## FROM THE EDITOR

By Ann Curry (Lot 1015.....acuria10@gmail.com.....727-420-6518)

Coming back from coffee today, I reflected on all the goings on in the park. Whew, it's almost too much too absorb. There should be something for everyone, but for those that want to do things outside the park, there's also many places to go and things to see.

For those who want to see local things, there is always The Botanical Gardens located at 12520 Ulmerton Rd.. Open from 7-5 daily. Right next door is The Heritage Village, a great collection of historical old buildings arranged into a village and located at 11909 125 st. N. Hours are 10am to 4pm daily.

Largo Central Park Performing Arts Center, which we drive by almost daily, has a schedule of performances monthly. Below are just some of the coming concerts for February. Check on-line for complete information.

- Feb.1-Tribute to the Eagles Band
- Feb.2 Solitary Man – Neil Diamond Tribute
- Feb.11 Barry Manilow Tribute
- Feb.14 Almost ABBA
- Feb.16 The New Shanghai Circus

And if you want to visit some of the fantastic parks Largo has to offer, try these:

- McGough Nature Park located at 11901 146 st.N. Known for its turtle population.
- Dog Bone Run, 375 Seminole Blvd. just behind Post Office. A dog park.
- John R. Bonner Nature Park 1444 143rd St. Known for its Birds.
- Largo Central Park Nature Preserve 150 Highland Ave.

- This information is the viewpoint of the Editor. If you'd like to write an opinion, or article, call me at 727-420-6518 or send it to [acuria10@gmail.com](mailto:acuria10@gmail.com), usually before the 12th of the month for publication.

**in the form of an e-mail.** Also remember we cannot accept numbers for publication submitted by third parties. If you know of someone who needs to have their name added to the book, please contact them and remind them of the deadline date. **In the event that you are new in the park, but do not want to have your number published, please still provide it to Donna with the note to leave it unlisted, so that the block captain will have it for emergency use.**

If you did not provide us with your new numbers and **permission to publish them**, your number will not be listed in the directory. Over the past few years we have received complaints from residents whose numbers are not listed. Almost every time it is someone who gave us information too late for publication, or gave us a paper with a number not containing the required permission to publish. Please note that if we do not have a signed permission to publish your number, or an e-mail, it will take another year before you will be listed in the book.

**New owners: If you are not listed in the directory, please note that an input sheet was provided by the office along with your copy of the park rules.** Please look to see if you have this form – fill it out – and return it either to the office or to Donna at lot 938,

Remember, the Dial directory is only published once each year. **The directory is not produced by the office. It is a resident's club function, so don't expect the office to update your information for you.** If you do not wish to have your birthday or anniversary listed in the Voice, please let us know but we still need a phone number as we need to let the Block Captains notify you during emergency situations like water shut-off notices or other emergencies. Thank you for your cooperation.

## RUDY'S NEWS

*By Ann Curry (Reprint help guide.org authors Lawrence Robinson, Jeanne Segal PhD. Robert Segal*

**M**any of you know of the loss of Rudy, my faithful dog of 14 years. I have included this article to assist myself and others in moving on after Grieving the loss of a beloved pet. Most of us share an intense love and bond with our animal companions, so it's natural to feel devastated by feelings of grief and sadness when a pet dies. The pain of loss can often feel overwhelming and trigger all sorts of painful and difficult emotions. While some people may not understand the depth of feeling you had for your pet, you should never feel guilty about grieving for an animal friend. Why does the loss of a pet hurt so much? Whatever the circumstances of your loss, remember that grief is personal to you, so you shouldn't be ashamed about how you feel, or believe that it's somehow not right to grieve for an animal friend. While experiencing loss is an inevitable part of owning a pet, there are healthy ways to cope with the pain, come to terms with your grief, and when the time is right, perhaps even open your heart to another animal companion.

Trying to ignore your pain or keep it from surfacing will only make it worse in the long run. For real healing, it is necessary to face your grief and actively deal with it. By expressing

*Continued on page 16*

your grief, you'll likely need less time to heal than if you withhold or "bottle up" your feelings. Don't let anyone tell you how to feel, and don't tell yourself how to feel either. Your grief is your own, and no one else can tell you when it's time to "move on" or "get over it." Let yourself feel whatever you feel without embarrassment or judgment. It's okay to be angry, to cry or not to cry. It's also okay to laugh, to find moments of joy, and to let go when you're ready.

The stress of losing a pet can quickly deplete your energy and emotional reserves. Looking after your physical and emotional needs will help you get through this difficult time. Spend time with people who care about you, eat a healthy diet, get plenty of sleep, and exercise regularly to release endorphins and help boost your mood.

Pets, dogs especially, can help seniors meet new people or regularly connect with friends and neighbors while out on a walk or in the dog park. Having lost a pet, it's important that you don't now spend day after day alone. Caring for a pet previously occupied your time and boosted your morale and optimism. Try to fill that time by volunteering, taking a class, helping friends, rescue groups, or animal shelters, or even by getting another pet when the time feels right.

