Message From President Bob Doty

Hello to everyone. Happy 4th of July. God Bless America.
As some of you may all ready know we have been approved for a new Bingo machine. With any kind of luck the new machine will be up and running sometime this summer. Bobbi Christian has volunteered to run Bingo once the machine is operable. Thank you Bobbi.

Kitchen work should commence sometime soon as all permits have been obtained and vendor contracts have been signed. Time will tell.

A list of requests has been submitted to ELS by the HOA for the 2018 budget. A few of these items include but are not limited to a community ice machine, clubhouse renovations and extra parking. These are only requests and need to be approved by ELS before anything can happen. But if we don't ask ELS won't know what we want.

As always stay safe and God bless.

A Thank You

Submitted by Kathy Gerber

How fortunate we are to have people like Peter Batchelor in our park.
Peter has come to my rescue on several occasions and has quietly given assistance to others I know of too.

My pet Lucky has adopted Peter as his special friend and all I can say is He Is One Smart Dog. He knows how to pick 'em

Thank You Peter. I am very grateful. Kathy Gerber

Pet Insurance

Submitted by Norma Rowe

I looked into pet insurance and here's some information that I found. Pet insurance policies are not all the same. Some plans cover accidents, but not illness. Some plans cover treatment for major illnesses like cancer, and some don't. What I found for pricing varies anywhere from around \$30 per month all the way up to \$99 per month, per pet, for premiums. It depends on what coverage you want; for instance, you can pay for well care which covers things like vaccinations, but you're going to pay a higher premium for that coverage. I used my chihuahua Tilly to get quotes. She is spayed and 6 years old. If you have a claim or claims, be prepared to have your monthly premiums go up. Plus, a lot of companies increase premiums yearly. You really don't want to just choose the least expensive premium. You get what you pay for. You may think your pet is covered, and then the claim is denied because it's not part of your plan. Also, I found that all the companies I looked into pay you, not the vet. And none of them pay 100% of the cost of the accident, procedure, etc. You pay the vet directly and then are reimbursed by the insurance company for anywhere from 70% to 90% depending on the coverage. You, not the vet's office, files the claim with the insurance company. Some companies have reviews that are not very favorable when it comes to paying a claim. For instance, your dog is hit by a car and has a knee injury. Some companies will say that the knee problem is a pre-existing condition. Like a hereditary condition. So it's good to check reviews before you choose a company. Pre-existing conditions are never covered. You can use your current vet and don't have to change to a vet on the insurance companies plans. From what I can see, all insurance companies will pay you as long as you use a licensed veterinarian. Similar to health insurance for humans, there are deductibles with pet insurance. What I found interesting was that the deductibles can be – per claim – and not for the whole year like you see with a person's health insurance plan. Is pet insurance worth it? Pet insurance protects you from large, unexpected vet bills. If you are the type of owner who does not want to choose between going into debt or putting your pet down, pet insurance is for you. If you have more than one pet, like I do, it can be cost prohibitive to pay multiple premiums per month. So, if you decide to get pet insurance, please remember to do some homework first to make sure you're going with a good company. Know what is covered by your plan and what is not before you decide which plan is right for you and your pet(s).

Don't shop . . . adopt

Activities

Submitted by Penny Campbell and Vicki Dasco

Memorial Day was a great success. Thank you to all who attended. We had 40 residents and guests who enjoyed our fare of BBQ ribs and chicken breasts along with coleslaw, macaroni salad, baked beans bread and our strawberry kabobs for dessert.

Thanks to Stan Thomas for cooking the ribs of which there were none left. To lou for cooking the chicken and Nancy for the macaroni salad. A special Thank you to Polly, Sylvia and all the others who helped with the clean up. You are all wonderful.

Father's Day will be upon us before this newsletter and we will be having another brunch on Sunday June 18.

Next will be the 4th of July. We will have 4pm Happy Hour and 5pm dinner. The menu has not yet been set but based on past parties the food should be wonderful. As usual it is free for residents and \$5 for guests. Please sign up for all activities on the clubhouse bulletin board.

It is important that you sign up before the cut off date posted on the flyer. That is to ensure we have enough food to feed everyone. If you know of someone who is ill but would still like food please contact Penny with their name and lot number

And we will see they get a delivered meal.

On July 19 Coffee and Donuts will be free. They are being supplied by Humana. A representative from that company will give a short presentation.

Enjoy and don't forget to sign up.

Message from Park Manager Marilyn Sisti

Just a few items this month. First is motorcycles. Motorcycles or motor scooters are not allowed in the park. There is a large sign at the entrance that states this. It seems on weekends some residents are allowing their friends with motorcycles into the park. I have residents taking pictures of this. Please stop and obey the rules. If you want someone with a motorcycle or motor scooter to visit you they **MUST** park outside our walls. Not in the park

Secondly is when trimming bushes or trees please do not put large trimmings in the dumpster. We only have one dumpster. Our residents need someplace to throw their garbage. If you have trimmings please cut them up. If the dumpster is full keep them until it is empty. Also please stop putting mattresses, furniture and other large items in front of the dumpster. There is a sign that says no dumping. We have no way of disposing of these items. You need to take them to the dump. If I find the owner of these items they will be brought back to you.

