A Letter from the Serendipity Homeowner's Association President:

Pat Lucksinger

The HOA Board of Directors met with the park manager, Penny, on April 30, 2019.

- We questioned the emergency policy for reaching the office after hours. Penny will work out a schedule with the park employees to cover, and phones will be answered. Remember, an emergency is a water break or something that would harm the park or it's residents. The number to call Kevin is (727) 642-5855. The office number is (727) 784-2675 and here you will find instructions to report emergencies. The phone system should be updated and easier for residents to get information and callbacks.
- Remember to register your guests and update your information sheets with the office should you leave the community for an extended period of time.
- There will be a change to the pool and shuffle gates, so it is just a push bar to exit the area. She is not sure if this will change again at a later date, but for now it will be safer.
- At this time there is no date scheduled to restart the roads. ELS Management tells our manager soon or a few weeks. I hope at the time of this publication this has changed and Penny has notified the residents that the project will be started. There is no firm date for the Clubhouse renovations but looking for an early June start date. All of this is subject to change.
- If you have any issues, please contact the ELS Management to make an appointment or stop by the office. If you can't come to an agreement, reach out to an HOA Director (phone numbers listed on the inside front cover of this publication) and we will try to help you understand any issues.
- I am hoping the summer brings the community together for a few celebrations. Remember volunteer help is always needed. Contact your Social Director, Betty Buehrle.
- We expect a letter giving us a 90-day notice on a rent increase. This would be due June 1, 2019 to raise the rent on September 1, 2019. The board will schedule meetings and keep you informed of any positive negotiations we can make. Check the bulletin boards in both clubhouses for updates.

Pat Lucksinger, HOA President

***A reminder to all residents who patronize the advertisers in the Monthly Media. Ask the advertiser for a Monthly Mania ticket when you have work completed. PLEASE CONTACT KAREN WITH THE NAMES OF ANY OF OUR RESIDENTS WHO SHOULD RECEIVE CARDS!

Warm thoughts like lovely flowers lighten the heart and brighten the hours.

I send "Get Well", "Thinking of You", or "Sympathy" cards to residents who are ill or the families of someone who has passed away. Let me know of anyone in these situations. There were no cards sent out this month.

Blessings to all! Your Sunshine Gal, Karen

Early birds versus night owls—who's better off?

The early bird gets the worm, and early risers enjoy other benefits, according to a story on the *New York Post* website. A survey of sleep habits involving 2,000 people found that, among other things, self-identified early birds have more sex on a weekly basis than their night owl counterparts.

The survey also found that early birds generally make more money, are more likely to work in an office setting, and describe themselves as happy. They're also more likely to be married with children in their home. On the other hand, night owls are typically shy and sarcastic, likely to believe in ghosts and cryptids, and more often single.

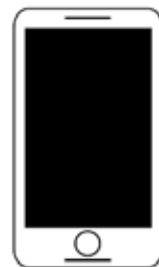

They tend to sleep about the same amount—seven hours a night for early birds and six hours for night owls. However, early birds are light sleepers, and they feel more well-rested when they get up than night owls.

Disconnecting may not lead to the benefits you're looking for

Ever feel the need to disconnect from your devices for a “digital detox”? The Yahoo Finance website reported on a survey by Mojo Vision (Saratoga, California), which found that people tend to use technology as much, if not more, after distancing themselves from their smartphones and tablets for a while.

The survey of 1,000 Americans found that 67 percent agree that technology makes life easier, but 55 percent believe that all that tech is a distraction, with one-third worrying that it hurts people's ability to connect with one another. Still, 54 percent said that abstaining from their devices didn't produce the positive benefits they'd hoped for—or at least were unsure whether it had a beneficial impact.

The most common strategies for “subtracting” tech are setting devices to send fewer notifications, putting them on a “Do Not Disturb” setting, scheduling times to not use their devices, or simply turning them off for a period of time.

A good decision is based on knowledge, and not on numbers.
