Manager's Corner for June, 2016

Jeff Hahn, LCAM, Property Manager

- June 1st (other than being my daughter's birthday) is also the beginning of Hurricane Season. As such, the bulk of this report will involve some suggestions, recommendations and requirements for you to be prepared just in case a major storm is headed our way.
- First of all, make certain that all items are removed from your driveway and yard area that could be lifted by the strong winds that accompany a major storm.
- Next, here is a list of shelters that you can go to if your decide to do so, or **if you are required to do so**:
 - o Dunedin Community Center, 1920 Pinehurst Rd. Dunedin
 - o Dunedin Highland Middle School, 70 Patricia Ave., Dunedin
 - o Dunedin Elementary School, 900 Union St. N. Dunedin
 - o Palm Harbor Middle School, 1800 Tampa Rd. Palm Harbor
 - o Palm Harbor University High School, 1900 Omaha St. Palm Harbor
- Some other tips include the following:
 - o Make certain that you have a week's supply of water, food and your medications
 - o Have a first aid kit along with a flashlight and a battery operated radio
 - o Have the use of a cell phone so you can communicate with family and friends
 - o Make certain you inventory your property, review your insurance policy and keep important information in a waterproof container that you can take with you if you do evacuate
- One other important note, **under Florida Statute 252.38** you could be charged with a second degree misdemeanor if there is a mandatory evacuation and you refuse to leave, so please leave the Park if you are told to do so.
- There has not been a hurricane in this area for decades, but it is always best to be prepared just in case. Hopefully, this will be another mild weather event season.
- On other matters, Danny's Tree Service will be here in either June or early July to trim the Palms again and to take care of any other tree issues. Please contact the Office if you feel a tree needs to be addressed. There still are a number of fruit trees for example that may be dying and will need removal and these are areas that Danny's will handle.
- There are no major in house projects currently being scheduled, but that doesn't mean there is a lull in what is being done in your community. Expect to see some more sidewalk repairs taken care of by your maintenance staff during the summer. As for other projects, expect to see the West Clubhouse, Office and Pump room at the Pool to be painted in the next few months. There also will be some repair work to be done at the East Clubhouse roof in order to make certain that there are no long term water issues.
- Once again, just a reminder that I am doing home inspections on a constant basis, so please keep your home cleaned and painted when needed, weeds pulled from your flowerbed and the flower bed well maintained, bushes cut below the roof level of your home, backyard kept clean and free of clutter, etc. Let me know if you have any questions regarding this particular subject.

- Please note that the blue dumpsters next to the Serendipity shed on the south side of Imperial is not to be used as a receptacle for large pieces of furniture or mattresses. If you have any of these types of items, please contact the Office and we will either make a call for you or provide you with a name and number of someone who will pick these up for you.
- Have a fun start to summer as another season has just flown by again.

Jeff Hahn, LCAM

Editor

Nanci Dorau, 321.201-2479, Lot#163, nanci.j.dorau@gmail.com

Please let me know if your games are finished for the season. Thank you.
Remember these articles...

1. **Meet your neighbor!** With your permission, I will highlight a member of our community. Whether a new move-in or a seasoned veteran, we would like to know your name and a little about you.
2. **Serendipity Cookbook!** Drop off your favorite recipe with your name at my home (#163) or email it to my address above and I will enter one each month in the newsletter.
3. **Community Articles!** If you wish to submit an article that may be interesting to our residents, feel free to email or drop it to me at #163 for editing and submission for publication. Be sure to add your name and phone number.

There is a wooden box on my driveway patio that says “NEWSLETTER” to leave any articles, recipes, or notices. You can also email me at nanci.j.dorau@gmail.com. Remember, my deadline will be at least 4 days before the publisher’s deadline for the next month’s publication. Additions to the birthday and anniversary lists can also be sent to me either by drop off, or email.

There is a copy of the deadlines for the rest of 2016 posted on the bulletin board in both Clubhouses. Summer is here, have fun!

Just-A-Note

Nanci Dorau, 321-201-2479, nanci.j.dorau@gmail.com

From Doris Isabelle, Lot #314, 727-812-8505:

I want to thank my Serendipity family & friends for all the kind words of encouragement, cards, flowers, meals, goodies & kind thoughts that have come my way over the last five weeks after my knee replacement surgery. They have been greatly appreciated!!! I am heading home the middle of May and hope to see everyone next season. Thank you all & have a great summer!

