## MANAGER'S MESSAGE

*Marilyn Sisti, Community Manager, Shangri-La 727-585-2850*

There are a few items I would like to address, first please have your guests notice the sign at the front of the park that says "No Motorcycles or Motor scooters" are allowed in the park, that means in the park, they cannot park in front of the clubhouse, they must park outside of the park, the shopping center next door but not in the park.

Secondly, please know that when your rent is due it has to be the full payment we do not accept partial payments, they will be sent back to you.

Guests, guests are allowed for two weeks only and this going forward will be enforced more strictly, also when your grandchildren, or any child is your visitor, please have them respect the residents in the pool and the pool area. The pool is for residents use and residents come first, they cannot jump in the pool or run around or play while other residents are in the pool area.

Unauthorized occupants, again I am asking for help in identifying any one that you think is not suppose to be in the park. If you see any person you do not know especially if they are younger just walking or bicycling around please call the police, better to be safe than sorry.

The wall on the side of seventh street will be replaced with a vinyl fence, I will let the residents on 7th street know when they are going to begin tearing down the wall, please remove all your plants and any other items you do not want damaged. Eventually the whole park will have this fence around it instead of the wall.

As always if you have any questions or concerns please let me know, and also know that if you slip a note in the door with a complaint that is unsigned then it just goes in the trash and will not be addressed, please sign all complaints so that we can discuss them.

# Multiply Your Monthly Mania!

**A**s you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

## Now You Have More Chances to Win!

We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.  
*(To qualify each resident can only suggest a business once)*

### What businesses would you like to see advertising?

We have spots available in the following categories:

- |                                     |                                      |                               |

## HELP WANTED

*Submitted by Janette Martin*

Shangri-La Newsletter is looking for a new editor to write articles and organize submissions for the monthly newsletter. I have been doing this task for over a year now, and would like to pass it on to someone with new ideas and enthusiasm. If you are interested in taking over this project, please contact me at 727-437-7122. No specific qualifications are required other than drive.

## IN MEMORIAM

*Submitted by Janette Martin*

Shangri-La has lost a few of its former residents recently. Sadly, Evelyn, a.k.a Evie, Yakush passed away on July 26th. Evie was best known for her LOVE of bingo; she played bingo everywhere, all of the time.

Evie lived at Indian Rocks Beach for the last year, but her heart was always in Shangri-La. She lived in #108, you know it well; that's where the orange bush grows. Evie lived here, with her husband Joe, for over 25 years. It wasn't one week after I moved into Shangri-La, that Joe passed away. Unfortunately, I never had the pleasure of meeting him. I did, however, meet their daughter, Joanne Quaille. It was through her that I got to know Evie so much better.

Evie leaves behind quite a legacy of family; Joanne, her daughter (and husband Jim), Tom, her grandson, Candace, her granddaughter (and husband Tyler), and two great grandchildren – Luke & Mira. Also left behind is her son Joseph, Jr. (and wife Susan), and their children (Erin & Erica), and great grand-children (Amelia & Charlie).

Mostly, we will miss seeing Evie at coffee on Wednesday mornings, bingo on Thursday nights, and all of the park parties that she always tried to attend.

Hopefully, you all have fond memories of Evie; but know in your hearts that she is, happily, back with her one true love, Joe.

Our second loss occurred on August 7th, when Jim Bootier finally lost his battle with his many problems. Jim & Lillian lived in #99, the very green mobile home, on the end of 2nd St.; he was very active in the HOA and other park activities. About 2 years ago, Jim fell and was badly injured; he & Lil moved to the east coast to live closer to their son, but sadly, Jim was no longer able to live at home because of his disabilities. Lil moved back to the Largo area last year, Jim followed but remained in a medical facility until the end.

Lastly, only a few of you may know or remember, John Donnelly; he lived on 3rd St. next to Wally & Kathy Schultz, but most recently wintered in Top of The World MHP. John passed away earlier this spring.

Please remember all of these families in your thoughts and prayers. Surely, they will be missed by all who knew and loved them.