You can not have your guests park on the street or in the front of your house overnight. I have mentioned this numerous times. If this continues I will call our tow company to come and tow cars on the street or in front of a house after 8pm.

If anyone needs a refresher course in the rules of the park I have copies in the office.

If we have a hurricane there is a list of shelters on the bulletin board between the bathrooms in the clubhouse. Please remember you must evacuate your house. It is the law. The clubhouse is not a shelter. It will be locked.

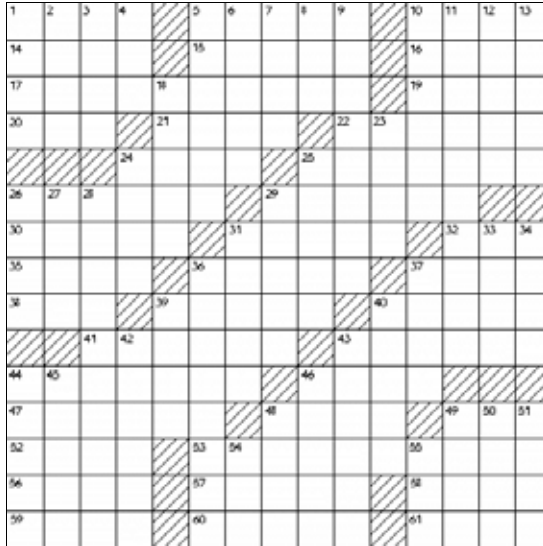

Also please only call the emergency phone number for real emergencies not if the pool is not opened on time or anything else that is not a real emergency.

Artificial intelligence is coming

Artificial intelligence sounds scary in science fiction stories and movies, but it's becoming a big factor in business success, according to a report from Tata Consultancy Services. Its survey of 834 executives across 13 global industry sectors found that 84 percent of organizations see AI as essential, and 50 percent believe it will transform their businesses.

AI doesn't appear to be cheap, though. Seven percent of business survey said they invested more than \$250 million on AI in 2016, and 2 percent expect to spend a billion dollars by the year 2020.

Energy drink and vodka? Think again

Energy drinks like Red Bull or Monster Energy are all the rage, and so is mixing them with alcohol for a more potent cocktail, especially among young people. But is it safe? In research reported on the WebMD website, the answer looks like "no."

Canadian researchers analyzed 13 studies involving alcohol mixed with highly caffeinated energy drinks. They found a higher rate of injury among people indulging in such cocktails compared with simply drinking alcohol by itself. Injuries included car accidents, falls, violence, and suicidal behavior.

The authors point out that the stimulant effects of energy-drink caffeine can mask the impact of alcohol, even though alcohol still has an impairing effect on the body and the brain.

Watch your waist in your 40s to avoid dementia later

Carrying belly weight during the 40s appears to increase the risk for dementia in the 70s, whereas carrying extra midsection weight later in life isn't as accurate an indicator. Researchers say these findings are disturbing because 50 percent of adults in the United States are considered abdominally obese.

Researchers at Kaiser Permanente studied 6,583 people who were between the ages of 40 and 45. An average of 36 years later, 16 percent of the participants—who had been measured for abdominal density—were diagnosed with dementia. Abdominal obesity increased the risk of dementia regardless of whether people had normal overall weight or were overweight or obese overall—and regardless of the health conditions including diabetes, cardiovascular disease, and stroke.

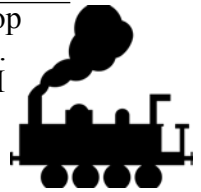

A simple answer

A seeker of spiritual truth decided to visit a very wise sage who lived on top of a mountain. The seeker climbed for weeks to make the painful ascent. When he finally reached the wise man's home, he asked, "What should I do to make my life happier?"

The sage responded, "To begin with, the next time you come to visit me, start on the other side of the mountain and take the train to the top."

The wrong answer

Two applicants, Smith and Jones, applied for work at an organization that had only one open position. The hiring manager sat the two of them side by side to take an aptitude test. When time was up, she found that both applicants missed only one question—the same one. After studying the results, the administrator announced that although both candidates had given the same wrong answer, candidate Smith had won the job.

"Wait a minute," Jones complained. "How can one wrong answer be better than another?"

"Well," the manager said, "on the one question you both missed, Mr. Smith wrote, 'I don't know this answer.' You wrote, 'Neither do I.'"