#### **Association Membership and Board of Director Meetings**

Florida Statute 723.078, provides that Homeowners' Associations are required to have two types of meetings: (1) Board of Directors meetings and (2) Membership Meetings.

"Board of Director Meetings" are defined in F.S. 723.078(2) (c) and states "Meetings of the Board of Directors and meetings of its committees at which a quorum is present shall be open to all members. Meetings of the Board of Directors shall be posted in a conspicuous place upon the park property at least forty-eight (48) hours in advance, except in an emergency. Notice of any meeting in which assessments against members are to be made for any reason shall specifically contain a statement that assessments will be considered and the nature of such assessments.

"Membership Meetings" are defined in F.S. 723.078(2) (d) and states "Members shall meet at least once per each calendar year and the meeting shall be the annual meeting and all members of the Board shall be elected at the annual meeting unless the By-Laws provide for staggered terms"

723.078(2) (c) (4) provides Association Members the right to attend meetings of the Board of Directors and its committees and includes the right to speak at such meetings with reference to all designated agenda items. The Association's Board of Directors may adopt reasonable written rules governing the frequency, duration and manner of member statements.

## **A Nurse's Toolbox #8**

*BY Allyn Webert, RN. Lot 1438*

**L**ast month I went over how we as humans were designed to convert most everything we eat into sugar which is absolutely essential for every cell in our body to make energy and do the job of its design. This month we start to see what has gone wrong for many of us over the last several thousand years when it comes to sugar from food.

No one influence is responsible. Essentially we grew in numbers because we can and initially there was food (sugar) for all. At some point we had to walk farther and farther to find food and shelter (they go together for us.) More of us than the local area could provide. Sounds so similar to what we are experiencing now. We branched out moving thousands of miles over the Earth to find food, shelter and safety. Even the arctic! Not Antarctica though as no land bridge.

I know that you remember how spectacular our body was built to survive especially when

*...continued on page 20*

it came to getting sugar (energy) from food. That wonderful ability didn't change much though one simple process (almost magical) began to emerge more often. Our body was asked to begin "storing" energy (sugar) for another day. The human race ran into longer and longer periods of food shortages (famine, long migrations, etc.) To survive this was critical. 3 important mechanisms came forward. Our small intestine squeezed every bit of sugar out of what we ate and because it wasn't needed right now it got stored around our bodies (that hasn't changed now has it.) It is like "I don't know when I'm going to need this sugar so I'm going to put it in silos around my body." I have at least 2 today. Lastly and though seems like a blessing our bodies had a way to turning what was stored in fat silos into sugar again. Wow!!!!

Well not so fast here. Returning fat to sugar is terribly inefficient and the byproducts were not healthy over the long run. Keeps us alive though. In extreme conditions our body also didn't know when to stop this process. No real food, breakdown the fat and then if no real food take all the muscle. I know everyone has seen pictures of starving people's. As difficult as this process has made for millions of us this process of taking back sugar is the main reason we are here today.

Now we sort of stopped migrating everywhere and began to build our exceptional civilizations. We developed farming, hunting, fishing, storage of foods and especially refrigeration (been around a long time in the far North.) Seasonal foods became almost yearlong (we got strawberries when our body was not expecting such a sugar load along with meat which used to be very rare to several times a day.) Humans dramatically changed the rules for securing foods rich in sugar, when those foods were available plus so accessible. We even became masters in creating unbelievable combination foods with disastrous sugar loads.

Many humans in Western civilizations like ours find ourselves in an environment of over rich and sugared foods where famine is so so very remote. But we suffer with the effects. Next month on what this has caused and some ways out including medications and other good stuff. Chew well my friends.

## Lincolnshire Travel Club

By "Abe-Lincoln Shire" (#938,... 459-0394 ...Bigchees99@aol.com)

It is the busy season for our travel club. December brought a group of cruisers on our newest "annual" cruise – the Christmas cruise. This trip has been getting more popular each year as more residents decide to just get away at Christmas, or to invite families to join them in a new tradition. Almost 20 residents joined us this year. Then January was time for the annual Cancer cruise, where our travel agent donates all the proceeds from the trip to the American Cancer Society. To date over \$100,000 had been donated.

Speaking of our travel agent, Marie will be returning to the park on Thursday February 21 at 4 PM for the next travel meeting. This is the meeting where we list all the ideas and requests

that residents brought up at the last meeting, and the last announcements of trips planned for next fall and winter. Remember to plan ahead for your next trips with us, as advance planning and reservations are necessary to make these trips actually happen.

Also in January was our day trip to the Kennedy Space Center. A long day, but well worth the time spent to see this magnificent facility and learn more of its famous history. There will be a time in the future when space travel will become just an ordinary commute, or leisure vacation for our future travel club members.

February 14 some of our residents will be celebrating Valentine's day in a new way, travelling to Fort Meyers to travel on the Seminole Gulf Railway. Join the fun as we unravel a comical mystery before your eyes. It is up to you to decide just who the killer is and why they would do such a dastardly deed. Make sure to write down all the clues you discover. Clue sheets will be collected before the final act, when everyone will discover why the perfect murder just can't be pulled off... or can it? A prize will be awarded to the one super sleuth in each dining car.