# RECIPE OF THE MONTH

Submitted by Serena Libby

## Janette's Chicken Casserole

- 2 lbs. chicken – cooked down and shredded
- 2 cans of any creamy soup: i.e. Cream of Broccoli, Asparagus, Potato, Celery, Mushroom (note – use only white cream soups)
- 16 oz. sour cream
- ½ cup milk
- 1 bag (16 oz.) shredded cheese (I use cheddar)
- 1 sleeve of crushed Ritz crackers
- 1 stick of melted butter

Preheat oven to 350°F.

In your casserole pan, mix first five ingredients. Smooth everything down evenly, sprinkle cracker crumbs, and drizzle melted butter.

Bake for one hour.

I like to vary the recipe by adding potatoes, egg noodles, broccoli florets, diced carrots (whatever you like).

## Dark Chocolate Raspberry Dump Cake

- 1 ½ cups of raspberry fruit spread or jam
- ½ cup dark chocolate chips, divided
- 1 pkg. (about 15 oz.) dark chocolate cake mix
- ½ cup (1 stick) butter, cut into thin slices
- ¼ cup water

1. Preheat oven to 350°F. Spray 9-inch square baking pan with nonstick spray.
2. Spread fruit evenly over bottom of prepared pan; sprinkle with ¼ cup of chocolate chips. Top with cake mix, spreading evenly. Sprinkle with remaining ¼ cup chocolate chips. Top with butter in single layer, covering cake mix as much as possible. Drizzle water over the top.
3. Bake 25 to 30 minutes or until toothpick inserted into center of cake comes out clean. Cool at least 15 minutes before serving.

Makes 9 servings

## One Bowl Apple Cake

### **Ingredients:**

- 2 eggs
- 1 3/4 cups sugar
- 2 heaping teaspoons cinnamon
- 1/2 cup oil
- 6 medium Gala or Fuji or Honey Crisp apples
- 2 cups flour
- 2 teaspoons baking powder

### **Directions:**

Preheat oven to 350°. In a large bowl, mix the eggs, sugar, cinnamon and oil. Peel and slice the apples and add to mixture in bowl (coating as you go to keep apples from turning brown.) Mix together the baking powder and flour and add to the ingredients in the bowl. Mix well (best with a fork) until all of the flour is absorbed by the wet ingredients. Pour mixture into a greased 9"x13" or two 9" round pans. Bake for approximately 55 minutes.

## **SHUFFLEBOARD**

*Submitted by Wally Schultz*

**T**o all current and future shufflers, from your Captains Wally & Larry:  
Once again the time is rapidly approaching when shuffleboard will be starting. As most of you will remember, we did quite well and ended up in 5th place, this season we hope to do better. Very shortly, I presume I will be getting an email from the friendly league requesting the names of our players; soooo, for those of you who have played in the past and you new players and anyone else interested please get your names the SL shuffleboard president Mr. Barracuda Bob Vogel. We think that this year will be our year to seriously kick some butt in this upcoming season, looking forward to seeing everyone, Wally

# ACTIVITIES

Submitted by Serena Libby

## Upcoming Events

**Labor Day Cookout** – Sept. 7th – cocktails @ 4 PM; dinner @ 5 PM

**Halloween Party** – Oct. 31st – begins at 7:00, ends at 10:00 PM – there will be a costume contest, entertainment & light snacks.

**Wednesday morning coffee hour** will be starting back towards the end of September or early October. Don't forget your coffee cup and .50 cents for the donut.

**The Beach Party** was a great success. We served chicken and beef shish kabobs.

Everyone brought tasty side dishes, such as chicken casserole, macaroni salad, corn casserole, baked beans, Hawaiian chicken, and so much more. Dr. Beat DJ'd the party. We managed to get in some play time prior to dinner, and then the dreaded rain came and washed us out. Thank you all for the help in preparing and cleaning up.

## Garage Sale Time

Want to start cleaning your closets and under your bed? We will be having a garage sale, sometime in October, if we can get enough donations. We are looking for everything; clothes, furniture, knickknacks, toys, kitchen ware, tools, and anything else you don't want in your house. Please see Serena – Lot #14.

