## Welcome

---

**W**e have so many new folks moving in, be sure and introduce yourselves.

## Happy Anniversary

---

**A** great big Happy Anniversary to Cindy and Mark Richie.

WHAT OTHER PEOPLE THINK OF YOU IS NONE OF YOUR BUSINESS.

## Laughs

---

**M**y girlfriend's weird. One day she asked me "If you could know how and when you were going to die, would you want to know?"  
I said "NO."  
She said, "Okay, forget it."

## Use these three boxes for creative thinking

---

**E**xperts often encourage people to think outside the box when trying to be creative. According to K.H. Kim, writing at The Creativity Post website, you should consider three distinct boxes to unleash your imagination:

- **Inside box.** This box holds your expertise and knowledge, and it's useful for narrowing things down, focusing on specifics, and identifying options.
- **Outside box.** This box is flexible and holds all the possibilities. Let it relax your focus and explore everything, whether it's related to what you're working on or not.
- **New box.** This box lets you synthesize and refine ideas so you can implement them effectively. Use it to connect ideas and find new ways of approaching problems.

## Did you know that December is also...

**Buckwheat Month.** Designated the “December Grain of the Month” by the Whole Grains Council, buckwheat contains higher levels of zinc, copper, and manganese than other cereal grains, along with a very high level of protein. It’s used in soba noodles, crepes, blintzes, pancakes, and other delicious foods.

**National Impaired Driving Prevention Month.** This holiday season, make sure to plan for a safe way home, especially if your plans involve alcohol. If someone you know is drinking, don’t let that person get behind the wheel. Remember, too, that just because you’re driving sober, others on the road may not be. Always buckle up, drive with caution, and call 911 to report a suspected drunken driver.

**Safe Toys and Gifts Month.** Prevent Blindness America has declared December Safe Toys and Gifts Awareness Month, encouraging gift-givers to consider whether the toys they plan on giving suit the age and individual skills and abilities of the child who will receive them—especially for children under age 3.

**Universal Human Rights Month.** This month commemorates the Universal Declaration of Human Rights, adopted by the General Assembly of the United Nations on Dec. 10, 1948. Driven by the human tragedy of World War II, this document represents the first global expression of human rights.

**National Handwashing Awareness Week, Dec. 4-10.** Remember these four principles of hand awareness to stay healthy: Wash your hands when they’re dirty and before eating; don’t cough into your hands; don’t sneeze into your hands; and avoid putting your fingers into your eyes, nose, or mouth.

**Older Driver Safety Awareness Week, Dec. 5-9.** Promoting greater understanding of the importance of mobility and transportation so older adults can remain active in the community by shopping, working, or volunteering—with the confidence that lack of transportation options will not strand them at home.

**Computer Science Education Week, Dec. 5-11.** Computer Science Education Week (CSEdWeek) is an annual program dedicated to inspiring K-12 students to take an interest in computer science. CSEdWeek is held in recognition of the birthday of computing pioneer Adm. Grace Murray Hopper (December 9, 1906).

**Kwanzaa, Dec. 26-Jan. 1.** A weeklong celebration held in the United States and in other nations honoring African heritage in African-American culture, culminating in feasts and gift giving. Kwanzaa was created by Maulana Karenga and was first celebrated in 1966–67.

## The smell of hate

---

A teacher decided to play a game with her class. She told each child to bring in a plastic bag containing a few potatoes and to give each potato the name of a person that the child didn't like. The number of potatoes that the children put in their plastic bag would depend on the number of people they don't like.

The next day some children had two potatoes, some had three, and some had five potatoes or more. The teacher then told the children to carry the potatoes with them wherever they went for a week.

Days passed, and the children started to complain about the unpleasant smell let out by the rotten potatoes. Also the children with five or more potatoes complained because they had to carry heavier bags. The children were relieved when the game finally ended.

Then the teacher told them the meaning of the game: "This is what happens when you carry hatred for somebody inside your heart. The stench of it spreads everywhere, and you carry it with you wherever you go. If you can't tolerate the smell of rotten potatoes for just one week, can you imagine what is it like to have the stench of hatred in your heart for a lifetime?"

## The elephant's teeth

---

One day a hungry mouse in the jungle found a small nut. He tried to bite into it, but its shell was too hard and thick. Irritated, the mouse said, "Why did the gods give me such tiny teeth?"

Suddenly he heard the voice of a god from far above. "Mouse, go out and look at all the animals in the jungle. If you find one whose teeth you like, I'll give them to you."

Overjoyed, the mouse ran through the jungle, looking for the biggest teeth he could find. He looked at many animals but didn't find any teeth he liked until he spotted an elephant. Envious of the beast's thick tusks, he wandered over and asked, "Sir, are you happy with those big, long teeth?"

The elephant answered: "Friend, these are just for show. I can't use them to chew food as you do. At least you don't have to bear the weight of these huge teeth."

Hearing this, the mouse realized he was better off having tiny teeth and went off to find his nut again.

## Seeing Santa Claus

---

A grandmother took her grandson to the shopping mall in December to see Santa Claus. The young boy was very excited to sit on Santa's lap. "Now, little boy," Santa said, "tell Santa what you want for Christmas."

In a very loud voice, the boy said, "I want a NINTENDO, and a NEW BIKE, and some BOOKS, and—"

"You don't have to shout," Santa chuckled. "Santa isn't hard of hearing."