The best listener

A speaker arrived for his presentation at a high school graduation and immediately became uneasy. The crowd was full of families talking with each other. Their small children ran around the gymnasium, shouting happily. It was not a crowd looking forward to a speech; people just wanted to see their kids graduate.

The crowd paid little attention to the speech. He tried all the attention-getting tricks he knew—changing the volume and pitch of his voice, walking about the stage, telling his funniest stories—but nothing worked.

Then he saw one man looking directly at him, smiling and nodding his head. The speaker remembered the value of focusing on a sympathetic listener. By concentrating on giving that one person the very best speech he could, he made it through the presentation.

Afterward, the principal of the school asked, "Would you like to meet any of the audience?" The speaker, wanted to thank the man on whom he'd relied to finish his speech. "Yes, I'd like to meet that gentleman over there."

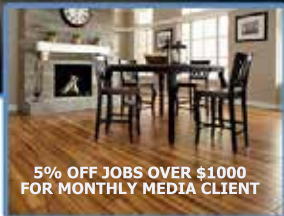

"Certainly," said the principal. "But you know, of course, that he's completely deaf."

Bumblebees leave ‘footprint’ to mark flowers

Bumblebees may be smarter than you think. According to the LiveScience website, scientists at the University of Bristol have discovered that bumblebees mark the flowers they feed from with “smelly footprints” so they can distinguish between flowers that have been visited by members of their nests and those fed on by strangers. This also allows them to ignore flowers whose food is gone and identify better sources of nutrients.

In one experiment, researchers trained bees to discriminate between flowers marked by their nest mates and those scented by bees from a different nest. In a second experiment, bees were seen learning that flowers with footprints from their nest mates were more rewarding than those marked with their own scent.

In addition, the scientists discovered that bumblebees can tell the difference between their own footprints and those of their nest mates.

Space probe headed where no one has gone before

The New Horizons space probe made history with its flyby of Pluto in 2015, and now it’s halfway to making history yet again. Its next destination is 2014 MU69, an object in the Kuiper Belt.

New Horizons has gone into hibernation mode for the next 466 million miles of its voyage, slowing down as it gets farther from the sun. The object is only about 1 percent of Pluto’s size, and it’s about 1 billion miles away from Pluto. Scientists at NASA are patiently awaiting another historic rendezvous in 2019.

Egyptians excavate undiscovered pyramid

It’s not a “new” pyramid, exactly—it’s 3,700 years old—but archeologists have unearthed a previously undiscovered pyramid from Egypt’s 13 dynasty. One corridor and a block engraved with ancient hieroglyphics are in good condition, according to the Fox News Science website, and explorers will continue excavating to determine its full size and other details.

The pyramid was discovered 25 miles south of Cairo, north of the so-called “Bent Pyramid” built by King Sneferu, whose angle changes about half up. It’s also near the smooth-sided Red Pyramid, built some 4,600 years ago.

Sneferu’s son Khufu built the Great Pyramid of Giza. The newly discovered structure was probably built about 1,000 years after his reign.

Credit card debt on the rise

Financial counselors usually advise consumers to pay off their credit cards every month, but more Americans are carrying credit card debt from month to month since the most recent recession, according to the National Foundation for Credit Counseling.

A survey of more than 1,600 U.S. adults conducted in March found that 39 percent carry debt from month to month, up from 35 percent in 2016. Sixteen percent are carrying more than \$2,500 monthly, compared with 14 percent last year.

Other results from the survey: Younger adults were more likely than older adults to be denied a credit card (11 percent vs. 6 percent). They were also more likely to make a late credit card payment (11 percent vs. 5 percent), miss a payment (12 percent vs. 4 percent) or pay less than the minimum amount required (13 percent vs. 3 percent).

Online shopping: The latest stats

Shopping online is big business these days. A survey of more than 1,000 U.S. consumers by e-commerce platform provider Big commerce found that 96 percent of Americans shop online, accounting for 36 percent of their purchases.

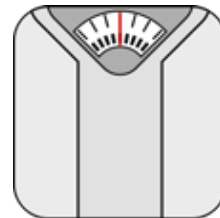

The survey found that 80 percent of consumers make online purchases at least once a month, and 30 percent buy something at least once a week. Forty-eight percent reported spending more than they had originally intended.

Millennials do half their shopping online. Sixty-seven percent of them, along with 56 percent of Generation Xers, would rather shop via the internet, a preference shared by 41 percent of Baby Boomers but only 28 percent of senior citizens.

Giving up on losing weight?

The obesity trend in the United States continues, with the number of adults who are either overweight or obese expanding from 53 percent to 66 percent over a 26-year period from 1998 to 2014. Apparently many of us have given up trying to fight it. According to the Journal of the American Medical Association (JAMA), the number of people actively trying to lose weight in the past year dropped from 56 percent to 48 percent over the same period.