Don't forget to make your deposits for next year's cancer cruise on Royal Caribbean before the end of the month to take advantage of special on board credit offers. Call Donna or Harold for information on these specials offered only to Lincolnshire Residents.

**<https://www.facebook.com/groups/LivingStones.Lincolnshire.Church.Service/>**

3rd - Almighty and everlasting God, you govern all things both in heaven and on earth: Mercifully hear the supplications of your people, and in our time grant us your peace; through Jesus Christ our Lord, who lives and reigns with you and the Holy Spirit, one God, for ever and ever. Amen.

Jeremiah 1:4-10, Psalm 71:1-6, 1 Corinthians 13:1-13, Luke 4:21-30

10th - Set us free, O God, from the bondage of our sins, and give us the liberty of that abundant life which you have made known to us in your Son our Savior Jesus Christ; who lives and reigns with you, in the unity of the Holy Spirit, one God, now and for ever. Amen.

Isaiah 6:1-13, Psalm 138, 1 Corinthians 15:1-11, Luke 5:1-11

17th - O God, the strength of all who put their trust in you: Mercifully accept our prayers; and because in our weakness we can do nothing good without you, give us the help of your grace, that in keeping your commandments we may please you both in will and deed; through Jesus Christ our Lord, who lives and reigns with you and the Holy Spirit, one God, for ever and ever. Amen.

Jeremiah 17:5-10, Psalm 1, 1 Corinthians 15:12-20, Luke 6:17-26

24th - O Lord, you have taught us that without love whatever we do is worth nothing: Send your Holy Spirit and pour into our hearts your greatest gift, which is love, the true bond of peace and of all virtue, without which whoever lives is accounted dead before you. Grant this for the sake of your only Son Jesus Christ, who lives and reigns with you and the Holy Spirit, one God, now and for ever. Amen.

Genesis 45:3-11, 15, Psalm 37:1-12, 41-42, 1 Corinthians 15:35-38, 42-50, Luke 6:27-38

By Ann Curry (Lot1015....727-420-6518)

**T**his is an evening to come up and join in various different games. We usually play Phase 10 and Mexican Train Dominos, but many other games are played like Sequence and Cribbage. You can bring your own game with you, of course, and friends and snacks.

- Just a note to say it will start at 7:00pm except when there are meetings held. Then it will begin after the meeting. Check your calendar.

## **Shuffleboard**

By Jamie Doucette Lot 267 727-475-9933

**O**ur league shuffleboard season has finally arrived, and on a Wednesday when it wasn't too cold or raining! The competition and camaraderie on the courts was heartwarming. At the time I'm writing this the standings are very close, certainly too early to tell if any one team is likely to pull out ahead. A special thanks to all of the spares and people on the bye team who stepped in to sub for those who haven't yet arrived or weren't able to shuffle. Please remember, if you're on a team and not able to shuffle, let your Team Captain know as early as possible so they have time to arrange for a spare. Showing up early and socializing is encouraged and remember, it's a fun league. See you on the courts.

## Cave drawing of bull is earliest of its kind

**A**rcheologists have discovered the oldest known drawing of an animal on the wall of a cave in Indonesia, according to the U.S. News & World Report website. It's some 40,000 years old, about five feet wide, and it depicts a bull-like creature in a red silhouette.

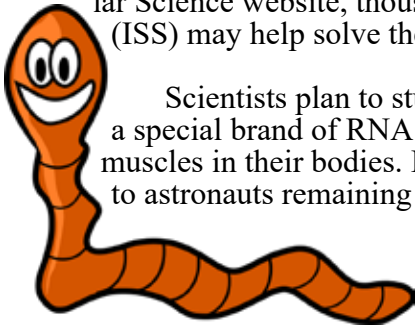

Along with similar drawings on cave walls in Borneo, the drawing sparks renewed debate about the role of art in ancient times. Similar cave paintings have been found in France and Spain, though they're just 33,500 to 37,000 years old.

Cave dwellers began sketching humans engaged in hunting activities and dancing some 14,000 years ago in both Europe and Asia. The findings raise the possibility that humans migrated from Africa to Europe and then Asia, bringing their artistic sensibilities with them.

## Invasion of the space worms

**L**ong-term space travel poses many challenges, but one of the most daunting is the loss of muscle mass in a zero-gravity environment. On a voyage to Mars, for example, space travelers could arrive on the red planet too weak to stand. Now, reports the Popular Science website, thousands of worms headed to the International Space Station (ISS) may help solve the problem.

Scientists plan to study muscle atrophy in the worms and then treat them with a special brand of RNA designed to stop the breakdown of protein and preserve the muscles in their bodies. If all goes according to plan, this could alleviate one danger to astronauts remaining in space for long periods of time.

Science is simply common sense at its best, that is, rigidly accurate in observation, and merciless to fallacy in logic.

—Thomas Henry Huxley