The boy leaned forward and whispered, "No, but my grandma is."

## Wrong answer

---

A man was being sentenced in a California court for shooting and eating a condor—an endangered species. Looking for mercy, the defendant made a passionate speech.

"I'm truly sorry, your honor," he said. "I just moved here and I don't have a job, and I was hungry and cold. I'd never seen a bird like that, and I had no idea it was endangered. I've never done anything like this before, and I'll certainly never do it again."

The judge gave him probation, telling him not to let it happen again. Then he said: "I'm curious. What does a condor taste like?"

"Oh, kind of like a cross between a whooping crane and a spotted owl."

## Reduced sentence

---

A criminal with a long record of transgressions was on trial for his latest crime. The jury found him guilty on 33 counts, and the judge sentenced him to 189 years in prison. Realizing that even with time off for good behavior he would be more than 100 years old when he was finally released, the prisoner burst into tears.

Touched by this display of remorse, the judge paused to reconsider. "I didn't mean to be so severe," she said. "Thinking it over, I can see that I've imposed an extremely harsh sentence. So you don't have to serve the whole time."

The prisoner beamed with new hope until the judge leaned toward him. "Just do as much as you can."

# Founded in 1916.

Caring Ever Since.

## From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

*The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2017. Another example of how the community gave back.*

## You can't miss these December holidays

The celebrations and holidays of December come from many different countries and cultures. Here's a guide to what your friends and neighbors are up to this month:

- Hanukkah, Dec. 24-Jan. 1. Hanukkah marks the rededication of the Temple of Jerusalem following the Jews' victory in the Maccabean Revolt in 165 B.C. According to the Talmud, the Jews had only enough olive oil to keep the eternal flame in the Temple burning for a single day—but miraculously, the oil continued to burn for eight days, during which time the Jews were able to produce and consecrate fresh oil for the flame. The eight-day Jewish holiday begins at sundown. Hanukkah is observed by the lighting of a nine-branched candelabrum, called a menorah. One candle is lit each of the eight nights, with a central candle lit each night to light the others.

- Christmas, Dec. 25. This Christian holiday celebrates the birth of Jesus, sometime between the years 7 and 2 B.C. The word “Christmas” comes from “Christ’s Mass,” a phrase first recorded in old English in 1038. Christmas began to be observed with feasts and celebrations in the Middle Ages—the online encyclopedia Wikipedia notes that King Richard II of England hosted a Christmas feast in 1377, with 28 oxen and 300 sheep eaten. The colonial Puritans of New England disapproved of Christmas celebrations, banning them during the 17th century. But other colonists observed the day with Christmas trees and nativity scenes. President Ulysses S. Grant signed the law making Christmas a federal holiday in 1870.

- Kwanzaa, Dec. 26 to Jan. 1. A seven-day celebration of African heritage and culture, Kwanzaa was created in 1966 by activist Maulana Karenga to provide African-Americans with a holiday that emphasized their shared history and experience. The name Kwanzaa derives from “matunda yakwanza,” a Swahili phrase meaning “first fruits.” Houses are decorated with African art and colorful cloth, and seven candles are placed in the kinara, a candleholder. The central candle in the kinara is black, with three red candles on the left and four green candles on the right. The candles represent the Seven Principles of Kwanzaa, which are contemplated each day as one is lit: unity, self-determination, collective work and responsibility, cooperative economics, purpose, creativity, and faith.

## 'Smart windows' coming soon?

---

**A** new flexible material for windows and sunroofs may be able to control the heat and light they receive from the sun, according to the Phys.org website. Scientists at the Cockrell School of Engineering at The University of Texas at Austin used a low-temperature process to create a material with a unique structure that doubles the efficiency of the coloration process, allowing it to switch between clear and tinted more quickly than other coatings.

The scientists, part of an international team, believe their research could lead to the creation of materials for other applications such as supercapacitors to store and release electrical energy rapidly and efficiently.

## Rare shark may have lived almost 400 years

---

**T**rees can live thousands of years. Animals don't live nearly so long, but scientists have discovered what they believe may be the longest-living vertebrate animal—a Greenland shark. Analyzing carbon in the eye lenses of one Greenland shark after its death, marine biologists at the University of Copenhagen determined that the shark was 392 years old, give or take about 120 years. That beats the previous record holder for vertebrate longevity, a bowhead whale that lived about 211 years.

Little is known about the Greenland shark. It's one of the largest carnivores in the world, and dominates the food chain in northern waters. The scientists studied Greenland sharks accidentally caught by fishing boats, analyzing their eye lenses because sharks don't have the kind of bones that build up calcified rings as they age. Although some scientists disagree that the shark's age is typical, they concede that we know little about the average lifespan of this mysterious predator.

## Particles may halt bleeding, save lives

---

**S**aving a life after an accident or injury is often a matter of stopping blood loss as quickly as possible. The Science Daily website reports that scientists have devised nanoparticles that can locate the site of a bleed and help form blood clots to stanch the flow.

The nanoparticles are coated with molecules that adhere to a glycoprotein in activated blood platelets and bind to those platelets to form clots. The particles have been tested in rats and pigs, and they soon will be tested for their effectiveness in human blood—potentially saving thousands of lives.