## City life? Not for all young adults

---

The TV sitcom *Friends* depicted a group of young New Yorkers enjoying life in the big city—but in the end, at least two of them chose to move to a house in the suburbs. Young adults in real life appear to be making the same choice (without the laugh track). A survey of more than 1,500 people born since 1977, released by the National Association of Home Builders, found that few of them want to remain in the city for their entire lives.

Sixty-six percent indicated they'd like to live in the suburbs, and 24 percent have their hearts set on a rural residence. Only 10 percent want to live in the center of an urban area. They're mostly looking for space: Eighty-one percent said they want three or more bedrooms wherever they end up living.

## Online videos bigger than TV these days

---

Video has taken over the Internet, especially among the younger generation. A survey of 13- to 24-year-olds by Defy Media found this evidence of the influence of YouTube and other video providers on youthful fans:

- Millennials watch an average of 11.3 hours of free online video a week, and 10.8 hours of subscription video—but only 8.3 hours of scheduled broadcast TV.
- Videos are more popular than online TV content. Seventy-six percent of young people in the survey said they find YouTube more entertaining than TV programs (more popular with 55 percent of participants).
- They're tolerant of advertising on the Internet. Fewer than half—41 percent—said online videos have too many advertisements, but 63 percent feel TV does.

Mathematics is the art of giving the same name to different things.

—Henri Poincaré

## Get the full impact from these healthful foods

Certain foods have definite health benefits, but you have to eat them the right way to get their full impact. Here are some common foods you might be eating “wrong,” according to the CNN website:

- Flaxseed. Full of fiber and omega-3, these little seeds may improve your heart health—as long as you grind them up first. Sprinkling them whole over your cereal or yogurt will keep their nutrients locked inside.
- Broccoli. Eat this raw or steamed, not cooked, to receive the full dose of vitamin C, chlorophyll, and antioxidants this vegetable offers.
- Strawberries. Slicing this delicious fruit exposes its healthful nutrients to light and oxygen, which can dilute their effects. Eat them whole, or hold off cutting them until the last minute.
- Garlic. The enzyme allicin, found in garlic, may help ward off cancer, but its benefits are more pronounced when it’s exposed to air. Let garlic sit for about 10 minutes after chopping to release this enzyme fully.
- Tomatoes. Fresh tomatoes are tasty, but you’re better off cooking them. The antioxidants in them increase in potency when they’re heated to about 190 degrees Fahrenheit.

## Stone tools point to early use by primitive humans

Humans have been using tools for longer than we’ve known. As reported by the journal *Nature*, a team of archeologists in Kenya have found stone tools dating back 3.3 million years, some 700,000 years older than the oldest tools previously discovered.

Before this find, the oldest known stone tools came from sites in Ethiopia and were believed to have been used some 2.6 million years ago. Still, evidence of earlier tool use suggested that humans may have been using stone for longer than that—fossils of animal bones, also in Ethiopia, show signs of cutting some 3.4 million years ago.

The Kenyan tools were dated with an analysis of the sedimentary layer where they were uncovered. Scientists speculate they may have been used to open nuts or fruits with hard surfaces. Weighing in at about 6.6 pounds, the tools are 10 times heavier than any stone tools discovered so far.

## Keep relationships healthy over long distances

Ten years ago, some 2.9 percent of all marriages were long-distance relationships. Today that number has grown. Maintaining any kind of relationship takes work; when partners are separated, the effort grows. Keep your relationship steady and solid with these tips:

- Set ground rules. The secret to success in a long-distance relationship is managing expectations. Talk over how you'll handle the separation—who will be responsible for bills, child care, and other household issues. Do this ahead of time so nothing falls through the cracks. Set up a schedule for regular phone calls so you can plan conversations effectively.
- Communicate—but not too much. Regular contact is essential to the health of any marriage, so make a point of getting in touch as often as you need to. Just don't overdo it. If one partner feels crowded or badgered by insistent demands, he or she may back off, making the relationship even more complicated.
- Vary your channels. Don't rely on the telephone alone. Use e-mails and texts to send quick messages without interrupting the other person at work or at an awkward moment. Variety helps strengthen any relationship, so look for different ways to connect.
- Plan positive visits. You'll want to get together with your partner as often as you can. Don't put too much pressure on yourselves to make each visit spectacular, though. Give yourselves time to relax so no one feels personally responsible for the visit's success. You both need some downtime to get used to being with each other again.
- Be flexible. Travel plans can change at a moment's notice. An emergency may delay or interrupt a phone call. Although you're disappointed, do your best to respond positively and patiently when other demands disrupt your planned activities. Getting into a fight over every minor crisis won't keep your relationship strong.

