Christmas Pot Luck

You are invited to our inaugural Christmas Pot Luck on Tuesday, Dec. 11 at 4 pm. Please bring a new neighbor or friend with you! Don't forget to bring a dish to share (sign-up sheet in the hall); your drinks and place settings; a \$5 gift to pass; and a gift for Toys for Tots. And bring some cash for the 50/50 raffle! See you there!

Pool rules

Residents need to remember to ask their guests to wear a visitor bracelet at the pool if you are not accompanying them. Also, we do not allow smoking or extension cords around the pool.

Monday Morning Coffee

Carolyn Fertig

Our Monday Coffee is getting busy; welcome back Snowbirds! A big thank you to our volunteers for October and November. Our Hosts: Judith Cox & Barbara Fix; Dave & Alice Middleton; Jim & Gloria Monchilov; Pam Nadeau & Carolyn Fertig; Dan & Annamarie Blackburn; Bob & Cheryl Russell; and Jack Quigley & Monica Waters. Our M.C.'s: Judith Friend, Nelson Slansky and Paul Burke. However, we can't overlook our own personal Uber driver Jim Henry who picks up our donuts and delivers them. Thank you to all who volunteer!

Art in the Park

Barb Touchette and Margot Thomas

Mark your calendars - On Sunday afternoon **February 17, 2019**, Art in the Park is coming back to Lake Seminole Resort. In 2017, we held our first display of over 20 exhibitors and we are hoping to show case even more artisans next year. We welcome exhibits from renters and residents of the park. More information will be forthcoming in the fall, but now is the time to mark your calendar and explore your creative self.

Dog Duty

Please, please remember to pick up after your dogs and give the office a copy of the license and vaccination records.

Woof Woof

Lil Bit

My person has been reading me the write-ups that appear in the monthly bulletin so I thought I might write a dog view of the situation. I am a rescued dog that was found trapped in the canal behind our park. Who put me there, I don't remember, but I do remember being abused. It took me time to trust people but now I love everyone and look forward to pets and treats from my many friends in the park. The idea of only being allowed by the pond frightens me. Do you know that there is an alligator in that pond and he suns himself in that area? Neither I nor my person feel safe in that area. As far as picking up after me, my person carries the plastic bag from the newspaper, as all dog owners should. I wish others would do the same with cigarette butts and other things that should go in the dumpsters. But as I said before, I love you all and if I bark at you, it's only to get your attention so please let me know that you care when you see me.

Barbara Fix was kind enough to share a recipe for her delicious 7-up Pound Cake.

Ingredients:

- 1 cup butter
- ½ cup shortening
- 3 cups sugar
- 1 ½ tsp. vanilla
- 1 ½ tsp. almond extract
- 5 eggs
- 1 cup 7-up
- ½ tsp. salt
- 3 cups flour

Directions:

1. Cream butter & shortening; add sugar. Beat until light & fluffy.
2. Add extracts.
3. Add eggs, one at a time.
4. Add 7-up.
5. Add flour, ½ cup at a time. Add salt to first cup of flour.
6. Mix only until well blended.
7. Pour in a Bundt pan, coated with non-stick spray.
8. Bake 1 hour and 45 minutes at 300°
9. Cover with foil the last 15 minutes if it's browning too much.

Michael Crofts
 FL Licensed Independent
 Health Insurance Agent

Health insurance decisions can be confusing due to endless coverage changes and many policy types. Fortunately, there is someone who can work diligently to help and without cost to you – Michael Crofts, owner of Best Plan Choice.

Through his own healthcare experience Mr. Crofts learned the value of good health coverage and quality medical care. He dedicates his agency to helping people with Medicare and Medicaid needs. You can visit the office to learn about Medicare plan options or he will come to your home.

Every year your Medicare health plan coverage changes even if you do not change plans. Also, new products are introduced and many offer benefits beyond original Medicare and/or Medicaid plans. Baby Boomers had completely different insurance products during their working years. The indemnity and major medical policies are no longer the only choice and often do not meet the financial needs of consumers today.

Don't waste time trying to figure it out. Michael will sit with you and review all of the documents, and answer all of your questions. Most importantly, he will conduct a needs analysis to determine your individual needs – if you expect a hospitalization, use certain medicines, or want benefit like dental or vision – everything is taken into consideration.

Best Plan Choice is there to help you make the right choice and is available long after the policy is written. This means helping with doctor changes, plan questions, annual review of your benefits, and of course taking great care of any friend or family member you refer. At Best Plan Choice clients become friends, and friends become clients.