June is named after the Roman goddess, Juno. She was the wife of Jupiter and the goddess of childbirth and marriage. Perhaps this is why so many weddings are held in this lovely midsummer’s month.

Photos of Serendipity MHP

Bob Boudreau, (727)240-0311

I have created a special Photo Group to display and share images of events in Serendipity MHP by residents of the park.

To view the images you may go to this address:

<https://www.flickr.com/groups/serendipitymhp/>

This is a publicly viewable site that anyone can visit, but in order to upload and share images of Serendipity events it is **Private** and you have to be a member of the group.

Instructions on joining the group are included on the Flickr Group account.

You don’t need to be a member of Flickr to see the images, but if you decide to join Flickr you can share (upload) your images of Serendipity on the group pool once your **Private** membership is OK’ed by the administrator.

I sincerely hope you will take the time to visit this new photo sharing site and that you enjoy the images you find.

For questions regarding the site you may contact me:

HOW OLD ARE YOU?

In Honor of Marge Krauser's 100th birthday this month here is comedian George Carlin's view on aging. May we all have the stamina and life that Marge has had - in our 'Golden Years'!!

Do you realize that the only time in our lives when we like to get old is when we're kids? If you're less than 10 years old, you're so excited about aging that you think in fractions.

'How old are you?' 'I'm four and a half!' You're never thirty-six and a half. You're four and a half, going on five! That's the key.

You get into your teens, now they can't hold you back. You jump to the next number, or even a few ahead.

'How old are you?' 'I'm gonna be 16!' You could be 13, but hey, you're gonna be 16! And then the greatest day of your life . . . You become 21. Even the words sound like a ceremony **YOU BECOME 21. YESSSS!!!**

But then you turn 30. Oooohh, what happened there? Makes you sound like bad milk! He **TURNED**; we had to throw him out. There's no fun now, you're just a sour-dumpling. What's wrong? What's changed?

You **BECOME 21**, you **TURN 30**, then you're **PUSHING 40**. Whoa! Put on the brakes, it's all slipping away. Before you know it, you **REACH 50** and your dreams are gone.

But wait!!! You **MAKE** it to 60. You didn't think you would!

So you BECOME 21, TURN 30, PUSH 40, REACH 50 and MAKE it to 60.

You've built up so much speed that you HIT 70! After that it's a day-by-day thing; you HIT Wednesday!

You get into your 80's and every day is a complete cycle; you HIT lunch; you TURN 4:30 ; you REACH bedtime. And it doesn't end there. Into the 90s, you start going backwards; 'I Was JUST 92.'

Then a strange thing happens. If you make it over 100, you become a little kid again. 'I'm 100 and a half!'

May you all make it to a healthy 100 and a half!!

Meet Your Neighbor!

Nanci Dorau, 321-201-2479

The most amazing woman in Serendipity is Marge Krauser! She moved with her husband, John, 39 years ago from Elmwood Park, Illinois (near Chicago). John passed away in 1991. Marge's dad, Henry Schoemaker originally lived in the home she resides in now. Marge has 3 children (Jeanne, who lives in Palm Harbor, Jim and Rick). Her son Jim passed away last February. She also has 10 grandchildren, 18 great-grandchildren and 2 great-great grandchildren!

Marge will be celebrating her 100th birthday on June 28th. Thirty of her relatives are planning to come for the family celebration. Marge is busy most nights here in the park playing bingo and other games with her many friends at Serendipity.

She credits her longevity to her daily swims in the pool, eating good meals and keeping busy. She also likes her ice cream with chocolate at 10 P.M. every night!

Marge has a wonderful, positive outlook on life and has made so many friends that love her here in Serendipity Mobile Home Park.

WE ALL WISH YOU A HAPPY BIRTHDAY, MARGE AND MANY MORE!!!

SERENDIPITY FAMILY RECIPES!