Physical fitness is not only one of the most important keys to a healthy body, it is the basis of dynamic and creative intellectual activity.

—John F. Kennedy

## Keeping up with current events

---

**H**ow much do you know about current events? The Pew Research Center News IQ survey examined the knowledge of more than 3,000 U.S. residents in an interactive quiz that asked them to identify a series of photographs, charts, and maps. Here's how the participants measured up when asked to ...

- Identify a photo of Martin Luther King Jr.: 91 Percent
- Identify the country led by Kim Jong-il from a photo (North Korea): 82 percent
- Identify the location of Guantanamo on a map (Cuba): 78 percent
- Name the country the U.S. recently re-established relations with (Cuba): 76 percent
- Identify the proposed route of the Keystone Pipeline on a map: 73 percent
- Identify Malala from a photo (2014 Nobel Prize winner): 93 percent
- Identify Pope Francis's home country on a map (Argentina): 52 percent
- Give the correct number of female Supreme Court justices (three): 33 percent

## Have you taken your fish oil today?

---

**N**atural dietary supplements are big business in the U.S. As part of the National Health Interview Survey, researchers looked at the use of natural supplements other than vitamins and minerals. Comparing figures from 2002, 2007, and 2012, the trends they found include:

- Fish oil. This was the top product used by adults in 2012, as well as among children (though in 2007, Echinacea was the most popular supplement among children).
- Melatonin. This sleep aid came in second for children in 2012, increasing significantly from 2007.
- Glucosamine/chondroitin. Use of this decreased between 2007 and 2012, along with a drop in the use of Echinacea and garlic.
- Ginseng. This showed another large decline from 2002 to 2007, along with the use of Gingko.
- Green tea and milk thistle. Use of these held steady (though low) between 2007 and 2012.

## Monkey see, monkey do, monkey—cook?

---

**H**umans and chimpanzees share many genetic traits, and scientists have recently discovered one that may surprise fans of the Cooking Channel and the Food Network: a basic understanding of how to cook food.

Chimps have long exhibited a preference for cooked food over raw. A team from Harvard and Yale decided to see if they could be taught to “cook” food on their own. Observations have shown that chimps are willing to give up something like a slice of raw sweet potato if they expect to receive a cooked one in a short time. To test their hypothesis, the scientists devised a process to mimic cooking (since they didn’t want the apes to use actual heat): two plastic bowls that fit closely together, with a bit of pre-cooked food hidden in the lower bowl.

The scientists would put a piece of raw potato into the bowl, then switch it after a few minutes for the cooked one. After a while, the chimpanzees began doing the same thing—placing a piece of food into the bowl, waiting, then looking for the tastier result.

The researchers believe this shows a basic cognitive ability to understand the cooking process, as well as the patience to carry out—traits that may have driven crucial changes in human evolution.

## Follow the right FORM for effective innovation

---

**I**nnovation may seem spontaneous, but it generally succeeds because the groundwork has been methodically laid ahead of time. To spark creative thinking in your organization, follow consultant Charles Day’s acronym FORM:

**F:** Focus. Start by deciding what’s important to your team and organization. What were you created to achieve? Identify the key goals of your vision so you have something to work toward.

**O:** Organization. Decide on a structure for developing and implementing ideas. Who is responsible for specific tasks? What jobs should be shared? How will you make decisions?

**R:** Resources. Gather what you’ll need to implement your plans. This includes not just tools and materials, but people. Identify the types of talents you’ll need to bring an idea to reality.

**M:** Measurement. Look to the end as you begin. Determine how you’ll know whether you’ve succeeded or failed. Goals should be specific and clear to everyone, and they must be relevant to your organization’s vision.

