## New filter makes dirty water safe to drink in one step

---

The lack of drinkable water could reach crisis levels in the 21st century, but a team of scientists in Australia may have an answer, according to the Science Alert website. They're using a type of graphene called Graphair to filter safe water from seawater in just one step.

Graphene is an ultra-strong carbon material only one atom thick. It's expensive to produce, but Graphair is cheaper and simple to make.

A grapheme film with microscopic nanochannels allows water to filter through but stops larger pollutants. On its own, it becomes contaminated quickly. When Graphair is added, the film screens out 99 percent of pollutants, and still works even when covered with contaminants.

The scientists hope that the process could eventually be used for filtration in households and town water supplies, and for treating seawater and industrial wastewater.

## Quick tips to inspire your thinking

---

Creativity doesn't conform to any strict rules—but it does follow some general guidelines. Here are some quick thoughts on nurturing the spark of inspiration:

- If it's not broken, break it.
- Ask “dumb” questions.
- Don't obsess over success—pursue failure.
- Get out of your office as much as possible.
- Read unusual stuff, not just journals that relate to your job or focus.
- Avoid moderation. Go for it all.

**Science is facts; just as houses are made of stones, so is science made of facts; but a pile of stones is not a house and a collection of facts is not necessarily science.**

—Henri Poincare

## Did You Know That May is Also...

**Asthma and Allergy Awareness Month.** The flora in full bloom make May the take-action month for those living with asthma and allergies. To gain insight and learn about events and advocacy efforts targeting these conditions, visit the Asthma and Allergy Foundation of America website at [www.aafa.org](http://www.aafa.org).

**National Barbecue Month.** Grilling only hamburgers and hot dogs just won't do. This month, get in touch with your inner pit master and fire up your skills

**National Photography Month.** Take a photography class, view an exhibit at an art gallery or museum, get inspired, and capture life's moments one frame at a time. There's an entire world to explore on the other side of the lens.

**Brain Tumor Action Week, May 6-12.** Frequent seizures, headaches, impaired vision, or speech difficulties are a few of the warning signs of the possibility of a brain tumor. This year, nearly 79,000 people will receive a brain tumor diagnosis. To learn more, visit the National Brain Tumor Society website at [braintumor.org](http://braintumor.org).

**American Craft Beer Week, May 14-20.** Roughly 98 percent of the 6,000 breweries in the United States are small, independent, and passionate about the art of beer making. This week craft brewers in every state will showcase what they do best in events that will delight the palates of beer drinkers everywhere.

**Garden Meditation Day, May 3.** Gardening is good for the soul, and so is meditation. Take time out of your busy schedule to quiet your mind and spirit by smelling the roses, curling your toes in the grass, or napping in the shade of a tree.

**International No Diet Day, May 6.** Take a break from your diet today and figure out if it's the best thing for you. This day is less about indulgence and more about loving yourself while embracing healthy and positive attitudes toward nutrition and eating.

**World Lupus Day, May 10.** Lupus is a chronic autoimmune disease that can lead to pain, inflammation, and damage in any part of the body. Since 2004, organizations throughout the world have used this day to raise awareness and emphasize the need for funding and research focused on a cure.

**Armed Forces Day, May 19.** On the third Saturday of May, citizens around the world pay tribute to the women and men serving in their nation's military branches. Look for parades, exhibits, and events in your area.

**Don't Fry Friday, May 25.** As we embark upon this long holiday weekend and many warm and sunny days ahead, the American Cancer Society wants you to remember to make protecting your skin from harmful UV rays part of all your outdoor activities.

**VINYL IS FINAL**

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word – the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

## Three steps to better heart health

---

Improving your heart health doesn't have to mean two-hour gym workouts or a diet of kale and water. The Mayo Clinic website offers three easy steps to keeping your heart in good shape for a long, healthy life:

- **Eat five.** Five servings of fruits and vegetables a day can boost your heart health. Include fruits and vegetables in all your daily meals, and snack on them instead of, or at least in addition to, chips or other junk food.

- **Move 10.** Add 10 minutes of physical activity a day to your routine. This can add up to 60 minutes a week to your exercise regimen, reducing your risk of heart disease by as much as 50 percent.

- **Sleep eight.** Make sure you get at least eight hours of sleep a night. Ample, restful sleep is important to keeping your heart healthy.

## Learn what gout is all about

---

**G**out—one of the most common forms of inflammatory arthritis—is on the increase. It affects approximately 8.3 million Americans, 50 percent of whom have three or more attacks a year.

According to an infographic on the Doctor-Patient Communication Tools website, gout is caused by a buildup of uric acid in the blood, where it collects in a joint and then crystallizes. About two-thirds of uric acid in the body is produced naturally, and the other third is an effect of diet. However, genetics plays a larger role than diet in the amount of uric acid in the body.

Talk to your doctor. Although limiting alcohol and other foods can help, dietary changes may not be sufficient. In many cases, medication is necessary to reach and maintain the proper level of uric acid in your body.

## Distant galaxy not as large as thought

---

**F**or years, astronomers believed that the Andromeda galaxy, some 3.5 million light-years from Earth, was much larger than our own Milky Way—and that it would someday gobble up our galaxy. Recent research reported on the Sci-News website, however, suggests that Andromeda's size is roughly equivalent to ours, a mass of 800 billion solar masses.

Scientists analyzed the orbits of high-speed stars in Andromeda and found that the distant galaxy has less dark matter than previously estimated, lowering their measurements of its mass. The two galaxies will still eventually collide in about 4 billion years, but the new findings radically transform astronomers' knowledge of our local galaxy group.

## Hospitals in the U.S.—a snapshot

---

The American Hospital Association conducts an annual survey on hospitals in the United States. The latest survey includes these numbers:

- Total number of all U.S. registered hospitals that meet AHA's criteria for registration as a hospital facility: 5,534
- Number of U.S. community hospitals (defined as nonfederal, short-term general, and other special hospitals): 4,840
- Nongovernment nonprofit community hospitals: 2,849
- Investor-owned for-profit community hospitals: 1,035
- State and local government community hospitals: 956
- Federal government hospitals: 209
- Nonfederal psychiatric hospitals: 397
- Other hospitals, including nonfederal long-term care hospitals and hospital units within an institution such as a prison or school infirmary: 88

## Self-driving cars rising in drivers' acceptance

---

Are you eager to buy a self-driving car? More and more Americans are warming up to the idea. A study by AAA last year found that 78 percent of Americans were scared of the idea of riding in a car that drives itself. A more recent survey saw that figure drop to 63 percent.

Age makes a difference in attitude. Sixty-eight percent of Baby Boomers said they'd feel worried in a driverless car, and 70 percent of Gen Xers expressed concern too. However, fewer than 50 percent of millennials said they'd be frightened of riding in a self-driving vehicle.

Overall, half of drivers in the survey said they want their next car to have some self-driving features, like being able to stop on its own or stay within lanes on the highway.

## Clutter is the top target of kitchen remodelers

---

Thinking of renovating your kitchen? Tidiness is the biggest trend this year, according to the 2018 Houzz Kitchen Trends Study. The study found that 75 percent of homeowners named decluttering their counters as their No. 1 priority, followed by 66 percent who want to put things away and 49 percent who are focused on recycling.

The biggest issue? Storage, cited by 93 percent of survey respondents. That was followed by space planning (38 percent), entertainment (32 percent), and cleanliness (32 percent).

The survey notes that homeowners are also interested in pullout garbage bins, organizers for dishes and utensils, and wine bars.