Strawberry Cake

- 1 box white cake mix
- 1 box strawberry instant gelatin
- 1 package frozen strawberries in syrup, thawed and pureed
- 4 large eggs
- 1/2 cup vegetable oil
- 1/4 cup water

Preheat oven to 350 degrees F. Lightly grease 2 round 9-inch cake pans. Combine cake mix and gelatin. Add strawberries, eggs, oil, and water. Beat at medium speed until smooth. Pour into pans, and bake for 20 minutes, or until a wooden pick inserted in center comes out clean. Let cool in pans for 10 minutes. Remove from pans. Cool on wire racks. Spread Strawberry Cream Cheese Frosting in between layers and on top and sides of cake. Garnish with sliced fresh strawberries.

The winning argument?

William Gladstone, prime minister of Great Britain for many years in the 19th century, was known as a master of argument, even within his own family. On one occasion Gladstone and his sister Mary argued over where to hang a picture in their house. A workman stood around while the argument went on and on. Mary wouldn't yield, and eventually Gladstone simply stopped talking.

The workman finally hung up the picture where Mary wanted, but when he was done he walked to the other side of the room and hammered a nail in the wall where Gladstone had wanted the picture to hang. Mary asked him what he was doing.

“Well, Miss,” the worker replied, “that’ll do to hang the picture when you come round to Master William’s opinion.”

One act of kindness

One rainy night many years ago, an elderly gentleman and his wife entered the lobby of a small hotel in Philadelphia. The man asked the clerk if he had any rooms.

The clerk was a friendly man who prided himself on superior customer service. He said that unfortunately the hotel was completely booked. “However,” he said, “rather than send you out in the rain at 1 in the morning, I would be happy to offer you my room. It’s not a suite, but it will be comfortable for the night.”

The elderly man tried to object, but the clerk insisted. The next morning, as he paid his bill, the elderly gentleman said to the clerk: “You are the kind of manager who should be the boss of the best hotel in the United States.”

Two years passed. One day the clerk received a letter from the elderly guest, inviting him to New York for a visit with a round-trip airline ticket. When the clerk arrived in New York, the man met him and led him to the corner of Fifth Avenue and 34th Street. He pointed to a brand-new building. “There is the hotel I have built for you to manage,” said the elderly man.

“You must be joking,” said the astonished clerk.

“I can assure you that I am not,” said the old man, a smile on his lips.

The elderly gentleman was William Waldorf Astor, and the palace that he had built for the young clerk was the original Waldorf-Astoria Hotel.

The moral: You never know when kindness will come full circle.

The Internet spreads across the globe

Access to the Internet has expanded around the world, according to the Pew Research Center. A global survey found that 54 percent of people in the developing world consider themselves “Internet users” in 2015, up from 45 percent just two years earlier. Those users include 37 percent of survey respondents who said they own a smartphone, an increase from 21 percent in 2013.

Still, growth is slow in some parts of the world. In Africa, the countries Burkina Faso, Uganda, and Ethiopia have Internet use rates below 20 percent. The rate is 42 percent in South Africa and 39 percent of Nigeria, two of Africa’s largest economies.

Meanwhile, advanced economies have much higher rates—94 percent in South Korea, 93 percent in Australia, 90 percent in Canada, 89 percent in the United States, and 89 percent in the United Kingdom.

Figuring the tip: How much to leave?

How much to tip a server depends to some extent on where you are. The national average is 18.9 percent, according to the Zagat website, but the amount fluctuates around the country:

- Boston 20 percent
- Philadelphia 19.9 percent
- Chicago 19.6 percent
- Minneapolis 18.2 percent
- Nashville 18.2 percent
- Orlando 18.1 percent
- San Antonio 17.1 percent

Teach children or grandchildren this important skill

Problem solving is a skill that's valuable throughout your children's lives, from school to their adult careers. You can teach your children how to tackle any problem they're facing by sharing these steps:

- Identify the problem. This is the most important step, and often the most overlooked. Your child can't solve a problem until he or she can state what it is.
- Come up with a list of solutions. Brainstorm possible solutions, even ones that initially seem farfetched. Just keep the ideas flowing.
- Assess each idea. Now is the time to evaluate the merits of each idea, weighing the pros and cons thoroughly.
- Pick one or two ideas. Have your child pick the top two solutions and give his or her specific reasons for choosing those possible solutions.
- Put the decision into action. Before going forward, talk about possible outcomes. What are the potential obstacles? What help can you expect? How can you avoid traps?
- Evaluate and learn. How did the solution work? What changes need to be made to make it work better? What would your child try the next time?