Researchers theorize that the decline is due to changing perceptions about acceptable body weight.

Did you know that July is also...

National Cell Phone Courtesy Month. As the cell phone has developed into the smartphone, it's become one of the biggest distractions of all time. National Cell Phone Courtesy Month was founded in 2002 with the intent of making cell phone users more respectful of their surroundings.

Eye Injury Prevention Month. According to the American Academy of Ophthalmology, an estimated 90 percent of eye injuries are preventable with the use of proper safety eyewear. Even a minor injury to the cornea from a small particle of dust or debris can be painful and become a lifelong issue, so take the extra precaution and always protect your eyes.

Independent Retailer Month. Independent Retailer Month encourages consumers to shop at independent retailers locally, nationally and globally. Support and shop at independent retailers year round and use July as a time to unite as a celebration for the independent retailers across the country and in your community.

National Farriers Week, July 9-15. Honoring the men and women who care for and maintain the hooves of horses, a highly specialized trade that requires skill in hoof care, blacksmithing, and the care of injured and diseased hooves.

Captive Nations Week, July 16-22. A week aimed at raising public awareness of the oppression of nations under the control of Communist and other nondemocratic governments. It began in 1953 and declared by a congressional resolution and was signed into law by President Dwight D. Eisenhower in 1959.

National Parenting Gifted Children Week, July 16-22. Parents of gifted children need special understanding in order to raise and advocate for the social and emotional needs of their unique children. NPGC Week celebrates the joys and challenges of raising, guiding, and supporting bright young minds.

Canada Day, July 1. A national holiday celebrating the Constitution Act of 1867, which united the separate colonies of Canada, Nova Scotia, and New Brunswick into a single dominion within the British Empire called Canada.

Independence Day, July 4. The date of the Declaration of Independence, formally announcing the separation of the original 13 colonies of the United States from Great Britain.

Official Shark Awareness Day, July 14. Much as we love to fear this predator of the seas, the shark has a key role to play in keeping marine ecosystems in balance.

National Mutt Day, July 31. Also known as National Mixed Breed Dog Day, National Mutt Day is all about embracing, saving, and celebrating mixed-breed dogs. (It's also celebrated on Dec. 2.)

"Have you experienced the Sunset Appliance Difference? It's all about our Service!"

Underwater cave fish is first found in Europe

The first cave fish in Europe has been discovered by a German underwater cave explorer, according to the U.S. News & World Report website.

Cave fish have been discovered in other parts of the world, but the German discovery is the first time one has been found as far north as Europe. Scientists believe it arose some 20,000 years ago and has evolved to live in an underground environment.

The diving spelunker encountered the fish while exploring an underwater cave in southern Germany. The fish is almost colorless and resembles the stone loach found in rivers close by, although it has smaller eyes and larger nostrils.

Enhance your success with kindness

Nice people can finish first, insist Lisa Kaplan Thaler and Robin Koval in *The Power of Nice: How to Conquer the Business World with Kindness* (Currency). The book's core tenets remain worthy of consideration. Improve your "NiceQ" with these exercises:

- Be kind to yourself so it's easier to be nice to others.
- Share credit and treat everyone with respect instead of "kissing up and kicking down."
- Say no when necessary—but present it in a positive light. When turning down an assignment, help find someone else who can take it.
- Plant seeds of kindness by doing five nice things every day that have no quick payoff.
- Complete the statement "If I were a kinder person I would ..." and then act on it.

Don't let these get in your way

Often the biggest obstacle to our success lies in our way of thinking. Self-help guru Tony Robbins points out three mistakes you may be making that undermine your progress:

- Confirmation bias. When looking for data or advice, do you have a truly open mind or are you just looking for information that confirms what you already believe? If the latter, you could miss important facts.

- Recency bias. Everything changes, but if you ignore this fact of life you may end up repeating the same steps without making real progress. Just because something worked once doesn't mean it will continue to be successful. Review your strategies on a regular basis and be ready to change if they're no longer applicable.

- Loss aversion. Some of us tend to dwell more on our failures than our success, leading us to avoid risks at all costs. Anticipate failures so you can prevent them. Learn to accept and learn from your failures so you can move forward.

Monthly Mania: It Pays (Up to \$100) To Patronize the Advertisers in Your Newsletter

THOUSANDS manufactured home residents have won over **\$135,000** since our contest began. It's simple to play ... when you patronize a current advertiser, ask for a Monthly Mania ticket (or a reasonable facsimile) and fill it out completely. Put the ticket in our Monthly Mania drop box in your community or **mail your paid receipt** to us at **Monthly Media • 220 Bahama St. • Venice, FL 34285**. That's all you do. At the end of the month the Publishers will pick up the tickets and hold a drawing. If your ticket is drawn, we mail you a check.

(Allow 4-6 weeks for mailing of check). **This month's cash winners are:**