Coldest place in the world

You may think it's cold where you live right now—if you're in the northern hemisphere, at least—but scientists have located the absolute coldest spot on Earth. No surprise—it's in Antarctica.

The National Geographic website reports that satellite data have identified an ice sheet in the middle of the southern continent with a temperature of minus 144 degrees Fahrenheit. This breaks the previous record for the chilliest place on the globe—minus 128 degrees, recorded in 1983 at the Russian Vostok Station close to the South Pole. At that low temperature, breathing itself is dangerous—more than a few breaths would make your lungs hemorrhage.

Chances are we won't find any colder places. Increases in greenhouse gases and water vapor in the air have scientists expecting a rise in temperatures across the Antarctic of three to four degrees in the coming years.

Next time around

A student spent a semester abroad to learn about life in a different culture. Each day he left the home of his host family to walk several miles to the school for his classes. Along the way he'd pass a river.

Seated near the bank of the river was an old man. He was there every morning and also in the evening, no matter the time. He was also there on the weekends, sitting and staring off into the horizon, not interested in the comings and goings of the world around him.

After several weeks, the student's curiosity got the better of him. He approached the man and initiated a conversation. Eventually, the student asked the man why he sat by the river all day long.

The man explained that he believed in reincarnation and that his soul had been reborn many times. He said that life was filled with many lessons and that one might be reborn and faced with the same lessons many times before ascending into a different life the next time around.

He went on to say that some lifetimes were good, others were not. "This life is neither beautiful nor challenging, nor interesting nor exciting," the man said to the student. "I'm content to sit out this one."

The high cost of health care surprises many

Have you ever opened a medical bill and been stunned by how much you owe? You're not alone. The EurekAlert website reports that 57 percent of Americans adults have been surprised by a medical bill because they thought the services were covered by their insurance. Twenty percent of them say the costs were because their physician wasn't in their network.

The costs have different origins. The most common are for physician services (53 percent), laboratory tests (51 percent), health care facility charges (43 percent), imaging (35 percent), and prescription drugs (29 percent).

Life it is not just a series of calculations and a sum total of statistics; it's about experience, it's about participation, it is something more complex and more interesting than what is obvious.

—Daniel Libeskind

Alcohol a major contributor to deaths worldwide

A cold beer or a stiff drink may be relaxing, but according to a USA Today article, alcohol is associated with 2.8 million deaths a year, and was the seventh leading risk factor for premature death and disability in 2016.

As reported in a study written up in the medical journal The Lancet, researchers looked at almost 700 studies from around the world to investigate alcohol's health risks in 195 countries. Their findings included the fact that alcohol was associated with almost one in 10 deaths of people 15–49 years old, contributing to tuberculosis, car accidents, and self-injury. With people over 50, cancers were a leading cause of alcohol-related deaths—27 percent of deaths in women and 19 percent in men.

The study's lead author, Max Griswold of the Institute for Health Metrics and Evaluation at the University of Washington, advises: "If everyone cut their consumption in half, we could save a million lives globally."

VINYL IS FINAL

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Huge iceberg heading north

A massive iceberg is on the move. Scientists expected A-68, which split off from the Larsen Shelf in Antarctica in July 2017, to start crumbling shortly after the break. Instead, it remained mostly intact and anchored in a shallow seabed.

Now it's beginning to drift. Satellite images show it swinging counterclockwise to the north, due to a combination of ocean currents and weather conditions. Although it's lost some large chunks of ice, it's still almost as big as it was since the initial breakup—four times the size of the city of London, according to the UPI website, with a volume twice the size of Lake Erie and a weight of more than 1 trillion metric tons.

Scientists predict that A-68's drifting will dig gouges in the sediment of the seafloor beneath it. As it becomes increasingly exposed to warmer water, it will likely continue to spin and drift away from its birthplace near the South Pole.

Cheese has a long history

Cheese has been popular for a lot longer than you may have thought. An analysis of ancient pottery from the Dalmatian Coast of Croatia has discovered traces of fermented dairy products like soft cheese and yogurt from some 7,200 years ago, according to the Science Daily website.

The discovery means that cheesemaking is 4,000 years older than previously known. Milk pottery from 7,700 years ago has been found in the area, indicating that our ancient ancestors had milk in their diets—at least their children up to about age 10. (DNA analysis shows that adults at that time were lactose intolerant.)

The development of cheese production changed the style and form of pottery as well. Among the artifacts found at the site were sieves, which are often used to strain milk when it becomes curds and whey. The sieves contained evidence that they had been used in secondary milk processing to make cheese or other dairy products.