The hungry thief

Joe and Sam went into a bakery. When the cashier wasn't looking, Joe quickly slipped three doughnuts into the pocket of his jacket.

"What are you doing?" Sam whispered. "You just stole those!"

"So what?" Joe asked. "Nobody saw a thing."

Sam waved the cashier over. "Give me a doughnut, and I'll show you a magic trick."

Intrigued, the cashier handed over a doughnut. Sam ate it, then asked for a second one, and then a third.

"So what's the trick?" the cashier asked, skeptically.

"You know where those doughnuts are now?"

The cashier frowned. "Where?"

"Look in my friend's pocket."

Did you know that June is also...

Adopt a Cat Month. Thousands of cute cuddly kittens and mellow older cats are waiting in shelters across the country for someone to take them home. Members of the shelter staff are ready to help you adopt your very first cat or bring home a friend for another beloved cat.

Alzheimer's and Brain Awareness Month. Around the world 47 million people are living with some form of dementia, and that number is expected to climb to 76 million by 2030. Learn how to maintain your brain's health, and help raise awareness and support of research aimed at treating brain illnesses.

National Zoo and Aquarium Month. Explore your local zoo and aquarium as well as the websites of America's great zoos and aquariums. Many of them have excellent educational resources—photographs, videos, facts, lesson plans, and activities for the whole family.

PTSD Awareness Month. Post Traumatic Stress Disorder can affect anyone, and its effects are felt throughout every community. The purpose of PTSD Awareness Month is to encourage everyone to raise public awareness of effective treatments and to help all those affected by PTSD.

Sun Safety Week, June 5-11. Sponsored by The Sun Safety Alliance, which believes that a focus on skin cancer prevention, education, and awareness will improve public knowledge of the importance of sun safety.

Men's Health Week, June 13-19. Celebrated each year during the week leading up to Father's Day to heighten awareness of preventable health problems and encourage early detection and treatment of disease among men and boys.

Superman Week, June 9-12. An event held in Metropolis, Ill., to celebrate the adventures of the Man of Steel in comics, film, and TV.

Animals Rights Awareness Week, June 19-25. An annual event to raise awareness for the care and concern for animals of all varieties and to educate the general public about the humane treatment that all animals deserve whether they're someone's pet, wildlife residents, residents of a zoo, or raised as food sources.

National Running Day, June 3. Put on your running shoes and some sunscreen and go out for a run!

Father's Day, June 19. Remember your dad—and fathers everywhere—on this special day.

Did Neanderthals build their own fires?

Our Neanderthal ancestors may have used chemistry to start fires, according to an article on the Scientific American website. Archeologists have found chunks of black manganese oxides in Neanderthal sites for years. Previously they believed the oxides were used for dark body paint, although other sources like ash and charcoal would have been more easily available to them.

Scientists at Leiden University in the Netherlands, though, analyzed some chunks of manganese found at a site in southern France and discovered that the blocks contained manganese dioxide, which is more flammable than other types of manganese. Groundup particles of the substances can lower the ignition temperature of wood by more than 100 degrees—suggesting that instead of relying on naturally occurring fires sparked by lightning, Neanderthals were able to build fires on their own.

Radio bursts detected from neutron star

They're not signals from an advanced alien civilization, but they've been a mystery to astronomers for years. Fast radio bursts, or FRBs, are bursts of energy from outer space lasting just milliseconds but emitting as much energy as the sun produces in 10,000 years. Only 17 have ever been recorded, all of them apparently one-time events.

But a repeating FRB has recently been detected, according to the Sci-News website: Astronomers from McGill University using the Arecibo radio telescope in Puerto Rico have recorded a series of 10 FRBs they believe may emanate from a rotating neutron star in a distant galaxy.

This conflicts with previous theories that FRBs are caused by cataclysmic events such as supernovas or the creation of black holes. Whatever their origin, the truth is out there.

The important thing in science is not so much to obtain new facts as to discover new ways of thinking about them.
