked up a sweat.

She almost cried when the little boy said, 'Teacher,  
they're on the wrong feet.'

She looked, and sure enough, they were.

It wasn't any easier pulling the boots off than it was  
putting them on.

She managed to keep her cool as, together,  
they worked to get the boots back on, this time on the correct feet.

He then announced, 'These aren't my boots.'

She bit her tongue, rather than get right in his face and

scream, 'Why didn't you say so?' like she wanted to.  
Once again she struggled to help him pull the ill-fitting  
boots off his little feet.  
No sooner had they got the boots off when he said,  
'They're my brother's boots. My Mum made me wear 'em.'  
Now she didn't know if she should laugh or cry.  
But she mustered up what grace and courage  
she had left to wrestle the boots on his feet again.  
Helping him into his coat, she asked, 'Now, where are your  
mittens?'  
He said, 'I stuffed 'em in the toes of my boots.'  
She will be eligible for parole in three years.

## Scientists delve deep into the heart of the world

Jules Verne's *Journey to the Center of the Earth* described an inner world of jungles, seas, and dinosaurs. The reality is quite different, but no less interesting to scientists, and it's changing all the time.

The latest discovery about the nature of the Earth's core comes from a professor at the University of Illinois at Urbana-Champaign. The inner core, about 3,000 miles beneath the world's crust, actually contains a second core about half the radius of the outer one. This inner core contains iron crystals, which are oriented in an east-west alignment. The outer inner core's crystals align north-south, although they appear to have flipped several times in the distant past.

Scientists liken the twin cores to the rings on a tree, which allow researchers to peer directly into the past. The discovery could provide important clues to the formation and development of our world.

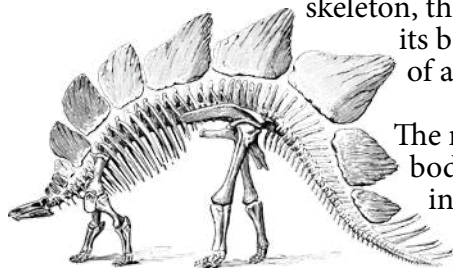

## 'New' solar system is the oldest ever found

The oldest solar system in our galaxy is 11.2 billion years old, according to data from NASA's Kepler space telescope. By comparison, our home solar system is about 4.5 billion years old. The new find is about 117 light-years from Earth, with five Earth-sized planets in an orbit too close to their star to allow for life. But the discovery of a solar system's formation only a few billion years after the Big Bang some 13.8 billion years ago suggests that life could have proliferated throughout the cosmos much earlier than scientists previously believed.

## Sophie the Stegosaurus steps on the scale (sort of)

How much did the dinosaurs weigh? That question has been answered—at least for one specimen at London's Natural History Museum.

Sophie the Stegosaurus is about 150 million years old, and was discovered in 2003 by paleontologists in Wyoming. It now resides at the British museum, its skeleton 85 percent intact. According to the Yahoo News website, British researchers created a 3-D digital version of the skeleton, then calculated the amount of flesh it would have had around its bones, and compared that with data from modern animals of a similar size.

The result? Sophie tipped the scales at about 1.6 tons, with a body mass roughly equivalent to a small rhinoceros. Knowing its weight will allow paleontologists to learn more about stegosaurus metabolism, food needs, and growth rate.