## September Is...

---

**B**aby Safety Month. Drowning, falls, chemicals, and other hazards can endanger the life and health of any small child. During September, take a good look around your house and eliminate any threats to babies' safety that might be hiding in plain sight.

**Library Card Sign-Up Month.** A time to remind parents and children that a library card is the most important school supply of all. If you don't already have a library card, get one in September; if you do, visit your local library and use it.

**National Bourbon Heritage Month.** A celebration of bourbon as America's "Native Spirit." The U.S. Senate declared September National Bourbon Heritage Month in 2007, calling on those who enjoy bourbon to do so responsibly and in moderation.

**National Campus Safety Awareness Month.** College campuses are not immune to destructive behaviors and violence due to high-risk drinking, drug abuse, sexual assault, fire safety, and more. As your kids head to college this month, talk to them about safety and investigate the resources their school offers.

## Week to Week

---

**N**ational Suicide Prevention Week, Sept. 8-14. An annual campaign to inform and engage health professionals and the general public about suicide prevention and warning signs of suicide. Awareness events are held throughout the week around World Suicide Prevention Day, Sept. 10.

National Truck Driver Appreciation Week, Sept. 13-19. Sponsored by the American Trucking Associations, a federation of state associations, affiliated conferences, and individual members committed to developing and advocating policies that promote highway safety, security, environmental sustainability, and profitability.

Pollution Prevention Week, Sept. 21-27. The best way to protect the earth and its people is to stop creating pollution in the first place. Less waste and pollution means fewer hazards to public health and the environment. Pollution Prevention Week highlights the efforts of the EPA, its state partners, industry, and the public in preventing pollution right from the start.

**Banned Books Week, Sept. 27-Oct. 3.** Sponsored by the American Library Association to promote the importance of ensuring the availability of books to all who wish to read them.

## Probe your personality to achieve lasting results

---

People who succeed at their jobs, in their careers, and at the game of life are generally aware of their strengths and honest about their weaknesses. If you want to achieve greatness, focus on these key elements:

- Identity. Who are you? Don't think about your job, but your values and deepest beliefs about people and life.
- Accomplishments. What have you already done in your career? Examining your past successes can help you move forward to new victories.
- Reputation. How do others see you? Get some honest feedback. If you're not happy with the answer, improve your attitude so people see a more positive you.

## The Best Antidote

---

A young wife lived with her husband's mother. Although she loved her husband, she found her mother-in-law impossible to deal with. In her desperation, she decided to poison the woman and get her out of her life.

She found a doctor willing to help her. As he gave her the poison, the doctor said, "Just so that no one suspects you, treat your mother-in-law as nicely as you can. Give her a little bit of this poison every day, and in a month your problems will be over."

The wife followed his instructions, treating her mother-in-law with special kindness as she slipped the poison into her food every day. Toward the end of the month, she went back to the doctor.

"Something strange happened," she said. "Ever since I've been nice to her, she's been nicer to me. Now she seems more like a friend than a mother-in-law. Can you give me an antidote for the poison before she dies?"

The doctor smiled. "I gave you ordinary vitamins. The only poison was in your own mind."

**The world is shaped by two things—stories told and the memories they leave behind.**  
—Vera Nazarian

## Two-minute walks may improve your health

Exercise keeps you healthy. Fortunately for busy people, exercise doesn't have to mean working out at the gym or running a marathon. A study reported on the Science Daily website found that adding just two minutes of walking per hour to your routine can extend your life expectancy.

Scientists at the University of Utah School of Medicine discovered that taking a two-minute walk once an hour was associated with a 33 percent lower risk of dying. Even brief walks add up to a substantial benefit when taken often during the day. The scientists emphasize that these walks should be an addition to a moderate exercise habit, not a replacement for one. It's a step in the right direction.

## Protect your hearing

Excessive noise in the workplace (or anywhere else, for that matter) can damage your hearing. The Medicine Net website warns that you risk hearing loss under these noisy conditions:

- You need to shout so that people an arm's distance away can hear you.
- Your ears begin to hurt from the volume.
- Your ears are ringing.
- You suffer temporary hearing loss after being subjected to constant loud noise.

All you need is love. But a little chocolate now  
and then doesn't hurt.

—Charles Schulz
